INFLAMMATION AND DEATH.
 (FROM THE "TIMES" OF SATURDAY, Nov. 28, 1835.)
 "Yesterday evening an inquest was held at the Sovereign, Munster-street, Regent's park, before Mr. Stirling, on view of the body of Mrs. Sarah Porter, aged 35, of Clarence gardens, Regent's-park. Dr. Johnson, Physician Extraordinary to the King, deposed that he attended the post-mortem examination of the body, and was of opinion that death was occasioned by inflammation of the intestines, brought on by some irritable substance taken internally. Mr. Beale, Surgeon, of Long-acre, deposed, that he had attended the deceased several times. She was a very delicate woman. On the evening of the 23rd inst., witness was requested to attend her. On his arrival he found that she was in a state of delirium, and incapable of articulation. On inquiry, witness ascertained that the deceased had taken several doses of 'Morison's Pills.' She continued to get worse, being violently affected; on the 22d, she became somewhat sensible, complaining of violent pains in the bowels; on the 23d all symptoms became aggravated, and she died on the evening of the same day. Witness concurs in the opinion of Dr. Johnson, that the death of the deceased was caused by inflammation of the intestines, brought on by the administration of some violent medicine. Sarah Paine, servant to the deceased, proved having purchased three separate boxes of 'Morison's Pills,' at No. 43, Munster-street, which were taken by her mistress in doses of fourteen and sixteen at a time. Other relatives of the deceased were examined, who stated that the deceased was advised to take the pills by a Mrs. Robinson, a neighbour; but she (deceased) becoming worse, they advised her not to take more. The jury severely animadverted on the sale of the pills in question, and after some discussion returned a verdict, 'That the deceased died from inflammation of the intestines, caused by taking Morison's Pills.'

HEALTH AND HAPPINESS.
 "Methinks I've cast full twenty years aside,
 And am again a boy. Every breath
 Of air that trembles through the window bears
 Unusual odour."
 PROCTOR—"MIRANDOL."

IMPORTANT TO THE AFFLICTED.—The unprecedented success which has resulted from the adoption of Brandreth's Pills, during a period of upwards of 80 years—the numerous and extraordinary cures which they have performed upon hundreds of individuals whom they have rescued from almost inevitable death, after they had been pronounced incurable by the most eminent of the faculty—justifying the proprietors of this "Original Vegetable Universal Medicine" in warmly and conscientiously recommending it to the especial notice of the public. Unlike numerous Medicines, of high pretensions and FATAL EFFECTS—the "kill or cure" nostrums of ignorant empirics—which are daily sent forth to gull and delude the public, these Pills may be taken with perfect safety by even children of the most tender years; the doses being regulated (for which see the Directions accompanying the Medicines) according to the age of the patient. Ignorant pretenders to the science of medicine, in order to increase the consumption of their deadly compounds recommend to their deluded victims doses in a dangerous and almost unlimited quantity!! The result of the overweening confidence of their doubly afflicted patients (who are thus induced to shorten their lives by taking their deadly advice, and swallowing their pills in these fatal quantities) may be traced in the verdicts of Coroners' Juries, who have publicly placed on record their opinions of the effects of Pills, composed of those highly dangerous ingredients, Gamboge and Bitter Aloes, by returning a verdict of manslaughter against the Venders.

ALL diseases arise from the one simple cause—an impurity in the blood, which impedes its circulation by settling on some organ or part, and immediately illness ensues. BRANDRETH'S PILLS correct, purify, and invigorate the blood, causing it to circulate freely; giving to every organ healthy action. They are the Original Vegetable Medicine and have the highest claims on the patronage of a liberal and discerning Public; Dr. Brandreth, the original discoverer, not having decided on their present formula, until after thirty years' experience and laborious research into the medicinal properties of the numerous plants composing the Vegetable Kingdom: his object being to compose a pill that should at once purify and produce, by a specific action, an equalization of the circulating fluid; and whoever may feel disposed to give these Pills a trial, will, at once, find that this object is attained. They give immediate relief in all constipations of the bowels, spasmodic and bilious affections, flatulency, habitual costiveness, nervous and sick headache, arising from an overloaded condition of the digestive organs, viscera, &c., and the destruction of worms is speedily effected by them. Three or four weeks' use will eradicate scurvy, and all scorbutic humours, erysipelas, or St. Anthony's fire, and all cutaneous affections of the skin; and in diseases of the eyes, paralytic affections, asthma, dropsy, stone and gravel, piles, lumbago, affections of the kidneys, irritation of the bladder, urethra, rectum and spasmodic stricture, they are found invaluable. They also remove the innumerable train of evils to which females are subject at certain periods. Influenza is soon cured by these pills, and liability to it prevented. No mother of a family should be without a constant supply of this Domestic Medicine; they are most effective in their administration to children of the earliest age, when labouring under disease of any kind, especially hooping cough, dentition, measles, scarlet fever, chicken pox, worms, tinea capitis or scald head, and all other eruptive diseases. As a medicine, to all individuals afflicted with either rheumatism or gout, it is truly invaluable; it not only eradicates, but by regularly taking it once or twice a-week, it will, most assuredly, prevent a return. Captains and all voyagers will find this the medicine, without the aid of any other, to prevent costiveness, scurvy, and the various diseases incident to long voyages or foreign

climates: it being unalterable by time or any atmospheric change. Brandreth's Pills are also a certain preventive of sea sickness, and are likewise the best medicine preparatory to sea bathing. After free living, three or four of these pills will prevent bilious attacks, and all unpleasant sensations.

THE TESTIMONIAL OF H. W. DEWHURST, Esq.
THEATRE OF ZOOLOGY, GOWER STREET, EUSTON SQUARE, LONDON, Jan. 10, 1834.
 My Dear Sir,—As you have requested my candid opinion of your pills, I have much pleasure in stating, that when labouring under a serious illness in August 1831, I took them by your advice, and am happy to say, that their action was, in every way, all that I could desire; and, accordingly, from their use, I date my recovery. I consider them an excellent family medicine. I remain, my dear Sir, yours truly,
H. W. DEWHURST, F. R. S.
 Surgeon-Accoucheur, and Professor of Human and Zoological Anatomy, and Corr. Mem. Worces. Nat. His. Society.

From the OXFORD JOURNAL, Aug. 23, 1834.
BRANDRETH'S PILLS.—There are few who do not know that the essence of the food is converted into blood, which so formed, assimilates itself to the various ramifications of the human frame. We take it therefore, as a clear axiom, that that medicine which makes the blood pure, without weakening the system, must be most excellent; and, as we know Brandreth's Pills to be such a medicine, we recommend them, with confidence, to our friends. Many and high was their testimonials.

From the OXFORD HERALD, August 23, 1834.
 On all hands we hear of astonishing cures performed by Brandreth's Pills. Mr. Wilkins, of Magdalen College, was cured by them, of Ulcerated Legs in eleven weeks, which had been bad nine years. They cure by removing all noxious accumulations from the stomach and bowels, and all impurities from the blood, at the same time strengthening the frame: thus restoring the energies both of body and mind. We have ourselves taken them as an antibilious pill and can, from experience, recommend them as such to our numerous friends.

To be had of every respectable Medicine vendor in the colony in boxes, 2s.—4s. 6d.—6s. 6d.—18s. each

NOTICE TO THE TRADE.

S. MORDAN & Co. beg to call the attention of the TRADE, and of the Public at large, to the following articles of their manufacture, viz:—

THE PATENT EVER-POINTED PENCIL is an instrument universally allowed to be of the greatest utility, and particularly recommended to the public, when made with that mathematical nicety on which its use depends. The Patentees inform the public that all Pencils having steel points are not of their make; and to avoid all inconvenience the following remarks on purchasing will ensure them a genuine article:—see the Pencil has the name, "S. Mordan and Co., Makers and Patentees," on the body of the case.

LEADS.—The spurious leads are a mixture of common lead-dust and antimony, and of all manner of sizes; they choke up the Pencil-case, and create an unjust prejudice against the genuine article. The proper leads for replenishing the case have on each box a yellow belt, with the word "warranted" on it, and a red sealing-wax impression, bearing the initials "S. M. & Co."

Shopkeepers in provincial towns would do well to observe the above remarks, to prevent their being imposed upon, the public being much inconvenienced in not being supplied with the genuine article.

CEDAR PENCILS.—Artists and others are particularly requested to try their Black Lead Pencils in Cedar, made from the pure Cumberland lead, selected with the greatest care: they have been pronounced, by the most competent judges of the day, the best extant. (See J. D. Harding's Work on Pencil Drawings.) This article is patronized by all the Government offices.

THE PATENT OBLIQUE PEN, the only straight Pen. This peculiarity is owing to the slit being parallel to the angular slope of the writing, which gives it that freedom in use which is unequalled by any other pen by the direction in which both nibs are brought into use at the same time, the writer is not operating upon one edge of the nib, and the contrary edge of the other at the same instant, but upon the square surfaces or points of both together. Both nibs are thus brought into constantly equal wear, and a freedom is secured which no other metal Pen ever possessed. The Patent Oblique Pen is the most perfect hitherto offered.

PATENT TRIPLE-POINTED PEN.—The peculiarity of this pen, either in its straight or oblique form, is the addition of a third nib, which secures the following advantages:—

1. A certain supply of ink of any kind, uniform with the most rapid writing.
2. The two nibs of the ordinary pen act only as dividers or tracers, while the third nib, pressing up in the paper, conducts and distributes the ink.
3. The third nib renders the same pen capable of writing the boldest text or finest running hand.
4. The third nib retains a larger supply of ink without risk of blotting. (See Laws of Fluids.)
5. The third nib, acting on the slit of the pen, effectually removes the nibs as they are gathered from the paper, thereby removing the greatest impediment to the use of metallic pens.
6. Firmness in use is obtained by the third nib; and at the same time the flexibility is increased, and durability necessarily follows.

* * * Use the Improved Joint Holder, made expressly for these Pens.

PORTABLE QUILL PENS.—There are many persons who do not like steel pens; to these the Portable Quill Pens, and Silver Penholder, are particularly recommended. In Boxes containing Fifty and One Hundred.

"S. M. & Co., Makers," are marked on each box, and are warranted, with a yellow belt and wax impression.

COOPER'S PATENT SCENT BOTTLES.—These articles are confidently recommended from their superiority. The advantages derived from this invention are, that the Stopper, from its spherical form, can neither stick, or break in the neck, so constant a complaint against those on the old plan. The stopper being made of glass never corrodes. They are so perfectly air-tight that they will preserve the most volatile spirits, even ether or ammonia, any length of time. They cause much less trouble in use than any others, the act of removing the cap and stopper being only one operation. They are more durable than any others, from their superiority both in workmanship and material, the silver and gold used in them being very stout, and warranted standard.
 Manufactured by S. Mordan & Co.

PATENT TRAVELLING INKS.—S. M. & Co. invite particular attention to their improved Travelling Inks, to which they have adapted the Patent Spherical Stopper, so as to secure all its advantages, while the construction of the case admits of

a glass holding a much larger quantity of ink than those in general use, without increasing its bulk; and at the same time it is protected by a strong case, neatly covered with leather. The improved Stopper to these Inks remove the objections to the India Rubber Stoppers of the late Mr. Berry, and may be had in all the varieties made by him.

These Inks are also made in wood or ivory, for the pocket.

NEW FOUNTAIN INKSTANDS.—These Inkstands are of a very superior construction to those formerly in use. They present out a small surface of ink to the atmosphere, and comparatively no evaporation takes place; nor can dust accumulate to spoil the ink. The spot is placed at the most convenient angle for dipping the pen; and the ink being of a uniform depth, prevents the pen being spoiled by striking against the glass.

This Inkstand is peculiarly adapted for the writing fluids now in use. They are made of white or coloured glass, either plain or richly cut; and are also mounted with silver caps, which exclude the atmosphere or dust. Each Inkstand has a medalion, with the name S. Mordan & Co. London, on it.

SEVEN GUARDED LOCK.—There are few persons but have property of some kind to secure from prying curiosity or theft. No lock can be secure that has duplicate keys in existence, or that will allow of an impression being taken of the key to produce a facsimile, so easy in all warded and tumbler locks. The most serious robberies have taken place by means of duplicate keys, which allow the dishonest to relock without suspicion; this is fully borne out by the Police Reports. The only lock that gives positive security is the Seven Guarded Lock. The infinite variety of changes of which the key is susceptible, which causes every successive key to differ from all which have preceded it, makes this lock perfectly secure. An inspection of the machine will justify this assertion.

This Lock is patronized by the Government offices; also at Newgate, Whitecross-street, and Warwick. There is scarcely a banking house in London but have these Locks more or less on their establishment.

Patent Joint Penholders, in Silver and Gold.
A new Guide Penholder, in Silver, much approved of.
Patent Parisian Spring Penholder, and Short Pens for do.
Gold Pens with Perpetual Points.
Fire-proof Deed-boxes, &c.
Iron Chests and Bookcases.
Iron Doors for Strong Rooms.
Lump Inks, Cone Inks, and Glass Inkstands of every description.

Toilet-bottles, Pastille-burners, Rose-water Bottles, &c.
Smelling-bottles, mounted in Silver and Gold, with S. M. and Co.'s Improved Conical Stopper.
Soda-water Machine, &c. &c.

S. M. & Co. also inform the Trade that they have now in the course of manufacture several entirely new and useful articles, which will be laid before them with all possible dispatch.

CAUTION.—As imitations have been made of many of their articles, observe, that each bears the name of S. Mordan and Co., Makers, London.

Manufactory, 22, CASTLE STREET, near FINSBURY SQUARE, LONDON.

N.B.—S. MORDAN will be happy to advise persons taking out Patents for new Inventions, as to the best mode of manufacturing and laying the same before the Trade.

N.B.—MANY of the above articles are kept **ON SALE** by **Mr. A. S. ROBERTSON, of Cape Town,** By whom **ORDERS** for any articles made by S. MORDAN will be received, and executed promptly.

NOTICE.

THE Undersigned, Proprietor of the Farm *Spanjaard's Bosch* (alias *Brakfontein*) and *Kleinen Berg*, situate in the District of Saldanha Bay, hereby gives Notice to the Public, that he will in future allow no passage to Cattle across the Farm *Spanjaard's Bosch*, but will allow it only to Cattle sent to the Farms *Noodhulp*, *Pooskop*, *Drift*, *Cloetens Kraal*, and *Flaminke Valley*, provided the herd does not consist of more than 100, the Ford being only 70 paces; a greater number would injure the hedges around the Dam and the Buildings. All persons using the above Ford are therefore requested to desire their Wagon-drivers to abstain from abusive language on the Farm *Spanjaard's Bosch*, as they will otherwise be prosecuted according to law.

The surrounding Neighbours, who were accustomed to hunt or shoot on his Land with their Visitors, are warned to desist therefrom, or abide the consequences, as the Fields are not only trampled down, but the Dams drained, whereby he sustains considerable damage, and his Cattle suffers.

The Farms of the Undersigned having now been measured, and the limits fixed, with great expense, waste of time, and trouble, he will not permit any trespass on his Property, and all Cattle, to whosoever belonging, will be sent to the Pound. The Cattle sent to *Patryzenberg* will have to pass according to the fixed route, namely, *Klipfontein*, *Muislandsfontein*, and *Schafplaats*, and not over *Spanjaard's Bosch*. Zwartland, April 15, 1837. F. J. BESTBIER.

IN the Pound are confined, a brown Gelding and 2 Goats, which will be sold at Mr. JONES' Commission Sale, on the 6th May 1837. Also, a brown Horse, a red roan ditto, and 3 Goats, on the 23th May next.

D. J. ASPELING, Jr. Poundmaster of Cape Town.

Poeskopdrift, Cloetenskraal en Flamingkevallei, echter, voor niet meer dan honderd stuks vee in eenen troep te gelyk, zynde den doordrift slechts zeventig schreden, zoodat eene grotere hoeveelheid de heiningen op den dam alsmede de gebouwen zou kunnen beschadigen;--allen die gebruik van deze trek maken, worden verzocht hooie dryvers te waarschuwen, geene brutaliteiten hoegenaamd op gemelde Plaats Spanjaardsch Bosch te gebruiken, zullende zy anderszins volgens de Wetten behandeld worden.

De omliggende buren, die de gewoonte gehad hebben, met het by hen komende gezelschap in myn veld te jagen, worden gewaarschuwd zulks niet meer te doen, zullende zy zich voor de gevolgen moeten wachten, daar niet alleen myn veld vertrappt en verreden, maar het water uit myn dam opgedronken wordt, welk een en ander tot groot nadeel voor myn vee strekt.

En daar de Plaatsen nu gemeten en myne limieten bepaald zynde, welk een en ander met groote kosten, tydverzuim en moeilykheden voor my gepaard gegaan is, zal ik volstrekt geene overschredingen op myn eigendom meer toestaan, en het vreemde vee aldaar gevonden, zal zonder onderscheid, aan wien ook toebehoorende, naar de Schut verzonden worden; het vee dat naar Patrysberg verzonden wordt, zal volgens aan hun bepaalde trekken, te Ueten, Klipfontein, Muishonds Fontein en Schafplaats, en niet meer over Spanjaardsch Bosch moeten trekken.

Draft of an Ordinance,

Presented by the Governor of the Cape of Good Hope to the Legislative Council thereof,

For the more effectual prevention of Crimes against Life and Property within the Colony.

WHEREAS it is expedient to make further provision for the prevention of Crimes against Life and Property in this Colony: Be it therefore enacted and declared by the Governor of the Cape of Good Hope, by and with the advice and consent of the Legislative Council thereof, that where any Officer of the Law, or private Person, who, by the Provisions of the Ordinance No. 73, entitled "An Ordinance of His Excellency the Governor in Council, for explaining, altering, and amending the Ordinance No. 40," and bearing date the 15th Day of April, 1830, is authorised and required to arrest, or assist in arresting, any Person who has committed, or is suspected to have committed, any Murder, Culpable Homicide, Rape, Robbery, or Assault with intent to commit any of those Crimes, or in which a dangerous Wound is given, Arson, Housebreaking with intent to commit any Crime, or Theft of any Cattle, Sheep, or Goat, or any other Crime of equal degree of guilt with any of the Crimes aforesaid, shall attempt to make such Arrest, and the Person so attempted to be arrested, shall fly or resist, and cannot be apprehended and prevented from escaping by other means than by such Officer or private Person killing the Person so flying or resisting, such Homicide shall be deemed in Law to be justifiable Homicide.

II. And whereas certain Treaties have been entered into between ANDRIES STOCKENSTROM, Esquire, Lieutenant-Governor of the Eastern Division of the Colony of the Cape of Good Hope, on the part of His Britannic Majesty, and the Kafir Chiefs of the Tribe of T'slambie—the Kafir Chiefs of the Tribe of Gaika—the Kafir Chiefs of the Tribe of Congo—the Fingo Chiefs Umklambiso and Iokwani, and the Tambookie Chief Mapassa: And whereas it is in contemplation to enter into certain Treaties with certain other Chiefs and Tribes inhabiting beyond the Boundaries of the Colony: Be it therefore enacted, that when any stolen Property shall not be retaken within the Boundary of the Colony, and shall be traced into any Territory occupied by any such Chiefs or their Tribes, as defined, or to be hereafter defined, by the said Treaties respectively, it shall not be lawful for any Person to proceed to recover the same, except in such manner as is or shall be prescribed by any Provision or Provisions in that behalf contained, or to be contained in the said Treaties respectively.

III. And be it further enacted, That it shall not be lawful for any Kafir, Gonaqua, Tambookie, Griqua, Bosjesman, Bechuana, Mantatee, Namaqua, or other Natives of Africa, not being Natives of the Colony, to cross from without to within the Boundary Line of the Colony, armed with any Assagai, Spear, Battle-axe, Fire-arms, or other Weapon, or to be found in the Colony, so armed; and all Justices of the Peace, Field-Commandants, Field-Cornets, and Military Officers, are hereby authorized and required to prevent any such Person as aforesaid, so armed as aforesaid, from entering the Colony, and to disarm, or cause to be disarmed, any such Person so found within the Colony; and in case such Persons shall resist, when an attempt is made to disarm them, it shall be lawful to kill or disable them, if they cannot be disarmed by other means: Provided always, that nothing herein contained shall

V. And be it further enacted, That when any Officer of the Law, or private Person, who in virtue of the Provisions of this Ordinance is authorised and required to arrest or remove, or to assist in arresting or removing, any such Foreigner as aforesaid, shall attempt to make such arrest or removal, and such Foreigner, so attempted to be arrested or removed, shall resist, it shall be lawful for such Officer or Person, if such arrest or removal cannot be effected by other means, to kill or disable such Foreigner, so resisting as aforesaid.

COLONIAL OFFICE,

Cape Town, 4th May 1837.

THE following Notice is published for general information, at the request of the Right Honorable the Governor of Bengal:—

LIGHT AT FALSE POINT—BAY OF BENGAL.

NOTICE.

REFERRING to the Notice published from this Office, under date 19th July last, Notice is given, that on the 1st day of March next, a Light will be exhibited at False Point on a Tripod, in Latitude 20° 19' 23" N. and Longitude 86° 48' 8" E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz., on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilots' Station will be continued as heretofore, off Point Palmyras, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude 20° 42' to 20° 48' N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 18 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon above-mentioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel.

Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Saugor Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to 21° 10' North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red Flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyras Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

BRANDRETH'S PILLS.

THE ORIGINAL VEGETABLE

Universal Medicine;

Established upwards of Eighty Years.

"Look here, upon this Picture and on this."—SHAKESPEARE.

INFLAMMATION AND DEATH

(FROM THE "TIMES" OF SATURDAY, NOV. 28, 1835.)

"Yesterday evening an inquest was held at the Sovereign, Munster-street, Regent's park, before Mr. Stirling, on view of the body of Mrs. Sarah Porter, aged 35, of Clarence gardens, Regent's park. Dr. Johnson, Physician Extraordinary to the King, deposed that he attended the post-mortem examination of the body, and was of opinion that death was occasioned by inflammation of the intestines, brought on by some irritable substance taken internally. Mr. Leale, Surgeon, of Long-acre deposed, that he had attended the deceased several times. She was a very delicate woman. On the evening of the 24th inst., witness was requested to attend her. On his arrival he found that she was in a state of delirium, and incapable of articulation. On inquiry, witness ascertained that the deceased had taken several doses of 'Mori-on's Pills.' She continued to get worse, being violently affected; on the 22d, she became somewhat sensible, complaining of violent pains in the bowels; on the 23d all symptoms became aggravated, and she died on the evening of the same day. Witness concurs in the opinion of Dr. Johnson, that the death of the deceased was caused by inflammation of the intestines, brought on by the administration of some violent medicine. Sarah Paine, servant to the deceased, proved having purchased three separate boxes of 'Mori-on's Pills,' at No. 43, Munster-street, which were taken by her mistress in doses of fourteen and sixteen at a time. Other relatives of the deceased were examined, who stated that the deceased was advised to take the pill by a Mrs. Robinson, a neighbour; but she (the deceased) becoming worse they advised her not to take more. The jury severely animadverted on the sale of the pills in question, and after some discussion returned a verdict, 'That the deceased died from inflammation of the intestines, caused by taking Mori-on's Pills.'

HEALTH AND HAPPINESS.

"Methinks I've cast full twenty years aside, And am again a boy. Every breath Of air that trembles through the window bears Unusual odour." PROCTOR—"MIRANDOL."

IMPORTANT TO THE AFFLICTED.

The unprecedented success which has resulted from the adoption of Brandreth's Pills, during a period of upwards of 80 years—the numerous and extraordinary cures which they have performed upon hundreds of individuals who they have rescued from almost inevitable death, after they had been pronounced incurable by the most eminent of the faculty—justifying the proprietors of this Original Vegetable Universal Medicine in warmly and conscientiously recommending it to the especial notice of the public. Unlike numerous Medicines of high pretensions and FATAL EFFECTS—the "kill or cure" nostrums of ignorant empirics—which are daily sent forth to gull and delude the public, these Pills may be taken with perfect safety by even children of the most tender years; the doses being regulated (for which see the Directions accompanying the Medicines) according to the age of the patient. Ignorant pretenders to the science of medicine, in order to increase their assumption of their deadly compounds recommend their deluded victims doses in a dangerous and almost unlimited quantity!! The result of the overweening confidence of their dully afflicted patients (who are thus induced to shorten their lives by taking their deadly advice, and swallowing their pills in these fatal quantities) may be traced in the verdicts of Coroners' Juries, who have publicly placed on record their opinions of the effects of Pills composed of those highly dangerous ingredients, Gamboge and Bitter Aloes, by returning a verdict of manslaughter against the Venders.

ALL diseases arise from the one simple cause—an impurity in the blood, which impedes its circulation by settling on some organ or part, and immediately illness ensues. BRANDRETH'S PILLS correct, purify, and invigorate the blood, causing it to circulate freely; giving to every organ, healthy action. They are the Original Vegetable Medicine and have the highest claims on the patronage of a liberal and discerning Public; Dr. Brandreth, the original discoverer, not having decided on their present formula, until after thirty years' experience and laborious research into the medicinal properties of the numerous plants composing the Vegetable Kingdom: his object being to compose a pill that should at once purify and produce, by a specific action, an equalization of the circulating fluid; and whoever may feel disposed to give these Pills a trial, will, at once, find that this object is attained. They give immediate relief in all constipations of the bowels, spasmodic and bilious affections, flatulency, habitual costiveness, nervous and sick headache, arising from an overloaded condition of the digestive organs, viscera, &c., and the destruction of worms is speedily effected by them. Three or four weeks' use will eradicate scurvy, and all scorbutic humours, erysipelas, or St. Anthony's fire, and all cutaneous affections of the skin; and in diseases of the eyes, paralytic affections, asthma, dropsy, stone and gravel, piles, lumbago, affections of the kidneys, irritation of the bladder, urethra, rectum and spasmodic stricture, they are found invaluable. They also remove the innumerable train of evils to which females are subject at certain periods. Influenza is soon cured by these pills, and liability to it prevented. No mother of a family should be without a constant supply of this Domestic Medicine; they are most effective in their administration to children of the earliest age, when labouring under disease of any kind, especially hooping cough, dentition, measles, scarlet fever, chicken pox, worms, tinea capitis or scald head, and all other eruptive diseases. As a medicine, to all individuals afflicted with either rheumatism or gout, it is truly invaluable; it not only eradicates, but by regularly taking it once or twice a-week, it will, most assuredly, prevent a return. Captains and all voyagers will find this the medicine, without the aid of any other, to prevent costiveness, scurvy, and the various diseases incident to long voyages or foreign

climates: it being unalterable by time or any atmospheric change. Brandreth's Pills are also a certain preventive of sea sickness, and are likewise the best medicine preparatory to sea bathing. After free living, three or four of these pills will prevent bilious attacks, and all unpleasant sensations.

THE TESTIMONIAL OF H. W. DEWHURST, Esq.
THEATRE OF ZOOLOGY, GOWER STREET, EUSTON SQUARE, DR. BRANDRETH.

My Dear Sir,—As you have requested my candid opinion of your pills, I have much pleasure in stating, that when labouring under a serious illness in August 1831, I took them by your advice, and am happy to say, that their action was, in every way, all that I could desire; and, accordingly, from their use, I date my recovery. I consider them an excellent family medicine. I remain, my dear Sir, yours truly,

H. W. DEWHURST, F. R. S.
Surgeon-Accoucheur, and Professor of Human and Zoological Anatomy, and Corr. Mem. Worcester Nat. Hist. Society.

From the OXFORD JOURNAL, Aug. 23, 1834.

BRANDRETH'S PILLS—There are few who do not know that the essence of the food is converted into blood, which so formed, assimilates itself to the various ramifications of the human frame. We take it, therefore, as a clear axiom, that that medicine which makes the blood pure, without weakening the system, must be most excellent; and as we know Brandreth's Pills to be such a medicine, we recommend them, with confidence, to our friends. Many and high was their testimonials.

From the OXFORD HERALD, August 23, 1834.

On all hands we hear of astonishing cures performed by Brandreth's Pills. Mr. Wilkins, of Magdalen College, was cured by the use of Ulcerated Legs in eleven weeks, which had been bad nine years. They cure by removing all noxious accumulations from the stomach and bowels, and all impurities from the blood, at the same time strengthening the frame: thus restoring the energies both of body and mind. We have ourselves taken them as an antibilious pill and can, from experience, recommend them as such to our numerous friends.

To be had of every respectable Medicine vendor in the colony in boxes, 2s.—1s. 6d.—6s.—18s. each

NOTICE TO THE TRADE.

S. MORDAN & Co. beg to call the attention of the Trade, and of the Public at large, to the following articles of their manufacture, viz:—

THE PATENT EVER-POINTED PENCIL is an instrument universally allowed to be of the greatest utility, and particularly recommended to the public, when made with that mathematical nicety on which its use depends. The Patentees inform the public that all Pencils having steel points are not of their make; and to avoid all inconvenience the following remarks on purchasing will ensure them a genuine article:—see the Pencil has the name, "S. MORDAN and Co., Makers and Patentees," on the body of the case.

LEADS.—The spurious leads are a mixture of common lead-dust and antimony, and of all manner of sizes; they choke up the Pencil-case, and create an unjust prejudice against the genuine article. The proper leads for replenishing the case have on each box a yellow belt, with the word "warranted" on it, and a red sealing-wax impression, bearing the initials "S. M. & Co."

Shopkeepers in provincial towns would do well to observe the above remarks, to prevent their being imposed upon, the public being much inconvenienced in not being supplied with the genuine article.

CEDAR PENCILS.—Artists and others are particularly requested to try their Black Lead Pencils in Cedar, made from the pure Cumberland lead, selected with the greatest care: they have been pronounced, by the most competent judges of the day, the best extant. (See J. D. Harding's Work on Pencil Drawings.) This article is patronized by all the Government offices.

THE PATENT OBLIQUE PEN, the only straight Pen. This peculiarity is owing to the slit being parallel to the angular slope of the writing, which gives it that freedom in use which is unequalled by any other pen by the direction in which both nibs are brought into use at the same time, the writer is not opposing upon one edge of the nib, and the contrary edge of the other at the same instant, but upon the square surfaces or points of both together. Both nibs are thus brought into constantly equal wear, and a freedom is secured which no other metal Pen ever possessed. The Patent Oblique Pen is the most perfect hitherto offered.

PATENT TRIPLE-POINTED PEN.—The peculiarity of this Pen, either in its straight or oblique form, is the addition of a third nib, which secures the following advantages:—

1. A certain supply of ink of any kind, uniform with the most rapid writing.
2. The two nibs of the ordinary pen act only as dividers or tracers, while the third nib, pressing upon the paper, conducts and distributes the ink.
3. The third nib renders the same pen capable of writing the boldest text or finest running hand.
4. The third nib retains a larger supply of ink without risk of blotting. (See Laws of Fluid.)
5. The third nib, acting on the slit of the pen, effectually removes the fibres as they are gathered from the paper, thereby removing the greatest impediment to the use of metallic pens.
6. Firmness in use is obtained by the third nib; and at the same time the flexibility is increased, and durability necessarily follows.

* Use the Improved Joint Holder, made expressly for these Pens.

PORTABLE QUILL PENS.—There are many persons who do not like steel pens; to those the Portable Quill Pens, and Silver Penholder, are particularly recommended. In Boxes containing Fifty and One Hundred.

"S. M. & Co., Makers," are marked on each box, and are warranted, with a yellow belt and wax impression.

COOPER'S PATENT SCENT BOTTLES.—These articles are confidently recommended from their superiority. The advantages derived from this invention are, that the Stopper, from its spherical form, can neither stick, or break in the neck, so constant a complaint against those on the old plan. The Stopper being made of glass never corrodes. They are so perfectly air-tight that they will preserve the most volatile spirits, even ether or ammonia, any length of time. They cause much less trouble in use than any others, the act of removing the cap and stopper being only one operation. They are more durable than any others, from their superiority both in workmanship and material, the silver and gold used in them being very stout, and warranted standard.

Manufactured by S. MORDAN & Co.

PATENT TRAVELLING INKS.—S. M. & Co. invite particular attention to their improved Travelling Inks, to which they have adapted the Patent Spherical Stopper, so as to secure all its advantages, while the construction of the case admits of

a glass holding a much larger quantity of ink than those in general use, without increasing its bulk; and at the same time it is protected by a strong case, neatly covered with leather. The improved Stoppers to these Inks remove the objections to the India Rubber Stoppers of the late Mr. Barry, and may be had in all the varieties made by him.

These Inks are also made in wood or ivory, for the pocket.

NEW FOUNTAIN INKSTANDS.—These Inkstands are of a very superior construction to those formerly in use. They present but a small surface of ink to the atmosphere, and comparatively no evaporation takes place; nor can dust accumulate to spoil the ink. The spout is placed at the most convenient angle for dipping the pen; and the ink being of a uniform depth, prevents the pen being spoiled by striking against the glass.

This Inkstand is peculiarly adapted for the writing fluids now in use. They are made of white or coloured glass, either plain or richly cut; and are also mounted with silver caps, which exclude the atmosphere or dust. Each Inkstand has a medalion, with the name S. MORDAN & Co. London, on it.

SEVEN GUARDED LOCK.—There are few persons but have property of some kind to secure from prying curiosity or theft. No lock can be secure that has duplicate keys in existence, or that will allow of an impression being taken of the key to produce a facsimile, so easy in all warded and tumbler locks. The most serious robberies have taken place by means of duplicate keys, which allow the dishonest to relock without suspicion; this is fully borne out by the Police Reports. The only lock that gives positive security is the Seven Guarded Lock. The infinite variety of changes of which the key is susceptible, which causes every successive key to differ from all which have preceded it, makes this lock perfectly secure. An inspection of the machine will justify this assertion.

This Lock is patronized by the Government offices; also at Newgate, Whitecross-street, and Warwick. There is scarcely a banking house in London but have these Locks more or less on their establishment.

Patent Joint Penholders, in Silver and Gold.
A new Guide Penholder, in Silver, much approved of.
Patent Parisian Spring Penholder, and Short Pens for do.
Gold Pens with Perpetual Points.
Fire-proof Deed-boxes, &c.
Iron Chests and Bookcases.
Iron Doors for Strong Rooms.
Lump Inks, Cone Inks, and Glass Inkstands of every description.

Toilet-bottles, Pastille burners, Rose-water Bottles, &c.
Snelling-bottles, mounted in Silver and Gold, with S. M. and Co.'s Improved Conical Stopper.

Solar-water Machine, &c. &c.

S. M. & Co. also inform the Trade that they have now in the course of manufacture several entirely new and useful articles, which will be laid before them with all possible dispatch.

CAUTION.—As imitations have been made of many of their articles, observe, that each bears the name of S. MORDAN and Co., Makers, London.

Manufactory, 22, CASTLE STREET, near FINSBURY SQUARE, LONDON.

N.B.—S. MORDAN will be happy to advise persons taking out Patents for new inventions, as to the best mode of manufacture, ring and laying the same before the Trade.

Sold by

Mr. A. S. ROBERTSON, of Cape Town,

By whom ORDERS for any articles made by S. MORDAN will be received, and executed promptly.

NOTICE.

THE Undersigned, Proprietor of the Farm *Spanjaard's Bosch* (alias *Brakfontein*) and *Kleinen Berg*, situate in the District of Saldanha Bay, hereby gives Notice to the Public, that he will in future allow no passage to Cattle across the Farm *Spanjaard's Bosch*, but will allow it only to Cattle sent to the Farms *Nooduip*, *Poetskop*, *Drift*, *Cloetens Kraal*, and *Flaminge Valley*, provided the herd does not consist of more than 100, the Ford being only 70 paces; a greater number would injure the hedges around the Dam and the Buildings. All persons using the above Ford are therefore requested to desire their Wagon-drivers to abstain from abusive language on the Farm *Spanjaard's Bosch*, as they will otherwise be prosecuted according to law.

The surrounding Neighbours, who were accustomed to hunt or shoot on his Land with their Visitors, are warned to desist therefrom, or abide the consequences, as the Fields are not only trodden down, but the Dams drained, whereby he sustains considerable damage, and his Cattle suffers.

The Farms of the Undersigned having now been measured, and the limits fixed, with great expense, waste of time, and trouble, he will not permit any trespass on his Property, and all Cattle, to whosoever belonging, will be sent to the Pound. The Cattle sent to *Patryzenberg* will have to pass according to the fixed route, namely, *Klipfontein*, *Muiskondfontein*, and *Schafpluys*, and not over *Spanjaard's Bosch*.
Zwartland, April 15, 1837. F. J. BESTIER.

ADVERTISEMENT.

THE Undersigned, on account of malicious reports circulated at the Town Market and elsewhere, purporting "that he no longer attends to Agency Business, nor accommodates Farmers with Lodgings," finds it necessary to state to the Public and his Friends, and to Farmers in particular, that it was only on a certain by-gone occasion, that he appointed Mr. J. G. STEYTLER, G. Son, his Agent, but as the particular reason for doing so, has since been removed, he has taken the Administration of his Affairs back from Mr. STEYTLER, and that he in the same manner as heretofore, continues to attend to his Business.

Cape Town, 4th May 1837. N. J. LOTZ.
N.B. Mr. J. G. STEYTLER remains as yet, still empowered to settle a few unliquidated Accounts, with the parties concerned.

De omliggende bureu, die de gewoonte gehad hebben, met het by hen komende gezelschap in myn veld te jagen, worden gewaarschuwd zulks niet meer te doen, zullende zy zich voor de gevolgen moeten wachten, daar niet alleen myn veld vertrap en verreden, maar het water uit myn dam opgedronken wordt, welk een en ander tot groot nadeel voor myn vee strekt.

En daar de Plaatsen nu gemeten en myne limieten bepaald zynde, welk een en ander met groote kosten, tydverzuim en moeilikheden voor my gepaard gegaan is, zal ik volstrekt geene overschredingen op myn eigendom meer toestaan, en het vreemde vee aldaar gevonden, zal zonder onderscheid, aan wien ook toebehoorende, naar de Schut verzonden worden; het vee dat naar Patrysburg verzonden wordt, zal volgens aan hun bepaalde trekken, te Ueten, Klipfontein, Muishonds Fontein en Schafplaats, en niet meer over Spanjaardsch Bosch moeten trekken.

To the Editor of the Government Gazette.

SIR,—Your known attention to the Commercial Interest of this Colony induces me to intrude on your columns. The great obstacle to our commercial prosperity is the difficulty of transporting our Produce from the distant Districts. Breede River traverses the two arterial Roads to the Metropolis; and, if navigable for Boats to Worcester, would save two hundred miles of land carriage. In this formidable river, or rather arm of the sea, four Drifts prevent the ascent of ships of one hundred tons to the neighbourhood of Swellendam, the District Town. The first drift is of rock, but there is no fall; the second of loam-stones, with a fall of six feet; the two last are of large loam-stones, without any fall; and there is no other obstruction until the junction with the Zonder-end River, which is itself a kind of Canal. As the river is very deep, I think on the removal of the stones at this six-foot fall, the water would equalise: as to locks, they are out of the question, for the torrents are such as scarce to leave a sandbank, except at the entrance, where the river meets the sea, and forms the deep anchorage on the western bank.

The farmers will have done ploughing about the 1st of July, and I think, before the corn is ripe, they would, if encouraged, move the rocks and stones from these four Drifts. After the harvest they could proceed to clear the drifts towards Worcester: and during this dry season the stream may be diverted, and a channel of twenty feet formed without disturbing the expanded bed of the River. It may be worthy of remark, that boats would navigate with the currents when laden with the burdensome heavy articles of Grain and Wine, but would return with cargoes hardly sufficient to ballast them.

As to the Ways and Means:—First, I propose that his Majesty's Attorney General propose a public bill authorising the Subscribers to the undertaking to levy a duty on Boats, which shall produce a net interest on the capital expended, of eight per cent. Second:—I propose that the Savings' Bank Directors have the preference of lending money at eight per cent. for this object. Debentures transferable to bearer, being issued to enable the Savings' Bank Directors to raise money on an emergency. The Orphan Chamber (now the Guardian Fund) as possessing the Capital of Widows and indigent Orphans, should have the next preference:—and as the profits of the Government Bank cause an equal diminution in the amount of taxes, I propose that the President and Directors shall be at liberty to subscribe; and if further money be wanted, the Cape Public can be appealed to.

I believe six thousand additional ploughs will be set to work if Boats ascend to Worcester. Grain and Wine are not worth the expense attending a journey of 200 miles overland; but, substitute cheap Water-carriage, and such will be the increase of Colonial Produce that the general Exports of the Colony may be quadrupled. It may be answered—"that our Cape Merchants cannot find market for such an increase of Colonial Produce as would occur if the Boats change their pastoral life and apply themselves to Agriculture." If such is really the case, I will not advocate the drawing forth unnecessary supplies. Yet this does not accord with the public desire to possess the sovereignty of Caffraria! Maroon and Grell's subjects, with all the assistance they could derive from their Rain-makers, cannot compete with our farmers in the long-settled and fertile Districts of Swellendam, George, and Worcester, which all border on Breede River.

I think the geographical situation of the Cape particularly favourable to commerce: and a want of Grain in Europe is heard of in this Colony precisely after our harvests; and America, and the Northern parts of England and Russia, are now said to be deficient in that necessary article of life. We are famed for the best Wine (Constantia) and the best Wheat (our Cape Baard) in the whole world. America has remitted the burdensome duty on our Wine, and could consume more than we could produce. Our manufacturing districts at home, as they decline the use of ardent spirits, may require more Wine than we can manufacture. I believe our virtual Representatives at Westminster, if petitioned, would take off the five shillings a quarter now charged on the importation of our Grain.

I heartily recommend the effort to clear the Drifts of Breede River. Towns and Villages may then be formed on its banks, as on other navigable rivers, and the strength and wealth of the Colony will thus be abundantly manifested.

The proposed Railroads in England will throw many splendid coasting Steam Vessels out of employment, and we may expect that some of them will resort hither; and if we avail ourselves of the vast increase of our circulating medium through the Compensation Money, we may hear of the arrival of a Steamer at Worcester in twelve months.

Breede River, April 24, 1837.

WILLIAM DUNN.

COMMERCIAL RETROSPECT.—FEBRUARY 20.

Parliament have been occupied with other business this week, than with Mercantile Matters; and indeed there is no probability of any topic affecting our Commerce, speedily coming under discussion.

There has not been much change in the appearance of the mercantile markets generally during the past week; the same distrust that has prevailed for some time past still continues, and operates very much against any improvement in the commercial departments. The business done either by private contract or public auction has again been only to a limited extent, and in most cases at declining prices. The principal feature, however, was the large public sales of Cotton, which attracted great attention, they have shown a much better result than was generally expected previous to the commencement, by those interested in that branch of trade. The quantity of Colonial Produce advertised for public auction is at present small.

There has been a more extensive business done on the Stock Exchange this week than last, and prices of both English and Foreign Securities have been higher than quoted in our last, and as the week advanced prices rose. Consols have, from 89½ Money, their price on Monday, risen to 90½, and for Account they have risen from 89½ to 90½, and in them there has been considerable business done for Money, but business for the Account has not been extensive.—Exchequer Bills have advanced from 26 28 to 27 20.—Bank Stock has not been quite so good as last week, having varied little from 208 207.—There has not been any novelty in the state of the Money market this week, from the depressed and discouraging condition delineated in our last, nor is there any more prospect now than there was then of that condition being altered for the better.

A pamphlet, entitled, "THE CAUSES AND CONSEQUENCES OF THE PRESENT MONETARY DERANGEMENT," has been published by Mr. HORSLEY PALMER, one of the Directors of the Bank of England. Such a work from such a quarter, at such a time as this, has, as might be expected, commanded great attention, and has been much read. We do not suppose that it will alter the opinion previously formed of the large share which the Bank of England has had in bringing about the present state of the money market.

Up to the time we are writing no failures of any great magnitude have occurred this week. It was settling day in the Foreign Stock market on Wednesday—the account was a Bull; the balances were not heavy, and were all paid. It is said on good authority that there is a united understanding amongst the London bankers to charge a higher rate of discount on merchants' bills than what has hitherto been charged. The Bank of England has been quiet, and the understanding is that it will by its movements create as little discussion as possible in the present state of things.

Intelligence from New York was received in London on Thursday by the Sheffield line of packet ship. The mercantile accounts are of a more cheerful character than they have been for some time, and much less difficulty had been experienced in payments. Discounts there were lower. Orders for manufactured goods were extensive. Exchange on London 109½ to 110.

Communication between England and Ireland by railway is about to be established.

LONDON CHAMBER OF COMMERCE.

We have great pleasure in communicating to the mercantile public, that a London Chamber of Commerce, the establishment of which we have so long advocated, is at length forming. Its address—laws and regulations will be published very shortly; and they will amply repay the trouble of a diligent perusal on the part of every mercantile man.—Feb. 20.

RAILWAYS IN PARLIAMENT.

FEBRUARY 21.

The House of Lords has had a little conversation on the subject of Railways—on the outrages committed in the neighbourhoods of their formation by those employed in making them—and upon the trickery which is often resorted to, in getting up Railway Companies.

Bills have been brought into the Commons for making Railroads from London to Brighton by way of Shoreham, from London to Brighton by way of Croydon, and one for a Railway to be called the South Eastern and Brighton. The reports of the Committee on the South Eastern (Dover), and on the Manchester, Leeds, and Newcastle Railways have been brought into the House. A Petition from the Birmingham and Gloucester Railway Company for a Bill to alter and amend the Act of last year has been presented.

The reports of the Committee on the Great Western Railway extension Bill and on the Oxford Great Western Railway Bill have been brought into the House. The London and Blackwall Railway Directors, and those of the London and Croydon also, have presented petitions for an enlargement of their powers. A petition has been presented for leave to bring in a Bill for a Railway to be called the Preston Wyre Railway. A Petition has been presented against the Manchester and Cheshire Railway.

A Bill has been brought in to alter and amend the Act which give certain powers to the North Midland Railway Company. A Petition was presented for making a Railway from Glasgow and Paisley to Greenock.

Notice has been given, that on the 1st of March a resolution will be submitted to the Commons to make the proprietors of all Railways and Canals responsible for the injuries and depredations committed by their servants.

Petitions have been presented against the Oxford and Great Western Railway Union—for leave to bring in a Bill to make a Railway from Cork to Passage—in favour of the Durham Junction Railway—against the extension of the Blackwall Railway—against the Dover Railway—for leave to bring in a Bill to make a Railway from Dundalk to Bally Bay—for leave to bring in a Bill to extend the Wearmouth and Bishop Auckland Railway—for leave to amend the Act of the Eastern Counties Railway. Leave has been given to bring in a Bill for Gibbs' Brighton and London Line—on the report of the Committee.

BANKING, MONEY AND PAPER CURRENCY.

(FROM THE BANKERS' CIRCULAR.)

The Bankers' Circular of this week, in expatiating on the causes of the present pressure for money, proves that for the three years previous to July 1836, the commerce of this country had never been in a more sound or prosperous condition, and the great change which it has undergone since, is attributed to the operations of the Bank of England, which proceeded publicly to raise the value of money, and obstruct its free circulation in July—that this caused all the great Banks of Europe to raise their rate of interest, and that it sent up discounts in the United States 200 per cent. The Bank of France also sensibly felt these operations of the Bank of England, as appears in a report of the Bank of France just published. It is also a fact, says the Bankers' Circular, that the first symptom of alarm in London drives the Bank of France to purchase gold and silver, incurring thereby a certain loss to itself, rather than contract its accommodation to the public.

The Bankers' Circular, after quoting an elaborate statement which appeared in the Times, of the doings of the Bank of England, as gathered from its authorised and official public statement of accounts, which shows that the Bank has been manufacturing paper largely, whilst its bullion has been reducing, goes on to state, that it (the Circular) confines its observations to that part of the conduct of the Bank which has been exhibited since they became entangled with difficulties and since they placed themselves in a false and obnoxious position by the rejection of the Bills of the American merchants. Since October last, the Circular admits, that the Bank of England has shown every disposition in their power to support the credit of the country, as far as they could consistently with that state of the currency which they are bound to maintain. From the beginning of the year 1835 to July 1836, the Circular charges the Bank with great indiscretion in the management of its affairs, and a glaring want of foresight. The Circular asks, why did the Bank deliberately advise the agents for the Loan to the Bank of the United States, amounting to a million or a million and a quarter sterling, that there was nothing, as far as they, the Bank Directors could discern, in the aspect of affairs, to render such an operation inconvenient or embarrassing to the Bank of England? They knew when this Loan was about to be pushed on our money market, that the United States were drawing a larger sum from France and Italy for their recently adjusted claims: they knew that in the year 1835 a larger amount of American Securities had been sold in England by the Merchant Bankers connected with the United States, than in any previous year, and they knew or ought to have known, that the gold thus withdrawn from Europe would be impounded in the States' Banks, or irreversibly mixed up with the currency of the Republic, and that but a little portion would find its way back again to England; and yet so far from making an effort to check the exportation of gold, they actually encouraged it!

After all this, the conduct of the Directors of the Bank of England has been screened from parliamentary investigation, whilst that of Joint Stock Banks is to be subject to it.

Mr. HORSLEY PALMER, one of the Directors of the Bank of England, has published a pamphlet entitled "The causes and consequences of the present pressure for money;" but this pamphlet will not alter, however much it may be read, the opinions previously entertained, of the conduct of the Bank Directors.

SUGAR.—There was more activity in the West India Raw market to day. The Grocers and Refiners bought more freely than for some time, and the sales reached about 1,200 hogsheads and tierces at rather higher prices for the good color descriptions, and at fully former rates for the other qualities. There are now but few refining Sugars at market. The above quantity sold includes 120 hds. Barbadoes at public sale, which brought an advance of 6d. to 1s per cwt. on the last sale for the better sorts, and previous prices for the lower qualities, low to good yellow sold at 10s. 6d. or 6s. 6d.

The stock of B. P. is 18,794 hds. and tierces, against 14,660 at the corresponding period of 1836, thus showing an increase of 4,134 hds. and tierces; the weekly deliveries are 2682 hds. and tierces, against 1888 at the same time last year, thus showing an increase of 794.

The stock of Mauritius is 45,348 bags, against 63,382 at the same time last year, thus showing a decrease of 18,034 bags; the weekly deliveries are 4616 bags, against 5924 last year. These returns include the East India Dock Company.

SILK.—The East India Company's sale of 809 bales Bengal Raw Silk took place yesterday—a smaller quantity than offered for many years past;—about half was refused at the taxed prices; the remainder sold at a reduction of about 25 per cent on the prices obtained at the sale in October last.

The private trade sales are proceeding in about the same proportion; many of the holders have withdrawn their silk, not being desirous of pressing sales at present prices.

MAURITIUS.—There has been nothing done worthy of remark by private contract; but at public auction 6788 bags were offered, and almost all found buyers—in some cases the brown and low sorts were rather cheaper; but upon the whole the late prices were steadily maintained: good middling and good yellow brought 60s. to 63. low to middling yellow 55s. to 67s. 6d. and fine greyish brown at 54s. 6d. per cwt. The better qualities are now very scarce.

COFFEE.—There continues a good demand for all clean qualities of British Plantation Coffee, more particularly the better sorts, of which the market is still very meagerly supplied, and they fully maintain their late value and in some instances an advance of 1s to 1s 6d per cwt. has been realized for the good qualities: all the unclean sorts, however, are still extremely difficult of disposal, and a considerable quantity is still pressing upon the market, but no change in their value can be quoted. There is not much business stirring in East India descriptions: Ceylon, admissible for home consumption at the lowest rate of duty, is in fair demand, and fully supports late prices. The enquiry for Mocha continues, but except at advance rates purchases cannot be effected: there are enquiries for the ungarbled sorts for exportation.

All shipping sorts of East India are heavy of sale, although purchases might be made on rather easier terms, and the transactions are of little moment.

TEA.—The Tea market continues to support an improved tone; low Congous are in demand at 4d. per lb. prem. Boheas are also more enquired for. Fine Congous continue to sell at a premium of 4d. to 1 1/2d per lb.—The East India Company have declared a postponement of the Tea Prompt of the 3rd of March until the 14th April, the holders of goods paying an additional deposit of £1 per chest and interest from the 3rd March to the rate of payment at £5 per cent per annum.

SPIRITS.—There is not the least improvement in the demand for Rum, Jamaica is offered at a discount of 3d to 4d per gallon on the late highest point of the market, still the buyers do not seem disposed to come forward, they anticipating even lower prices; the business is therefore confined to some small parcels of Leewards at rather lower prices; at 2s. 6d for 6 per cent over proof; some Demerara 20 to 22 per cent over partly in hds. at 3s. 28 per cent over of fair quality at 3s. 1d, and 38 per cent over of brown and fine quality partly in hds. at 4s. per gallon. In Brandy or Geneva there is little change in prices, but the business doing is so trifling that they are merely nominal.

MANCHESTER.—The pressure on the money market and the partial interruption of confidence, causing a continued decline in the price of cotton wool, lead to a corresponding reduction in the prices of goods and yarns. It is, however, we believe, known that there are already large orders in the market for the latter, and, consequently, there is no general disposition to submit to anything that can be called a sacrifice, so far as they are concerned. The market for goods, too, is expected to become brisker as the season advances, and manufacturers who can afford to hold stocks therefore abstain, in the present state of the demand, from urging sales.

YORKSHIRE.—There has been no improvement at Leeds, but prices continue firm. The business at Bradford yesterday week, in the piece market, was principally confined to the large houses, small makers being unable to effect sales on anything like profitable terms. There was no alteration in prices. The yarn market was dull, purchases only being made for present use in consequence of the difficulty in getting equivalent prices for goods. At Halifax, on Wednesday week, business was conducted with more spirit and confidence, and more goods were sold than on any previous day of this year. Lastings were most in demand. There was little demand for wool, and the trade was altogether inactive, but no alteration in prices. Noils and short wool were rather lower in price.

COMMERCIAL RETROSPECT.—FEBRUARY 27.

In the commercial markets during the past week we have at length experienced some symptoms of an improvement, the demand for most commodities has been rather more general, and in many cases a shade better prices have been obtained; at the same time it is necessary to state that the buyers do not purchase with spirit—they come cautiously to market; but altogether things exhibit a more healthy appearance. A great many goods have been put up at auction, which have gone off with more activity, and the principal proportion of the articles has been disposed of, and an improvement in the value in some instances has been realized.—All Raw Sugars have at length undergone a material change, the operations have been considerable and their value is enhanced.

The imports from most parts continue rather large, particularly of East India produce; but the exports are still very light.

There has been great quiet in the Money market this week. A general impression is abroad that money is not so scarce, but discounts have varied very little from their former rates, varying from 5 1/2 to 10 per cent, according to the character of the bills. Some little of the gold that left this country for the United States has come back, and this has inspired a hope that the tide at length has turned. We have had no failures of moment this week, and confidence seems to have increased a little, as is proved by the fact of

there being a little more mercantile business transacted. There are indications now that we have got through the worst; and bad as has been that worst, it has not been near so bad as many people predicted. We have laboured all along to impress on the judgment of the mercantile community, from certain facts that we adduced, that we should emerge out of all our difficulties, great and pressing as they were, with less injury than was generally calculated upon, and magnified in many of the public prints. We do not say that we are yet out of our trials, but we are still of opinion that we shall pass the ordeal much less injured than was the general anticipation.

From an evening paper we make the following extract relative to commerce:—

"We see by a Parliamentary paper just published, that trade was more active last year than the year before: for example, the increase in the importations of 1837 above those of 1836, in round numbers, was, of Butter 95,000 lbs.; increase of revenue 95,000l.—Coffee 1,630,000 lbs., revenue 40,000l.—Eggs 10,000, revenue 3,000l.—Flax and Hemp 689,000 cwt revenue 6,000l.—Currants 11,000 lbs., revenue in consequence of the reduction of duty 20,000l less.—Raisins 7,000 lbs., revenue less 3,000l.—Leather Gloves 230,000 pair, revenue more 3,300l.—Copper 90,000 cwt.; iron 5,300 tons; and so with most of the metals.—Raw Silk 720,000 lbs., revenue 8,000l; Manufactured Silk also considerable, particularly broadened 30,000 lbs. increase of revenue 30,000l.—Wool 42,000 lbs., revenue 53,000l. There are some few articles which decreased, as Figs, but none of importance. The importations of Corn were much greater in 1837 than in 1836, as Wheat 42,000 qrs., and in 1837, 168,000; but a less quantity was taken into home consumption, making a decrease of the revenue on this point. The whole increase of the Customs Duty in 1837 above 1836 was 789,753l., notwithstanding the reduction of several duties."

FEBRUARY 28.

SUGAR.—The advanced prices of West India raw Sugars were fully supported to day, and here and there, perhaps, they may be quoted a shade higher than on Friday. There was a fair demand from the grocers and refiners and the sales reached about 800 hds. and trcs. There was no public sale of Barbadoes.

MAURITIUS.—There were three public sales, amounting together to 5218 bags, which went off briskly for the good and colour sort, for which an advance of 1s per cwt. was obtained. The brown and middling qualities sold at fully, and in some cases at rather better prices: good and fine yellow sold at from 63s to 65s, good middling at 60s to 61s 6d, middling at 57s to 59s 6d, middling brown at 53s to 54s, and washed at 50s to 59s 6d, and some low heavy ditto at 54s to 51s 6d; some part of the quantity offered was bought in, being held for higher prices.

COFFEE.—There were large parcels of Foreign Coffee brought to the hammer to-day, comprising 1774 bags Brazil, and 718 bags of Havannah; also 102 casks and 100 bags of British Plantation and 440 bags of Ceylon admissible at the 6d duty. The British Plantation went off with spirit, and for the clean qualities an advance of 1s per cwt was realized: low middling Berbice brought 91s 6d; some unclean middling was bought in at 80s per cwt. The Ceylon was bought in at 9s for fine ordinary, within 2s or 3s. of this price was offered. The Brazil was nearly all bought in at 40s 6d to 40s 6d for fine ordinary Rio, a small proportion sold at 47s; sea dam at 42s 6d to 45s 6d, being a reduction of 1s to 2s per cwt; ordinary Bahia bought in at 41s. Only a small quantity of the Havannah was sold at reduced prices: good ordinary colony at 44s 6d to 47s, the remainder was bought in at 43s 6d to 52s per cwt.

TEA.—Notwithstanding the sales advertised to follow the E. I. Company's March Sale exceed 60,000 chests, the market maintains a degree of buoyancy to which it has not lately been accustomed. Low Congous are in demand at 4d prem.; E. I. Company's fine Congous continue to be enquired for at the late advance; Twankays also command 4d prem.; with more business doing.

INDIGO.—The market continues very quiet, but no sales have been made at lower prices. Advances were received yesterday from Calcutta to the 19th Nov. last: many of the letters state the estimate of the Indigo crop at 105,000 to 110,000 maunds, and some at 112,000 maunds.

SUGAR.—There has at length been a revival in the demand for West India Raw Sugar, and a larger quantity was disposed of last week than for some time past. A brisk demand has been experienced from the grocers as well as the refiners, and a further improvement of 1s per cwt. has again been realized, making the currency for fine Sugars 2s per cwt. middling and good 1s to 1s 6d, and brown about 6d to 1s per cwt. higher than at the late lowest point of the market. Jamaica, very good quality has sold at 63s 6d to 64s, middling at 58s 6d to 59s; low grey Demerara at 53s, and some low yellow ditto at 54s 6d to 55s. All kinds of fine grocery and pan Sugars continue very scarce, and of really fine there is scarcely a sample to be seen in the market. At the close of the market on Friday there was a very brisk demand, and the sales on that day amounted to about 1000 hds. and trcs. making the estimated purchases for the week 3500 hds. and trcs.

MAURITIUS.—No public sales have been brought forward since our last, and there being very little pressing upon the market privately, the limited quantity that has sold, has brought an advance of 6d to 1s per cwt. The arrivals have been considerable, about 24,700 bags.

SPIRITS.—The Rum market continues very heavy, and although there are sellers at reduced prices, buyers are with difficulty to be met with: no transactions worthy of enumerating have occurred this week.

The demand for Geneva is confined to small parcels at 1s 10d to 1s 11d per gallon for pale. There are enquiries after the common qualities of Brandy for exportation, but nothing of moment has been done.

WOOL.—The market remains very quiet for all descriptions of Foreign Wool; the purchases are very trifling, and in some instances rather lower prices are accepted.

OILS.—The market for the common description of Fish Oils generally continues in a very inactive state, the home trade are still the only buyers and the transactions are confined to small parcels, again at reduced prices for most sorts. Cod Oil has fallen to £45 0s per tun. For Sperm there continues a good request and an advance in the price has again taken place.—In Seed Oils there continues to be but little doing, and Linseed Oil has further declined, 32s 6d to 33s having been accepted for small parcels; Rape is not lower but is very dull of sale. There has been an arrival of about 100 tons of Palm Oil which has had the effect of still further reducing its value, 31s 6d to 32s accepted for small quantities. Olive Oil is still dull of sale, and lower prices have again been submitted to.

By letters recently received, the undermentioned information has come to hand:—

The "Bee" (whaler) arrived at Sydney with only 66 tons Black Oil, reports the Bay of Islands full of shipping, which had met with very indifferent success. The supply of Whale Oil from New South Wales is likely to be very much less than usual.

BANKING, PAPER MONEY & CURRENCY.

(From the Bankers' Circular.)
MISCONDUCT OF THE BANK—COL. TORRENS and HORSLEY PALMER.

The Bankers' Circular of last week touches upon the defence set up for the misconduct of the Bank of England by HORSLEY PALMER, Esq. in his pamphlet. It appears now to be a settled point amongst all parties who have directed their attention to this matter, that the Bank of England ought to have adopted measures of precaution and restriction, in the year 1835, and that if necessary they should also have adopted them in the early part of 1836, instead of which they allowed things to go on at a swinging pace, increasing of course in mischief, until July 1836, and then they did suddenly and rigidly check the monetary concerns of the country—pulled it up at once, and threw public credit on its back. When the evil was small, it could easily have been stopped, but they allow, indeed more, they encourage its growth, and then in a moment they proceed to stop it. A curious and instructive fact is stated in the Bankers' Circular, "who could imagine," says the Circular, "that after spending seven months in attempting to adjust the disturbed balance of things, their stock of bullion was reduced from seven to five millions! This fact, says the Circular, is sufficient to show one or other of these two things, either that there is an utter incapacity of the Bank Directors to regulate the currency on the present system, or that the system itself is decidedly bad and impracticable. The latter we believe to be the fact, and that the monopoly of the Bank of England of business within sixty miles all round London as by its charter, in variance with the monetary interests of the community; that it is a most unjust and most mischievous monopoly—that as long as it lasts the monetary and mercantile world will be liable to these derangements, that it has a most oppressive and irresponsible power in crushing the credit of any man, by refusing discounts, and that such monopoly ought to be abolished.

The Circular defies Mr. HORSLEY PALMER, who is called the Atlas of the Bank, to escape from this position, either that the Bank Directors are incompetent men, or their system is impracticable. This in fact in this substance of the whole affair; and the part which the Joint Stock Banks have had in bringing about our cash calamities is very secondary. Col. TORRENS has written a pamphlet on this subject, which has become very distinguished. Horsley Palmer, in a skirmish with him, has come off with the worst. The following are the conclusions drawn at the end of this celebrated work, which we give in the author's own words, that is, Col. TORRENS's.

"That Bank deposits, which may be drawn against at night, perform the functions of money, and all component parts of the general medium of exchange:—

"That a given amount of circulating money becomes the basis of a much larger amount of Bank deposits; or credit money:—

"That the recent disturbance in the money market was occasioned by the error committed by the Directors of the Bank of England, in departing from the principle of leaving the currency to contract or expand under the action of the foreign exchanges:—

"That this error originated in the failure of the Bank Directors to distinguish between effects produced upon the general medium of exchange, by a diminution of their circulation, and by a diminution of their deposits:—

"That if the Bank of England were to regulate its issues of paper by the course of the foreign exchanges the circulations would always remain in the same states, both with respect to amount and to value, in which it would exist were it wholly metallic; and that no overissue of paper by the provincial banks could have any permanent effect in rendering the currency of this country redundant in relation to the currency of other countries:—

"That the interposition of the Bank of England for the purpose of supporting commercial credit, is necessary in those instances only, in which a previous departure from sound principles by the Bank Directors themselves, may have occasioned a sudden contraction of the currency, and have produced a crisis in the money-market."

He then urged a division of employment in the Bank, and proposed a complete separation of the business of issuing notes, from that of discount and deposits, and that the legislature should place the business of regulating the exchanges in the hands of parties responsible to Parliament.—Feb. 28.

COMMERCIAL RETROSPECT.—MARCH 6.

The Money market has presented no novel feature this week, and matters remain much in the same condition as they were. Considerable anxiety has been felt about the numerous bills due on the 4th instant, and we are sorry to learn that considerable sacrifices of property have been made to meet these bills. At the time we are writing it was not known to what extent these bills had been honoured. Discounts have been much as they were last week, ranging from 5 to 10 per cent. according to the character and quality of the bills, and, with the exception of bills of an undoubted good character, there are scarcely any in circulation; and what little business is done, we may say is done well, and we think that this little is on the increase. There has been, and is increasingly, a little more money in circulation, and money does not now flow so much in the direction of the Funds as it did.—Capitalists do not give government securities such a decided preference as they did some time ago—and confidence is returning, although slowly, into its former channels. The consequence of this turn of the tide is, that some sorts of merchandise advance in price, whilst the quotations of the Funds decline. These quotations have been lower this week than last; Consols have fluctuated between 89 1/4 and 90 1/4.—Exchequer Bills from 30 3/4, have declined to 31 2/4, but on Friday they were 32 1/4. Bank Stock has varied little from 207. To-day Consols have been 89 1/4 Money, and 90 Account; Exchequer Bills 26 2/8. Bank Stock shut.

The Bank of England has been more liberal during the past week in discounting commercial bills, particularly American ones, and issued a notice on Thursday that they were ready to lend money, in sums of not less than £2000 each, until the 4th of April, at 5 per cent. per annum. The difference between this notice, and those which have preceded it, is, that the Bank does not say that it will lend Money on Stock or Exchequer Bills. Some small portions of the hard cash which left this country for the United States continue to return.

We have had no failures of great moment this week, and there is evidence now that money matters are gradually though slowly returning to their former channels. This is a little cheering after so much alarm and depression, and we believe that it will slowly progress, and that we shall have a much safer issue out of all our afflictions than many feared and than some hoped; but which we have always held up as the termination of our troubles, and that too when such termination was much further distant than it is now.

COLONIAL OFFICE,

Cape Town, 4th May 1837.

THE following Notice is published for general information, at the request of the Right Honorable the Governor of Bengal:—

LIGHT AT FALSE POINT—BAY OF BENGAL.

NOTICE.

REFERRING to the Notice published from this Office, under date 19th July last, Notice is given, that on the 1st day of March next, a Light will be exhibited at False Point on a Tripod, in Latitude 20° 19' 25" N. and Longitude 86° 48' 8" E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz., on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilots' Station will be continued as heretofore, off Point Palmyras, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude 20° 42' to 20° 48' N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 18 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon above-mentioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel.

Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Saugor Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to 21° 10' North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red Flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyras Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

FOR SALE,

THE celebrated thorough-bred entire Horse "HURRY SCURRY," imported per *Duke of Northumberland*,—vide his performances annexed.

For further particulars, apply to Mr. R. MUTER, Plein-street.

PERFORMANCES OF "HURRY SCURRY."

As this horse, once a clipper on the Calcutta Turf, is about to quit these shores for the Cape of Good Hope, it may not be uninteresting to present a sketch of his performances, as far as they can be gathered from the public prints to which accounts of Races were formerly confined.

Mr. John White's Grey Arab horse *Hurry Scurry*, then a young 4 year old, made his debut on the 20th Dec 1830, at the Calcutta meeting of 1830-31. He, on that occasion won the Great Welter (11st. 7lb. round the course) easy in 3. 40. beating Mr. Dale's *Ali Bey*, Mr. Scott's *Bustle*, and six others. At the same meeting he ran a capital second for the 50 G. M. Sweepstakes, 8st. 7lb. two miles; *Hurry Scurry*, as winner of the Welter, carrying 10lbs. more than his competitors. The race was run in 4m. 12s., and the chronicler of the race remarks (vide *John Bull*, 28 December 1830) had 'he made his run sooner it is generally believed he would have won the race.' On the third day's races (same meeting) *Hurry Scurry* took away a 50 G. M. Sweepstakes, from three competitors, running the Gilbert mile in 1m. 59s. and winning in a common canter. He was the favourite at heavy odds against the field before starting, but there were no takers. The result of the race elicited some comments from the reporter, on his amazing speed and bottom, and he was pronounced the best maiden horse that had ever appeared on the Calcutta course.

We next find mention made of *Hurry Scurry* early in 1832. On the 9th January of that year, he ran a match with *Ali Bey*, a horse of Mr. Dale's that had rapidly risen in reputation since December 1830, and was the favorite at starting. The match was for 100 G. M., two miles, 8st. 7lb., and was won by *Hurry Scurry* with great ease in 4m. 8s. A few days subsequently, his sporting owner made a similar match with *Ali Bey* for 50 G. M., the latter carrying 8st. 3lb. while *Hurry Scurry* put up 8st. 7lbs. This match he likewise won with ease in 4m. 4s.

At the Barrackpore Races, in February 1832, *Hurry Scurry* won the 100 G. M. Sweepstakes, 8st. 7lb. two miles, beating Mr. Grant's *Rhododendron* in 4m. 6s. round the course (1 mile and a quarter, 9 yards short) 3m. 30s. which was considered first rate time. At the same meeting *Hurry Scurry* was beaten by Mr. Dale's *Ali Bey*, (to whom he gave 7lbs. R. C. in 3m. 42s. He, however, redeemed his reputation in March 1832, at the same meeting, by beating *Stumps* in a capital two mile race for 100 G. M.—*Hurry Scurry* carrying 10lbs. more than his gallant little adversary. The race was run in 4m. 5s.

On the fifteenth (!) day of the same meeting *Stumps* had his revanche, beating *Hurry Scurry*, in a race corresponding exactly with the last mentioned, in 4m. 2s.; but on the sixteenth day *Hurry Scurry* gave *Stumps* a stone, and beat him in a 3-mile race, the particulars of which we quote entire:—

'Various were the opinions and intense the interest respecting the issue of this race. There had been a good deal of betting on the double event and the backers of *Stumps* from the circumstance of his having won the 2 mile race, on Saturday last, were placed in the comfortable predicament of winning without the chance of losing. They were also no doubt confident that the weight would tell more in the 3, than the 2 miles race. The backers of *Hurry Scurry* were also confident in the bottom of this superior horse, and the result proved that it was well founded, and we think shewed that it was the fault of the rider and not of the horse that he did not win the 2 mile race. Just as the horses were about to start, *Stumps* bolted off the course and ran outside of it for two or three hundred yards, when his rider pulled him up; they got off well together and ran neck and neck at a slow pace for the first mile and a quarter, when little *Stumps* shot a head and took the inside, the large horse keeping close on his quarter; they ran in this form to the distance,—*Stumps* leading and to all appearance winning, when both were brought to the whip, and *Hurry Scurry* won by a neck in 6m 12s.—The last 2 miles in 4 minutes.'

The last grand feat of the 'subject of our sketch' was a match for 100 G. M., round the Barrackpore course, *Hurry Scurry* carrying 11 stone and little *Stumps* 10st. 7lb. The race was won easy in 3m. 32s., and may be considered as the greatest performance ever achieved by an Arab with such weights. The time was taken by many gentlemen on the race stand, amongst whom were Mr. James Barwell, the Messrs. Grant, Mr. White, the owner of the horse, and Mr. Watt.

In 1833, *Hurry Scurry*, carrying 9st. 9lb., was beaten by Mr. Grant's *Rhododendron*, carrying 8st. 7lb., in a race for a sweepstakes of 25 G. M. each for all Arabs, Gilbert mile. The time was 1m. 59s. *Hurry Scurry* close upon his antagonist. In February 1835 he ran second for the Lincer Cup at Cawnpore, carrying 8 stone, 3 miles. The cup was won by *Salonica* beating three others. Fourteen horses had been entered but ten declared forfeit, and *Salonica*, and *Hurry Scurry*, with *Flash* and *Lord George*, were the only horses which came to the post.

Since then *Hurry Scurry* has been off the Turf, but he continues just such a horse as the breeder would desire to have in his stud.

(Copy.)

THIS IS TO CERTIFY, that the grey Horse shipped by me on board the *Duke of Northumberland*, for the Cape, is a high caste Arab, imported in the year 1829, from *Bushire*, by Capt. EALES, on an Arab Ship; he was purchased by JOHN WHITE, Esq. out of my Stables, who called him "HURRY SCURRY," which name is a familiar one to all Members of the Turf as that of a constant winner.

Sworn at Calcutta Police Office.

this 25th day of February 1837, Before me

(Signed) N. ROBISON, Magistrate.

(Copy.)

Having been requested by Mr. WHITE, the late owner of "*Hurry Scurry*," to state my opinion of this Horse, I have no hesitation in declaring that I think "*Hurry Scurry*" to have proved himself, with reference to speed, bottom and ability of carrying weight, perhaps the best Arab that ever ran in Bengal, not excepting the famous "*Pyramus*." He is an Arab of such high blood that he would be most valuable as a Stallion to any breeder.

Universal Medicine;

INFLAMMATION AND DEATH.

(FROM THE "TIMES" OF SATURDAY, NOV. 28, 1835.)

"Yesterday evening an inquest was held at the Sovereign, Munster-street, Regent's park, before Mr. Stirling, on view of the body of Mrs. Sarah Porter, aged 35, of Clarence gardens, Regent's park. Dr. Johnson, Physician Extraordinary to the King, deposed that he attended the post-mortem examination of the body, and was of opinion that death was occasioned by inflammation of the intestines, brought on by some irritant substance taken internally. Mr. Beale, Surgeon, of Long-acre, deposed, that he had attended the deceased several times. She was a very delicate woman. On the evening of the 29th inst., witness was requested to attend her. On his arrival he found that she was in a state of delirium, and incapable of articulation. On inquiry, witness ascertained that the deceased had taken several doses of "Morison's Pills." She continued to get worse, being violently affected; on the 22d, she became somewhat sensible, complaining of violent pains in the bowels; on the 23d all symptoms became aggravated, and she died on the evening of the same day. Witness concurs in the opinion of Dr. Johnson, that the death of the deceased was caused by inflammation of the intestines, brought on by the administration of some violent medicine. Sarah Paine, servant to the deceased, proved having purchased three separate boxes of "Morison's Pills," at No. 43, Munster-street, which were taken by her mistress in doses of fourteen and sixteen at a time. Other relatives of the deceased were examined, who stated that the deceased was advised to take the pills by a Mrs. Robinson, a neighbour; but she (deceased) becoming worse, they advised her not to take more. The jury severely animadverted on the sale of the pills in question, and after some discussion returned a verdict, "That the deceased died from inflammation of the intestines, caused by taking Morison's Pills."

HEALTH AND HAPPINESS.

"Methinks I've cast full twenty years aside.
"And am again a boy. Every breath
"Of air that trembles through the window bears
"Unusual odour."
PROCTOR—"MIRANDOL."

IMPORTANT TO THE AFFLICTED.

The unprecedented success which has resulted from the adoption of Brandreth's Pills, during a period of upwards of 80 years—the numerous and extraordinary cures which they have performed upon hundreds of individuals; who on they have rescued from almost inevitable death, after they had been pronounced incurable by the most eminent of the faculty—justify the proprietors of this "Original Vegetable Universal Medicine" in warmly and conscientiously recommending it to the especial notice of the public. Unlike numerous Medicines of high pretensions and FATAL EFFECTS—the "kill or cure" nostrums of ignorant empirics—which are daily sent forth to gull and delude the public, these Pills may be taken with perfect safety by even children of the most tender years; the doses being regulated (for which see the Directions accompanying the Medicines) according to the age of the patient. Ignorant pretenders to the science of medicine, in order to increase the consumption of their deadly compounds recommend to their deluded victims doses in a dangerous and almost unlimited quantity!! The result of the overweening confidence of their doubly afflicted patients (who are thus induced to shorten their lives by taking their deadly advice, and swallowing their pills in these fatal quantities) may be traced in the verdicts of Coroners' Juries, who have publicly placed on record their opinions of the effects of Pills, composed of those highly dangerous ingredients, Gamboge and Bitter Aloes, by returning a verdict of manslaughter against the Venders.

ALL diseases arise from the one simple cause—an impurity in the blood, which impedes its circulation by settling on some organ or part, and immediately illness ensues. BRANDRETH'S PILLS correct, purify, and invigorate the blood, causing it to circulate freely; giving to every organ, healthy action. They are the Original Vegetable Medicine and have the highest claims on the patronage of a liberal and discerning Public; Dr. Brandreth, the original discoverer, not having decided on their present formula, until after thirty years' experience and laborious research into the medicinal properties of the numerous plants composing the Vegetable Kingdom; his object being to compose a pill that should at once purify and produce, by a specific action, an equalization of the circulating fluid; and whoever may feel disposed to give these Pills a trial, will, at once, find that this object is attained. They give immediate relief in all constipations of the bowels, spasmodic and bilious affections, flatulency, habitual costiveness, nervous and sick headache, arising from an overloaded condition of the digestive organs, viscera, &c., and the destruction of worms is speedily effected by them. Three or four weeks' use will eradicate scurvy, and all scorbutic humours, erysipelas, or St. Anthony's fire, and all cutaneous affections of the skin; and in diseases of the eyes, paralytic affections, asthma, dropsy, stone and gravel, piles, lumbago, affections of the kidneys, irritation of the bladder, urethra, rectum and spasmodic stricture, they are found invaluable. They also remove the innumerable train of evils to which females are subject at certain periods. Influenza is soon cured by these pills, and liability to it prevented. No mother of a family should be without a constant supply of this Domestic Medicine; they are most effective in their administration to children of the earliest age, when labouring under disease of any kind, especially hooping cough, dentition, measles, scarlet fever, chicken pox, worms, tinea capitis or scald head, and all other eruptive diseases. As a medicine, to all individuals afflicted with either rheumatism or gout, it is truly invaluable; it not only eradicates, but by regularly taking it once or twice a-week, it will, most assuredly, prevent a return. Captains and all voyagers will find this the medicine, without the aid of any other, to prevent costiveness, scurvy, and the various diseases incident to long voyages or foreign

TE KOOP,

HET vermaard thorough-bred Hengst Paard "HURRY SCURRY," ingevoerd per *Duke of Northumberland*, wegens deszelfs daden zie annex.

Om verdere byzonderheden vervoeg men zich by den Hr. R. MUTER, Pleinstraat.

HURRY SCURRY'S DADEN.

Daar dit Paard, voormaals zoo vermaard op de Calcutta Racesbaan, deze gewesten staat te verlaten op deszelfs vertrek naar de Kaap de Goede Hoop, zal het niet belangloos zyn, om eene schets van deszelfs daden te geven, in zoover dezelve byeen vergaderd kunnen worden, uit die Nieuwspapieren, waarby de mededeelingen omtrent Races voormaals zich bepaalden.

De Hr. John White's Grey Arabisch Paard 'Hurricane' toenmaals slechts vier jaren oud, maakte zyne eerste vertooning op den 20 December 1830, ter Calcutta Byeenkomst van 1830—31. By die gelegenheid won hy de "Great Welter" (11st. 7lb. om de Course) gemakkelijk in 3. 40 achter latende 'Ali Bey' van den Hr. Dale, 'Bustle' van den Hr. Scott, en zes andere paarden. In diezelfde byeenkomst was hy, in excellentie styl, het tweede paard voor de 50 G. M. Sweepstakes, 8st. 7lb. twee mylen, hebbende 'Hurricane' als winnaar van de Welter, 10 lb. meer moeten dragen als zyne mededingers. De Race werd afgehoopen in 4m. 12s. en de beschryver van deze Race merkt aan, (zie 'John Bull' 24 December 1830) had hy "spoediger met volle kracht geloopt, zoo is het algemeen gevoelen, dat hy de Race zou hebben gewonnen." Ten derden dage van de Races (dezelfde byeenkomst) won 'Hurricane' een 50 G. M. Sweepstakes, van drie mededingers, loopende de Gilbert myl in 1m. 59s. en winnende in een gewoone gallop. Hy was het favoriet paard; (tegens hewige odds) 'against the field' voor dat zy afzetten, maar niemand wilde tegens hem wedden. De uitslag van de wetloop gaf aanleiding tot remarken van den Rapporteur wegens 'Hurricane's' verwoonderswaardige spoed en kracht in deszelfs onderstel, en men verklaarde hem het beste 'maiden' paard te zyn, dat ooit op de course te Calcutta verschenen was.

Wy vinden vervolgens mentie gemaakt van 'Hurricane', in het eerste gedeelte van 1832. Op den 9den January van dat jaar, liep hy voor eene Weddenschap, tegens 'Ali Bey', een paard van den Hr. Dale, dat seiert December 1830, snel in vermaardheid was gerozen, en die, by het afzetten het favoriet paard was. De weddenschap was voor 100 G. M., twee mylen, 8st. 7lb. en zy werd door 'Hurricane' met groot gemak in 4m. en 8s. gewonnen. Weinige dagen daarna, maakte zyn eigenaar eene gelykstandige weddenschap met 'Ali Bey', voor 50 G. M., de laatstgenoemde slechts 8st. 3lb. dragende, terwijl 'Hurricane' 8st. 7lb. dr eg. Ook deze weddenschap won hy gemakkelijk in 4m. en 4s.

Op de Barrackpore Races, in February 1832, won 'Hurricane' de 100 G. M. Sweepstakes, 8st. 7lb. twee mylen, achterlatende 'Rhodomontade' van den Hr. Grant, in 4m. 6s. om de course (1 myl en een kwart, min 9 yards) 3m. 30s. dat beschouwd werd als den mogelyk kortsten tyd, "first rate time". In diezelfde byeenkomst werd 'Hurricane' overwonnen door 'Ali Bey' van den Hr. Dale (aan wien hy 7lb. gaf) R. C. in 3m. 42s. Hy herwon nogtans zyne reputatie in Maart 1832, in diezelfde byeenkomst, door 'Stumps' in eenen capitalen wetloop van 2 mylen, voor 100 G. M. achter te laten, 'Hurricane' 10lb. meer dragende dan zyn dappere kleine tegenparty. De race werd afgehoopen in 4m. 5s.

Op den vyftienden (!) dag van diezelfde byeenkomst had 'Stumps' zyne r-venge, door 'Hurricane' in een wedloop achter te verpen, volmaakt gelykstaande met de laatstgenoemde in 4m. 2s., maar op den zestienden dag gaf 'Hurricane' aan 'Stumps' een "stone" (14lb.) en won het van hem in eenen 3 mylen race, de byzonderheden waarvan wy in zyn geheel quoteren:—

Verschiedene waren de meeningen en diep de belangstelling nopens den uitslag van dezen wedloop. Er waren vele weddenschappen hangende op den dubbelen uitslag. Die het met Stumps hielden, daar hy de twee myl race op laatstleden Zatur ag gewonnen had, bevonden zich in het aangename predicament van te winnen, zonder de kans van te kunnen verliezen. Zy waren bovendien, zonder twyfel, van gevoelen dat het gewigt grooter onderscheid zou moeten maken in de 3. dan in de 2 myl race. Juist toen de paarden op het punt waren om af te zetten sprong Stumps ter zyde uit de course, en liep buiten dezelve omtrent twee of drie hond rd yards, waarna zyn ruiter hem inhiel; zy kwamen vervolgens wel te zamen af, liepen nek aan nek, op een langzame rand, voor de eerste een en een kwart myl, toen kleine Stumps vooruit snelde en binnenwaards kwam, het groote paard kort langs zyne zeide blyvende; op deze wys kwamen zy tot aan de distance post. Stumps voor, en naar allen aanschyn, winnende, toen men beiden begon te kloppen, en Hurricane, by de lengte van een nek in 6m. en 12s. gewonnen.—De laatste 2 mylen in 4 minuten.

De laatste groote verrijging van het onderwerp onzer schets, was een wetloop van 100 G. M. rond de Barrackpore course, 'Hurricane' 11st., en kleine 'Stumps' 10st. 7lb. dragende. De race werd met gemak gewonnen in 3m. 32s., en mag beschouwd worden als de grootste daal ooit verrigt door een Arabisch Paard, dragende zoo veel gewigt. Observatien nopens den tyd werden door verscheidene heeren op de "Race Stand" genomen, waaronder waren de Hr. James Barwell, de Hr. Grant, de Hr. White, de eigenaar van het paard, en de Hr. Watt.

In 1833 werd 'Hurricane', 9st. 3lb. dragende, achtergeworpen door 'Rhodomontade' van den Hr. Grant, dragende 8st. 7lb., in een wedloop voor een Sweepstake van 25 G. M. elk, open voor alle Arabische Paarden, Gilbert myl. De tyd was 1m. 59s. 'Hurricane' digt achter zyn tegenparty. In February 1835 was hy het tweede paard voor de "Lancer Cup" te Cawnpore, dragende 8st., 3 mylen. De "Cup" werd toen gewonnen door 'Salonica', drie andere paarden achter werpende. Veertien paarden waren geenterd, maar tien verbeurden hunne inlaag zonder te loopen, en 'Salonica' en 'Hurricane' met "Flash" en "Lori George," waren de eenige paarden die tot de post kwamen. Sedert dien tyd heeft 'Hurricane' de Racebaan verlaten, maar hy is nog altyd juist zoo een paard, als de aankommer wenschen kan in zyne stoetery te hebben.

CERTIFICERE BY DEZEN, dat het gryze Hengstpaard, door my geschreept in de "Duke of Northumberland," voor de Kaap, is een Arabier van hoogen afkomst geimporteerd in het jaar 1829, van "Bushire," door Kapitein

EALES, in een Arabisch Schip; hy werd gekocht door den Hr. JOHN WHITE, uit myn Stal, die hem den naam gaf van "HURRY SCURRY," welke naam welbekend is aan alle Leden van de Race Baan, als die van een gedurig winnend paard.

(Geteekend) A. ROUSE, HUNTER, & Co.
Beëdigd te Calcutte Police Kantoor,
heden den 25sten dag van February
1837, Ten mynen overstaan
(Geteekend) N. ROBISON, Magistraat.

[COPY.]

Verzocht zynde door den Hr. WHITE, den voormaligen Eigenaar van "Hurry Scurry," om myne meening nopens dit Paard, op te geven, zoo maakt ik geene zwaarigheid te declareren dat ik geloof dat "Hurry Scurry" betoond heeft, wat aangaatsnelheid, kracht in zyn onderstel, en bekwaamheid om gewigt te dragen, wellicht het beste Arabische Paard te zyn dat ooit in Bengalen geloopt heeft, zelfs niet uitgezonderd het famewse paard "Pyramus." Hy is een Arabier van zoo hooge afkomst, dat hy ten hoogste van waarde zyn zal als een Springhengst voor eenig Aanfokker. (Geteekend) J. WYATT.

COLONIAL OFFICE,

Cape Town, 4th May 1837.

THE following Notice is published for general information, at the request of the Right Honorable the Governor of Bengal:—

LIGHT AT FALSE POINT—BAY OF BENGAL.

NOTICE.

REFERRING to the Notice published from this Office, under date 19th July last, Notice is given, that on the 1st day of March next, a Light will be exhibited at False Point on a Tripod, in Latitude 20° 19' 25" N. and Longitude 86° 48' 8" E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz., on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilots' Station will be continued as heretofore, off Point Palmyras, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude 20° 42' to 20° 48' N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 18 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon above-mentioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel.

Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Saugor Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to 21° 10' North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red Flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyras Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

INFLAMMATION AND DEATH.

(FROM THE "TIMES" OF

SATURDAY, Nov. 28, 1835.)—

"Yesterday evening an inquest
was held at the Sovereign,
Munster-street, Regent's park,
before Mr. Stirling, on view of
the body of Mrs. Sarah Porter,
aged 35, of Clarence gardens,
Regent's park. Dr. Johnson,
Physician Extraordinary to the
King, deposed that he atten-
ded the post-mortem examina-
tion of the body, and was of
opinion that death was occa-
sioned by inflammation of the
intestines, brought on by some
irritable substance taken inter-
nally. Mr. Keale, Surgeon,
of Long-acre deposed, that he
had attended the deceased
several times. She was a very
delicate woman. On the even-
ing of the 21th inst., witness
was requested to attend her.
On his arrival he found that
she was in a state of delirium,
and incapable of articulation.
On inquiry, witness ascertained
that the deceased had taken
several doses of 'Morison's
Pills.' She continued to get
worse, being violently affected;
on the 22d, she became some-
what sensible, complaining of
violent pains in the bowels; on
the 23d all symptoms became
aggravated, and she died on
the evening of the same day.
Witness concurs in the opinion
of Dr. Johnson, that the death
of the deceased was caused by
inflammation of the intestines,
brought on by the administra-
tion of some violent medicine.
Sarah Paine, servant to the
deceased, proved having pur-
chased three separate boxes of
'Morison's Pills,' at No. 43,
Munster-street, which were
taken by her mistress in doses
of fourteen and sixteen at a
time. Other relatives of the
deceased were examined, who
stated that the deceased was
advised to take the pill by a
Mrs. Robinson, a neighbour;
but she (deceased) becoming
worse, they advised her not to
take more. The jury severely
animadverted on the sale of
the pills in question, and after
some discussion returned a
verdict, 'That the deceased
died from inflammation of the
intestines, caused by taking of
Morison's Pills.'

IMPORTANT TO THE AF-

FLECTED.—The unprecedented

success which has resulted

from the adoption of Brand-

reth's Pills, during a period

of upwards of 80 years—the

numerous and extraordinary

cures which they have perform-

ed upon hundreds of individ-

uals whom they have rescued

from almost inevitable death,

after they had been pronounced

incurable by the most

eminent of the faculty—justify

the propriety of this "Ori-

ginal Vegetable Universal Me-

dicine" in warmly and con-

scientiously recommending it

to the especial notice of the

public. Unlike numerous Me-

dicines of high pretensions

and FATAL EFFECTS—the

"kill or cure" nostrums of

ignorant empirics—which are

daily sent forth to gull and

delude the public, these Pills

may be taken with perfect

safety by even children of the

most tender years; the doses

being regulated (for which see

the Directions accompanying

the Medicines) according to

the age of the patient. Ignor-

ant pretenders to the science

of medicine, in order to in-

crease the consumption of their

deadly compounds recommend

to their deluded victims doses

in a dangerous and almost un-

limited quantity!! The result

of the overweening confidence

of their doubly afflicted pa-

tients (who are thus induced

to shorten their lives by taking

their deadly advice, and swal-

lowing their pills in these fatal

quantities) may be traced in

the verdicts of Coroners' Juries,

who have publicly placed on

record their opinions of the

effects of Pills, composed of

those highly dangerous ingre-

dients, Gamboge and Bitter

Aloes, by returning a verdict

of manslaughter against the

Vendors.

ALL diseases arise from the one simple cause—an

impurity in the blood, which impedes its circulation

by settling on some organ or part, and immediately illness

ensues. BRANDRETH'S PILLS correct, purify, and invigo-

rate the blood, causing it to circulate freely; giving to

every organ, healthy action. They are the Original

Vegetable Medicine and have the highest claims on the

patronage of a liberal and discerning Public; Dr.

Brandreth, the original discoverer, not having decided on

their present formula, until after thirty years' experience

and laborious research into the medicinal properties of the

numerous plants composing the Vegetable Kingdom: his

object being to compose a pill that should at once purify

and produce, by a specific action, an equalization of the

circulating fluid; and whoever may feel disposed to give

these Pills a trial, will, at once, find that this object is

attained. They give immediate relief in all constipations

of the bowels, spasmodic and bilious affections, flatulency,

habitual costiveness, nervous and sick headache, arising

from an overloaded condition of the digestive organs, vis-

cera, &c., and the destruction of worms is speedily

effected by them. Three or four weeks' use will eradicate

soury, and all scorbutic humours, erysipelas, or St.

Anthony's fire, and all cutaneous affections of the skin;

and in diseases of the eyes, paralytic affections, asthma,

dropsy, stone and gravel, piles, lumbago, affections of the

kidneys, irritation of the bladder, urethra, rectum and

spasmodic stricture, they are found invaluable. They also

remove the innumerable train of evils to which females are

subject at certain periods. Influenza is soon cured by

these pills, and liability to it prevented. No mother of a

family should be without a constant supply of this Domest-

ic Medicine; they are most effective in their administra-

tion to children of the earliest age, when labouring under

disease of any kind, especially whooping cough, dentition,

measles, scarlet fever, chicken pox, worms, tinea

capitis or scald head, and all other eruptive diseases.

As a medicine, to all individuals afflicted with either

rheumatism or gout, it is truly invaluable; it not only

eradicates, but by regularly taking it once or twice

a-week, it will, most assuredly, prevent a return. Captains

and all voyagers will find this the medicine, without the

aid of any other, to prevent costiveness, scurvy, and the

various diseases incident to long voyages or foreign

climates: it being unalterable by time or any atmospherical change. Brandreth's Pills are also a certain preventive of sea sickness, and are likewise the best medicine preparatory to sea bathing. After free living, three or four of these pills will prevent bilious attacks, and all unpleasant sensations.

THE TESTIMONIAL OF H. W. DEWHURST, Esq.,
THEATRE OF ZOOLOGY, GOWER STREET, EUSTON SQUARE,
DR. BRANDRETH.

My Dear Sir,—As you have requested my candid opinion of your pills, I have much pleasure in stating, that when labouring under a serious illness in August 1831, I took them by your advice, and am happy to say, that their action was, in every way, all that I could desire; and, accordingly, from their use, I date my recovery. I consider them an excellent family medicine.

I remain, my dear Sir, yours truly,
H. W. DEWHURST, F. L. V. S.
Surgeon-Accoucheur, and Professor of Human and Zoological Anatomy, and Corr. Mem. Worcester. Nat. Hist. Society.

From the OXFORD JOURNAL, Aug. 23, 1834.

BRANDRETH'S PILLS.—There are few who do not know that the essence of the food is converted into blood, which so formed, assimilates itself to the various ramifications of the human frame. We take it, therefore, as a clear axiom, that that medicine which makes the blood pure, without weakening the system, must be most excellent; and, as we know Brandreth's Pills to be such a medicine, we recommend them, with confidence, to our friends. Many and high was their testimonials.

From the OXFORD HERALD, August 23, 1834.

On all hands we hear of astonishing cures performed by Brandreth's Pills. Mr. Wilkins, of Magdalen College, was cured by them, of Ulcerated Legs in eleven weeks, which had been bad nine years. They cure by removing all noxious accumulations from the stomach and bowels, and all impurities from the blood, at the same time strengthening the frame: thus restoring the energies both of body and mind. We have ourselves taken them as an antibilious pill, and can, from experience, recommend them as such to our numerous friends.

To be had of every respectable Medicine vendor in the colony in boxes, 2s.—4s. 6d.—6s. 6d.—18s. each.

NOTICE TO THE TRADE.

S. MORDAN & Co. beg to call the attention of the TRADE, and of the Public at large, to the following articles of their manufacture, viz:—

THE PATENT EVER-POINTED PENCIL is an instrument universally allowed to be of the greatest utility, and particularly recommended to the public, when made with that mathematical nicety on which its use depends. The Patentees inform the public that all Pencils having steel points are not of their make; and to avoid all inconvenience the following remarks on purchasing will ensure them a genuine article:—see the Pencil has the name, "S. Mordan and Co., Makers and Patentees," on the body of the case.

LEADS.—The spurious leads are a mixture of common lead-dust and antimony, and of all manner of sizes; they choke up the Pencil-case, and create an unjust prejudice against the genuine article. The proper leads for replenishing the case have on each box a yellow belt, with the word "warranted" on it, and a red sealing-wax impression, bearing the initials "S. M. & Co."

Shopkeepers in provincial towns would do well to observe the above remarks, to prevent their being imposed upon, the public being much inconvenienced in not being supplied with the genuine article.

CEDAR PENCILS.—Artists and others are particularly requested to try their Black Lead Pencils in Cedar, made from the pure Cumberland lead, selected with the greatest care: they have been pronounced, by the most competent judges of the day, the best extant. (See J. D. Harding's Work on Pencil Drawings.) This article is patronized by all the Government offices.

THE PATENT OBLIQUE PEN, the only straight Pen. This peculiarity is owing to the slit being parallel to the angular slope of the writing, which gives it that freedom in use which is unequalled by any other pen by the direction in which both nibs are brought into use at the same time, the writer is not operating upon one edge of the nib, and the contrary edge of the other at the same instant, but upon the square surfaces or points of both together. Both nibs are thus brought into constantly equal wear, and a freedom is secured which no other metal Pen ever possessed. The Patent Oblique Pen is the most perfect hitherto offered.

PATENT TRIPLE-POINTED PEN.—The peculiarity of this Pen, either in its straight or oblique form, is the addition of a third nib, which secures the following advantages:—

1. A certain supply of ink of any kind, uniform with the most rapid writing.

2. The two nibs of the ordinary pen act only as dividers or tracers, while the third nib, pressing upon the paper, conducts and distributes the ink.

3. The third nib renders the same pen capable of writing the boldest text or finest running hand.

4. The third nib retains a larger supply of ink without risk of blotting. (See Laws of Fluids.)

5. The third nib, acting on the slit of the pen, effectually removes the fibres as they are gathered from the paper, thereby removing the greatest impediment to the use of metallic pens.

6. Firmness in use is obtained by the third nib; and at the same time the flexibility is increased, and durability necessarily follows.

* * Use the Improved Joint Holder, made expressly for these Pens.

PORTABLE QUILL PENS.—There are many persons who do not like steel pens; to those the Portable Quill Pens, and Silver Penholder, are particularly recommended. In Boxes containing Fifty and One Hundred.

"S. M. & Co., Makers," are marked on each box, and are warranted, with a yellow belt and wax impression.

COOPER'S PATENT SCENT BOTTLES.—These articles are confidently recommended from their superiority. The advantages derived from this invention are, that the Stopper, from its spherical form, can neither stick, or break in the neck, so constant a complaint against those on the old plan. The Stopper being made of glass never corrodes. They are so perfectly air-tight that they will preserve the most volatile spirits, even ether or ammonia, any length of time. They cause much less trouble in use than any others, the act of removing the cap and stopper being only one operation. They are more durable than any others, from their superiority both in workmanship and material, the silver and gold used in them being very stout, and warranted standard.

Manufactured by S. Mordan & Co.

PATENT TRAVELLING INKS.—S. M. & Co. invite particular attention to their improved Travelling Inks, to which they have adapted the Patent Spherical Stopper, so as to secure all its advantages, while the construction of the case admits of

a glass holding a much larger quantity of ink than those in general use, without increasing its bulk; and at the same time it is protected by a strong case, neatly covered with leather. The improved Stoppers to these Inks remove the objections to the India Rubber Stoppers of the late Mr. Berry, and may be had in all the varieties made by him.

These Inks are also made in wood or ivory, for the pocket.

NEW FOUNTAIN INKSTANDS.—These Inkstands are of a very superior construction to those formerly in use. They present but a small surface of ink to the atmosphere, and comparatively no evaporation takes place; nor can dust accumulate to spoil the ink. The spout is placed at the most convenient angle for dipping the pen; and the ink being of a uniform depth, prevents the pen being spoiled by striking against the glass.

This Inkstand is peculiarly adapted for the writing fluids now in use. They are made of white or coloured glass, either plain or richly cut; and are also mounted with silver caps, which exclude the atmosphere or dust. Each Inkstand has a medalion, with the name S. Mordan & Co. London, on it.

SEVEN GUARDED LOCK.—There are few persons but have property of some kind to secure from prying curiosity or theft. No lock can be secure that has duplicate keys in existence, or that will allow of an impression being taken of the key to produce a facsimile, so easy in all warded and tumbler locks. The most serious robberies have taken place by means of duplicate keys, which allow the dishonest to relock without suspicion; this is fully borne out by the Police Reports. The only lock that gives positive security is the Seven Guarded Lock. The infinite variety of changes of which the key is susceptible, which causes every successive key to differ from all which have preceded it, makes this Lock perfectly secure. An inspection of the machine will justify this assertion.

This Lock is patronized by the Government offices; also at Newgate, Whitecross-street, and Warwick. There is scarcely a banking house in London but have these Locks more or less on their establishment.

LONDON MERCANTILE JOURNAL.

COMMERCIAL RETROSPECT,—MARCH 6.

TEA.—The Tea market looks healthy. The intelligence from Canton, under date the 10th October, received per the *Imogen*, has caused an increased firmness on the part of the importers; these advices state that the shipment of the new seasons' Congous were delayed in consequence of a dispute between the up-country Tea men and the Hong merchants respecting the prices at which Congous should rule in the season then commencing. The former party demanded an advance of nearly £40 per cent. There is no material variation in the quotations.

WOOL.—In the Foreign market the transactions are still on a very limited scale, but in the prices there is no material alteration. There has been rather more inquiry for English Wools both for the home trade and for exportation, with some few sales to the latter at fair prices. The markets continue firm, and are expected to remain so unless some considerable change for the worse takes place in the money market.

OILS.—The demand for all kinds of common Fish Oils still continues very dull, and although the prices are again much lower, the transactions are very trifling and still confined to the immediate wants of the home buyers; 33 tons Seal Oil were offered at public sale and went off heavily at £47 for pale, at £44 10s. for fine straw, and at £33 to £39 for brown; the holders generally of pale are however not disposed to sell at the reduced price of the public sale and require £49 per ton, but no buyers are to be met with.

OILS.—HULL.—In Whale Oil there is no alteration; it remains steady at £55 to £56 per imperial tun.—Gallipoli £60 per imperial tun.—Lined Oil still very dull at 35s to 35s 6d per cwt.—Rape Oil also dull at last prices—brown 47s to 47s 6d—pale 49s to 49s 6d per cwt.

Boxes are still fully worth our last price of £6 per ton, but the trade is not quite so brisk.

YORKSHIRE.—The sales in the cloth-halls at Leeds, on Thursday and Friday last, were unusually limited and heavy, more so than for several weeks past, and there was no improvement in the warehouses. At Huddersfield the market continued flat both for cloth and wool. From Bradford the report is that not less business was done, and that prices continued firm.—The business in the yarn market was considered very good, and previous average prices were fully maintained. There was no improvement in the wool market. At Halifax it has been determined to resume the Saturday market on the 25th of 1 month. The wool market at Wakefield on Friday red flat and prices were reduced.

SILK TRADE.—The Silk trade in the towns eight or ten miles round Manchester has, within the last four months, been in a miserably dull state; weavers, on an average, have not had half employment. Last week and this some of the manufacturers have begun to give out work, especially figured work; many reeds have been given out this week. There is every appearance of the trade stirring, as other kinds of silk weavers have more work than they had a few weeks since.—Other trades have a better prospect than they had a month since, and there is every appearance of a good trade again.

AN IMPORTANT FACT WITH REGARD TO SUGAR.

In the year 1835 there were imported into Europe 455,500 tons of Sugar, and in the year 1836, 482,000 tons. The stock at the end of the year 1835 was 91,000 tons, and at the end of the year 1836, 141,000 tons—and during the year 1836 the consumption decreased 29,600 tons. The cause of this vast increase in imports, and decrease in consumption is to be attributed to the great advance which took place in prices from the latter end of 1835 to August 1836. During this time the advance in prices was from 30 to 40 per cent. Now this statement corroborates the truth, of which we need not to be informed but reminded, that high prices diminish consumption; and it teaches also how politic it is for government to lay low duties on commodities of such general consumption, because the increased consumption at a low duty not only increases the comforts of the people, but makes up all deficiency to the revenue.

The proportion of this diminution of consumption in Great Britain and Ireland was 16,500 tons, and on the whole continent 13,200. This again shows the impolicy of high duties. In Great Britain the duties are much higher than those on any part of the continent.

REDUCTION OF THE DUTY ON MARINE INSURANCES.

This matter has been broached in Parliament by Mr. ROBINSON, the Chairman at LLOYD'S and Member for Worcester. It requires but little penetration to discover that this affair is inseparably connected with Commerce. The facts which originated this movement are the following:—In 1810 the Import trade of this country amounted to £30,406,860; the Export trade to £50,000,963, making a total of £80,707,823, while the estimated value covered by Marine Insurances and included Insurances effected on Shipping and Coasting trade amounted to £194,896,800.—According to official returns the Import trade now amounted to £47,463,609 and the Export trade to £77,932,616, making a total of £125,356,225, while the revenue derived from the Stamp Duty on Marine Insurances being £219,427 is proportionate only to a sum of £150,460,000 which likewise includes the amount of Foreign Commerce, Shipping and Coasting trade. These facts show that the Foreign trade of this kingdom had increased since the year 1810 £44,688,402, while the amount insured in this country had decreased £44,433,800. These are very important facts. In 1814, at Hambro, there was insured (Marc Banco) £41,791,000, and in 1835 (Marc Banco) £195,233,000. In Amsterdam in 1814, Florins 86,450,000 were insured, and in 1835, 82,820,000 Florins. In Antwerp 1821 £741,120 and in 1835 £12,460,000. These facts show that the high duty in this country has driven the business away to Foreign countries where the duty is lower; and this in spite of the decided preference given to British Underwriters for credit and honor. In the United States and in France, there are no duties on Marine Insurances. The British duties on Marine Insurance were reduced in 1830 by LORD VISCOUNT ALTHORPE, but so ineffectual had this reduction been, that now we had the grievous anomaly of an increasing trade and a declining revenue in this particular. Nothing further is necessary to demonstrate the impolicy and folly of continuing these high and mischievous duties, which are contemptible as a matter of revenue, but powerful as an instrument of mischief.

MR. ROBINSON presented a petition from the merchants, ship-owners, and underwriters of the City of London, on this matter to the House of Commons: and numerous other petitions from different ports were also referred to as having been already presented. The City petition was founded on the facts we have now stated, and embodied the sentiments to which we have now given utterance. The facts we have instanced speak for themselves, and may be left to find their own weight.

The government regarded the subject with favor as they are bound to do, it being so clear and so powerful; and the Chancellor of the Exchequer has said that when he opens his Budget, this matter shall be attentively regarded. With this understanding Mr. ROBINSON withdrew his motion, which ran in these words "That a gradual diminution of the Stamp Duties on Commerce and Navigation has demonstrated the fallacy of their continuance, and that it is the duty of this House to repeal or reduce the same."

CALCUTTA.—THE SALT QUESTION.

Probably there is no question more interesting to the great mass of our fellow subjects here, than the supply of salt; and being now in possession of the whole of the minutes of evidence taken before the Select Committee of the House of Commons in the last session, we shall occasionally present to our readers such extracts as seem most worthy of notice, in the hope that as information on the subject becomes generally diffused, the prejudices which have so long opposed the destruction of the monopoly, may at last give way; and an entirely new system be introduced.

Unquestionably the Molunghees might in the first instance be exposed to some inconvenience and privation by the change, as the weavers were by the immense importations of British manufactures; but these are partial drawbacks in comparison with the general benefit, and fall indeed with peculiar lightness in a country abounding with almost exhaustless tracts of land requiring only industry to bring into cultivation.

The first witness examined before the Committee was Mr. William Worthington. He was deputed by the salt trade in Cheshire to support their views on this question, and his evidence on the process of manufacture, and the character and quantity of the raw material, if we may so term it, in that country, is highly interesting.

Q. 10.—Will you explain the nature of the process of making salt; is the process the same in all the salt-works?

A.—Pretty nearly the same.

Q. 11.—Will you explain to the Committee the way in which the rock salt is used?

A.—It is by adding the rock salt to the sea water, to saturate the sea water with salt; it then becomes much the same as the brine pumped up in a state of nature. We have in the neighbourhood of Norwich exhaustless beds of rock salt; in some cases it is got up in a dry state and removed to the sea-coast, where it is added to sea water; and in other instances the day-springs find their way down to the mine below ground, and saturate themselves with the rock salt which nature has given us in that locality. It is then pumped up with the steam-engine, and is much the same as the sea water is after it has been fully saturated with rock salt added to it on the surface, with this exception, that the brine, when it forms itself in a state of nature under ground, becomes as clear as crystal, from the circumstance of its having time to deposit its earthly particles.

Q. 12.—What do you do with the brine?

A.—The brine is then pumped up in a clear state, put into evaporating pans, and brought to a boiling heat as quickly as possible, to 226 degrees of heat. It then forms on the surface a skim, which is taken off, and termed by the manufacturers, skimming the pan; the other impurities, which are not caught on the surface, are taken down to the bottom by the first salt that forms on the surface. All crystals form on the surface, and then deposit by their own weight at the bottom of the evaporating pan. The first crystals so formed, in falling from the surface to the bottom, catch any impurities which are not taken off in the act of skimming; they are then raked out from the bottom of the pan, which is called, clearing the pan; the first formed salt so raked out with the impurities, is either thrown away or sold for agriculture. The heat is then kept up to the boiling state for about eight hours, during which process evaporation is going on, and as evaporation proceeds the liquid is reduced, and the salt of necessity separated.

Q. 14.—The first formed crystal only clears away the mud?

A.—Certainly; after the evaporation has been continued for about eight hours, the principal part of the brine is gone, and the salt is raked out and put into moulds, and placed in the drying stove to make it perfectly dry, and in that state it is sent out for sale, ready for use.

Q. 15.—Do you make fishery salt?

A.—I make all kinds of salt. The kind I have now described is one which is made by the quickest evaporation; the crystal depends entirely upon the heat at which the process is carried on. The next description of salt is the middle-grained. After the brine has been cleared by skimming and raking out the pan, as I stated for the fine salt, the heat is reduced from boiling heat to something nearly boiling heat, and continued for 12 hours, during which period the crystals form on the surface and deposit themselves at the bottom, and are raked out and put into conical baskets, and afterwards dried in the stove, which finished the process.

Q. 16.—Is this the salt so formed, of which you produce a sample?

A.—Yes; this salt is used principally by the Cheshire dairy farmers for their cheese. The common salt is manufactured in the same way as the last mentioned, except that after the brine has been cleared, the heat is reduced to a lower temperature, whereby a larger crystal is obtained.

Q. 17.—Is there a longer time in forming the crystal?

A.—Yes; this process requires 24 hours.

Q. 18.—The lower the heat and the slower the process of forming the crystal, the larger the crystal, is it not?

A.—Yes. There is another description of salt manufactured at a still lower rate of temperature, called Sunday salt, which requires 48 hours in the process. The common salt is generally sold without the expense of being stove-dried, and forms the greatest bulk of our manufactures; this salt is used in salting provisions and in salting fish. There is another salt, called Maldon salt, which is manufactured in the same way as the Cheshire cheese salt, excepting by checking the heat suddenly, it forms in flakes about the thickness and size of wafers.

Q.—What is the advantage of that?

A.—Some noblemen like it on the table; it is very pure, and grinds on the teeth.

Q.—Why is it called Maldon salt?

A.—A description of salt like this was made at Maldon. The large-grained bay salt, termed in Cheshire the large-grained fishery salt, is manufactured by the process of 10 to 14 days; the brine is purified in the same way as for the other kinds of salt, but the heat is reduced to about 100 degrees, by which means the process of evaporation goes on very slowly, and a large and solid crystal is produced. This is considered the purest of all salts made in England.

Q. 22.—What is the real bay salt?

A.—That is produced by solar evaporation.

Q. 23.—Of what description of crystal does the salt produced by evaporation consist?

A.—Very like our large-grained fishery salt, only that the Cheshire bay salt shows the cube in a more perfect state. The bay salt possesses considerably more impurities than the worst of the Cheshire salt. 1,000 parts of Cheshire salt contain 13 parts of impurities, that of St. Ube's 40 parts.

Q. 24.—Are those impurities mixtures of other salts?

A.—I have a table of the impurities of different salts, which I will deliver in.

Q. 27.—Have you ever seen any of the Indian or Ceylon bay salt?

A.—I have not, I have endeavoured very much to get a sample; but I could not procure one. I imagine that it is so impure they never bring it to this country. I have tried to obtain it from the Captains of English vessels returning from India, but I have not been able.—*Hulk. Feb. 11.*

INFLAMMATION AND DEATH.

(FROM THE "TIMES" OF SATURDAY, NOV. 28, 1835.)

"Yesterday evening an inquest was held at the Sovereign, Munster-street, Regent's park, before Mr. Stirling, on view of the body of Mrs. Sarah Porter, aged 35, of Clarence gardens, Regent's-park. Dr. Johnson, Physician Extraordinary to the King, deposed that he attended the post-mortem examination of the body, and was of opinion that death was occasioned by inflammation of the intestines, brought on by some irritable substance taken internally. Mr. Keale, Surgeon, of Long-acre, deposed, that he had attended the deceased several times. She was a very delicate woman. On the evening of the 22nd inst., witness was requested to attend her. On his arrival he found that she was in a state of delirium, and incapable of articulation. On inquiry, witness ascertained that the deceased had taken several doses of 'Morison's Pills.' She continued to get worse, being violently affected; on the 22d, she became somewhat sensible, complaining of violent pains in the bowels; on the 23d all symptoms became aggravated, and she died on the evening of the same day. Witness concurs in the opinion of Dr. Johnson, that the death of the deceased was caused by inflammation of the intestines, brought on by the administration of some violent medicine. Sarah Paine, servant to the deceased, proved having purchased three separate boxes of 'Morison's Pills,' at No. 43, Munster-street, which were taken by her mistress in doses of fourteen and sixteen at a time. Other relatives of the deceased were examined, who stated that the deceased was advised to take the pills by a Mrs. Robinson, a neighbour; but she (the deceased) becoming worse, they advised her not to take more. The jury severely animadverted on the sale of the pills in question, and after some discussion returned a verdict, 'That the deceased died from inflammation of the intestines, caused by taking Morison's Pills.'

HEALTH AND HAPPINESS.

"Methinks I've cast full twenty years aside, And am again a boy. Every breath Of air that trembles through the window bears Unusual odour." PROCTOR—"MIRANDOL."

IMPORTANT TO THE AFFLICTED. The unprecedented success which has resulted from the adoption of Brandreth's Pills, during a period of upwards of 80 years—the numerous and extraordinary cures which they have performed upon hundreds of individuals whom they have rescued from almost inevitable death, after they had been pronounced incurable by the most eminent of the faculty—justify the proprietors of this "Original Vegetable Universal Medicine" in warmly and conscientiously recommending it to the especial notice of the public. Unlike numerous Medicines of high pretensions and FATAL EFFECTS—the "kill or cure" nostrums of ignorant empirics—which are daily sent forth to gull and delude the public, these Pills may be taken with perfect safety by even children of the most tender years; the doses being regulated (for which see the Directions accompanying the Medicines) according to the age of the patient. Ignorant pretenders to the science of medicine, in order to increase the consumption of their deadly compounds recommend to their deluded victims doses in a dangerous and almost unlimited quantity!! The result of the overweening confidence of their doubly afflicted patients (who are thus induced to shorten their lives by taking their deadly advice, and swallowing their pills in these fatal quantities) may be traced in the verdicts of Coroners' Juries, who have publicly placed on record their opinions of the effects of Pills, composed of those highly dangerous ingredients, Gamboge and Bitter Aloes, by returning a verdict of manslaughter against the Vendors.

ALL diseases arise from the one simple cause—an impurity in the blood, which impedes its circulation by settling on some organ or part, and immediately illness ensues. BRANDRETH'S PILLS correct, purify, and invigorate the blood, causing it to circulate freely; giving to every organ, healthy action. They are the Original Vegetable Medicine and have the highest claims on the patronage of a liberal and discerning Public; Dr. Brandreth, the original discoverer, not having decided on their present formula, until after thirty years' experience and laborious research into the medicinal properties of the numerous plants composing the Vegetable Kingdom: his object being to compose a pill that should at once purify and produce, by a specific action, an equalization of the circulating fluid; and whoever may feel disposed to give these Pills a trial, will, at once, find that this object is attained. They give immediate relief in all constipations of the bowels, spasmodic and bilious affections, flatulency, habitual costiveness, nervous and sick headache, arising from an overloaded condition of the digestive organs, viscera, &c., and the destruction of worms is speedily effected by them. Three or four weeks' use will eradicate scurvy, and all scorbutic humours, erysipelas, or St. Anthony's fire, and all cutaneous affections of the skin; and in diseases of the eyes, paralytic affections, asthma, dropsy, stone and gravel, piles, lumbago, affections of the kidneys, irritation of the bladder, urethra, rectum and spasmodic stricture, they are found invaluable. They also remove the innumerable train of evils to which females are subject at certain periods. Influenza is soon cured by these pills, and liability to it prevented. No mother of a family should be without a constant supply of this Domestic Medicine; they are most effective in their administration to children of the earliest age, when labouring under disease of any kind, especially hooping cough, dentition, measles, scarlet fever, chicken pox, worms, tinea capitis or scald head, and all other eruptive diseases. As a medicine, to all individuals afflicted with either rheumatism or gout, it is truly invaluable; it not only eradicates, but by regularly taking it once or twice a-week, it will, most assuredly, prevent a return. Captains and all voyagers will find this the medicine, without the aid of any other, to prevent costiveness, scurvy, and the various diseases incident to long voyages or foreign

climates: it being unalterable by time or any atmospherical change. Brandreth's Pills are also a certain preventive of sea sickness, and are likewise the best medicine preparatory to sea bathing. After free living, three or four of these pills will prevent bilious attacks, and all unpleasant sensations.

THE TESTIMONIAL OF H. W. DEWHURST, Esq.
THEATRE OF ZOOLOGY, GOWER STREET, EUSTON SQUARE,
DR. BRANDRETH.
My Dear Sir,—As you have requested my candid opinion of your pills, I have much pleasure in stating, that when labouring under a serious illness in August 1831, I took them by your advice, and am happy to say, that their action was, in every way, all that I could desire; and, accordingly, from their use, I date my recovery. I consider them an excellent family medicine. I remain, my dear Sir, yours truly,
H. W. DEWHURST, F. L. V. S.
Surgeon-Accoucheur, and Professor of Human and Zoological Anatomy, and Corr. Mem. Worces. Nat. Hist. Society.

From the OXFORD JOURNAL, Aug. 23, 1834.
BRANDRETH'S PILLS.—There are few who do not know that the essence of the food is converted into blood, which so formed, assimilates itself to the various ramifications of the human frame. We take it, therefore, as a clear axiom, that that medicine which makes the blood pure, without weakening the system, must be most excellent; and, as we know Brandreth's Pills to be such a medicine, we recommend them, with confidence, to our friends. Many and high was their testimonials.

From the OXFORD HERALD, August 23, 1834.
On all hands we hear of astonishing cures performed by Brandreth's Pills. Mr. Wilkins, of Magdalen College, was cured by them, of Ulcerated Legs in eleven weeks, which had been bad nine years. They cure by removing all noxious accumulations from the stomach and bowels, and all impurities from the blood, at the same time strengthening the frame: thus restoring the energies both of body and mind. We have ourselves taken them as an antibilious pill, and can, from experience, recommend them as such to our numerous friends.

To be had of every respectable Medicine vendor in the colony in boxes, 2s.—4s. 6d.—6s. 6d.—18s. each.

NOTICE TO THE TRADE.

S. MORDAN & Co. beg to call the attention of the TRADE, and of the Public at large, to the following articles of their manufacture, viz:—

THE PATENT EVER-POINTED PENCIL is an instrument universally allowed to be of the greatest utility, and particularly recommended to the public, when made with that mathematical nicety on which its use depends. The Patentees inform the public that all Pencils having steel points are not of their make; and to avoid all inconvenience the following remarks on purchasing will ensure them a genuine article:—see the Pencil has the name, "S. Mordan and Co., Makers and Patentees," on the body of the case.

LEADS.—The spurious leads are a mixture of common lead-dust and antimony, and of all manner of sizes; they choke up the Pencil-case, and create an unjust prejudice against the genuine article. The proper leads for replenishing the case have on each box a yellow belt, with the word "warranted" on it, and a red sealing-wax impression, bearing the initials "S. M. & Co."

Shopkeepers in provincial towns would do well to observe the above remarks, to prevent their being imposed upon, the public being much inconvenienced in not being supplied with the genuine article.

CEDAR PENCILS.—Artists and others are particularly requested to try their Black Lead Pencils in Cedar, made from the pure Cumberland lead, selected with the greatest care: they have been pronounced, by the most competent judges of the day, the best extant. (See J. D. Harding's Work on Pencil Drawings.) This article is patronized by all the Government offices.

THE PATENT OBLIQUE PEN, the only straight Pen. This peculiarity is owing to the slit being parallel to the angular slope of the writing, which gives it that freedom in use which is unequalled by any other pen by the direction in which both nibs are brought into use at the same time, the writer is not operating upon one edge of the nib, and the contrary edge of the other at the same instant, but upon the square surfaces or points of both together. Both nibs are thus brought into constantly equal wear, and a freedom is secured which no other metal Pen ever possessed. The Patent Oblique Pen is the most perfect hitherto offered.

PATENT TRIPLE-POINTED PEN.—The peculiarity of this Pen, either in its straight or oblique form, is the addition of a third nib, which secures the following advantages:—

1. A certain supply of ink of any kind, uniform with the most rapid writing.
2. The two nibs of the ordinary pen act only as dividers or tracers, while the third nib, pressing upon the paper, conducts and distributes the ink.
3. The third nib renders the same pen capable of writing the boldest text or finest running hand.
4. The third nib retains a larger supply of ink without risk of blotting. (See Laws of Fluids.)
5. The third nib, acting on the slit of the pen, effectually removes the fibres as they are gathered from the paper, thereby removing the greatest impediment to the use of metallic pens.
6. Firmness in use is obtained by the third nib; and at the same time the flexibility is increased, and durability necessarily follows.

* * * Use the Improved Joint Holder, made expressly for these Pens.

PORTABLE QUILL PENS.—There are many persons who do not like steel pens; to those the Portable Quill Pens, and Silver Penholder, are particularly recommended. In Boxes containing Fifty and One Hundred.

"S. M. & Co., Makers," are marked on each box, and are warranted, with a yellow belt and wax impression.

COOPER'S PATENT SCENT BOTTLES.—These articles are confidently recommended from their superiority. The advantages derived from this invention are, that the Stopper, from its spherical form, can neither stick, or break in the neck, so constant a complaint against those on the old plan. The Stopper being made of glass never corrodes. They are perfectly air-tight that they will preserve the most volatile spirits, even ether or ammonia, any length of time. They cause much less trouble in use than any others, the act of removing the cap and stopper being only one operation. They are more durable than any others, from their superiority both in workmanship and material, the silver and gold used in them being very stout, and warranted standard.

Manufactured by S. Mordan & Co.
PATENT TRAVELLING INKS.—S. M. & Co. invite particular attention to their improved Travelling Inks, to which they have adapted the Patent Spherical Stopper, so as to secure all its advantages, while the construction of the case admits of

a glass holding a much larger quantity of ink than those in general use, without increasing its bulk; and at the same time it is protected by a strong case, neatly covered with leather. The improved Stoppers to these Inks remove the objections to the India Rubber Stoppers of the late Mr. Berry, and may be had in all the varieties made by him.

These Inks are also made in wood or ivory, for the pocket.
NEW FOUNTAIN INKSTANDS.—These Inkstands are of a very superior construction to those formerly in use. They present but a small surface of ink to the atmosphere, and comparatively no evaporation takes place; nor can dust accumulate to spoil the ink. The spout is placed at the most convenient angle for dipping the pen; and the ink being of a uniform depth, prevents the pen being spoiled by striking against the glass.

This Inkstand is peculiarly adapted for the writing fluids now in use. They are made of white or coloured glass, either plain or richly cut; and are also mounted with silver caps, which exclude the atmosphere or dust. Each Inkstand has a medalion, with the name S. Mordan & Co. London, on it.

SEVEN GUARDED LOCK.—There are few persons but have property of some kind to secure from prying curiosity or theft. No lock can be secure that has duplicate keys in existence, or that will allow of an impression being taken of the key to produce a facsimile, so easy in all warded and tumbler locks. The most serious robberies have taken place by means of duplicate keys, which allow the dishonest to unlock without suspicion; this is fully borne out by the Police Reports. The only lock that gives positive security is the Seven Guarded Lock. The infinite variety of changes of which the key is susceptible, which causes every successive key to differ from all which have preceded it, makes this Lock perfectly secure. An inspection of the machine will justify this assertion.

This Lock is patronized by the Government offices; also at Newgate, Whitecross-street, and Warwick. There is scarcely a banking house in London but have these Locks more or less on their establishment.

Patent Joint Penholders, in Silver and Gold.
A new Guide Penholder, in Silver, much approved of.
Patent Parisian Spring Penholder, and Short Pens for do.
Gold Pens with Perpetual Points.
Fire-proof Deed-boxes, &c.
Iron Chests and Bookcases.
Iron Doors for Strong Rooms.
Lump Inks, Cone Inks, and Glass Inkstands of every description.
Toilet-bottles, Pastile-burners, Rose-water Bottles, &c.
Smelling-bottles, mounted in Silver and Gold, with S. M. and Co.'s Improved Conical Stopper.
Soda-water Machines, &c. &c.

S. M. & Co. also inform the Trade that they have now in the course of manufacture several entirely new and useful articles, which will be laid before them with all possible dispatch.

CAUTION.—As imitations have been made of many of their articles, observe, that each bears the name of S. Mordan and Co., Makers, London.

Manufactory, 22, CASTLE-STREET, near FINSBURY SQUARE, LONDON.

N.B.—S. MORDAN will be happy to advise persons taking out Patents for new Inventions, as to the best mode of manufacturing and laying the same before the Trade.

Sold by A. S. ROBERTSON, of Cape Town,
By whom ORDERS for any articles made by S. MORDAN will be received, and executed promptly.

Wynberg, 29th May 1837.

To Colonel The Hon. J. HARE, C. B. & K. H.

SIR,—We, the Undersigned, Inhabitants of Wynberg and its vicinity, beg to offer to you, the Officers, and Soldiers, of His Majesty's Troops under your command, our warmest and most grateful thanks for the timely and effectual assistance rendered to us and to the other Inhabitants of this neighbourhood, in extinguishing the fire in the outskirts of this village, on the night of the 26th inst., which at one particular period, owing to the violence and direction of the wind, was of so alarming a nature, as to threaten a considerable portion of this interesting village with destruction.

Whilst we are fully sensible, and most grateful, for the activity and zeal displayed by many of our most respectable neighbours, for their able assistance, at the early stage of this fire, when the houses of Mr. Steuart, Colonel Rogers, Mrs. Williams, Mr. Hamilton, Mr. Van Oudtshoorn, Capt. Hare, and Colonel MacKenzie, were in the most imminent danger, we feel equally assured that, in the absence of the Military, its progress could not have been arrested without its being productive of a far greater degree of mischief, more especially, in the destruction of the property of Mr. Dreyer.

And, when, moreover, we reflect on the promptitude with which our solicitation to you for Military aid, was complied with, unaccompanied as it was by official forms, as well as on the alacrity, with which, it appears, your orders to march to our assistance were obeyed by the Troops, and, still more, on the rapidity of that march, which, we understand, was accomplished within a period not much exceeding the scarcely credible short space of one hour,—it is impossible for us not to admire the high state of discipline and good conduct of the Troops under your command, which alone could have led to so extraordinary a result, nor, can we, under these circumstances, fail to be impressed with the highest sense of gratitude to yourself in particular, for the promptitude and zeal, with which the good qualities of the Officers and Soldiers under your command were enlisted in our service on this particular occasion; and more especially for your valuable personal Superintendence on the spot. We have the honor to be, Sir,

Your very obliged and
obedient humble Servants,

Cape Castle, 30th May 1837.

GENTLEMEN.—In doing myself the honor of acknowledging the receipt of your address of yesterday's date, conveying your thanks for the timely aid afforded by the Troops in this Garrison, in extinguishing the fire at Wynberg on the 26th inst., allow me to assure you, that it is a subject of proud satisfaction to me, as it is to them, to learn from an address so numerous and respectfully signed, that our exertions on that occasion have proved effectual, and that the zeal and promptitude evinced by the soldiers in the performance of that duty have called forth your approbation, as also that of His Excellency the Governor.

I have the honor to be, Gentlemen,

Your very obedient humble Servant,

(Signed) J. HARE, Colonel,
Lt. Col. Commanding 27th Regt.
and Commandant.

To J. MARSHALL, Esq. and Inhabitants of Wynberg.

[ADVERTISEMENT.]

Alphen, Wynberg, 31st May 1837.

Mr. THOMAS FREDERIK DREYER, Sr. feels himself bound publicly to acknowledge the valuable services rendered to him by the Officers and Privates of the 27th Regiment, and by the Inhabitants of his Neighbourhood, who were so kind as to lend their aid in extinguishing the Fire which was conveyed to his Estate *Alphen*, on the morning of the 26th instant.

The loss sustained by Mr. DREYER is considerable, but it would have been irreparable without the timely assistance so afforded.

To the unremitting and unparalleled exertions of those who were engaged in subduing the Fire, which raged with great violence from 2 o'clock on Friday morning last, until 5 o'clock in the afternoon of the same day, Mr. DREYER is indebted, under divine providence, for the preservation of his Estate.

Mr. DREYER considers it, therefore, an imperative duty to express his warmest and most grateful thanks to the persons who assisted him on the occasion, and he takes leave to record the names of the following individuals to whom he is under the deepest obligations, viz:

Colonel HARE, Officers, and Privates of His Majesty's 27th Regiment.
Lieut.-Colonel CLOETE, Town Major.
P. B. BORCHERS, Esquire, Civil Commissioner of the Cape District.

The gentlemen residing in the immediate Neighbourhood and the other Inhabitants of Wynberg and Constantia.

CAPE OF GOOD HOPE HORTICULTURAL AND AGRICULTURAL CALENDAR.

JUNE.—This month is generally fine, with frequent showers; the south-east wind is seldom felt, the north and north-west winds prevail.

Kitchen Garden.—The several crops mentioned last month may be continued to be sown, but little progress must be expected in their growth if this month prove cold and wet. Fall crops, however, of radish, lettuce, and small salads, should be sown at intervals, according to the demand for them. Horse-radish may be planted either in this or the two following months; it requires a light and deep soil, and to be kept free from weeds. Medicinal, sweet, and pot herbs, may now be planted out, by dividing the roots or by slips and cuttings; a good dressing of manure should be applied, and in dry weather they will require water.

European cabbage, Savoy cabbage, and red cabbage, must be planted out in good dry ground; the Savoy, if the plants are strong, may be planted between the rows of potatoes, now finally earthed up; this method saves much labour and ground; if the ground requires it, a portion of dung may be placed on the spot where the plant is to be dibbled in, a little soot may be added, to deter the approach of the grub, most active at this season.

Nursery or Orchard.—Acorns ought to be gathered when ripe, and planted immediately; those which fall from the trees are frequently dry and unfit for planting; if no selection of seed has been made, or the planting delayed, it must not be neglected beyond this month, and choose such acorns as are of a dark brown colour, rejecting those which are pale. The pine or fir sown in March are now making their appearance, and should be kept free from weeds. This is the most favourable season for transplanting trees of every description; fir or pine should not be delayed beyond the middle of the month. The planting of trees should be effected in cloudy or rainy weather, and if the natural soil is not suitable to trees planted for particular purposes, the holes may be dug deeper, and a few green boughs placed in the bottom, covering them with a richer soil, and filling up with such compost as the nature of the tree requires.

Flower Garden.—New plantings of roses, by suckers or cuttings, may now be made, and fresh horse-dung applied to the roots. The Provence and other European roses should be pruned pretty close; the yellow rose must be allowed to remain without pruning, or no flowers will be produced.

Farm.—The calving and yearning season continues. Attention must be paid to the live fences, particularly where gaps require filling up by the planting of native or other trees. A principal crop of tobacco must be sown during this or the next month. To form and prepare the seed-bed for this crop, mark off the ground at four feet wide, and of any convenient or requisite length, a light rich soil is necessary, and to render it more so, a mixture of decayed leaves and rotten dung must be unsparingly applied, and if the soil should be loamy, wood-ashes may be added; the bed must be dug pretty deep, and sown the seed as thinly as possible, raking it in with a finer rake, and gently patting it down with the back of the spade or a board, this is to prevent the seeds being washed out by heavy rains; the plants must be kept free from weeds, and when they have about four leaves they are large enough for planting out, this must be performed, if possible, in cloudy or showery weather, placing the plants at not less than three feet distance from each other; and in June, or thus $\begin{smallmatrix} \circ & \circ & \circ \\ \circ & \circ & \circ \\ \circ & \circ & \circ \end{smallmatrix}$, which does not permit the leaves of one plant to rub those of another. During the progress of the crop the weeds must be kept down by repeated hoeings, and upon the plants showing ten or twelve leaves the top must be pinched off, after which, the side shoots will appear at the base of the leaves, these also must be pinched off to divert the nourishment of the plant to the reserved leaves. The proper time for securing the crop is known by the succulency of the leaf and its cracking upon being folded; the cutting should be effected in dry weather, and the whole process of drying must be done under the shelter of a roof or in an open airy building, drying the leaves in the sun in this country is injurious, it is apt to scorch them and render them brittle, where toughness in the leaf is an object most desirable; the exposure to the sun, by too quick drying, retains a portion of the green colour and causes an unpleasant flavour, too common in the ordinary Cape tobacco.

Fruits in the Market.—Apples, pears, medlars, jambos, oquat, lemon, shaddocks, and citron.

PROCLAMATION

By His Honor ANDRIES STOCKENSTROM, Esquire, Lieutenant-Governor of the Eastern Division of the Colony of the Cape of Good Hope.

WHEREAS by Proclamation bearing date the Tenth day of May 1835, His Excellency Major-General Sir BENJAMIN D'URBAN, K.C.B. and K.C.H. Governor and Commander-in-Chief of the Colony of the Cape of Good Hope, &c. &c. did, for divers reasons, in the said Proclamation set forth, proclaim, and declare, that "the Eastern Boundary of the Colony of the Cape of Good Hope, is henceforward extended Eastward to the Right Bank of the Kei River."

And, whereas, by a subsequent Proclamation of His Excellency the said Governor, bearing date the 16th day of June 1835, the said Boundary was declared to be a Line commencing at the Source of the Kei River, in the Stormberg Mountains, and thence along that River to the Sea.

And, whereas, by Proclamation bearing date the fourteenth day of October 1835, His Excellency the said Governor, did proclaim and declare the Northern Eastern Boundary of the Colony, to be "a Line drawn from the aforesaid Source of the Kei River, in the Stormberg Range of Mountains to the Source of the Kraai River, on the Northern side of the same Range of Mountains, thence down the left Bank of the Kraai, to its confluence with the Orange River, and thence down the latter until it joins the Stormberg River hitherto the Boundary of the Colony."

And, whereas, by Treaties bearing date the Seventeenth day of September 1835, entered into between His Excellency the said Governor on the one side, and the Caffer Chiefs Macomo, Tyalie, Eno, Kusia, Fadani, Umhali, Tyolo, Gazelle, Pato, Kama, and Cobus, on the other side, the said Chiefs and their Tribes became Subjects of His Britannic Majesty.

And, whereas, His said Majesty has been pleased to direct, that His Majesty's Sovereignty over the said Territory annexed to the said Colony by the above-cited Proclamations, and the Allegiance of the said Chiefs and Tribes be renounced.

I hereby on the part of His said Majesty renounce the same accordingly, as I do repeal the above recited Proclamations, and Annul the said Treaties, and the same are hereby Repealed and Annulled.

GOD SAVE THE KING!

Given under my Hand and Seal at King William's Town, this Fifth day of December 1836.

Acting Secretary.

TREATY

ENTERED into between ANDRIES STOCKENSTROM, Esquire, Lieutenant-Governor of the Eastern Division of the Colony of the Cape of Good Hope, on the part of His Britannic Majesty, and the Caffer Chiefs of the Tribe of GAIKA, viz.

SANDILE, (represented by his Mother SUTU.)

MAGOMO,
TYALIE,
BOTMA, and
ENNO,

for themselves, and the said Tribe; when, after several preliminary discussions on various occasions, and the fullest explanations, by means of the official Interpreter Mr. THEOPHILUS SILVERSTONE, assisted by

Interpreters of the said Chiefs' own choosing, the following Articles of Convention were fully agreed upon, in the presence of HOUGHAM HUDSON, Esq. Agent General; and CHARLES LENNON SRETCH, Esq. JOHN MITFORD BOWKER, and RICHARD SOUTHEY, Esqrs. Resident Agents for the Caffer Tribes,—as also several Caffer Chiefs, and Councillors;—subject nevertheless to the ratification by or on behalf of His said Majesty.

Article 1. There shall be Peace and Amity for Ever, between His said Britannic Majesty, His Subjects—particularly those of the said Colony—and the Caffer Nation,—and both parties shall honestly and faithfully use their utmost endeavours to prevent a rupture of the same, to remove every cause for disagreement, which may occur, and scrupulously to abide by the Engagements contained in this Treaty.

2. The Boundary between the said Colony, and the Territory restored to the Caffers by Proclamation of this day, is, and shall be understood to be, that which was agreed upon between the then Governor, Lord CHARLES SOMERSET, and the Caffer Chief GAIKA, in the year 1819, viz.—The Keiskamma River from its mouth up to its junction with the Chumie River, thence the latter River up to where it touches a Ridge of high land which is connected with the Cat Berg, and which separates the waters which fall into the Chumie from those which fall into the Cat River, thence the said Ridge to its junction with the Cat Berg, thence the Cat Berg itself, and the high ground and ridges which connect it with the Luheri or Gaiika's Peak, and the great Chain of the Winterberg, up to the Winterberg's highest point;—thus, including within the Colony all the branches of the Cat and Gonappe Rivers, up to their extreme sources, and including in Caffraria all the branches of the Chumie; and in order to prevent all doubt, or dispute for the future, as to the said Ridge from the Cat Berg to the Chumie, the said Contracting Parties have on the 28th and 29th ultimo, gone over the ground together, and in the presence of Lieutenant WILLIAMS, of the Royal Engineers, who will carefully mark the said Boundary on the Map, as also in the presence of the Resident Agent SRETCH, and several Caffer Chiefs, who will cause conspicuous Beacons to be erected on the spot, where the said Ridge touches the Chumie—as also, where the Western Boundary of the Ceded Territory referred to in Article 8 of this Treaty, joins the said Ridge, and in more minutely defining the said Line, the highest part of the said Ridge shall be taken, from which the waters take their natural course, either into the Chumie above said first mentioned Beacon, or into the Cat River.

3. The said contracting Chiefs do for themselves, their Tribe, and their Heirs and Successors, acknowledge the Right of full Sovereignty of His said Britannic Majesty, over the Territory to the West of the said Line, renouncing for ever all claim, which they, the said Chiefs, or Tribe, may ever have had, or supposed to have had, to the same, or any part thereof.

4. The said Contracting Chiefs therefore accept as a special mark of His said Majesty's grace and favour, any part of the Territory between the Keiskamma and the Cat River, as a Loan, to be by them, or their Tribe, or any part thereof held, upon such terms, and to such extent, as shall be laid down by, or on the part of, His said Majesty, which terms shall be incorporated in this Treaty; they, the said Chiefs, promising at no period ever to lay claim to the possession, or occupation of any other part of the Territory, known by the name of the Ceded Territory, except such part as shall be allotted to them in the manner hereinabove stated.

5. The said Lieutenant-Governor doth hereby, in the name of His said Majesty, grant unto the said Chiefs and their Tribe, that part of the said Territory called the Ceded Territory, to be specified at the foot of this Treaty, according to a Map to be formed by a competent officer, and to be hereunto annexed, which Territory shall be held by the said Chiefs and Tribe, their Heirs and Successors, in perpetuity, never to be reclaimed by or on behalf of His said Majesty, except in case of hostility committed, or a war provoked by the said Chiefs, or Tribe, or in case of a breach of this Treaty, or any part thereof, and for which breach satisfaction or redress shall not be otherwise given or obtained.

6. The said Contracting Chiefs and their Tribe shall in the said Territory so granted unto them enjoy the full and entire Right to adopt or adhere to the Caffer Laws, or any other Law, which they may see fit to substitute, as also to expel or exclude from the same any person whom they do not think proper to admit, or retain, and with the excep-

tion of the contingencies of hostility, war, or breach of these Treaties, specified in the foregoing Article 5, the Right of His said Majesty to the dominion over the said Territory shall in no way be exercised therein, any more than in any part of Caffraria itself, subject however to the restrictions and conditions specified in the following Article.

7. His Majesty reserves his right of stationing Troops, and building Forts in the said Territory, and availing himself for that purpose of all the facilities and materials within the same, as also to appropriate a certain necessary space round said Forts, to be regularly marked out for the use thereof;—also to keep open the communication with and between said Forts, and to send supplies to the same, but no patrolling through, or scouring of the said Territory is to be permitted to the said Troops, who are not to deviate from the said lines of communication, or in any way to molest, disturb, or interfere with the inhabitants.

8. The country to be occupied and inhabited by British Subjects will be bounded on the Caffer side by the Chain of Mountains and Ridge of high land particularised in the 2d Article of this Treaty, from the highest point of the Winterberg, to where said Ridge approaches nearest to Fort Beaufort, on the spot marked by the Beacon, as specified in Article 2 of this Treaty, and to be laid down in the Map, as there agreed;—from this spot along a Ridge, which divides the waters which fall into the Cat River above Fort Beaufort from those which fall into the said River below the said Fort, keeping this Ridge until it joins the first Rivulet below the said Fort, as marked in the said Map, and thence the said Rivulet itself to its junction with the said Cat River, and thence the course of the Cat River to its junction with the Great Fish River, and thence the latter River to its mouth.

9. No Caffer, armed or unarmed, single or in number, male or female, shall be allowed to cross the Boundary line particularised in the foregoing Article 8, Westward, and no British Subject, armed or unarmed, single or in number, shall be allowed to cross the same Eastward, except with permission, and under the restriction hereinafter to be specified in Articles 14 and 21, save and except the Military parties or escorts communicating with, and between the Posts mentioned in Article 7 of this Treaty.

10. The said Contracting Chiefs shall, when called upon by the said Lieutenant-Governor, and previous to the occupation of any part of the Territory thus granted to them,—with the concurrence of the said Lieutenant-Governor, or person appointed by him, fix upon certain points in their said Territory, as near to the said Boundary line particularised in Article 8, and to each other as convenient, at each of which they shall station a Chief or responsible man of the Tribe, to be called for the sake of distinction "Pakati," to reside there; and to act as a guard.

It shall be the duty of such Amapakati to keep a good and constant understanding with the Commanding Officer of the Military Post on the Colonial side of the said Boundary, which shall be nearest to their said Residences, and to do every thing in their power to prevent inroads or aggressions, either on the part of the Colonists against the Caffers, or of the Caffers against the Colonists.

The Amapakati, who shall be so stationed, must by the said Contracting Chiefs be made known, by name, to the Officer commanding the Military Post nearest to such Station, and any change, either of person or station, which may take place with reference to the said Amapakati, must be previously communicated to the said officer.

The Amapakati must be responsible to their own Chiefs, who will see the necessity of selecting for such stations trust-worthy men, and to punish every neglect, fraud, and deception, which they may commit, as the said Contracting Chiefs hereby pledge themselves to do.

11. The said Lieutenant-Governor engages on the part of His said Majesty to place one or more Agent or Agents to reside in convenient situations near the Residence of some of the Principal Chiefs, which Agents shall act solely in a diplomatic capacity;—and the said Contracting Chiefs bind themselves to respect such Agents as the Representatives of the British Government, and to protect their persons, families, and property, to the utmost of their power, and to leave them full liberty of ingress and egress through their (the Chiefs') Territory, or across the Boundary into the Colony, at all times, without the least molestation, or hindrance.

12. All representations, complaints, or applications, which may be made on the part of the Colonists, or their Government, to, or against, the Caffers, or on the part of the Caffers, to, or against, the Colonists, or their Government, shall be made through the said diplomatic Agent or Agents, who shall be bound to observe the strictest impartiality and justice, and exert their utmost abilities to promote

the peace and prosperity of the Colonists, as well as of the Caffers, to maintain the rights of both parties inviolate, and to cause the provisions of this Treaty to be strictly observed.

13. The said Contracting Chiefs bind themselves to afford free access to the said Agents, to all persons from the Colony, provided with such passes as shall be hereinafter specified. They also agree, that Caffers may be engaged by the Colonial Government, and stationed at the Military Posts, as Policemen, and pledge themselves, that they or any others employed as such Policemen, shall have free access into their Territory, either with messages, or in tracing out, with the assistance of the Amapakati, depredators, or other such criminals as shall have committed crimes in, and have escaped from, the Colony, promising also to give them, and cause them to receive, in their said Territory every assistance and protection.

14. Any British Subject desirous of crossing the Boundary into the Territory, inhabited by the Caffers, with the view of communicating with one of the Agents, shall be bound to obtain a Pass from the Officer commanding the Post nearest to the spot, where he wishes to cross the Boundary: the Officer shall send a Messenger with him to the Pakati, who may be stationed nearest to the said spot, according to the provisions in the 10th article of this Treaty, which Pakati shall be bound to cause such persons to be safely conducted to the station of the Resident Agent, with whom he intends to communicate; but no person, so entering such Territory, shall be at liberty to go with firearms, or other weapons of offence or defence, except with the consent of the said Amapakati or of a Chief.

15. From the provisions of the foregoing Article 14, are to be excluded all those who shall belong to any of the Military Posts, or to the Escorts conducting the Supplies, or keeping open the communication, as mentioned in Article 7 of this Treaty, all which persons shall be strictly under Military control, and on no account be allowed to do that which any soldier of such Escort would not be allowed to do. Provided also, that the free communication between the Cat and Konappe Rivers, and the Tambookie Country, or the Shiloh Missionary Institution through the now uninhabited Country, West and Northwest of the Luheri continue uninterrupted as hitherto.

16. Any British Subject entering the said Territory under any other circumstances than those mentioned in the two foregoing Articles, can do so only with the consent of the Caffers themselves, and at their own risk. And the said Contracting Chiefs, and those acting under their authority, shall be fully authorised to send out of the said Territory those, who shall so enter the same without their consent; and it is hereby clearly understood, that all persons, who shall enter the said Territory (save and except such as are excepted in the foregoing 15th Article) shall be, and are considered to be subject to the laws of the Caffers, as long as they remain in the said Territory.

17. Such British Subjects as shall obtain Licences to Trade beyond the said Boundary, shall not be allowed to enter the said Territory, without the consent of the said Contracting Chiefs, who, however, pledge themselves and promise to encourage Trade and Commerce to the utmost of their power, and to protect and encourage those Traders, whom they shall permit to enter their Territory, as long as they conduct themselves orderly and lawfully, with all their means and authority, to cause their persons, families, and property to be respected and inviolate; never to allow any of them, or any other British Subject in the said Territory, to be prosecuted, fined, or in any way made to suffer by any proceeding or custom connected with Witchcraft, but on the contrary to give such British Subjects at all times free access to the British Agents, and to pay due attention to the representations of such Agents, as well as to give satisfaction or redress upon their just remonstrances or complaints; but the said Agents shall not be bound or permitted to extend their interference or protection in case of any seizure, to whatever extent, made upon the property of any British Trader, or other person among the Caffers, who shall be proved to them to have imported into the Territory occupied by the Caffers such articles, as are by the Laws of the Colony forbidden to be carried for sale across the Frontier.

18. The said Contracting Chiefs do also promise and agree to allow free access to all British Vessels to any Harbour or Port on the Coast, not only for the purposes of Trade, but also for the landing of Military Stores or Supplies, and for the conducting and conveying of the same to any Military Post on the Frontier, accompanied, if necessary, by Military Escorts, without, however, conceding the right of constructing Forts, or other Military Works, or maintaining a Garrison at such Harbour or Port: And the said Chiefs do also promise, in case of any Shipwreck on the said coast, to give full protection and safe conduct to the nearest Military Post, to all persons and property saved, as also to give every assistance towards such saving of life and property.

19. Every British Subject who shall be charged with any crime or misdemeanour in the said Territory, shall have the right to demand, that previous to his trial notice of such trial shall be given to the nearest of the said Agents, who shall be at liberty, if he see fit, to attend at such trial, and to speak or plead in behalf of the accused, if he shall find cause to do so, and due weight shall be given to the opinion of such Agent, as promised and agreed on in the 17th article of this Treaty.

20. If any British Subject commit a crime or misdemeanour in the said Territory of the said Contracting Chiefs, and escape out of the same across the said Boundary, the said Agents shall exert themselves to obtain satisfaction for the aggrieved party, by means of the British Courts, and in every respect exert themselves with as much zeal for the Caffer who may thus be wronged by a British Subject, as he is bound to do in behalf of the British Subject, who may be aggrieved by a Caffer.

21. Any Caffer, or other native residing among the Caffers, who shall be desirous of crossing the Boundary into the Territory inhabited by the Colonists, shall be obliged to do so unarmed, and shall be bound to obtain a Pass from one of the British Agents residing among the Caffers:—such Pass shall be explicit in the English and Dutch languages, specifying the name of the applicant, the place of his destination, the object of his visit, the number of days he may be absent, and the date when granted.

No Pass shall be so granted, except at the request of, or upon the production of an understood token—of a respec-

table Chief—who will engage to be responsible for the conduct of the applicant during his stay in the Colony, and it must be clearly explained to such applicant, that such Pass will not protect him, if he deviate from the road to the place of his destination, or go armed, or skulk in retired places, or exceed the period specified in the Pass, or travel with others of his nation, who are not provided with Passes, in either of which cases he shall be dealt with as if he had no such Pass. The Agent shall grant no Pass if he has the least suspicion of the motives of the applicant's visit to the Colony, nor unless he has reasonable cause for such a visit.

Visits on the part of idlers are, for the sake of the Colony as well as the Caffers, to be by no means encouraged. The Agent shall refuse them, and he shall also keep an accurate register of such Passes, as he shall grant,—of the names of the Chiefs, at whose request they are granted, which names must also be stated upon the Passes.

All Caffers or others actually in the employ of Agents, Missionaries, or Traders, will however be allowed to enter the Colony with Passes from such employers, provided such passes clearly state the names of such servants, their destination, and the time for how long they are to be in the Colony.

22. All Caffers found without such Passes to the westward of the said Boundary, shall, for the first time, be immediately sent across the Frontier, and delivered over to the nearest of the Amapakati mentioned in Article 10 of this Treaty, who shall be bound to punish them, or cause them to be sent to the Chiefs, who hereby pledge themselves to use every endeavour, and to cause laws and punishments to be established, for the purpose of preventing such encroachments upon the Colonial Territory. And any Caffer found so offending for the second time, shall be punished according to the laws already established, or to be hereafter established for the punishment of such offences.

23. Any Caffer found in the act of committing any crime or depredation within the said Boundary, shall be dealt with according to the laws of this Colony, and it is to be clearly understood, that in case of resistance or attempt at flight, on the part of such criminals and depredators, it is perfectly legal to fire upon them, or otherwise to disable or kill them, if they can not in any other way be secured, or prevented from completing such crime. But if such criminals or depredators being pursued upon the spoil be not overtaken, before they shall have crossed the line occupied by the said Amapakati, the course agreed upon in the following Article shall be adopted for the apprehension of such criminals or depredators, or the recovery of property carried off by them;—and on no occasion whatever shall any Patrol or armed party of any description, be allowed to cross the said line so occupied for the said purpose.

24. If any person being in the pursuit of criminals, or depredators, or property stolen by them, shall not overtake or recover the same, before he shall reach the said line (provided he can make oath, that he traced the said criminals, depredators, or property across a particular spot on the said line,—that the property when stolen was properly guarded, and in case of cattle, horses, or the like, that they were so guarded by an armed herdsman;—that the pursuit was commenced immediately after such property was stolen;—that, if the robbery was committed during the night, the property had been when stolen properly secured in kraals, stables, or the like;—and that the pursuit in that case was commenced, at latest, early next morning), such person shall be at liberty to proceed direct to the Pakati living nearest the spot, where he can swear such traces to have crossed the said line,—which Pakati shall be bound at once to receive the statement, examine the traces, and, if the statement appear well founded, use his utmost endeavor to recover the stolen property, as well as the perpetrators pursued, and it will be at the option of the party pursuing to continue the search at once, under the guidance of the said Pakati, provided he do not go armed, or accompanied by armed British Subjects, or assist in any violence of any kind within the said Territory. If the party pursuing shall thus, with the assistance of the said Pakati, or with that of the Police, to be hereafter named, recover the property pursued, he shall be at liberty to proceed with the same, either to one of the said Agents, or to one of the Military Posts most convenient to himself, in order to make before such Agent, or Officer commanding such Post, a statement of his proceedings, and the quantity and nature of the property recovered, which statement he shall be liable at all times to be called upon to make oath to, after making which statement he shall be at liberty to carry off the said property, leaving the said Pakati or Police to pursue the criminal, and to recover compensation for their exertions, by means of the Caffer Chiefs and their Councils, according to the Caffer usage;—and the said Contracting Chiefs do hereby bind themselves in all such cases to exert themselves to the utmost to cause the criminals to be apprehended and punished, as well as on all occasions to cause the said Chiefs and Policemen to be equitably rewarded for their exertions.

25. If however a party pursuing stolen property, and depredators, in the manner specified in the foregoing Article shall deem it more safe, convenient, or expeditious to proceed to the nearest Military Post, he shall be at liberty to do so. The Officer commanding such Post shall provide such party (after he shall have stated himself prepared to make oath required in the said foregoing Article) with a Policeman, who shall accompany such pursuing party to the spot, where the said traces cross the said line, and examine the same with the assistance of the said Pakati, whose presence must be obtained. He the said pursuer, shall then, if he do not think fit or safe to follow the spoil further, or, having so followed the same, prove unsuccessful, proceed to the Resident Agent for the Chiefs, into whose Territory the criminals and property were traced, and before the said Agent lodge his complaint upon oath, and in case of lost property swear particularly to the circumstances stated in the said foregoing Article, and also the exact value of the property stolen, and not recovered. Unless this Affidavit be made, the Agent shall take no further notice of the case; but, as soon as such Affidavit shall be made, the said Agent shall, if he have no reason to discredit the same (he being at all times at liberty to demand further proof, and it being at all times the bounden duty of the party complaining to produce good and sufficient proof) to lay the case before the Chiefs of the Territory, into which the criminals and property were traced. And the

said Chiefs do hereby engage to call a Council, and to enter into the strictest investigation, to cause the stolen property to be recovered, if possible, and the perpetrators punished. And the said Chiefs do further pledge themselves and engage, that, if at the end of one month after the case shall have been laid before them, the said perpetrators or property shall not have been discovered, and, if it shall nevertheless have been clearly proved, before them and their said Council, by the evidence of the said pursuer, Pakati, and Policeman, or other proof, that the property was traced into their Territory, they, the said Chiefs shall at once indemnify the person robbed to the full value of the property lost, and no more, and compensate the said Pakati and Police for their exertions.

26. With the exception of indemnification obtained through the said Chiefs and Council in the manner specified in the foregoing Article, no person pursuing stolen property shall be allowed to take any but his own property, or the identical property he is in pursuit of, even if tendered to him, on pain of having to restore the property so taken, and losing all further claim to the property actually lost.

27. The said Contracting Chiefs do agree, promise, and pledge themselves to encourage, and protect by every means in their power, the propagation of the Christian Religion, throughout their Territories, as also to protect, in their persons, families, and property, the Teachers and Ministers of the said Religion, and all British Subjects of whatever description, who may sojourn in, or enter into the said Territory, with their consent, or according to the terms of this Treaty, as long as they conduct themselves with propriety and submission to the law, and never under any circumstances to allow them to be molested, or subjected to any prosecutions, or penalties, upon the plea or pretence of the laws and usages connected with or instituted against Witchcraft,—as also to leave them free access to, and communication with the Colony.

28. The said Contracting Chiefs do also agree, promise, and pledge themselves to abstain and cause their Tribe to abstain from any way molesting, or interfering with the Fingoes, who are or will be located in the said Ceded Territory, but to consider them as under British protection;—to leave them in full enjoyment of their property, laws, or customs, and in no way to avenge any grievance, or dispute, which may heretofore have existed between the Caffers and the said Fingoes.

The said Contracting Chiefs also promise to remain at Peace with the other Tribes of Caffers,—cautiously to abstain from reviving any difference, or jealousy, which may heretofore have existed among them, and particularly those which may have been caused by any proceeding of any party during the late War. And the said Chiefs also promise solemnly to live at peace with the Tambookies, and to do every thing in their power to promote the tranquillity of the several Tribes of their own nation, and all other bordering Tribes, as well as of the Colonists.

29. The said Contracting Chiefs do solemnly agree to allow the Fingoes, located on the Western or Right Bank of the River Chumie beyond the Boundary of the Ceded Territory, to continue in their present situations with their property, in the full enjoyment of their own laws and customs, and to give them every protection and encouragement, until the crops, which they now have growing, shall be ripe and reaped;—and then to let those of the said Fingoes, who choose so to do, depart with their property of every description, whether they shall think fit:—as also to permit the occupation of Fort Thompson by His Majesty's Troops, for the protection of the said Fingoes, until they shall have so reaped their said crops.

Thus done, and agreed, sealed, and signed, at King William's Town, this Fifth day of December 1836.

GEDOOPT

Een zoon van den Hr. Petrus Salomon Woudberg, Jr., met name Jacobus Johannes.

BORDEAUX WYN.

Ik was te Bordeaux, in den Herfst van 1829, gedurende den tyd van het Wynlezen, en hoezeer het myn oogmerk niet was een Wyngaardenier te worden, spoorde de hoop van kennis te vergaderen, die voor myne mede Landbouwers in deze volkplanting van nut kon zyn, my nogtans aan, van elke zich daarbediende gelegenheid gebruik te maken, om de beste Wyngaarden, en de verschillende wyze van Wyn maken, in persoon te zien, en van de Makelaars en Kooplieden te vernemen (want tot iets meer ontbrak my de tyd,) welke de behandeling was, die de Wyn vervolgens onderging.

Ik maakte veelvuldige aantekeningen van al hetgeen ik, ter plaatse zelve, aangaande dit onderwerp zag en hoorde, en ik vind dat deze aantekeningen my tot deze gevolgtrekking leiden, dat de uitmuntende hoedanigheid van den eenen Wyn boven den anderen, hoofdzakelyk in vele gevallen, volstrektelyk afhangt van het Aardryk.

Welligt is er geene plant die zoo geredelyk, byzondere eigenschappen uit den aard des Aardryks in zich zuigt, als de Wynstok.—*Chaptal* wordt gezegd, op een tyd, 1,400 (veertien honderd) verschillende variëteiten van die soort byeen te hebben vergaderd; en hoewel de geheele omstreok van Bordeaux, een overvloed heeft aan Wyngaarden, zoo is het alleen in het District van "Medoc," dat Wyn van een uitmuntenden smak gemaakt wordt, en in dat District zyn er slechts weinige plaatsen, die Wynen voortbrengen van de aller eerste klas, terwyl het eene daadzaak is, hoe vreemd dit ook moge schynen, dat de beste Wyngaarden een armoedige, zandachtig Aardryk, gemengd met grof zand van quarts bevatten. Deze omstandigheid moet reeds voor lang tot eene

spreekwyze aanleiding hebben gegeven, want wy vinden den dichter dezelve aanhalen (volgens eene Engelsche vertaling) in de volgende regels:—

"No soil like poverty for growth divine,
As leanest lands produce the richest wine."

In de kleiachtige en lage Landeryn daarintegen die in vele gevallen heel naby de voornaamste Wyn- gaarden liggen, is het zoo wel bekend dat geen goede Wyn gewonnen kan worden, dat de Eigenaars op niets anders uitzyn als om de *hoeveelheid* te vermeerderen, ten einde daardoor het onvermydelijke gebrek in *qualiteit* te herstellen. Zy leiden de Wynstokken hoog op, geven rykelyk mest,— en kweken de meest opleverende variëteiten aan; nogtans is het welbekend, dat de kleinste en minst vaste trossen, het minste sap bevattende, op kleine Wynstokken aangewonnen, en die zelden mest krygen, wanneer het aardryk gunstig is, den besten Wyn voortbrengen.

Wat den aard en de wyze betreft van Wyn te maken, vrees ik dat men aan dit punt te veel gewigt gehecht heeft. Ik vond dat in de hoofdzak het system te Bordeaux hetzelfde is als op alle andere plaatsen. Als de vrucht ryp is, pers den sap uit en laat hem gisten, de trap balies en kuipen kunnen in eene plaats zuiniger of zindelyker ingerigt zyn dan in de andere, in een zeer koud en regenachtig seizoen, moge men de hulp der kunst ver- schen, als wolle dekens, de byvoeging van suiker, enz. enz.; maar op eene goede Wynplaats, wan- neer het seizoen gunstig is, kunnen zy nauwelyks (ten zy het opzettelyk geschied) een slechte Wyn maken.

Op sommige plaatsen als te St. Perry, heb ik de Schroef-Pers zien gebruiken; te Chateau Margaux, La Rose, Latour, Becheville, trappen zy hunne druiven, en ofschoon het seizoen nat, en de druiven niet volkomen ryp waren, zag ik nogtans geene kunstmiddelen bezigen om de gesting te bespoedi- gen. Te Lafitte (het eigendom van een Engelsch koopman,) stortten zy alle hunne druiven in een vat, en lieten de massa liggen tot dat zy in Wyn overging. Op omtrent gelyke wyze moet de eerste Wynmaker te werk zyn gegaan, en ofschoon de Opziender ons verzekerde, dat dit plan dat sedert eenigen tyd was gevolgd geworden, eene verbete- ring was, in zoo verre de schil der onrype druiven daardoor ongekneusd bleef. Zoo heb ik nogtans nimmer vernomen dat Lafitte eenen beteren naam gekregen had, dan hy te voren bezat.

Ik meen niet te zeggen, dat het onmogelyk is verbeteringen te maken, veel goed, is gescheid door den invoer van de *Carmenera** Druif in sommige plaatsen; of, wanneer het klimaat of seizoen on- gunstig was,—door het bespoedigen der gesting,— door het nitkiezen, enz., maar niemand is geslaagd om den smaak, het *bouquet* aan eenig Wyn te geven, waar het Aardryk er tegen was; en zelfs te Bourdeaux, heeft men geen middel gevonden, om den *gout terroir* weg te nemen van Wynen die in een *ongunstig aardryk* gewonnen zyn.

Velen, gelyk van zelve spreekt, zyn overtuigd, dat zy groote vorderingen gedaan hebben in de kunstmatische fabricatie van Wyn, vergetende dat

"To observations which ourselves we make,
We grow more partial for th' observer's sake."

Ten opzichte van Substantien uit het plantehryk over het algemeen, merkt Henry aan:—"Wy kunnen niet altoos, als met lichamen uit het ryk der mineralogie, voortstappen van de kennis der bestanddeelen tot de wezenlyke formatie van de substantien zelve; het is inderdaad niet waarschyn- lyk dat wy ooit het vermogen bezitten zullen, om de natuur in deze hare werkingen na te bootzen, want in de function der levende plant, schynt een besturend principe betrokken te zyn, eigenaardig aan levendige lichamen, en verheven boven en verschillende van die *oorzaak* welke *Scheikundige Affiniteit* genaamd wordt.

De behandeling vervolgens kan ik slechts ver- halen van wat ik gehoord heb:—De Wynen voor huisgebruik bestemd, ondergaan zeer weinig genees- kundige behandeling. Er zyn Makelaars (*Courtiers*), voor elke afzonderlyke klas van Wyn; en een Makelaar van de Eerste Klas, zal nimmer een ge- ringeren drank proeven, uit vrees van zynen smaak te bederven.

Deze Wynproevers zyn ook in staat van de wettigheid van het weer, en gebrek aan zon, by het naderen van het Wynlezen redelyk juist te kunnen gissen, wat soort van Wyn in dat jaar waarschynlyk geleverd zal worden.

Een nieuw aangelegden Wyngaard, om een ouden en ontvruchtbaaren te vervangen, beschouwt men met achterdocht.

De kooplieden zyn nauwgezet aangaande eene gelykmatige temperatuur in hunne Wynkelders, en hunne vaten moeten allen van Memelsch eiken- hout zyn, elk vat wordt uitgewasschen met een enkel glaswyn spiritus voor het vullen van hetzelfde, en geen spiritus wordt vervolgens verder gebruikt.

* Dit is de slechste Druif voor Tafel gebruik, zynde liff van smaak.

De Clarets voor de Engelsche Markt bestemd, worden met *Hermitage* en andere sterke wynen gemengd, om aan dezelve kracht by te zetten, gedurende het tweede jaar, maar een Wynkoop- te Bordeaux zou van schrik rillen over het denk- beeld van smaak of kleur aan Wyn te geven, door middel van frambozen, enz.

Welligt zyn de bovenstaande aanmerkingen in sommige opzichten ontoepasselyk op deze Kolonie; maar ik heb ook het Aardryk gezien langs den Ryn, Johannesberg, en Rudesheim, en bevonden dat deze Wyngaarden in *poreusen* en niet in *kleiachtigen* grond gelegen waren, dat een nat seizoen ryk aan opbrengt maar inferieur in kwaliteit was, dat mest geven schadelijk was, en dat er zoo veel afhing van het Aardryk dat de Johannesberger *Cabinet Wyn*, 50 en honderd percent meer waard was dan andere Wynen, in een en denzelfden Wyngaard gegroeid, en slechts een weinig lager den berg af.

Eindelyk kan een ieder zich verder overtuigen van het gewigt van op de keuze van het Aardryk acht te geven, door te gaan naar de Constantia plaatsen, en het Aardryk en den Wyn van deze te vergelyken met het Aardryk en den Wyn van de naburige Wyngaarden.

COMMERCIAL RETROSPECT.—March 27.

In the House of Commons petitions have been presented praying for alteration in the duties on Cotton, Wool, and Tobacco.—There has been a debate upon allowing Foreign Grain in bond to be ground into Flour, and exported either as Flour or manufactured into bread.

There has not been any great amount of business done last week in Colonial produce, and prices for some kinds of Raw Sugar have declined. The holidays have had more effect on the market than the quantity of money in circulation. Prices of most commodities, with the exception alluded to above, have been steady. The Imports have been to a fair extent; and the Exports are becoming increasingly heavy.

In the Money market the leading matter has been the great decline in Spanish Bonds from the price of last week. We noticed in our last week's paper that news had reached London of the defeat of General Evans, the defection of Saarsfield, and the advance of the Carlists on Madrid. From 27½ to 3, the price of Spanish Bonds the day before the arrival of this news, they went down by degrees to 21.

On Thursday there was something like a confirmation of the defeat of General Evans, and this news relieved the market from the uncertainty in which it was previously placed, and the great doubt and darkness in which operations were made. At the low price of 21 several monied men went in and bought, being strong in faith for higher prices, and considerable business was done. Good Friday was a close holiday. The loss on Spanish Bonds this week must have been very considerable, and in the present state of the money market must have made an addition to the pressure and distress which have existed there for a long time, and there can be little doubt, but that the great though gradual decline in Spanish Bonds from their highest price of 53 must have contributed something considerable to the recent and existing great scarcity of money.

There has been no perceptible difference in the amount of money in circulation, and no important variation in discounts. The Bank of England continues, it is understood, to be somewhat liberal in its discounts to the mercantile community, particularly that of the United States. There have been some failures, but none of them of any great importance. Nothing further has transpired relative to the great Commercial House in the city that required assistance. Pecuniary matters are very urgent at Liverpool, and it is understood that a deputation from that part is likely to be up soon in London for pecuniary aid. This intelligence added to the gloom which hangs over the market for money.

The *London Gazette* of the 21st of March contains a notice of the appointment of Major General Sir John Harvey, K. C. H., to be Lieut. Governor of New Brunswick and its Dependencies. Also that of Charles Augustus Fitz-Roy, Esq., (known in this Colony as Colonel Fitz-Roy), to be Lieut. Governor of Prince Edward Island, in the Gulf of St. Lawrence.

The son of Rammohun Roy, who has been for some time employed as a Clerk in the Board of Control, has just been appointed to a writership in India by Sir John Hobhouse. This is the first appointment of a native to one of those situations which, in the course of promotion, lead to the highest office in the government of India, and places him at once on a footing with the first amongst the British Governors of the land. It is, however, but justice towards this young person to add, that whilst in the Board of Control he evinced such intelligence, and performed his duties in a manner so creditable to his talent and industry, as must have secured to him the favorable notice of the head of that department.—*Observer*.

The rigor of the winter continued in England up to the month of April. On the 5th there was a heavy fall of snow; and the thermometer stood at 50. But little of the early Spring Vegetation has made its appearance. The Influenza had nearly subsided.

The MONEY MARKET, though slightly relieved, remained in a languishing state; discounts were barely procurable at all, except on very short bills, and then at the rate of 12 to 15 per cent. per annum. The adjustment of the embarrassments of the chief American houses by the Bank of England was nearly completed, and it was generally believed that this judicious though tardy measure would in a few weeks restore confidence. The holders of East India Produce and Teas were still suffering greatly. On raw Silk and Indigo the losses were enormous. Nearly all the chief branches of Manufacture continued dull. A reaction was confidently anticipated after the month of May.

ABOLITION OF THE FEES ON PASSING ENTRIES AT THE LONDON CUSTOMS.

On good authority we have to state, that it is decided in the proper quarter to abolish all these Fees. We congratulate the trade of the Port of London on the matter; and from the prominent part which this Journal has taken in procuring this abolition, we are warranted in justice to ourselves to say, that we shall advert again to the subject.—March 28.

COTTON.—The market continues quiet; the business done during the week has been chiefly in the bought in lots, and mostly for shipping at rather easier prices. The transactions are only 300 bales middling Bengal at 4d. and 200 bales ordinary to good fair Surat at 3½d. to 5½d. per lb.

MAURITIUS.—The importers still evince an inclination to sell, and bring forward their cargoes as soon as landed, which has occasioned a dull market. A public sale of 5,722 bags was offered on Thursday and went off with heaviness, again at a reduction of 6d. to 1s. per cwt., the greater decline in the low soft Sugars; middling and good grocery sold at 56s. 6d. to 58s. 6d., and low to good middling grey at 52s. 6d. to 57s. 6d. per cwt.

COFFEE.—The grocers continue to be free buyers of the good and fine clean descriptions of British Plantation, and for such qualities an advance of 1s. to 2s. has been paid; but there is a great disinclination evinced to purchase the unclean

qualities, and prices are on the decline: at auction 200 bags and 60 casks have been brought forward; Berbice middling and good middling sold at 93s. 6d. to 99s. 6d., fine ordinary at 87s.; ordinary unclean at 60s. to 61s., and Demerara 70s. to 75s. for good and fine ordinary. In the East India market there has been nothing done for export, but at lower prices there are no sellers. For Mocha, rather higher prices being required, little has been done; at auction 372 bales were all disposed of at fully former rates, good middling yellow long berry garbled at 80s. 6d. to 81s. 6d., and middling yellow garbled at 68s. 6d. to 72s. 6d. per cwt. Ceylon, admissible for home consumption, has been in steady request privately, at fully former rates. For Foreign a steady request has prevailed, at prices which are generally the same as last week: privately 600 bags Brazil have been taken at 42s. 6d. to 50s. for low and fine ordinary.

TEA.—No further intelligence from Canton has been received; but the news communicated last Tuesday has been deemed of so much importance by several of the leading importers, as to induce them to entirely withdraw their Teas from sale, and has caused a more confident tone in all branches of the trade: large Continental orders are here unable to be executed in consequence of the late advance. There is a considerable demand for well bought common Congous at an advance of 4d. per lb. on the recent sales' quotations.

SILK.—This branch of trade remains in the same gloomy state as for some time past; the manufacturers at present being unwilling to enter into stock, consequently the business has been almost confined to some small parcels, which have been forced off at a great sacrifice, the seller being in need of cash, which tends to reduce the prices generally, but at present they must be considered as completely nominal.

OILS.—The demand for the common descriptions of Fish Oils still continues very languid, and the few sales that are making are yet only to supply the wants of necessitous buyers; and in the prices there is again a slight reduction. The holders of Sperm remain firm, and will not sell except at the late advanced rates; the purchases however are not of any moment. In Seed Oils a fall has again taken place in the prices; at the reduction, however, there has been a good deal of business done, both in Linseed and Rape Oils, but the demand is now limited, and the market has again become quiet.

WOOL.—There is no variation in the British Wool market, prices are stationary. Rather more enquiry has existed for short Wools, but the sales have not been to much extent. In Foreign there is no change.

COFFEE is sold in bond; the business is done in the public market, either by public sale or private contract. The terms are—E. I. and W. I. British Plantation, 1 month, 1 per cent. discount, allowing 4 per cent. for cash; East India at a prompt of three months from the day of sale without discount; Foreign 1 month, 2 per cent. discount, and 4 per cent. for cash. The rates are the same as allowed by the Revenue. The draft on B. P., namely casks of 5 cwt. and upwards 5 lbs. under 5 cwt. 4 lbs.; barrels and bags 2 lbs.; Foreign and East India 1 lb.

SUGAR.—Such as Jamaica, Demerara, and other British Plantations are generally sold by private contract in the public market, duty paid. East India, say Bengal, at the East India Sales in bond. Foreign, such as Havannah, Brazil, & Siam, in bond, for exportation sometimes, by public sale. The Merchants pay the duty, but the Refiners recover a drawback on the exportation of the manufactured article of 3s. 9d. on single, and 4s. 2d. on double refined. The tare allowed on British Plantation Sugar is as follows, viz.: casks under 8 cwt. 14 lb., under 9 cwt. 1 cwt. 7 lb., under 10 cwt. 1 cwt. 14 lb., under 11 cwt. 1 cwt. 1 qr., increasing 7 lb. for every additional hundred weight. The draft 2 lb. per hhd., and 11 lb. per tierce. The terms are two months prompt, or 4 per cent. per annum allowed for cash. East India Sugar, 3 months. No discount.

RICE.—Carolina is sold duty paid, but the consumption is small on account of the heavy duty. East India is sold in bond.

Tea may be imported into the United Kingdom, from the Cape of Good Hope, and from places eastward of the same to the Straits of Magellan but not from any other places for home consumption.

Tobacco sold in bond, may be imported and manufactured for 5 years, at an expense of only 4s. per hhd., and re-shipped without paying any duty, subject to an allowance of shrinkage from the seller to the buyer of 3 lb. per hhd. on Virginia and Kentucky, and 15 lb. per hhd. on Maryland on the landing weights; the draft of the former 8 lb., and the latter 4 lb. with a tret on all sorts of 4 lb. per 104 lb. When taken out for Home Consumption pays a duty of 3s. per lb. (2s. 9d. B. P.) with the same allowances of draft and tret as for exportation, but the duty is charged on the nett weight. Manufactured Tobacco or Segars pays a duty of 9s. per lb.

BANKING PAPER MONEY, & CURRENCY.

(From the Bankers' Circular.)

This able and intelligent publication treats this week on the peculiar position in which monetary affairs have been placed by the transactions between the Bank of England and certain great houses in the city which do extensive business with the United States. This matter is now of the most interest of any in the money market.

Speaking of these American houses in the city, the Circular says:

"Next comes the question concerning the extent of these credit and money transactions. There have been for several years five or six leading and principal firms engaged in Exchange and loan and credit operations with the United States. The most eminent of these are Messrs. Brown and Co., of Liverpool, Messrs. Baring and Co., T. Wilson and Co., George Wildes and Co., T. Wiggins and Co. of London. The success of these firms in this new branch of traffic—new in its extent, ramifications, and importance,—has latterly brought other firms into the same field, and the houses of Rothschild and Co., Lazard and Co., and Morrison and Co., have now entered with great confidence and spirit into competition with the older houses; we do not say that all these houses are newly sprung up, but their course of business in this channel of traffic is either new or vastly extended. We have heard of bills amounting individually to £20,000, £30,000, and as high as £40,000, being drawn upon one or other of these last-named houses. We repeat that the course of business in this department of their trade has been singularly safe and extremely profitable; and the extent to which it has been carried is naturally large in proportion to the advantages derived from it.

"It is of the greatest importance to all who are much concerned with pecuniary and credit affairs, to ascertain the credit afforded in this channel of business, and if we stated the collective amount of bills running at one time upon the principal American houses at from nine to twelve millions sterling, we should not state it higher than every rational inquirer would admit we had good grounds for doing. And considering the facilities, the security, and the profit of this kind of business, it is astonishing—not that the credit in circulation is so large—but that it should not in the course of eight or ten years of unchecked successful operations, have amounted to double its present sum.

"Thus has the Bank of England by its narrow-sighted subserviency to the Government raised up a power that now fills them with alarm. By foolishly making money cheap, and keeping it at a low value, they invited the intelligent people of America, or those connected with the United States, to transport it to places where it was sought with avidity at a much higher value, as well for public works as for private enterprises. The Bank Directors have done their best to raise

up and make formidable the only commercial State that could enter into successful rivalry with England.

"We said three weeks ago in allusion to this particular subject, 'amidst these difficulties the deliberation of the Bank Directors respecting the state of the American merchants have gone on concurrently, we believe, with the privacy and advice of the Government, and we have no doubt the issue of these proceedings will be, that the Bank will administer relief cautiously and reluctantly in such measure, and such only, as shall have the effect of preventing a public exhibition of mischief.' This, we believe, has been fully confirmed by what has subsequently transpired. And when we said last week that a better feeling prevailed among the Bank Directors and the mercantile circles in more immediate intercourse with them, it was said under the supposition that no fresh obstacles of moment would arise in the same quarter to throw things again into disorder. The Directors had on every hand admitted to their friends that there was no alternative, and that so fearful would be the consequences of refusal, that the accommodation sought for by the American merchants must of necessity be granted by the Bank. The principle of action was fully assented to by the Bank Directors, and the only matters to be arranged related to the amount of accommodation, and the terms and conditions for rendering it. In arranging these, obstructions have, however, occurred which we did not last week anticipate, and we shall now proceed to relate some of the circumstances which have again opened the subject, and have ultimately led to a settlement between the Bank and the American interest, which we trust may now be relied on as one of a fixed and durable character.

"The cause of the apparent oscillations of purpose in the minds of the Bank Directors is, no doubt, to be found in the immense amount of pecuniary accommodations wanted when difficulties arise. We believe that soon after they allowed the money interest to conclude that adequate relief would be granted to the American merchants, the Directors became alarmed at the amount of bills running upon those merchants, and they required some distinct and available pledge that that amount should be reduced with as much promptitude as possible. This, and the nature and form of the securities, the time for granting loans, and the method and periods for repaying advances, are, we believe, the principal points which have created the difficulties that have transpired since our last publication. In attempting to arrange this extraordinary business of obtaining funds from the Bank of England to secure the punctual payment of all floating American bills accepted by English merchants, the mercantile and manufacturing public are, we believe, greatly indebted to the eminent firms of Messrs. Glyn and Co. bankers, and Messrs. Overend, Gurney, and Co. Bill-brokers. These houses from the extent of their own customary business with some or all of the American firms named in the foregoing extract, as well as from their transactions with the Lancashire and Yorkshire Banks, where much of the American paper centres, were naturally the fittest of all to take the lead in averting an impending danger to commercial credit; and from their well known influence with most of the Bank Directors it is possible that their individual representations would have been sufficient to carry the measure of relief into complete operation without doubt, hesitation, let, or hindrance of any kind, but for the staggering weight and magnitude of the thing to be dealt with.

"More aid being, however, requisite, the London Bankers were summoned to meet on Friday the 17th instant, to deliberate on this affair. These gentlemen may not improperly be called Privy Counsellors and confidential advisers of the Executive in cases of great moment and emergency; and it was probably owing to the successful tendency of their deliberations, that an express was sent off to Liverpool on the same Friday night to apprize the parties who take the lead in that great commercial centre that the apprehended difficulties would be overcome.

"The Times, Monday Evening.

"It may be imagined how urgent and important the matters are which have recently engaged the attention of the Bank Directors, when it is stated that they were assembled, in deliberation upon them, during the greater part of yesterday. The result, so far as it has been allowed to transpire, this morning, is, that all the assistance desired by the American houses has been given on the condition that all the parties directly or indirectly interested would join in giving security to the Bank against loss, which, under all the circumstances there cannot, we should imagine, be much danger of. This will, of course, depend in a material degree on the manner in which the engagements entered into by the merchants of the United States with the Houses in question are fulfilled; but so much security has been found to exist among them in all cases of difficulty which have occurred heretofore, that there is little fear of their sustaining their character on the present occasion.—*March 26.*

A CLAUSE IN THE ABOLITION OF IMPRISONMENT FOR DEBT BILL.

We think it right to place this clause of the Bill before our readers, that they may particularly mark its contents:—

"And be it enacted, That if any single creditor, or any two or more creditors, being partners, whose debt shall amount to £100, or upwards, or any two creditors whose debts shall amount to £150, or upwards, or any three or more creditors whose debts shall amount to £200, or upwards, of any trader within the meaning of the Laws now in force respecting Bankruptcy, shall file an affidavit or affidavits in His Majesty's Court of Bankruptcy, that such debt or debts is or are justly due to him or them respectively, and that such debtor, as he or they verily believe is such trader as aforesaid, and shall cause him to be served personally with a copy of such affidavit or affidavits, and with a notice in writing, requiring immediate payment of such debt or debts; and if such trader shall not within twenty-one days after personal service of such affidavit or affidavits and notice, pay such debt or debts, or secure or compound for the same, to the satisfaction of such creditor or creditors, or to enter into a bond in such sum, and with such two sufficient sureties as a commissioner of the Court of Bankruptcy shall approve of, to pay such sum or sums as shall be recovered in any action or actions which shall have been brought, or shall thereafter be brought for the recovery of the same, together with such costs, as shall be given in the same, every such trader shall be deemed to have committed an act of bankruptcy on the 22d day after service of such affidavit or affidavits and notice."

We have always been advocates for the Bill for the Abolition of Imprisonment for Debt, which Bill goes to increase the power of the creditor over the property of the debtor, whilst it diminishes that power over his person. But we look upon this clause as very harsh and severe, and as calculated to work very great mischief indeed. It affords no opportunity for a man who may be in difficulties to recover himself, and it furnishes scope for the gratification or resentment of any particular creditor against his debtor. If a man do not wish to be made a bankrupt, and is anxious to keep up, it seems very hard that any man should have the power, in the short space of twenty-one days, to make him a bankrupt. And it is also to be observed that there may be a very great number of creditors, whose debts taken separately do not amount to the sum specified in this clause, who may be opposed to making a man a bankrupt, and yet by this clause one man, whose debt shall be £100, can successfully oppose them in this matter. We submit these remarks to the consideration of our readers.—*London Paper, March 27.*

TREATY

ENTERED into between ANDRIES STOCK-
ENSTROM, Esquire, Lieutenant-Governor
of the Eastern Division of the Colony of the Cape of
Good Hope, on the part of His Britannic Majesty,
and the Caffer Chiefs of the Tribe of T'SLAMBIÉ,
viz.

SIWANE, (represented by his
Mother NONIBE,)

UMHALA,
UMGAI, and
GAZELLA,

for themselves, and the said Tribe; when, after
several preliminary discussions on various occasions,
and the fullest explanations, by means of the official
Interpreter Mr. THEOPHILUS SHERSTONE, assisted by
Interpreters of the said Chiefs' own choosing, the
following Articles of Convention were fully agreed
upon, in the presence of HUGHAM HUDSON, Esq.
Agent General, and CHARLES LENNOX STRETCH,
JOHN MITFORD BOWKER, and RICHARD SOUTHEY,
Esqrs. Resident Agents for the Caffer Tribes,—as
also several Caffer Chiefs, and Councillors;—subject
nevertheless to the ratification by or on behalf of
His said Majesty.

Article 1. There shall be Peace and Amity for ever,
between His said Britannic Majesty, His Subjects—
particularly those of the said Colony—and the Caffer
Nation,—and both parties shall honestly and faithfully use
their utmost endeavours to prevent a rupture of the same,
to remove every cause for disagreement, which may occur,
and scrupulously to abide by the Engagements contained
in this Treaty.

2. The Boundary between the said Colony, and the
Territory restored to the Caffers by Proclamation of this
day, is, and shall be understood to be, that which was
agreed upon between the then Governor, Lord CHARLES
SOMERSET, and the Caffer Chief GAIKA, in the year 1819,
viz.—The Keiskamma River from its mouth up to the
junction with the Chumie River, thence the latter River up
to where it touches a Ridge of high Land which is connected
with the Cat Berg, and which separates the waters which
fall into the Chumie from those which fall into the Cat
River, thence the said Ridge to its junction with the Cat
Berg, thence the Cat Berg itself, and the high ground and
ridges which connect it with the Luheri or Gaika's Peak,
and the great Chain of the Winterberg, up to the Winter-
berg's highest point;—thus, including within the Colony all
the branches of the Cat and Gonappe Rivers, up to their
extreme sources, and including in Caffraria all the branches
of the Chumie; and in order to prevent all doubt, or
dispute for the future, as to the said Ridge from the Cat
Berg to the Chumie, the said Contracting Parties have on
the 28th and 29th ultimo, gone over the ground together,
and in the presence of Lieutenant WILLIAMS, of the Royal
Engineers, who will carefully mark the said Boundary on
the Map, as also in the presence of the Resident Agent
STRETCH, and several Caffer Chiefs, who will cause con-
spicuous Beacons to be erected on the spot, where the said
Ridge touches the Chumie—as also, where the Western
Boundary of the Ceded Territory referred to in the 8th Article
of this Treaty, joins the said Ridge, and in more minutely
defining the said Line, the highest part of the said Ridge
shall be taken from which the waters take their natural
course, either into the Chumie above said first mentioned
Beacon, or into the Cat River.

3. The said Contracting Chiefs do, for themselves, their
Tribe, and their Heirs and Successors, acknowledge the
right of full Sovereignty of His said Britannic Majesty,
over the Territory to the West of the said Line, renouncing
for ever all claim which they, the said Chiefs, or Tribe,
may ever have had, or supposed to have had, to the same,
or any part thereof.

4. The said Contracting Chiefs therefore accept as a
special mark of His said Majesty's grace and favor, any
part of the Territory between the Keiskamma and the Cat
River, as a Loan, to be by them, or their Tribe, or any part
thereof held, upon such terms, and to such extent, as shall
be laid down by, or on the part of, His said Majesty, which
terms shall be incorporated in this Treaty; they, the said
Chiefs, promising at no period ever to lay claim to the
possession, or occupation of any other part of the Territory,
known by the name of the Ceded Territory, except such
part as shall be allotted to them in the manner herein-above
stated.

5. The said Lieutenant-Governor doth hereby, in the
name of His said Majesty, grant unto the said Chiefs and
their Tribe, that part of the said Territory called the Ceded
Territory, to be specified at the foot of this Treaty, accord-
ing to a Map to be formed by a competent officer, and to
be hereunto annexed, which Territory shall be held by the
said Chiefs and Tribe, their Heirs and Successors, in per-
petuity, never to be reclaimed by or on behalf of His
said Majesty, except in case of hostility committed, or a
war provoked by the said Chiefs, or Tribe, or in case of a
breach of this Treaty, or any part thereof, and for which
breach satisfaction or redress shall not be otherwise given
or obtained.

6. The said Contracting Chiefs and their Tribe, shall, in
the said Territory so granted unto them, enjoy the full and
entire Right to adopt or adhere to the Caffer Laws, or any
other Law, which they may see fit to substitute, as also
to expel or exclude from the same any person whom they
do not think proper to admit, or retain; and with the excep-
tion of the contingencies of hostility, war, or breach of
these Treaties, specified in the foregoing Article 5, the
Right of His said Majesty to the dominion over the said
Territory shall in no way be exercised therein, any more
than in any part of Caffraria itself, subject however to the
restrictions and conditions specified in the following
Article.

7. His Majesty reserves his right of stationing Troops,
and building Forts in the said Territory, and availing
himself for that purpose of all the facilities and materials
within the same, as also to appropriate a certain necessary
space round said Forts, to be regularly marked out for the
use thereof;—also to keep open the communication with
and between the said Forts, and to send supplies to the
same, but no patrolling through, or scouring of, the said
Territory is to be permitted to the said Troops, who are not
to deviate from the said lines of communications, or in any
way to molest, disturb, or interfere with the inhabitants.

8. The country to be occupied and inhabited by British
Subjects, will be bounded, on the Caffer side by the Chain of
Mountains and Ridge of high land particularised in the
2d Article of this Treaty, from the highest point of the
Winterberg to where said Ridge approaches nearest to
Fort Beaufort, on the spot marked by the Beacon, specified
in Article 2 of this Treaty, and to be laid down on the Map,
as there agreed,—from this spot along a Ridge which
divides the waters which fall into the Cat River above Fort
Beaufort from those which fall into the said River below
the said Fort, keeping the Ridge until it joins the first
Rivulet, below the said Fort, as marked in the said Map,
and thence the said Rivulet itself to its junction with the
said Cat River, and then the course of the Cat River, to its
junction with the Great Fish River, and thence the latter
River to its mouth.

9. No Caffer, armed or unarmed, single or in number,
male or female, shall be allowed to cross the Boundary line
particularised in the foregoing Article 8, Westward, and no
British Subject, armed or unarmed, single or in number,
shall be allowed to cross the same Eastward, except with
permission, and under the restriction hereinafter to be
specified in Articles 14 and 21, save and except the Mili-
tary parties or escorts communicating with, and between,
the Posts mentioned in Article 7 of this Treaty.

10. The said Contracting Chiefs shall, when called upon
by the said Lieutenant Governor, and previous to the occu-
pation of any part of the Territory thus granted to them,
with the concurrence of the said Lieutenant-Governor, or
person appointed by him, fix upon certain points in their
said Territory, as near to the said Boundary line particu-
larised in Article 8, and to each other as convenient, at
each of which they shall station a Chief or responsible man
of the Tribe, to be called, for the sake of distinction,
"Pakati," to reside there, and to act as a guard.

It shall be the duty of such Amapakati to keep a good
and constant understanding with the Commanding Officer
of the Military Post on the Colonial side of the said
Boundary, which shall be nearest to their said Residencies,
and to do every thing in their power to prevent inroads or
aggressions either on the part of the Colonists against the
Caffers, or of the Caffers against the Colonists.

The Amapakati, who shall be so stationed, must, by the
said Contracting Chiefs, be made known, by name, to the
Officer commanding the Military Post nearest to such
Station, and any change, either of person or station, which
may take place with reference to the said Amapakati, must
be previously communicated to the said officer.

The Amapakati shall be responsible to their own Chiefs,
who will see the necessity of selecting for such stations
trust-worthy men, and to punish every neglect, fraud, or
deception, which they may commit, as the said Contracting
Chiefs hereby pledge themselves to do.

11. The said Lieutenant-Governor engages, on the part of
His said Majesty, to place one or more Agent or Agents to
reside in convenient situations near the Residence of some
of the Principal Chiefs, which Agents shall act solely in
a diplomatic capacity;—and the said Contracting Chiefs
bind themselves to respect such Agents as the Representa-
tives of the British Government, and to protect their per-
sons, families, and properties, to the utmost of their power,
and to leave them full liberty of ingress and egress through
their (the Chiefs') Territory, or across the Boundary into
the Colony, at all times, without the least molestation, or
hindrance.

12. All representations, complaints, or applications,
which may be made on the part of the Colonists or their
Government to or against the Caffers, or on the part of the
Caffers, to, or against, the Colonists, or their Government,
shall be made through the said diplomatic Agent or Agents,
who shall be bound to observe the strictest impartiality
and justice, and exert their utmost abilities to promote
the peace and prosperity of the Colonists, as well as of the
Caffers, to maintain the rights of both parties inviolate,
and to cause the provisions of this Treaty to be strictly
observed.

13. The said Contracting Chiefs bind themselves to afford
free access to the said Agents, to all persons from the
Colony, provided with such passes as shall be hereinafter
specified. They also agree, that Caffers may be engaged
by the Colonial Government, and stationed at the Military
Posts, as Policemen, and pledge themselves, that they or any
others employed as such Policemen, shall have free access
into their Territory, either with messages, or in tracing
out, with the assistance of the Amapakati, depredations,
or such criminals as shall have committed crimes in, and
have escaped from, the Colony, promising also to give them,
and cause them to receive, in their said Territory every
assistance and protection.

14. Any British subject desirous of crossing the Bound-
ary into the Territory, inhabited by the Caffers, with the
view of communicating with one of the Agents, shall be
bound to obtain a Pass from the Officer commanding the
Post nearest to the spot where he wishes to cross the
Boundary: the Officer shall send a Messenger with him to
the Pakati, who may be stationed nearest to the said spot,
according to the provisions of the 10th article of this Treaty,
which Pakati shall be bound to cause such persons to be
safely conducted to the station of the Resident Agent, with
whom he intends to communicate; but no person, so
entering such Territory, shall be at liberty to go with fire-
arms, or other weapons of offence or defence, except with
the consent of the said Amapakati or of a Chief.

15. From the provisions of the foregoing Article 14, are
to be excluded all those who shall belong to any of the
Military Posts, or to the Escorts conducting the Supplies,
or keeping open the communication, as mentioned in Article
7 of this Treaty, all which persons shall be strictly under
Military control, and on no account be allowed to do that
which any soldier of such Escort would not be allowed to
do. Provided also, that the free communication between
the Cat and Konappe Rivers, and the Tambookie Country,
or the Shiloh Missionary Institution through the now unin-
habited Country, West and Northwest of the Luheri, continue
uninterrupted as hitherto.

16. Any British Subject entering the said Territory under
any other circumstances than those mentioned in the two
foregoing Articles, can do so only with the consent of the
Caffers themselves, and at their own risk. And the said
Contracting Chiefs, and those acting under their authority,
shall be fully authorised to send out of the said Territory
those who shall so enter the same without their consent;
and it is hereby clearly understood, that all persons, who
shall enter the said Territory (save and except such as are
excepted in the foregoing 15th Article) shall be, and are
considered to be subject to the laws of the Caffers, as long
as they remain in the said Territory.

17. Such British Subjects as shall obtain Licences to
Trade beyond the said Boundary, shall not be allowed to
enter the said Territory, without the consent of the said
Contracting Chiefs, who, however, pledge themselves and
promise to encourage Trade and Commerce to the utmost of
their power, and to protect and encourage those Traders
whom they shall permit to enter their Territory, as long as
they conduct themselves orderly and lawfully, with all
their means and authority, to cause their persons, families,
and property to be respected and inviolate, never to allow
any of them, or any other British Subject in the said Terri-
tory to be prosecuted, fined, or in any way made to suffer
by any proceeding or custom connected with Witchcraft;
but on the contrary, to give such British Subjects at all
times, free access to the British Agents, and to pay due
attention to the representations of such Agents, as well as

to give satisfaction and redress upon their just remonstrances or complaints; but the said Agents shall not be bound or permitted to extend their interference or protection in case of any seizure, to whatever extent, made upon the property of any British Trader, or other person among the Caffers, who shall be proved to them to have imported into the Territory occupied by the Caffers such articles as are by the Laws of the Colony forbidden to be carried for sale across the Frontier.

18. The said Contracting Chiefs do also promise and agree to allow free access to all British Vessels to any Harbour or Port on the Coast, not only for the purposes of Trade, but also for the landing of Military Stores or Supplies, and for the conducting and conveying of the same to any Military Post on the Frontier, accompanied, if necessary, by Military Escorts, without, however, conceding the right of constructing Forts, or other Military Works, or maintaining a Garrison at such Harbour or Port: And the said Chiefs do also promise, in case of any Shipwreck on the said coast, to give full protection and safe conduct to the nearest Military Post, to all persons and property saved, as also to give every assistance towards such saving of life and property.

19. Every British Subject who shall be charged with any crime or misdemeanor in the said Territory, shall have the right to demand, that previous to his trial notice of such trial shall be given to the nearest of the said Agents, who shall be at liberty, if he see fit, to attend at such trial, and to speak or plead on behalf of the accused, if he shall find cause to do so, and due weight shall be given to the opinion of such Agents as promised and agreed on in the 17th article of this Treaty.

20. If any British Subject commit a crime or misdemeanor in the said Territory of the said Contracting Chiefs, and escape out of the same across the said Boundary, the said Agents shall exert themselves to obtain satisfaction for the aggrieved party, by means of the British Courts, and in every respect exert themselves with as much zeal for the Caffer, who may thus be wronged by a British Subject, as he is bound to do in behalf of the British Subject who may be aggrieved by a Caffer.

21. Any Caffer, or other native residing among the Caffers, who shall be desirous of crossing the Boundary into the Territory inhabited by the Colonists, shall be obliged to do so unarmed, and shall be bound to obtain a Pass from one of the British Agents residing among the Caffers:—such Pass shall be explicit in the English and Dutch languages, specifying the name of the applicant, the place of his destination, the object of his visit, the number of days he may be absent, and the date when granted.

No Pass shall be so granted, except at the request of, or upon the production of an understood token—of a respectable Chief—who will engage to be responsible for the conduct of the applicant during his stay in the Colony, and it must be clearly explained to such applicant, that such Pass will not protect him, if he deviate from the road to the place of his destination, or go armed, or skulk in retired places, or exceed the period specified in the Pass, or travel with others of his nation who are not provided with Passes: in either of which cases he shall be dealt with as if he had no such Pass. The Agent shall grant no Pass if he has the least suspicion of the motives of the applicant's visit to the Colony, nor unless he has reasonable cause for such a visit.

Visits on the part of idlers are, for the sake of the Colony as well as the Caffers, to be by no means encouraged. The Agent shall refuse them, and he shall also keep an accurate register of such Passes as he shall grant,—of the names of the Chiefs at whose request they are granted, which names must also be stated upon the Passes.

All Caffers or others actually in the employ of Agents, Missionaries, or Traders, will however be allowed to enter the Colony with Passes from such employers, provided such passes clearly state the names of such servants, their destination, and the time for how long they are to be in the Colony.

22. All Caffers found without such Passes to the westward of the said Boundary, shall, for the first time, be immediately sent across the Frontier, and delivered over to the nearest of the Amapakati mentioned in Article 10 of this Treaty, who shall be bound to punish them, or cause them to be sent to the Chiefs, who hereby pledge themselves to use every endeavor, and to cause laws and punishments to be established, for the purpose of preventing such encroachments upon the Colonial Territory. And any Caffer found so offending for the second time, shall be punished according to the laws already established, or to be hereafter established, for the punishment of such offences.

23. Any Caffer found in the act of committing any crime or depredation within the said Boundary, shall be dealt with according to the laws of the Colony, and it is to be clearly understood, that in case of resistance or attempt at flight, on the part of such criminals and depredators, it is perfectly legal to fire upon them, or otherwise to disable or kill them, if they can not in any other way be secured, or prevented from completing such crime. But if such criminals or depredators, being pursued upon the spot, be not overtaken before they shall have crossed the line occupied by the said Amapakati, the course agreed upon in the following Article shall be adopted for the apprehension of such criminals or depredators, or the recovery of property carried off by them;—and on no occasion whatever shall any Patrol or armed party of any description, be allowed to cross the said line, so occupied, for the said purpose.

24. If any person being in the pursuit of criminals, or depredators, or property stolen by them, shall not overtake or recover the same, before he shall reach the said line, provided he can make oath that he traced the said criminals, depredators, or property across a particular spot on the said line,—that the property when stolen was properly guarded, and in case of cattle, horses, or the like, that they were so guarded by an armed herdsman,—that the pursuit was commenced immediately after such property was stolen,—that, if the robbery was committed during the night, the property had been when stolen properly secured in kraals, stables, or the like,—and that the pursuit in that case was at latest commenced, early next morning, such person shall be at liberty to proceed direct to the Pakati living nearest the spot, where he can swear such traces to have crossed the said line,—which Pakati shall be bound at once to receive the statement, examine the traces, and, if the statement appear well founded, use his utmost endeavour to recover the stolen

property, as well as the perpetrators pursued; and it will be at the option of the party pursuing to continue the search at once, under the guidance of the said Pakati, provided he do not go armed, or accompanied by armed British Subjects, or assist in any violence of any kind within the said Territory. If the party pursuing shall thus, with the assistance of the said Pakati, or with that of the Police, to be hereafter named, recover the property pursued, he shall be at liberty to proceed with the same, either to one of the said Agents, or to one of the Military Posts, most convenient to himself, in order to make, before such Agent, or Officer commanding such Post, a statement of his proceedings, and the quantity and nature of the property recovered, which statement he shall be liable at all times to be called upon to make oath to, after making which statement he shall be at liberty to carry off the said property, leaving the said Pakati or Police to pursue the criminal, and to recover compensation for their exertions, by means of the Caffer Chiefs and their Councils, according to the Caffer usage;—and the said Contracting Chiefs do hereby bind themselves in all such cases to exert themselves to the utmost to cause the criminals to be apprehended and punished, as well as on all occasions to cause the said Chiefs and Policemen to be equitably rewarded for their exertions.

25. If however a party pursuing stolen property and depredators, in the manner specified in the foregoing Article, shall deem it more safe, convenient, or expeditious, to proceed to the nearest Military Post, he shall be at liberty to do so. The Officer commanding such Post shall provide such party (after he shall have stated himself prepared to make oath required in the said foregoing Article) with a Policeman, who shall accompany such pursuing party to the spot, where the said traces cross the said line, and examine the same with the assistance of the said Pakati, whose presence must be obtained. He, the said pursuer, shall then, if he do not think fit or safe to follow the spoor further, or, having so followed the same, prove unsuccessful, proceed to the Resident Agent for the Chiefs, into whose Territory the criminals and property were traced, and before the said Agent lodge his complaint upon oath, and in case of lost property swear particularly to the circumstances stated in the said foregoing Article, and also the exact value of the property stolen, and not recovered. Unless this Affidavit be made, the Agent shall take no further notice of the case; but, as soon as such Affidavit shall be made, the said Agent shall, if he have no reason to discredit the same, (he being at all times at liberty to demand further proof, but and it being at all times the bounden duty of the party complaining to produce good and sufficient proof) lay the case before the Chiefs of the Territory, into which the criminals and property were traced. And the said Chiefs do hereby engage to call a Council, and to enter into the strictest investigation, to cause the stolen property to be recovered, if possible, and the perpetrators punished. And the said Chiefs do further pledge themselves and engage, that, if at the end of one month after the case shall have been laid before them, the said perpetrators or property shall not have been discovered, and, if it shall nevertheless have been clearly proved, before them and their said Council, by the evidence of the said pursuer, Pakati, and Policeman, or other proof, that the property was traced into their Territory, they, the said Chiefs, shall at once indemnify the person robbed to the full value of the property lost, and no more, and compensate the said Pakati and Police for their exertions.

26. With the exception of indemnification obtained through the said Chiefs and Council in the manner specified in the foregoing Article, no person pursuing stolen property shall be allowed to take any but his own property, or the identical property he is in pursuit of, even if tendered to him, on pain of having to restore the property so taken, and losing all further claim to the property actually lost.

27. The said Contracting Chiefs do agree, promise, and pledge themselves, to encourage, and protect by every means in their power, the propagation of the Christian Religion throughout their Territories, as also to protect, in their persons, families, and property, the Teachers and Ministers of the said Religion, and all British Subjects of whatever description, who may sojourn in, or enter into, the said Territory, with their consent, or according to the terms of this Treaty, as long as they conduct themselves with propriety and submission to the laws, and never, under any circumstances, to allow them to be molested, or subjected to any prosecutions, or penalties, upon the plea or pretence of the laws and usages connected with or instituted against Witchcraft,—as also to leave them free access to, and communication with the Colony.

28. The said Contracting Chiefs do also agree, promise, and pledge themselves, to abstain, and cause their Tribe to abstain, from any way molesting, or interfering with the Pingoos, who are or will be located in the said Ceded Territory, but to consider them as under British protection;—to leave them in full enjoyment of their property, laws, or customs, and in no way to avenge any grievance, or dispute, which may heretofore have existed between the Caffers and the said Pingoos.

The said Contracting Chiefs also promise to remain at Peace with the other Tribes of Caffers,—cautiously to abstain from reviving any difference, or jealousy, which may heretofore have existed among them, and particularly those which may have been caused by any proceeding of any party during the late War. And the said Chiefs also promise solemnly to live at peace with the Tambookies, and to do every thing in their power to promote the tranquillity of the several Tribes of their own nation, and all other bordering Tribes, as well as of the Colonists.

Thus done, and agreed, sealed, and signed, at King William's Town, this Fifth day of December 1836.

There shall be Peace and Amity for ever, between His said Britannic Majesty, His Subjects,—particularly those of the said Colony—and the Caffer Nation,—and both parties shall honestly and faithfully use their utmost endeavours to prevent a rupture of the same, to remove every cause for disagreement, which may occur, and scrupulously to abide by the Engagements contained in this Treaty.

2. The Boundary between the said Colony, and the Territory restored to the Caffers by Proclamation of this day, is, and shall be understood to be, that which was agreed upon between the then Governor, Lord CHARLES SOMERSET, and the Caffer Chief GAIKA, in the year 1819, viz.—The Keiskamma River from its mouth up to the junction with the Chumie River, thence the latter River up to where it touches a Ridge of high Land which is connected with the Cat Berg, and which separates the waters which fall into the Chumie from those which fall into the Cat River, thence the said Ridge to its junction with the Cat Berg, thence the Cat Berg itself, and the high ground and ridges which connect it with the Luheri or Guka's Peak, and the great Chain of the Winterberg, up to the Winterberg's highest point;—thus, including within the Colony all the branches of the Cat and Gonappe Rivers, up to their extreme sources, and including in Caffria all the branches of the Chumie; and in order to prevent all doubt, or dispute for the future, as to the said Ridge from the Cat Berg to the Chumie, the said Contracting Parties have on the 28th and 29th ultimo, gone over the ground together, and in the presence of Lieutenant WILLIAMS, of the Royal Engineers, who will carefully mark the said Boundary on the Map, as also in the presence of the Resident Agent STRETCH, and several Caffer Chiefs, who will cause conspicuous Beacons to be erected on the spot, where the said Ridge touches the Chumie—as also, where the Western Boundary of the Ceded Territory, referred to in the 8th Article of this Treaty, joins the said Ridge, and in more minutely defining the said Line, the highest part of the said Ridge shall be taken from which the waters take their natural course, either into the Chumie above said first mentioned Beacon, or into the Cat River.

3. The said Contracting Chiefs do, for themselves, their Tribe, and their Heirs and Successors, acknowledge the right of full Sovereignty of His said Britannic Majesty, over the Territory to the West of the said Line, renouncing for ever all claim which they, the said Chiefs, or Tribe, may ever have had, or supposed to have had, to the same, or any part thereof.

4. The said Contracting Chiefs therefore accept as a special mark of His said Majesty's grace and favour, any part of the Territory between the Keiskamma and the Fish River, as a Loan, to be by them, or their Tribe, or any part thereof held, upon such terms, and to such extent, as shall be laid down by, or on the part of, His said Majesty, which terms shall be incorporated in this Treaty; they, the said Chiefs, promising at no period ever to lay claim to the possession, or occupation of any other part of the Territory, known by the name of the Ceded Territory, except such part as shall be allotted to them in the manner hereinabove stated.

5. The said Lieutenant-Governor doth hereby, in the name of his said Majesty, grant unto the said Chiefs and their Tribe, that part of the said Territory called the Ceded Territory, to be specified at the foot of this Treaty, according to a Map to be formed by a competent officer, and to be hereunto annexed, which Territory shall be held by the said Chiefs and Tribe, their Heirs and Successors, in perpetuity, never to be reclaimed by or on behalf of His said Majesty, except in case of hostility committed, or a war provoked by the said Chiefs, or Tribe, or in case of a breach of this Treaty, or any part thereof, and for which breach satisfaction or redress shall not otherwise be given or obtained.

6. The said Contracting Chiefs and their Tribe, shall, in the said Territory so granted unto them, enjoy the full and entire Right to adopt or adhere to the Caffer Laws,

or any other Law, which they may see fit to substitute, as also to expel or exclude from the same any person whom they do not think proper to admit, or retain; and with the exception of the contingencies of hostility, war, or breach of these Treaties, specified in the foregoing Article 5, the Right of His said Majesty to the dominion over the said Territory shall in no way be exercised therein, any more than in any part of Caffraria itself, subject however to the restrictions and conditions specified in the following Article.

7. His Majesty reserves his right of stationing Troops, and building Forts in the said Territory, and availing himself for that purpose of all the facilities and materials within the same, as also to appropriate a certain necessary space round said Forts, to be regularly marked out for the use thereof;—also to keep open the communication with and between the said Forts, and to send supplies to the same, but no patrolling through, or scouring of, the said Territory is to be permitted to the said Troops, who are not to deviate from the said lines of communications, or in any way to molest, disturb, or interfere with the inhabitants.

8. The country to be occupied and inhabited by British Subjects, will be bounded on the Caffer side by the Chain of Mountains and Ridge of high land particularised in the 2d Article of this Treaty, from the highest point of the Winterberg to where said Ridge approaches nearest to Fort Beaufort, on the spot marked by the Beacon, specified in Article 2 of this Treaty, and to be laid down on the Map, as there agreed,—from this spot along a Ridge which divides the waters which fall into the Cat River above Fort Beaufort from those which fall into the said River below the said Fort, keeping the Ridge until it joins the first Rivulet, below the said Fort, as marked in the said Map, and thence the said Rivulet itself to its junction with the said Cat River, and thence the course of the Cat River, to its junction with the Great Fish River, and thence the latter River to its mouth.

9. No Caffer, armed or unarmed, single or in number, male or female, shall be allowed to cross the Boundary line particularised in the foregoing Article 8, Westward, and no British Subject, armed or unarmed, single or in number, shall be allowed to cross the same Eastward, except with permission, and under the restriction hereinafter to be specified in Articles 14 and 21, save and except the Military parties or escorts communicating with, and between, the Posts mentioned in Article 7 of this Treaty.

10. The said Contracting Chiefs shall, when called upon by the said Lieutenant Governor, and previous to the occupation of any part of the Territory thus granted to them,—with the concurrence of the said Lieutenant Governor, or person appointed by him, fix upon certain points in their said Territory, as near to the said Boundary line particularised in Article 8, and to each other as convenient, at each of which they shall station a Chief or responsible man of the Tribe, to be called, for the sake of distinction, "Pakati," to reside there, and to act as a guard.

It shall be the duty of such Amapakati to keep a good and constant understanding with the Commanding Officer of the Military Post on the Colonial side of the said Boundary, which shall be the nearest to their said Residences, and to do every thing in their power to prevent inroads or aggressions either on the part of the Colonists against the Caffers, or of the Caffers against the Colonists.

The Amapakati, who shall be so stationed, must, by the said Contracting Chiefs, be made known, by name, to the Officer commanding the Military Post nearest to such Station, and any change, either of person or station, which may take place with reference to the said Amapakati, must be previously communicated to the said officer.

The Amapakati shall be responsible to their own Chiefs, who will see the necessity of selecting for such stations trust-worthy men, and to punish every neglect, fraud, or deception, which they may commit, as the said Contracting Chiefs hereby pledge themselves to do.

11. The said Lieutenant-Governor engages, on the part of His said Majesty, to place one or more Agent or Agents to reside in convenient situations near the Residence of some of the Principal Chiefs, which Agents shall act solely in a diplomatic capacity;—and the said Contracting Chiefs bind themselves to respect such Agents as the Representatives of the British Government, and to protect their persons, families, and properties, to the utmost of their power, and to leave them full liberty of ingress and egress through their (the Chiefs') Territory, or across the Boundary into the Colony, at all times, without the least molestation, or hindrance.

12. All representations, complaints, or applications, which may be made on the part of the Colonists or their Government, to, or against the Caffers, or on the part of the Caffers, to, or against the Colonists, or their Government, shall be made through the said diplomatic Agent or Agents, who shall be bound to observe the strictest impartiality and justice, and exert their utmost abilities to promote the peace and prosperity of the Colonists, as well as of the Caffers, to maintain the rights of both parties inviolate, and to cause the provisions of this Treaty to be strictly observed.

13. The said Contracting Chiefs bind themselves to afford free access to the said Agents, to all persons from the Colony, provided with such passes as shall be hereafter specified. They also agree, that Caffers may be engaged by the Colonial Government, and stationed at the Military Posts, as Policemen, and pledge themselves, that they or any others employed as such Policemen, shall have free access into their Territory, either with messages, or in tracing out, with the assistance of the Amapakati, depredations, or such criminals as shall have committed crimes in, and have escaped from, the Colony, promising also to give them and cause them to receive, in their said Territory, every assistance and protection.

14. Any British subject desirous of crossing the Boundary into the Territory, inhabited by the Caffers, with the view of communicating with one of the Agents, shall be bound to obtain a pass from the Officer commanding the Post nearest to the spot where he wishes to cross the Boundary: the Officer shall send a Messenger with him to the Pakati, who may be stationed nearest to the said spot, according to the provisions in the 10th article of this Treaty,

which Pakati, shall be bound to cause such persons to be safely conducted to the station of the Resident Agent, with whom he intends to communicate; but no person, so entering such Territory, shall be at liberty to go with firearms, or other weapons of offence or defence, except with the consent of the said Amapakati or of a Chief.

15. From the provisions of the foregoing Article 14, are to be excluded all those who shall belong to any of the Military Posts, or to the Escorts conducting the Supplies, or keeping open the communication, as mentioned in Article 7 of this Treaty, all which persons shall be strictly under Military control, and on no account be allowed to do that which any soldier of such Escort would not be allowed to do. Provided also, that the free communication between the Cat and Konappe Rivers, and the Tambookle Country, or the Shuloh Missionary Institution through the now uninhabited Country, West and Northwest of the Luberl, continue uninterrupted as hitherto.

16. Any British Subject entering the said Territory under any other circumstances than those mentioned in the two foregoing Articles, can do so only with the consent of the Caffers themselves, and at their own risk. And the said Contracting Chiefs, and those acting under their authority, shall be fully authorised to send out of the said Territory those who shall so enter the same without their consent; and it is hereby clearly understood, that all persons, who shall enter the said Territory (save and except such as are excepted in the foregoing 15th Article) shall be, and are considered to be, subject to the laws of the Caffers, as long as they remain in the said Territory.

17. Such British Subjects as shall obtain Licences to Trade beyond the said Boundary, shall not be allowed to enter the said Territory, without the consent of the said Contracting Chiefs, who, however, pledge themselves and promise to encourage Trade and Commerce to the utmost of their power, and to protect and encourage those Traders whom they shall permit to enter their Territory, as long as they conduct themselves orderly and lawfully, with all their means and authority, to cause their persons, families, and property to be respected and inviolate, never to allow any of them, or any other British Subject in their said Territory, to be prosecuted, fined, or in any way made to suffer by any proceeding or custom connected with Witchcraft; but on the contrary to give such British Subjects at all times, free access to the British Agents, and to pay due attention to the representations of such Agents, as well as to give satisfaction and redress upon their just remonstrances or complaints; but the said Agents shall not be bound or permitted to extend their interference or protection in case of any seizure, to whatever extent, made upon the property of any British Trader, or other person among the Caffers, who shall be proved to them to have imported into the Territory occupied by the Caffers such articles as are by the Laws of the Colony forbidden to be carried for sale across the Frontier.

18. The said Contracting Chiefs do also promise and agree to allow free access to all British Vessels to any Harbour or Port on the Coast, not only for the purposes of Trade, but also for the landing of Military Stores or Supplies, and for the conducting and conveying of the same to any Military Post on the Frontier, accompanied, if necessary, by Military Escorts, without, however, conceding the right of constructing Forts, or other Military Works, or maintaining a Garrison at such Harbour or Port: And the said Chiefs do also promise, in case of any Shipwreck on the said Coast, to give full protection and safe conduct to the nearest Military Post, to all persons and property saved, as also to give every assistance towards such saving of life and property.

19. Every British Subject who shall be charged with any crime or offence in the said Territory, other than against person or property, shall have the right to demand, that previous to his trial notice of such trial shall be given to the nearest of the said Agents, who shall be at liberty, if he see fit, to attend at such trial, and to speak or plead on behalf of the accused, if he shall find cause to do so, and due weight shall be given to the opinion of such Agent as promised and agreed on in the 17th Article of this Treaty.

20. If any British Subject commit a crime or offence in the said Territory of the said Contracting Chiefs, and escape out of the same across the said Boundary, the said Agents shall exert themselves to obtain satisfaction for the aggrieved party, by means of the British Courts, and in every respect exert themselves with as much zeal for the Caffer, who may be thus wronged by a British Subject, as he is bound to do in behalf of the British Subject who may be aggrieved by a Caffer.

21. Any Caffer, or other native residing among the Caffers, who shall be desirous of crossing the Boundary into the Territory inhabited by the Colonists, shall be obliged to do so unarmed, and shall be bound to obtain a Pass from one of the British Agents residing among the Caffers:—such Pass shall be explicit in the English and Dutch languages, specifying the name of the applicant, the place of his destination, the object of his visit, the number of days he may be absent, and the date when granted.

No Pass shall be so granted, except at the request of, or upon the production of an understood token—of a respectable Chief—who will engage to be responsible for the conduct of the applicant during his stay in the Colony, and it must be clearly explained to such applicant, that such Pass will not protect him, if he deviate from the road to the place of his destination, or go armed, or skulk in retired places, or exceed the period specified in the Pass, or travel with others of his nation who are not provided with Passes: in either of which cases he shall be dealt with as if he had no such Pass. The Agent shall grant no Pass if he has the least suspicion of the motives of the applicant's visit to the Colony, nor unless he has reasonable cause for such a visit.

Visits on the parts of idlers are, for the sake of the Colony as well as the Caffers, to be by no means encouraged. The Agent shall refuse them, and he shall also keep an accurate register of such Passes as he shall grant,—of the names of the Chiefs at whose request they are granted, which names must also be stated upon the Passes.

All Caffers or others actually in the employ of Agents, Missionaries, or Traders, will however be allowed to enter the Colony with Passes from such employers, provided

such passes clearly state the names of such servants, their destination, and the time for how long they are to be in the Colony.

22. All Caffers found without such Passes to the westward of the said Boundary, shall, for the first time, be immediately sent across the Frontier, and delivered over to the nearest of the Amapakati mentioned in Article 10 of this Treaty, who shall be bound to punish them, or cause them to be sent to the Chiefs, who hereby pledge themselves to use every endeavor, and to cause laws and punishments to be established, for the purpose of preventing such encroachments upon the Colonial Territory. And any Caffer found so offending for the second time, shall be punished according to the laws already established, or to be hereafter established, for the punishment of such offences.

23. Any Caffer found in the act of committing any crime or depredation within the said Boundary, shall be dealt with according to the laws of the Colony, and it is to be clearly understood, that in case of resistance or attempt at flight, on the part of such criminals and depredators, it is perfectly legal to fire upon them, or otherwise to disable or kill them, if they cannot in any other way be secured, or prevented from completing such crime. But if such criminals or depredators, being pursued upon the spoor be not overtaken before they shall have crossed the line occupied by the said Amapakati, the course agreed upon in the following Article shall be adopted for the apprehension of such criminals or depredators, or the recovery of property carried off by them;—and on no occasion whatever shall any Patrole or armed party of any description, be allowed to cross the said line, so occupied, for the said purpose.

24. If any person being in the pursuit of criminals, or depredators, or property stolen by them, shall not overtake or recover the same, before he shall reach the said line, (provided he can make oath that he traced the said criminals, depredators, or property across a particular spot on the said line,—that the property when stolen was properly guarded, and in case of cattle, horses, or the like, that they were so guarded by an armed herdsman,—that the pursuit was commenced immediately after such property was stolen,—and that, if the robbery was committed during the night, the property had been, when stolen, properly secured in kraals, stables, or the like,—and that the pursuit in that case was, at latest, commenced early next morning), such person shall be at liberty to proceed direct to the Pakati living nearest to the spot, where he can swear such traces to have crossed the said line,—which Pakati shall be bound at once to receive the statement, examine the traces, and, if the statement appear well founded, use his utmost endeavour to recover the stolen property, as well as the perpetrators pursued; and it will be at the option of the party pursuing to continue the search at once, under the guidance of the said Pakati, provided he do not go armed, or accompanied by armed British Subjects, or assist in any violence of any kind within the said Territory. If the party pursuing shall thus, with the assistance of the said Pakati, or with that of the Police, to be hereafter named, recover the property pursued, he shall be at liberty to proceed with the same, either to one of the said Agents, or to one of the Military Posts, most convenient to himself, in order to make, before such Agent, or Officer commanding such Post, a statement of his proceedings, and the quantity and nature of the property recovered, which statement he shall be liable at all times to be called upon to make oath to, after making which statement he shall be at liberty to carry off the said property, leaving the said Pakati or Police to pursue the criminal, and to recover compensation for their exertions by means of the Caffer Chiefs and their Councils, according to the Caffer usage;—and the said Contracting Chiefs do hereby bind themselves in all such cases to exert themselves to the utmost to cause the criminals to be apprehended and punished, as well as on all occasions to cause the said Chiefs and Policemen to be equitably rewarded for their exertions.

25. If however a party pursuing stolen property and depredators in the manner specified in the foregoing Article, shall deem it more safe, convenient, or expeditious, to proceed to the nearest Military Post, he shall be at liberty to do so. The Officer commanding such Post shall provide such party (after he shall have stated himself prepared to make oath required in the said foregoing Article) with a Policeman, who shall accompany such pursuing party to the spot, where the said traces cross the said line, and examine the same with the assistance of the said Pakati, whose presence must be obtained. He, the said pursuer, shall then, if he do not think fit or safe to follow the spoor further, or, having so followed the same, prove unsuccessful, proceed to the Resident Agent for the Chiefs, into whose Territory the criminals and property were traced, and, before the said Agent, lodge his complaint upon oath, and in case of lost property swear particularly to the circumstances stated in the said foregoing Article, and also the exact value of the property stolen, and not recovered. Unless this Affidavit be made, the Agent shall take no further notice of the case; but, as soon as such Affidavit shall be made, the said Agent shall, if he have no reason to discredit the same, (he being at all times at liberty to demand further proof, and it being at all times the bounden duty of the party complaining to produce good and sufficient proof), lay the case before the Chiefs of the Territory, into which the criminals and property were traced. And the said Chiefs do hereby engage to call a Council, and to enter into the strictest investigation, to cause the stolen property to be recovered, if possible, and the perpetrators punished. And the said Chiefs do further pledge themselves and engage, that, if at the end of one month after the case shall have been laid before them, the said perpetrators or property shall not have been discovered, and, if it shall nevertheless have been clearly proved, before them and their said Council, by the evidence of the said pursuer, Pakati, and Policeman, or other proof, that the property was traced into their Territory, they, the said Chiefs, shall at once indemnify the person robbed to the full value of the property lost, and no more, and compensate the said Pakati and Police for their exertions.

26. With the exception of indemnification obtained through the said Chiefs and Council in the manner specified in the foregoing Article, no person pursuing stolen pro-

perly shall be allowed to take any but his own property, or the identical property he is in pursuit of, even if tendered to him, on pain of having to restore the property so taken, and losing all further claim to the property actually lost.

27. The said Contracting Chiefs do agree, promise, and pledge themselves, to encourage, and protect by every means in their power, the propagation of the Christian Religion throughout their Territories, as also to protect, in their persons, families, and property, the Teachers and Ministers of the said Religion, and all British Subjects of whatever description, who may sojourn in, or enter into, the said Territory, with their consent, or according to the terms of this Treaty, as long as they conduct themselves with propriety and submission to the laws, and never, under any circumstances, to allow them to be molested, or subjected to any prosecutions, or penalties, upon the plea or pretence of the laws and usages connected with or instituted against Witchcraft,—as also to leave them free access to, and communication with the Colony.

28. The said Contracting Chiefs do also agree, promise, and pledge themselves, to abstain, and cause their Tribe to abstain, from any way molesting, or interfering with the Fingoes, who are or will be located in the said Ceded Territory, but to consider them as under British protection;—to leave them in full enjoyment of their property, laws, or customs, and in no way to avenge any grievance, or dispute, which may heretofore have existed between the Caffers and the said Fingoes.

The said Contracting Chiefs also promise to remain at Peace with the other Tribes of Caffers,—cautiously to abstain from reviving any difference, or jealousy, which may heretofore have existed among them, and particularly those which may have been caused by any proceeding of any party during the late War. And the said Chiefs also promise solemnly to live at peace with the Tambookies, and to do every thing in their power to promote the tranquillity of the several Tribes of their own nation, and all other bordering Tribes, as well as of the Colonists.

Thus done, and agreed, sealed, and signed, at King William's Town, this Fifth day of December 1836.

Several failures of magnitude took place in the two first weeks of April. At Liverpool the pressure was more severely felt than at most other towns. A deputation from the principal merchants of that city had made application to the Chancellor of the Exchequer for relief, but it was unsuccessful;—the result may be anticipated. At Manchester, business was nearly at a stand; and the distress pervading the whole of the Manufacturing districts of the country, especially among the silk-weavers, had become truly alarming. It is in times like the present, that the blessings of temperance and economy among the laboring classes are shown most conspicuously; those who have funds in a Savings' Bank can meet the exigency with comparative ease, while the improvident must fall back upon the

workhouse, or such eleemosynary and precarious aid as the benevolent may yield. Truly, 'tis a grievous thing to depend on the cold hand of Charity.

Lord JOHN RUSSELL has assented to a proposal of Sir W. MOLESWORTH, for a select Committee of the House of Commons, to inquire into the whole system of Transportation, with a view to its reform, or total abolition.

Petitions from Manchester, Glasgow, Preston, and other important places were in the hands of Members of Parliament, to be presented, claiming the total abolition of the tax, on the importation of Cotton Wool, which is 2s 11d per cent. on Cotton imported from foreign places, and 4d on that from British Possessions.

The Election of Directors of the East India Company, on the 12th April last, was in favor of William Astell, William Butterworth Bayley, Russell Ellice, Richard Jenkins, Campbell Majoribanks, and John Masterman, esqrs.

A great portion of the Liverpool Mechanics' Institution has been destroyed by fire. The amount of damage is estimated at £3,000, but the whole building is insured at £6,000.

The Quarterly Average of the Weekly Liabilities and Assets of the Bank of England, from the 10th January to the 4th April, is,—

Liabilities,		Assets,	
Circulation, £18,432,000		Securities, £28,843,000	
Deposits, 11,192,000		Bullion, 4,071,000	
	£29,624,000		£32,914,000

A comparison of this return with the last shows an increase in the Circulation of £254,000; a decrease in the Deposits of £2,070,000; a decrease in the Securities of £1,736,000; and an increase in the Bullion of £23,000.

T. A. Curtis, Esq. has been appointed Governor, and Sir John Rae Reid, Deputy Governor, of the Bank of England, for the ensuing year.

COMMERCIAL RETROSPECT.—APRIL 10.

The Commercial Markets have been exceedingly dull since our last, indeed even more so than represented by us for some time past. The extensive distrust that still continues to pervade every department produces considerable heaviness generally, and still puts a stop to all speculation; whilst the business doing for consumption is only for immediate wants, and for export the orders are very limited. The quantity of goods brought to the hammer has not been large, a great part of which has, however, been taken in, and the private transactions are quite insignificant. The prices of almost all commodities still exhibit a declining appearance, and whilst monetary affairs remain in their present unsettled state, there is no prospect of any improvement.

The Money-market has been the scene of increased perplexity, distrust, and distress this week, owing to the arrival of so small a quantity of specie from the United States by the over-due packet, which arrived on Thursday; and although there are several packets now due at the time we are writing, we believe as many as five altogether, still the tone of the United States papers, brought by the packet on Thursday, did not warrant the expectation that there was much on the road. This necessarily increased the previously existing distrust and concern; and the Bank of England has been sitting in long and serious deliberation as to the steps to be taken relative to the great American houses here which required aid. What the Bank has decided to do will probably be known to the Bank only, and to the parties to whom the decision refers. It is not precisely a business of the public. In the meantime, whilst this state of things has existed, bills on great, approved, and substantial public companies have been discounted at 4½ per cent., which proves that where there is confidence there is money to be had. Now there are scarcely any bills in circulation but those of the very first rate description, and these are of course very few in number.

The Quarter's Revenue has shown a deficiency as compared with the corresponding quarter of last year of £60,409. This, however, is not so much as was expected, all things considered. There has been in consequence of this more firmness in the quotations of English securities. Consols have been 90½ Money and account.—Exchequer Bills have been 37 39.

There has been great depression in the market for Railway Shares.

We have commercial letters from Canton to the 23d of December. A correspondence had taken place with the Hong merchants, who have lowered their demand for Teas, and considerable purchases had been made at a reduction. These reduced prices were considerably above those of the previous season, say, in the proportion of 29 to 26.

At Manchester a few days ago there was the first public sale of silk which ever occurred in that town; 600 bales were disposed of.

The advices from New York, referred to above, were to the 23th of February. They were exceedingly barren of news. They were brought by the South American packet, which conveyed 5,000 dollars only to this country, it is reported.

London, April 11.

SUGAR.—The business done in the raw Sugar market to-day was limited to about 300 bhd. and trcs. in consequence of the very bad show of samples at market, some of the leading Brokers have entirely sold out; the prices were firmly supported, and in some instances the importers were asking rather more money.

The stock of B. P. Sugar is 7,431 bhd. and trcs. against 11,601 at the corresponding period of 1836, thus showing a decrease of 4170 bhd. and tierces; the weekly deliveries are 2318 bhd. and tierces against 1594 at the same time last year, thus showing an increase of 724.

MAURITIUS.—At the public sale to-day of 8703 bags, there was an improved demand, and the whole found buyers with better spirit at an advance of full 1s. per cwt. on the good Sugars; the lower sorts were also 6d. to 1s. dearer—good and fine yellow brought 60s. 6d. to 63s., middling and good middling 56s. 6d. to 59s. 6d., and low strong yellow 54s. 6d. to 55s. 6d. per cwt.

The stock of Mauritius is 68,118 bags, against 77,358 at the same time last year, thus showing a decrease of 9240 bags; the weekly deliveries are 7329 bags, against 6483 last year.—These returns include the East India Dock Company.

COFFEE.—The public sales to-day offered 58 casks Berbice, 143 bags Demerara, 150 bags Ceylon, and 880 bags of East India. The Berbice sold at steady prices: middling clean at 93s. 6d. to 98s. 0d. The Demerara was unclean, and all bought in, there being no buyers. The Ceylon was nearly all black Triage, which went at 24s. 6d., about 8 bags sound good ordinary sold at 73s. per cwt.; the Sumatra sold at 31s. to 34s. 6d. for ordinary brown, and the Samarang at 35s. 6d. to 44s. for ordinary and good pale.

The present stock of British Plantation Coffee is 2931 casks and 2390 barrels and bags, against 1575 casks and 923 barrels and bags at the corresponding period of last year; thus showing an increase of 1356 casks and 1467 barrels and bags. The deliveries last week were 215 casks and 172 barrels and bags, against 170 casks and 125 barrels and bags at the same time last year.

INDIGO.—The quarterly sales of East India commenced this morning. They have gone off with considerable heaviness and of 478 chests Bengal that passed the sale to-day, only about 68 were sold at 6d. to 9d. per lb. decline on consuming qualities, and 4d. to 6d. on shipping sorts, as compared with the last sales in January. Of Madras 245 chests passed auction, of which about 150 were disposed of at a reduction of 6d. on good, 9d. to 1s. on ordinary and middling, and full 1s. per on low and Kurpah. 93 chests were withdrawn previous to the commencement of the sale.

COTTON.—The dullness which has prevailed in this market for some time past has been much increased by the very unfavorable accounts from Liverpool and Manchester. The business done during the week, amounts to only 120 bales at former prices, viz. 100 fair to good fair Surat at 4½d to 5½d, and 20 middling Madras at 4½ per lb.

OILS.—The same langour still prevails in this market that we have noticed for some time past. All common descriptions of Fish Oils continue in exceedingly limited request, and prices are still rapidly declining: about 250 tons of Southern Whale Oil were brought to the hammer yesterday, and went off at £4 to £5 per tun under the previous nominal quotations, inferior to good quality selling at £39 to £42, the bulk at £40 per tun. The business done privately has been confined to small parcels of Cod and Pale Seal at about £1 to £2 per tun under last week's rates. Lined Oil has again declined 6d to 1s, at which however some large purchases are said to have been made. Rape Oil remains stationary in price, and little or no business is doing in it. Palm Oil continues to move off slowly at the quoted prices; the cargo noticed in our last as arrived, is said to have been sold on arrival, but the price has not transpired.

WHALEBONE continues to decline in value: about 8 tons Southern sold at public sale at £152 to £153 per ton.

BRITISH AND FOREIGN WOOLS.

LONDON, April 10.—The arrivals of foreign wools in the port of London, in the course of the week, ending on Saturday last, consisted of 700 bales from Turkey, 300 from New South Wales, 150 from Spain, 232 from Germany, 150 from Italy, and 140 from Russia. The sale we noticed in our last week's report, has been postponed for a month, and another advertised, of 1,342 bags of Peruvian wool, to take place on the 20th instant. An increased business is doing, by private contract, at fully stationary prices.

Electoral Saxony Wool from 4s. 2d. to 5s. 4d.; first Austrian, Bohemian, and other German Wools, 2s. 8d. to 4s.; seconds do. 2s. to 2s. 6d.; inferior do. in locks and pieces, 1s. 6d. to 2s.; Hungarian sheep, do. 2s. to 2s. 6d.; do. lamb's do. 2s. 4d. to 2s. 8d.; Leonessa sheep do., 2s. 6d. to 3s. 2d.; Segovia do. 2s. 2d. to 3s.; Soria do. 2s. 6d. to 3s.; Cacaes do. 2s. 4d. to 3s.; Spanish lambs' wool, 1s. 6d. to 2s. 6d.; German and Spanish crosses, 2s. 2d. to 3s. 4d.; Portugal sheep's do. 2s. 4d. to 3s. 8d. do. lambs' do. 2s. to 2s. 6d.; Australian fine crossed do. 2s. 4d. to 3s. 6d.; do. native sheep's do. 1s. 6d. to 2s. 8d.; Van Dieman's Land native sheep's do., 1s. 6d. to 2s. 6d.; Cape of Good Hope do., 1s. 6d. to 3s. per lb.

For British Wool there is but little inquiry, yet sellers are firm to their quotations.

TREATY

ENTERED into between ANDRIES STOCK-ENSTROM, Esquire, Lieutenant-Governor of the Eastern Division of the Colony of the Cape of Good Hope, on the part of His Britannic Majesty, and the Fingo Chiefs

UMKLAMBISO and JOKWANI,

when, after the fullest explanations, by means of the official Interpreter Mr. THEOPHILUS SHEPSTONE, the following Articles of Convention were fully agreed upon, in the presence of HUGHAM HUDSON, Esq. Agent General, and JOHN MITFORD BOWKEN, Esq. Resident Agent for the Caffer Tribes,—as also several Fingo Councillors;—subject nevertheless to the ratification by or on behalf of His said Majesty.

Article 1. There shall be Peace and Amity for ever between His said Britannic Majesty, His Subjects—particularly those of the said Colony—and the said contracting Chiefs, and their Tribe,—and both parties shall honestly and faithfully use their utmost endeavours to prevent a rupture of the same, to remove every cause for disagreement, which may occur, and scrupulously to abide by the Engagements contained in this Treaty.

2. The said contracting Chiefs accept as a special mark of His said Majesty's grace and favor, any part of the Territory between the Keiskamma and the Fish River, as a Loan, to be by them, or their Tribe, or any part thereof, held, upon such terms, and to such extent, as shall be laid down by, or on the part of, His said Majesty, which terms shall be incorporated in this Treaty.

3. The said Lieutenant-Governor doth hereby, in the name of His said Majesty, grant unto the said Chiefs and their Tribe, that part of the said Territory called the Ceded Territory, to be specified at the foot of this Treaty, according to a Map to be formed by a competent officer, and to be hereunto annexed, which Territory shall be held by the said Chiefs and Tribe, their Heirs and Successors, in perpetuity, never to be reclaimed by, or on behalf of, His said Majesty, except in case of hostility committed, or a war provoked by the said Chiefs, or Tribe, or in case of a breach of this Treaty, or any part thereof, and for which breach of this Treaty satisfaction or redress shall not otherwise be given or obtained.

4. The said contracting Chiefs and their Tribes, shall, in the said Territory so granted unto them, enjoy the full and entire Right to adopt, or adhere to, their own Laws, or any other Law, which they may see fit to substitute, as also to expel or exclude from the same any person whom they do not think proper to admit, or retain; and with the exception of the contingencies of hostility, war, or breach of these Treaties, specified in the foregoing Article 3, the Right of His said Majesty to the dominion over the said Territory shall in no way be exercised therein, subject however to the restrictions and conditions specified in the following Article.

5. His Majesty reserves his right of stationing Troops, and building Forts in the said Territory, and availing himself for that purpose of all the facilities and materials within the same, as also to appropriate a certain necessary space round said Forts, to be regularly marked out for the use thereof;—also to keep open the communication with and between the said Forts, and to send supplies to the same, but no patrolling through, or scouring of, the said Territory is to be permitted to the said Troops, who are not to deviate from the said lines of communication, or in any way to molest, disturb, or interfere with the inhabitants.

6. No Fingo, armed or unarmed, single or in number, male or female, shall be allowed to cross the Boundary fixed between the Caffers and the Colonists, and no British Subject, armed or unarmed, single or in number, shall be allowed to enter the Territory hereby granted to the said Chiefs and Tribe, except with permission, and under the restriction hereinafter to be specified in Articles 10 and 16, save and except the Military parties or escorts communicating with, and between, the Posts mentioned in Article 5 of this Treaty.

7. The Lieutenant-Governor engages, on the part of His said Majesty, to place an Agent to reside in a convenient situation near the Residence of the said Chiefs, which Agent will act solely in a diplomatic capacity;—and the said contracting Chiefs bind themselves to respect such Agent as the Representative of the British Government, and to protect his person, family, and property, to the utmost of their power, and to leave them full liberty of ingress and egress through the said Territory at all times, without the least molestation, or hindrance.

8. All representations, complaints, or applications, which may be made on the part of the Colonists or their Government to, or against, the Fingoes, or on the part of the Fingoes, to, or against, the Colonists, or their Government, shall be made through the said diplomatic Agent, who shall be bound to observe the strictest impartiality and justice, and exert his utmost abilities to promote the peace and prosperity of the Colonists, as well as the Fingoes, to maintain the rights of both parties inviolate, and to cause the provisions of this Treaty to be strictly observed.

9. The said contracting Chiefs bind themselves to afford free access to the said Agent, to all persons from the Colony, provided with such passes as shall be hereinafter specified. They also promise, that such Caffers, or others, who shall be employed by the Colonial Government, as Policemen, shall have free access into their said Territory, either with messages, or in tracing out, with the assistance of Caffer Amapakati, depredators, or such criminals as shall have committed crimes in, and escaped from, the Colony, promising also to give them, and cause them to receive, in their said Territory, every assistance and protection.

10. Any British subject, or Caffer, desirous of communicating with the Agent residing in the said Territory, shall have free access to such Agent, for as far as the said Chiefs and Tribe are concerned, but shall not be at liberty to go with fire-arms, or with other weapons of offence or defence, except with the consent of one of the Chiefs of the said Tribe of Fingoes.

11. From the provisions of the foregoing Article 10, are to be excluded all those who shall belong to any of the Military Posts, or to the Escorts conducting the Supplies, or keeping open the communication, as mentioned in Article 5 of this Treaty, all which persons shall be strictly under Military control, and on no account be allowed to do that which any soldier of such Escort would not be allowed to do.

12. Any British Subject entering the said Territory under any circumstance other than those mentioned in the two foregoing Articles, can do so only with the consent of the Fingoes themselves, and at their own risk. And the said contracting Chiefs, and those acting under their authority, shall be fully authorised to send out of the said Territory those who shall so enter the same without their consent; and it is hereby clearly understood, that all persons, who shall enter the said Territory (save and except such as are excepted in the foregoing Article) shall be, and are considered to be, subject to the laws of the Fingoes, as long as they remain in the said Territory.

13. Such British Subjects as shall obtain Licences to Trade beyond the said Boundary, shall not be allowed to enter the said Territory, without the consent of the said contracting Chiefs, who, however, pledge themselves and promise to encourage Trade and Commerce to the utmost of their power, and to protect and encourage those Traders whom they shall permit to enter their Territory, as long as they conduct themselves orderly and lawfully, with all their means and authority; to cause their persons, families, and property to be respected and inviolate, never to allow any of them, or any other British Subject in the said Territory to be prosecuted, fined, or in any way made to suffer by any proceeding or custom connected with Witchcraft; but on the contrary, to give such British Subjects at all times, free access to the British Agent, and to pay due attention to the representations of such Agents, as well as to give satisfaction and redress upon their just remonstrances or complaints; but the said Agents shall not be bound or permitted to extend their interference or protection in case of any seizure, to whatever extent, made upon the property of any British Trader, or other person among the Caffers, who shall be proved to them to have imported into the Territory occupied by the said Tribe such articles as are by the Laws of the Colony forbidden to be carried for sale across the Frontier.

14. Every British Subject who shall be charged with any crime or misdemeanor in the said Territory, shall have the right to demand, that previous to his trial notice of such trial shall be given to the said Agent, who shall be at liberty, if he see fit, to attend at such trial, and to speak or plead on behalf of the accused, if he shall find cause to do so, and due weight shall be given to the opinion of such Agent as promised and agreed on in the 13th Article of this Treaty.

15. If any British Subject commit a crime or misdemeanor in the said Territory of the said contracting Chiefs, and escape out of the same across the said Boundary, the said Agent shall exert himself to obtain satisfaction for the aggrieved party, by means of the British Courts, and in every respect exert himself with as much

zeal for the Fingo, who may be wronged by a British Subject, as he is bound to do on behalf of the British Subject who may be aggrieved by a Fingo.

16. Any Fingo, who shall be desirous of crossing the Boundary into the Territory inhabited by the Colonists, shall be obliged to do so unarmed, and shall be bound to obtain a Pass from the British Agent residing among the Tribe:—such Pass shall be explicit in the English and Dutch languages, specifying the name of the applicant, the place of his destination, the object of his visit, the number of days he may be absent, and the date when granted.

No Pass shall be so granted, except at the request of, or upon the production of an understood token from, a respectable Chief—who will engage to be responsible for the conduct of the applicant during his stay in the Colony; and it must be clearly explained to such applicant, that such Pass will not protect him, if he deviate from the road to the place of his destination, or go armed, or skulk in retired places, or exceed the period specified in the Pass, or travel with others of his nation who are not provided with Passes: in either of which cases he shall be dealt with as if he had no such Pass. The Agent shall grant no Pass if he has the least suspicion of the motives of the applicant's visit to the Colony, nor unless he has reasonable cause for such a visit.

Visits on the part of idlers are, for the sake of the Colony as well as the Fingoes, to be by no means encouraged. The Agent shall refuse them, and he shall keep an accurate register of such Passes as he shall grant, and the names of the Chiefs at whose request they are granted, which names must also be stated upon the Passes.

All Fingoes or others actually in the employ of the Agents, Missionaries, or Traders, will however be allowed to enter the Colony with Passes from such employers, provided the Passes clearly state the names of such servants, their occupation, and the time for how long they are to be in the Colony.

17. All Fingoes found without such Passes to the westward of the said Boundary, shall, for the first time, be immediately sent across the Frontier, and delivered over to the Caffer Amapakati residing on said Boundary, who shall be bound to cause them to be sent to the said contracting Chiefs, who hereby pledge themselves to use every endeavor, and to cause laws and punishments to be established, for the purpose of preventing such encroachments upon the Colonial Territory. And any Fingo found so offending for the second time, shall be punished according to the laws already established, or to be hereafter established, for the punishment of such offences.

18. Any Fingo found in the act of committing a crime, or depredation within the said Boundary, shall be dealt with according to the laws of the Colony, and it is to be clearly understood, that in case of resistance or attempt at flight, on the part of such criminals and depredators, it is perfectly legal to fire upon them, or otherwise to disable or kill them, if they cannot in any other way be secured, or prevented from completing such crime. But if such criminals or depredators, being pursued upon the spoor, be overtaken before they shall have crossed the line occupied by the said Caffer Amapakati, the course agreed upon in the following Article shall be adopted for the apprehension of such criminals or depredators, or the recovery of property carried off by them;—and on no occasion whatever shall any Patrol or armed party of any description, be allowed to cross the said line, so occupied, for the said purpose.

19. If any person being in the pursuit of criminals, or depredators, or property stolen by them, shall not overtake or recover the same, before he shall reach the said line, (provided he can make oath that he traced the said criminals, depredators, or property, across a particular spot on the said Boundary,—that the property when stolen was properly guarded, and in case of cattle, horses, or the like, that they were so guarded by an armed herdsman,—that the pursuit was commenced immediately after such property was stolen,—that, if the robbery was committed during the night, the property had been, when stolen, properly secured in kraals, stables, or the like,—and that the pursuit in that case was at latest commenced, early next morning), such person shall be at liberty to proceed direct to the Pakati living nearest the spot, where he can swear such traces to have crossed the said line,—where the Pakati shall be bound at once to receive the statement, examine the traces, and, if the statement appear well founded, use his utmost endeavour to recover the stolen property, as well as the perpetrators pursued; and it will be at the option of the party pursuing to continue the search at once, under the guidance of the said Pakati, provided he do not go armed, or accompanied by armed British Subjects, or assist in any violence of any kind within the said Territory. If the party pursuing shall

thus, with the assistance of the said Pakati, or with that of the Police, to be hereafter named, recover the property pursued, he shall be at liberty to proceed with the same, either to one of the said Agents, or to one of the Military Posts, most convenient to himself, in order to make, before such Agent, or Officer commanding such Post, a statement of his proceedings, and the quantity and nature of the property recovered, which statement he shall be liable at all times to be called upon to make oath to, after making which statement he shall be at liberty to carry off the said property, leaving the said Pakati or Police to pursue the criminal, and to recover compensation for their exertions, by means of the Chiefs concerned, and their Councils, according to the usage of the Tribe;—and the said contracting Chiefs do hereby bind themselves in all cases in which their Tribe is concerned, to exert themselves to the utmost to cause the criminals to be apprehended and punished, as well as on all occasions to cause the said Chiefs and Policemen to be equitably rewarded for their exertions.

20. If however a party pursuing stolen property and depredators, in the manner specified in the foregoing Article, shall deem it more safe, or convenient, or expeditious, to proceed to the nearest Military Post, he shall be at liberty to do so. The Officer commanding such Post shall provide such party (after he shall have stated himself prepared to make the oath required by the said foregoing Article) with a Policeman, who shall accompany such pursuing party to the spot, where the said traces cross the said line, and examine the same with the assistance of the said Pakati, whose presence must be obtained. He, the said pursuer, shall then, if he do not think fit or safe to follow the spoor further, or, having so followed the same, prove unsuccessful, proceed to the Resident Agent for the Chiefs, into whose Territory the criminals and property were traced, and, before the said Agent, lodge his complaint upon oath, and, in case of lost property, swear particularly to the circumstances stated in the said foregoing Article, and also the exact value of the property stolen, and not recovered. Unless this Affidavit be made, the Agent shall take no further notice of the case; but, as soon as such Affidavit shall be made, the said Agent shall, if he have no reason to discredit the same, (he being at all times at liberty to demand further proof, and it also being the bounden duty of the party complaining to produce good and sufficient proof,) lay the case before the Chiefs of the Territory, into which the criminals and property were traced. And the said Chiefs hereby engage to call a Council, and to enter into the strictest investigation, to cause the stolen property to be recovered, if possible, and the perpetrators punished. And the said Chiefs do further pledge themselves and engage, that, if at the end of one month after the case shall have been laid before them, the said perpetrators or property shall not have been discovered, and, if it shall nevertheless have been clearly proved, before them and their said Council, by the evidence of the said pursuer, Pakati, or Policeman, or other proof, that the property was traced into their Territory, he, the said Chief, shall at once indemnify the person robbed to the full value of the property lost, and no more, and compensate the said Pakati and Police for their exertions.

21. With the exception of indemnification obtained through the said Chiefs and Council in the manner specified in the foregoing Article, no person pursuing cattle or stolen property shall be allowed to take away any but his own property, or the identical property he is in pursuit of, even if tendered to him, on pain of having to restore the property so taken, and losing all further claim to the property actually lost.

22. The said contracting Chiefs do agree, promise, and pledge themselves, to encourage, and protect by every means in their power, the propagation of the Christian Religion throughout their Territories, as also to protect, in their persons, families, and property, the Teachers and Ministers of the said Religion, and all British Subjects of whatever description, who may sojourn in, or enter into, the said Territory, with their consent, or according to the terms of this Treaty, as long as they conduct themselves with propriety and submission to the law, and never, under any circumstances, to allow them to be molested, or subjected to any prosecutions, or penalties, upon the plea or pretence of the laws and usages connected with, or instituted against, Witchcraft,—as also to leave them free access to, and communication with the Colony.

23. The contracting Chiefs do also agree, promise, and pledge themselves, to abstain, and cause their Tribe to abstain, from any way molesting, or interfering with the Caffers, but to remain at peace with them, and in no way to avenge any grievance, or dispute, which may heretofore have existed between the Caffers and the Fingoes, but to live at peace with all parties, and to do every thing in their power to promote the tranquillity of the several Tribes by whom they are surrounded, as well as of the Colonists.

TREATY

ENTERED into between ANDRIES STOCKENSTROM, Esquire, Lieutenant-Governor of the Eastern Division of the Colony of the Cape of Good Hope, on the part of His Britannic Majesty, and the Tambookie Chief MAPASSA, when, after the fullest Explanations by means of the Resident Agent Mr. HENRY FENN, the following articles of convention were fully agreed upon in the pre-

sence of HUGHAM HUDSON, Esq., Agent General, and the said Resident Agent Mr. HENRY FENN, as also the Tambookie Councillors QUASHA and NYELA, subject nevertheless to the ratification, by or on behalf of, his said Majesty.

Article 1. There shall be Peace and Amity for ever, between His said Britannic Majesty, His Subjects—particularly those of the said Colony—and the said contracting Chief and his Tribe,—and both parties shall honestly and faithfully use their utmost endeavours to prevent a rupture of the same, to remove every cause for disagreement, which may occur, and scrupulously to abide by the Engagements contained in this Treaty.

2. The said contracting Chief, doth acknowledge that the Country which he and his Tribe do occupy between the Stormbergen and Caffraria, and adjoining the Eastern Frontier of the Colony, is part of what was the Bushmen Country, still thinly inhabited by the remnants of the said Tribe.

3. The said Lieutenant Governor doth engage, on the part of His said Majesty, not to molest the said Chief or Tribe, or cause him or them to be molested in the possession of the said Territory, or to lay claim to any part thereof, provided the said Chief or Tribe do not in any way disturb the Peace of the Colony, or molest the Inhabitants therein, and provided also the said Chief and Tribe shall strictly adhere to the terms of this Treaty.

4. The boundary between the said Colony and the Territory possessed by the said Chief and Tribe is agreed to be the Swarte Key or Winterberg Spruit from its source in the Winterberg down to the Conical Hill called Kogel Kop, thence a line across a narrow neck of land called Rhenoster Hoek into the Klaas Smit's River, and thence the latter River to its source in that Kloof of the Bamboos Berg, called Buffels Hoek; provided however that the free communication between the Cat and Gonappe Rivers, and the said Territory, or the Shiloh Missionary Institution, as also between the Tarka and Caffraria through the now uninhabited Country East of the Winterberg, continue uninterrupted as hitherto.

5. The said contracting Chief engages to protect by all means in his power the Bushmen who reside, or may come to reside, within the said Territory, as the Original Proprietors of the Soil, to let them enjoy all the rights and privileges to which the Tambookies are entitled, and to be responsible for their Acts in the same manner as he binds himself by this Treaty for the Acts of the Tambookies.

6. No Tambookie armed or unarmed, single or in number, male or female, shall be allowed to cross the said Boundary into the Colony, and no British Subject, armed or unarmed, single or in number, shall be allowed to cross into the said Territory occupied by the Tambookies, except with permission and under the restriction hereinafter to be specified in Article.

7. The said contracting Chiefs shall, with the concurrence of the said Lieutenant Governor, or person appointed by him, fix upon certain points in the said Territory, as near to the said Boundary and to each other as convenient, at each of which he shall station a Chief or responsible man of his Tribe, to be called, for the sake of distinction, "Pakati," to reside there, and to act as a guard.

It shall be the duty of such Amapakati to keep a good and constant understanding with the Fieldcornets residing nearest to their said residences, and to do every thing in their power to prevent inroads or aggressions either on the part of the Colonists against the Tambookies or of the Tambookies against the Colonists.

The Amapakati, who shall be so stationed, must, by the said contracting Chief, be made known, by name, to the said Field-cornets, and any change, either of person or station, which may take place with reference to the said Amapakati, must be previously communicated to the said Fieldcornets.

The Amapakati shall be responsible to their own Chief, who will see the necessity of selecting for such stations trust-worthy men, and to punish every neglect, fraud, or deception, which they may commit, as the said contracting Chief hereby pledges himself to do.

8. The said Lieutenant-Governor engages, on the part of His said Majesty, to place an Agent to reside in a convenient situation in the said Territory, which Agent shall act solely in a diplomatic capacity;—and the said contracting Chief binds himself to respect such Agent as the Representative of the British Government, and to protect his person, family, and property, to the utmost of his power, and to leave him full liberty of ingress and egress through the said Territory, or across the Boundary into the Colony, at all times, without the least molestation, or hindrance.

9. All representations, complaints, or applications, which may be made on the part of the Colonists or their Government, to, or against, the Tambookies, or on the part of the Tambookies, to, or against, the Colonists, or their Government, shall be made through the said diplomatic Agent, who shall be bound to observe the strictest impartiality and justice, and exert his utmost abilities to promote the peace and prosperity of the Colonists, as well as of the Tambookies, to maintain the rights of both parties inviolate, and to cause the provisions of this Treaty to be strictly observed.

10. The said contracting Chief binds himself to afford free access to the said Agent, to all persons from the Colony, provided with such passes as shall be hereinafter specified. He also promises that such Tambookies or others who shall be employed by the Colonial Government, as Policemen, or Messengers, shall have free access into his said Territory, either with messages, or in tracing out, with the assistance of the Amapakati, depredators, or such criminals as shall have committed crimes in, and have escaped from, the Colony, promising also to give them, and cause them to receive, in his said Territory, every assistance and protection.

11. Any British subject desirous of crossing the Boundary into the Territory, inhabited by the said Chief and Tribe, with the view of communicating with the Agent, shall be bound to obtain a pass from the Field-cornet

living nearest to the spot where he wishes to cross the Boundary with this pass, he shall be bound to proceed direct to the station of the Resident Agent; but no person, so entering such Territory, shall be at liberty to go with firearms, or other weapons of offence or defence, except with the consent of the said Amapakati or of a Chief.

12. Any British Subject entering the said Territory under any other circumstances than those mentioned in the foregoing Article, can do so only with the consent of the Tambookies themselves, and at their own risk. And the said contracting Chief, and those acting under his authority, shall be fully authorised to send out of the said Territory those who shall so enter the same without their consent; and it is hereby clearly understood, that all persons, who shall enter the said Territory shall be, and are considered to be, subject to the laws of the Tambookies, as long as they remain in the said Territory.

13. Such British Subjects as shall obtain Licences to Trade beyond the Boundary, shall not be allowed to enter the said Territory, without the consent of the said contracting Chief, who, however, pledges himself and promises to encourage Trade and Commerce to the utmost of his power, and to protect and encourage those Traders whom he shall permit to enter said Territory, as long as they conduct themselves orderly and lawfully, with all his means and authority, to cause their persons, families, and property to be respected and inviolate, never to allow any of them, or any other British Subject in his said Territory, to be prosecuted, fined, or in any way made to suffer by any proceeding or custom connected with Witchcraft; but, on the contrary, to give such British Subjects at all times, free access to the British Agent, and to pay due attention to the representations of such Agent, as well as to give satisfaction and redress upon his just remonstrances or complaints; but the said Agent shall not be bound, or permitted, to extend his interference or protection in case of any seizure, to whatever extent, made upon the property of any British Trader, or other person who shall be proved to him to have imported into the said Territory, such articles as are by the Law of the Colony forbidden to be carried for sale across the Frontier.

14. Every British Subject who shall be charged with any crime or misdemeanor, in the said Territory, shall have the right to demand, that previous to his trial notice of such trial shall be given to the said Agent, who shall be at liberty, if he see fit, to attend at such trial, and to speak or plead in behalf of the accused, if he shall find cause to do so, and due weight shall be given to the opinion of such Agent as promised and agreed on in the 13th Article of this Treaty.

15. If any British Subject commit a crime or misdemeanor in the said Territory, and escape out of the same across the Boundary, the said Agent shall exert himself to obtain satisfaction for the aggrieved party, by means of the British Courts, and in every respect exert himself with as much zeal for the Tambookie, who may be thus wronged by a British Subject, as he is bound to do in behalf of the British Subject who may be aggrieved by a Tambookie.

16. Any Tambookie, or other native residing among the Tambookies, who shall be desirous of crossing the Boundary into the Territory inhabited by the Colonists, shall be obliged to do so unarmed, and shall be bound to obtain a Pass from the British Agent residing among the Tribe:—such Pass shall be explicit in the English and Dutch languages, specifying the name of the applicant, the place of his destination, the object of his visit, the number of days he may be absent, and the date when granted.

No Pass shall be so granted, except at the request of, or upon the production of an understood token—from a respectable Chief—who will engage to be responsible for the conduct of the applicant during his stay in the Colony, and it must be clearly explained to such applicant, that such Pass will not protect him, if he deviate from the road to the place of his destination, or go armed, or skulk in retired places, or exceed the period specified in the Pass, or travel with others of his nation who are not provided with Passes: in either of which cases he shall be dealt with as if he had no such Pass. The Agent shall grant no Pass if he has the least suspicion of the motives of the applicant's visit to the Colony, nor unless he has reasonable cause for such a visit.

Visits on the parts of idlers are, for the sake of the Colony as well as the Tambookies, to be by no means encouraged. The Agent shall refuse them, and he shall also keep an accurate register of such Passes as he shall grant,—of the names of the Chiefs at whose request they are granted, which names must also be stated upon the Passes.

All Tambookies or others actually in the employ of Agents, Missionaries, or Traders, will however be allowed to enter the Colony with Passes from such employers, provided such passes clearly state the names of such servants, their destination, and the time for how long they are to be in the Colony.

17. All Tambookies found without Passes to the westward of the said Boundary, shall, for the first time, be immediately sent across the Frontier, and delivered over to the nearest of the Amapakati mentioned in Article 7 of this Treaty, who shall be bound to punish them, or cause them to be sent to the said contracting Chief, who hereby pledges himself to use every endeavor, and to cause laws and punishments to be established, for the purpose of preventing such encroachments upon the Colonial Territory. And any Tambookie found so offending for the second time, shall be punished according to the laws already established, or to be hereafter established, for the punishment of such offences.

18. Any Tambookie found in the act of committing a crime or depredation within the said Colony, shall be dealt with according to the laws of the Colony, and it is to be clearly understood, that in case of resistance or attempt at flight, on the part of such criminals and depredators, it is perfectly legal to fire upon them, or otherwise to disable or kill them, if they cannot in any other way be secured, or prevented from completing such crime. But if such criminals or depredators, being pursued upon the spoor, be not overtaken before they shall have crossed the line occupied by the Amapakati, the course agreed upon in the fol-

Following Article shall be adopted for the apprehension of such criminals or depredators, or the recovery of property carried off by them;—and on no occasion whatever shall any Patrol or armed party of any description, be allowed to cross the said line, so occupied, for the said purpose.

19. If any person being in the pursuit of criminals, or depredators, or property stolen by them, shall not overtake or recover the same, before he shall reach the said line, (provided he can make oath that he traced the said criminals, depredators, or property across a particular spot on the said line,—that the property when stolen was properly guarded, and in case of cattle, horses, or the like, that they were so guarded by an armed herdsman,—that the pursuit was commenced immediately after such property was stolen,—that, if the robbery was committed during the night, the property had been, when stolen, properly secured in kraals, stables, or the like,—and that the pursuit in that case was, at latest, commenced early next morning). such person shall be at liberty to proceed direct to the Pakati living nearest to the spot, where he can swear such traces to have crossed the said line,—which Pakati shall be bound at once to receive the statement, examine the traces, and, if the statement appear well founded, use his utmost endeavours to recover the stolen property, as well as the perpetrators pursued; and it will be at the option of the party pursuing to continue the search at once, under the guidance of the said Pakati, provided he do not go armed, or accompanied by armed British Subjects, or assist in any violence of any kind within the said Territory. If the party pursuing shall thus, with the assistance of the said Pakati, recover the property pursued, he shall be at liberty to proceed with the same, either to the said Agent, or to one of the Field-cornets residing most convenient to himself, in order to make, before such Agent, or Field-cornet, a statement of his proceedings, and the quantity and nature of the property recovered, which statement he shall be liable at all times to be called upon to make oath to, after making which statement he shall be at liberty to carry off the said property, leaving the said Pakati to pursue the criminal, and to recover compensation for their exertions by means of the Chiefs and their Councils, according to the usage of the Tribe;—and the said contracting Chief do hereby bind himself in all such cases to exert himself to the utmost to cause the criminals to be apprehended and punished, as well as on all occasions to cause the said Pakati to be equitably rewarded for his exertions.

20. If however a party pursuing stolen property and depredators, in the manner specified in the foregoing Article, shall deem it more safe, convenient, or expeditious, to proceed to the nearest Field-cornet, he shall be at liberty to do so. The Field-cornet shall either accompany such party, (after he shall have stated himself prepared to make oath required in the said foregoing Article) or provide him with a competent witness who shall accompany such pursuing party to the spot, where the said traces cross the said line, and examine the same with the assistance of the said Pakati, whose presence must be obtained. He, the said pursuer, shall then, if he do not think fit or safe to follow the spoor further, or, having so followed the same, prove unsuccessful, proceed to the Resident Agent and lodge his complaint upon oath, and in case of lost property swear particularly to the circumstances stated in the said foregoing Article, and also the exact value of the property stolen, and not recovered. Unless this Affidavit be made, the Agent shall take no further notice of the case; but, as soon as such Affidavit shall be made, the said Agent shall, if he have no reason to discredit the same, (he being at all times at liberty to demand further proof, and it being at all times the bounden duty of the party complaining to produce good and sufficient proof), lay the case before the Chief who do hereby engage to call a Council, and to enter into the strictest investigation, to cause the stolen property to be recovered, if possible, and the perpetrators punished. And the said Chief doth further pledge himself and engage, that, if at the end of one month after the case shall have been laid before him, the said perpetrators or property shall not have been discovered, and, if it shall nevertheless have been clearly proved, before him and his said Council, by the evidence of the said pursuer and Pakati, or other proof, that the property was traced into his Territory, he, the said Chief, shall at once indemnify the person robbed to the full value of the property lost, and no more, and compensate the said Pakati for his exertions.

21. With the exception of indemnification obtained through the said Chiefs and Council in the manner specified in the foregoing Article, no person pursuing stolen property shall be allowed to take any but his own property, or the identical property he is in pursuit of, even if tendered to him, on pain of having to restore the property so taken, and losing all further claim to the property actually lost.

22. The said contracting Chief doth agree, promise, and pledge himself, to encourage, and protect by every means in his power, the propagation of the Christian Religion throughout his Territories, as also to protect, in their persons, families, and property, the Teachers and Ministers of the said Religion, and all British Subjects of whatever description, who may sojourn in, or enter into, the said Territory, with their consent, or according to the terms of this Treaty, as long as they conduct themselves with propriety and submission to the law, and never, under any circumstances, to allow them to be molested, or subjected to any prosecutions, or penalties, upon the plea or pretence of the laws and usages connected with or instituted against Witchcraft,—as also to leave them free access to, and communication with, the Colony.

23. The said contracting Chief doth also agree, promise and pledge himself to do every thing in his power to promote the tranquillity of the several Tribes by whom he is surrounded, as well as of the Colonists.

Thus done, and agreed, signed, and sealed, at Shilo, this Eighteenth day of January 1837.

PUBLIC NOTICE.

IF any thing, more than another, be needed as an indubita-
ble proof of the celebrity of ROWLAND'S MACAS-
SAR OIL, it is the fact, that no known production in the
world has so many spurious and base imitations, which a set
of unprincipled vendors endeavour to foist on the Public
under the lure of being CHEAP.

To PREVENT such vile Imposition, ATTENTION to
the following is solicited.

THE LOWEST PRICE of the original is 3s. 6d. per
bottle. The label has the words "Rowland's Macassar Oil,"
and between these words are the same words minutely and
curiously engraved 24 times, also the Name and Address in
Red on Lace-work.

A. ROWLAND & SON, 20, HATTON GARDEN,
Counter-signed ALEX. ROWLAND.

All others are Frauds.

PARTICULAR ATTENTION, on purchasing, is respect-
fully solicited, as the Proprietors cannot be responsible for
the serious injury resulting from the use of base and cheap
imitations of injurious quality, now offered to the Public as
the "GENUINE."

The following testimonials (selected from an immense
number) of the extraordinary good effects of ROWLAND'S
MACASSAR OIL, with many from the Nobility, may be seen
at the Proprietors, A. ROWLAND and SON, 20, Hatton
Garden, London.

Broad Street, Brighton, April 19 1833.

GENTLEMEN.—Having derived essential benefit from the
use of your Oil, I am induced to send you the particulars;
which you are at liberty to make known, as you think proper.
Rather more than twelve months since I made trial of the
Oil, tho' I confess without much faith, as I had been very bald
18 years; it was near three months before any effect was
perceptible, when a slight down appeared at the expiration of
five months, hair had grown on the bald part, full half an inch
long; I then had the whole of my head regularly shaved once
a week for a considerable period, constantly using the Oil,
night and morning; the result is, that I have this day discarded
my wig, my hair being quite restored, and as strong and great
in quantity as when I was 20 years of age.

I am, Gentlemen, your obedient Servant, C. P. D.

Messrs. Rowlands.

Piccadilly, November.

SIRS,—Mrs. O. has found great benefit from your Macassar
Oil in remedying the children's hair from thinness and weak-
ness, and actually realizing fine curly heads of hair! Too great
encomiums cannot be passed upon it—it is highly worthy of
public patronage.

To Messrs. Rowland and Son.

Newington Green, Middlesex, Nov 17.

GENTLEMEN,—I take the earliest opportunity of relating
the surprising virtues of your Oil on two of my children, one
seven, and the other nine years of age;—their Hair came off
on several parts of their heads, in patches the size of half-a-
crown, and continued so. Alarmed at this circumstance, as
there was no appearance of its coming again, I tried several
compositions, &c. without effect; when a lady, who had wit-
nessed the extraordinary qualities of your Oil, entreated me to
try it, which I did; and after using four bottles their hair was
completely recovered. You have liberty to refer any one to
me.

Your obedient servant, L. JOHNSON.

To Messrs. Rowland and Son.

Farringdon Street, April 23rd.

GENTLEMEN.—I have to acknowledge myself one of the
many thousands who have experienced the wonderful effects
of your invaluable Oil. A few months ago the hair came off
at the back of my head, so as to leave a space the size of the
palm of my hand entirely bald. Fearful of losing the whole
of my hair, I was induced (by the persuasions of a friend) to

(From a Correspondent.)

Cape Town, June 14, 1837.

The number of Ships resorting to Table Bay this winter is greater than it has been since the days of Van der Stell. I have frequently seen but a solitary vessel in our Bay, in the winter season, but a very different scene now presents itself. When I see so many noble ships riding in the bay and observe the bustle and activity pervading all classes at the wharf, at this season of the year, I cannot but contemplate with lively feelings of pleasure, the change which has taken place in the character of our Port. Table Bay, which was once the dread of the wary mariner, is now being resorted to as a harbor of refuge, and the Cape is not to be excelled in the cheapness and good quality of the supplies which are always to be obtained.

But an evil which militates against the advantages of our Port is the apathy of the proprietors of boats. Although the Trade of this place has doubled itself since the year 1824, I will venture to assert that 16 Cargo Boats have not been built since that period. The detention caused by the inadequate number of Cargo Boats, and the want of more of a larger class, have prevented many vessels from resorting here, and will do so until there are boats sufficient to meet the increased demand. At this present time there are vessels from 600 to 1,400 tons lying in our bay, having from 100 to 200 tons of goods for this Port, and suffered to remain here many days before the cargo is discharged. This is prejudicial to the mercantile interests of our Port, and ought to meet with a speedy remedy.

We beg to direct the attention of our readers to the following communication addressed to Messrs. Rowland & Son, 20, Hatton Garden, London, (whose advertisement appears in another column). It is dated Hamburgh, February 15th, 1833. "I have also the pleasure to inform you of another decided proof of the efficacy of your celebrated Macassar Oil. Dr. Rodding of this place, had a patient who was bald for several years, and who had tried several articles for the recovery of his hair, but without effect, until he was advised by the doctor to make use of your Oil; after using three bottles, he entirely recovered it, and has now a much finer Head of Hair than formerly. Dr. R. felt so gratified at its success, that he made a drawing of the recovered hair (magnified) which he herewith sends."—[See Advertisement.]

TRADE LIST.

NOTICE.—The object of all who advertise is, that their Notices should be circulated as extensively as possible. Of the "*GAZETTE AND TRADE LIST*," there are upwards of *Eight Hundred Copies* issued; and it is a fact well known, that almost everybody in the Colony who can read, and who can get access to it, reads the *Government Gazette*, as its contents are General as well as Official, and concern the interests of the whole community, so that the number of copies sold conveys but an inadequate idea of the number by whom this Paper is actually perused.

These facts are generally known; yet it may be useful to those few Merchants and others who have but occasionally availed themselves of this Publication, to know, that—if they wish to be assured that their Advertisements will meet the public eye in every part of the Settlement, —the best vehicle for their purpose is the *GOVERNMENT GAZETTE* combined with the *TRADE LIST*.

The Terms of Subscription are almost nominal—only 2 Rds. 2 sks. per Quarter, including Stamps.

The charge for ADVERTISEMENTS is also very moderate.

The present half-year terminates with this number.

As the expenses of the Printing Office, of Paper, and of Stamps, are all paid in Cash, Payment for SUBSCRIPTIONS and ADVERTISEMENTS must be made in advance.

INFLAMMATION AND DEATH.

(FROM THE "TIMES" OF SATURDAY, NOV. 28, 1835.)—"Yesterday evening an inquest was held at the Sovereign, Munster-street, Regent's-park, before Mr. Stirling, on view of the body of Mrs. Sarah Porter, aged 35, of Clarence-gardens, Regent's-park. Dr. Johnson, Physician Extraordinary to the King, deposed that he attended the post-mortem examination of the body, and was of opinion that death was occasioned by inflammation of the intestines, brought on by some irritable substance taken internally. Mr. Beale, Surgeon, of Long-acre, deposed, that he had attended the deceased several times. She was a very delicate woman. On the evening of the 20th inst., witness was requested to attend her. On his arrival he found that she was in a state of delirium, and incapable of articulation. On inquiry, witness ascertained that the deceased had taken several doses of "Morrison's Pills." She continued to get worse, being violently affected; on the 22d, she became somewhat sensible, complaining of violent pains in the bowels; on the 23d all symptoms became aggravated, and she died on the evening of the same day. Witness concurs in the opinion of Dr. Johnson, that the death of the deceased was caused by inflammation of the intestines, brought on by the administration of some violent medicine. Sarah Paine, servant to the deceased, proved having purchased three separate boxes of "Morrison's Pills," at No. 43, Munster-street, which were taken by her mistress in doses of fourteen and sixteen at a time. Other relatives of the deceased were examined, who stated that the deceased was advised to take the pill by a Mrs. Robinson, a neighbour; but she (deceased) becoming worse, they advised her not to take more. The jury severely animadverted on the sale of the pills in question, and after some discussion returned a verdict, "That the deceased died from inflammation of the intestines, caused by taking Morrison's Pills."

ALL diseases arise from the one simple cause—an impurity in the blood, which impedes its circulation by settling on some organ or part, and immediately illness ensues. BRANDRETH'S PILLS correct, purify, and invigorate the blood, causing it to circulate freely; giving to every organ, healthy action. They are the Original Vegetable Medicine and have the highest claims on the patronage of a liberal and discerning Public; Dr. Brandreth, the original discoverer, not having decided on their present formula, until after thirty years' experience and laborious research into the medicinal properties of the numerous plants composing the Vegetable Kingdom: his object being to compose a pill that should at once purify and produce, by a specific action, an equalization of the circulating fluid; and whoever may feel disposed to give these Pills a trial, will, at once, find that this object is attained. They give immediate relief in all constipations of the bowels, spasmodic and bilious affections, flatulency, habitual costiveness, nervous and sick headache, arising from an overloaded condition of the digestive organs, viscera, &c., and the destruction of worms is speedily effected by them. Three or four weeks' use will eradicate scurvy, and all scorbutic humours, erysipelas, or St. Anthony's fire, and all cutaneous affections of the skin; and in diseases of the eyes, paralytic affections, asthma, dropsy, stone and gravel, piles, lumbago, affections of the kidneys, irritation of the bladder, urethra, rectum and spasmodic stricture, they are found invaluable. They also remove the innumerable train of evils to which females are subject at certain periods. Influenza is soon cured by these pills, and liability to it prevented. No mother of a family should be without a constant supply of this Domestic Medicine; they are most effective in their administration to children of the earliest age, when labouring under disease of any kind, especially hooping cough, dentition, measles, scarlet fever, chicken pox, worms, tinea capitis or scald head, and all other eruptive diseases. As a medicine, to all individuals afflicted with either rheumatism or gout, it is truly invaluable; it not only eradicates, but by regularly taking it once or twice a-week, it will, most assuredly, prevent a return. Captains and all voyagers will find this the medicine, without the aid of any other, to prevent costiveness, scurvy, and the various diseases incident to long voyages or foreign

IMPORTANT TO THE AFFLICTED.—The unprecedented success which has resulted from the adoption of Brandreth's Pills, during a period of upwards of 80 years—the numerous and extraordinary cures which they have performed upon hundreds of individuals whom they have rescued from almost inevitable death, after they had been pronounced incurable by the most eminent of the faculty—justify the proprietors of this "Original Vegetable Universal Medicine" in warmly and conscientiously recommending it to the especial notice of the public. Unlike numerous Medicines of high pretensions and FATAL EFFECTS—the "kill or cure" nostrums of ignorant empirics—which are daily sent forth to gull and delude the public, these Pills may be taken with perfect safety by even children of the most tender years; the doses being regulated (for which see the Directions accompanying the Medicines) according to the age of the patient. Ignorant pretenders to the science of medicine, in order to increase the consumption of their deadly compounds recommend to their deluded victims doses in a dangerous and almost unlimited quantity!! The result of the overweening confidence of their dully afflicted patients (who are thus induced to shorten their lives by taking their deadly advice, and swallowing their pills in these fatal quantities) may be traced in the verdicts of Coroners' Juries, who have publicly placed on record their opinions of the effects of Pills, composed of those highly dangerous ingredients, Gamboge and Bitter Aloes, by returning a verdict of manslaughter against the Venders.

climates: it being unalterable by time or any atmospheric change. Brandreth's Pills are also a certain preventive of sea sickness, and are likewise the best medicine preparatory to sea bathing. After free living, three or four of these pills will prevent bilious attacks, and all unpleasant sensations.

THE TESTIMONIAL OF H. W. DEWHURST, Esq.

THEATRE OF ZOOLOGY, GOWER STREET, EUSTON SQUARE, London, Jan. 10, 1834.

DR. BRANDRETH. My Dear Sir,—As you have requested my candid opinion of your pills, I have much pleasure in stating, that when labouring under a serious illness in August 1831, I took them by your advice, and am happy to say, that their action was, in every way, all that I could desire; and, accordingly, from their use, I date my recovery. I consider them an excellent family medicine. I remain, my dear Sir, yours truly,

H. W. DEWHURST, F. L. V. S.
Surgeon-Accoucheur, and Professor of Human and Zoological Anatomy, and Corr. Mem. Worces. Nat. Hist. Society.

From the OXFORD JOURNAL, Aug. 23, 1834.

BRANDRETH'S PILLS.—There are few who do not know that the essence of the food is converted into blood, which so formed, assimilates itself to the various ramifications of the human frame. We take it, therefore, as a clear axiom, that that medicine which makes the blood pure, without weakening the system, must be most excellent; and, as we know Brandreth's Pills to be such a medicine, we recommend them, with confidence, to our friends. Many and high was their testimonials.

From the OXFORD HERALD, August 23, 1834.

On all hands we hear of astonishing cures performed by Brandreth's Pills. Mr. Wilkins, of Magdalen College, was cured by them, of Ulcerated Legs in eleven weeks, which had been bad nine years. They cure by removing all noxious accumulations from the stomach and bowels, and all impurities, from the blood, at the same time strengthening the frame: thus restoring the energies both of body and mind. We have ourselves taken them as an antibilious pill, and can, from experience, recommend them as such to our numerous friends.

To be had of every respectable Medicine vendor in the colony in boxes, 2s.—4s. 6d.—6s. 6d.—18s. each.

16. Eenig British Onderdaan, onder eenige andere, dan de in de twee voorafgegane Artikelen aangehaalde, omstandigheden, het gez. Territorium binnen tredende, kan zulks alleen doen met toestemming van de Kaffers zelve en op hun eigen gevaar. En de gez. Contracterende Opperhoofden, en die onder hun gezag handelen, zullen volkomen gerechtigd zijn om uit het gez. Territorium weg te zenden, allen die hetzelfde alzoowel zonder hun consent binnen komen; en het is mits dezen duidelijk verstaan, dat alle personen die het gezegde Territorium binnen treden, (met uitzondering alleen van de zoodanigen als in het voorafgaande 15de Artikel zijn uitgezonderd) zijn zullen, en beschouwd worden te zijn, subject aan de Wetten der Kaffers zoo lang zij in het Territorium verblijven.

17. Zoodanige Britsche Onderdanen als Licentien verkrijgen zullen om overzichs de gezegde Grensscheiding handel te drijven, zullen niet gerechtigd zijn het gezegde Territorium binnen te komen, zonder de toestemming der Contracterende Opperhoofden, die zich verplichten en beloven om koophandel en handelsverkeer, naar hun vermogen te encourageren; en deze handeldrijvende zij gedoogen zullen hun Territorium binnen te komen, zoolang dezelve zich ordelyk en wettig gedragen door alle hunne magt en gezag te beschermen en aantemoedigen, hunne personen, huisgezinnen, en eigendom te doen respecteren, en ongeschonden te houden, nimmer toestaan dat iemand hunner of eenig ander Britsche Onderdaan in het gezegde Territorium vervolgd, met boete bezwaard, of op eenige andere wijze aan schade onderhevig gemaakt wordt, door eenig handeling of costume, in verband staande met Tooverkracht; maar in tegendeel aan zoodanige Britsche Onderdanen ten allen tyde vryen toegang te verleenen tot de Britsche Agenten, en aan de representanten van zoodanige Agenten behoorlyke oplettendheid te schenken, zoo wel als ook satisfactie of redress te geven op hunne gegronde remonstrantien of klagen; maar de gezegde Agenten zullen niet verplicht, en het zal hun niet geoorloofd zijn om hunne tusschenkomst of bescherming te verleenen in geval van eenige confiscatie tot welk bedragen ook, van het eigendom van eenig Britsch handelsman of ander persoon onder de Kaffers, die voor hen overtuigd wordt van in het door de Kaffers geoccupeerd Territorium, zoodanige Artikelen te hebben ingevoerd als by de Wetten der Kolonie verboden zijn over de Grenzen te koop te worden gebracht.

18. De gez. Contracterende Opperhoofden komen verder overeen en beloven, om vryen toegang te verleenen aan alle Britsche Schepen in eenig Haven of Poort van de Kust, niet alleen voor de oogmerken van den Koophandel, maar ook tot het landen van Krygsbehoeften of Militairen toevoer, en tot het geleiden en verzenden van dezelve naar eenig Militairen Post op de Grens, vergezeld, des noods, van Militaire Escorten zonder nogtans toestaan het regt van Blokkhuizen, of andere Militaire Werken te bouwen, of van een Garnizoen te houden in zoodanigen Haven of Poort: En de gezegde Opperhoofden beloven ook, in geval van eenig Schipbreuk op gezegde Kust, volle bescherming en veiliggeleide te geven, tot naar den naasten Militairen Post, aan alle gered wordende personen en eigendom, als ook alle hulp te verleenen, tot het zoodanig redden van leven en eigendom.

19. Elk Britsch Onderdaan die van eenige misdaad of misdryf binnen gez. Territorium beschuldigd wordt, zal het regt hebben te eischen dat voor zyne teregtstelling, kennis van zoodanige teregtstelling gegeven zal worden, aan den naast residenten der gez. Agenten, die de vryheid hebben zal, zulks gepast oordeelende, om by zoodanige teregtstelling tegenwoordig te zijn, en om ten behoeve van den aanklaagden te spreken of te pleiten, wanneer hy gronden zal vinden voor zulke te doen, en aan de opinie van zoodanig Agent zal behoorlyk gewigt worden gehecht, gelyk behoofd en overeengekomen is in het 17de Artikel dezer Onderhandeling.

20. Wanneer eenig British Onderdaan eene misdaad of misdryf pleegt, in het gez. Territorium van de gez. Contracterende Opperhoofden, en hy ontvlugt uit hetzelfde naar deze zyde van de gez. Grensscheiding, zullen de gez. Agenten pogingen aanwenden om voldoening voor de lydende partijen door middel van de Britsche Gerechtshoven te erlangen, en ten allen opzichte, pogingen aanwenden met even zoo veel yver voor den Kaffer, die aldus door een Britsch Onderdaan mogt zijn verongelykt, als hy verplicht is te doen ten behoeve van een Britschen Onderdaan, die door een Kaffer verongelykt mogt zijn.

21. Eenig Kaffer of Inboorling onder de Kaffers residentie, die begerig mogt zijn om de Grensscheiding te passeren naar het Territorium door de Kolonisten bewoond, zal verplicht zijn zulks ongewapend te doen, en zal een Pas moeten erlangen van een der Britsche Agenten residentie onder de Kaffers, zoodanige Pas zal duidelijk zijn in de Engelsche en Hollandse talen, specificerende den naam van den Applikant, den plaats zyner bestemming, het oogmerk van zyn bezoek, het getal van dagen die hy afwezig mag zijn, en den datum wanneer de Pas verleend is.

Geen Pas zal worden verleend, dan alleen op verzoek van, of op de productie van een vastgesteld teeken van een respectabel Opperhoofd, die aanneemt verantwoordelyk te zijn voor het gedrag van den Applikant, gedurende zyn verbyf in de Kolonie, en het moet aan zoodanig Applikant duidelyk worden geexplicieerd, dat zoodanige Pas hem niet beschermen zal wanneer hy van den weg die naar de plaats zyner destinatie leidt afwykt, of gewapend gaat, of zich in afgelegene plaatsen verschuilt, of de periode in den pas gespecificeerd te bovengaat, of met anderen van zyne Natie reist die van geene Passen voorzien zijn, in elk van welke gevallen hy behandeld zal worden als of hy geen zoodanigen Pas had.

De Agent zal geen Pas verleenen wanneer hy de minste suspicie heeft nopens de beweegredenen van des Applikants bezoek naar de Kolonie, noch ook, ten zy hy eene redelyk oorzaak heeft voor zoodanig een bezoek.

Bezoeken van den kant van Leedigloopers, moeten zoo wel om der Kolonie als der Kaffers wille, geenszins aangemoedigd worden. De Agent zal hen weigeren, en hy zal insgelyk een naauwkeurig Register houden van zoodanige Passen als hy verleenen zal, en van de namen der Opperhoofden, op wier verzoek zy verleend zijn, welke namen ook op de Passen vermeld moeten worden.

Alle Kaffers of anderen, werkelijk in dienst zynende van Agenten, Missionarissen, of Handelslieden, zullen nogtans geoorloofd zijn de Kolonie binnen te komen, met Passen van zoodanigen in wier employ zy zijn, mits dat zoodanige Passen duidelyk opgeven de namen van zoodanige Bedienden, hunne destinatie, en den tyd hoelang zy in de Kolonie verblyven zullen.

22. Alle Kaffers zonder zoodanige Passen ten Weste van de gez. Grensscheiding gevonden wordende, zullen by de eerste overtreding onmiddelyk over de Grens gezonden, en overhandigd worden aan den naasten Amapakati, gementioneerd in het 10 Artikel dezer Overeenkomst, die verplicht zal zijn hen te straffen, of hen aan de Opperhoofden te doen zenden, welke laatsgenoemden zich by dezen verplichten, om alle pogingen te doen, en om wetten en straffen te doen beramen, met oogmerk om zoodanige inbreuken op het Koloniaal Territorium te beletten:—En eenig Kaffer die aldus gevonden wordt in eene tweede overtreding, zal worden gestraft volgens de wetten reeds vastgesteld, of hierna vast te stellen, tot bestraffing van zoodanige misdryven.

23. Eenig Kaffer, in het plegen van eenige misdaad of roof binnen de gez. Grensscheiding gevonden wordende, zal worden behandeld volgens de Wetten dezer Kolonie, en het is duidelyk te worden verstaan, dat in geval van tegenstand of poging te ontvlugten van den kant van zoodanige Misdadiger en Roofplegend-n, het volkomen wettig is op hen te schieten, of hen anderszins te wonden of te dooden, wanneer zy niet op eenige andere wijze in verzekering gebragt, of verhindert kunnen worden van hunne misdaad te volvoeren:—Maar wanneer zoodanige Misdadiger of Roofplegenden op de spoor achtervolgd wordende, niet worden ingehaald voor dat zy de lyn door den gez. Amapakati geoccupeerd wordende, zullen zyn gepasseerd, alsdan zal de handelwyse, in het volgende Artikel overeengekomen, worden opgevolgd, ter apprehensie van zoodanige Misdadigers of Dieven, of ter wederverkryging van eigendom door hen weggevoerd;—en in geen geval hoe ook genaamd, zal eenige Patroole of gewapende Troepen van welken aard ook, gedood worden, om de gez. Lyn aldus geoccupeerd met het gemeld oogmerk te passeren.

24. Wanneer iemand begrepen zynde in het achtervolgen van Misdadigers of Dieven, of van goederen door hen gestolen, hen niet achterhaalt, of de goederen reconvreert voor dat hy de gezegde Lyn bereikt (mits dat hy onder eede verklaren kan, dat hy de gezegde Misdadigers, Dieven, of Eigendom getraceerd heeft, tot overzichs een byzonder punt op de gezegde Lyn, dat het Eigendom toen het gestolen werd, behoorlyk bewaakt was; en in gevallen van Hoornvee, Paarden, of dergelyk, dat zy aldus bewaakt waren, door eenen gewapenden Herder; dat het achtervolgen een begin heeft genomen onmiddelyk na dat zoodanig eigendom gestolen was; dat indien de diefstal gedurende den nacht gepleegd werd, het eigendom toen het gestolen werd, behoorlyk in Kraalen, Stallen of iets dergelyks bewaakt waren; en dat de vervolging in dat geval, ten minste den volgende morgen vroeg begonnen is) zal zoodanig persoon de vryheid hebben regtstreeks zich te vervoegen naar den Pakati, het naast residentie by dat punt alwaar hy zweeren kan dat zoodanige sporen de gezegde Lyn gepasseerd zijn, welke Pakati verplicht zal zijn, dadelijk de opgaaf aan te nemen, de sporen te onderzoeken, en wanneer de opgaaf wel gegrond schynt, zyne beste pogingen aantewenden om het gestolene eigendom te reconvreren, als ook de achtervolgd zynde Misdadigers, en het zal in de keuze zyn van de vervolgende party, zyne nazoeeking onmiddelyk onder de leiding van gezegden Pakati voortzetten, mits dat hy niet gewapend ga, of vergezeld van gewapende Britsche Onderdanen, en mits dat hy geene hulp verleend, in het plegen van eenig geweld van welken aard ook binnen het gezegde Territorium. Wanneer de in vervolging begrepen party, aldus met de hulp van gezegden Pakati, of met die van de Policie, hierna nader te noemen, het achtervolgd Eigendom reconvreert, zal hy de vryheid hebben daarmede zich te vervoegen, het zy by een der gezegde Agenten, of by een der Militaire Posten, naar mate voor hem het geryfelykste is, ten einde voor zoodanigen Agent, of Officier in bevel van zoodanigen Post, eene opgaaf te doen van zyne handelingen, en van de hoefveelheid, en den aard van het gereconvreerd Eigendom; welke opgaaf hy subject zyn zal, ten allen tyde des vereischt wordende, met Eede te moeten bekrachtigen;—na het doen van welke opgaaf hy de vryheid zal hebben om het gezegd Eigendom weg te voeren, het overlatende aan den gezegden Pakati of de Policie, om den Misdadiger te vervolgen, en om Compensatie te erlangen voor hunne moeite, door middel van de Kaffer Opperhoofden en hunne Raadslieden, volgens het Kaffer gebruik:—en de gezegde Contracterende Opperhoofden, verbinden zich by dezen, om in alle zoodanige gevallen zich ten uiterste te bemoeien, om de Misdadigers te doen arresteren en straffen, als ook, om by alle gelegenheden de gezegde Opperhoofden en Policie Dienaars, eene redelyke belooning te doen geworden, voor hunne exertien.

25. Nogtans, wanneer iemand die gestolen eigendom en Dieven vervolgt, op de wijze in het voorafgaande Artikel gespecificeerd, het veiliger of minder moeyelyk of expediter oordeelt, om zich naar den naastgelegenen Militairen Post te begeven, zal het hem vrystaan zoo te doen. De Officier in bevel van zoodanigen Post, zal zoodanig iemand (na dat hy zyne gereedheid zal hebben verklaard om den eed in het voorafgegane Artikel vereischt wordende te doen) voorzien, van eenen Policie Dienaar, die zoodanige vervolgende party vergezellen zal naar den plek alwaar de gez. sporen de gez. Lyn passeren, en aldaar de sporen examineren met den gez. Pakati, wiens tegenswoordigheid verkregen moet worden. Hy, de gez. vervolger, zal alsdan, wanneer hy het niet geraden of veilig oordeelt, om den spoor verder op te volgen, of nadat hy denzelven verder heeft opgevolgd, in zyne pogingen niet slaagt, zich vervoegen by den Resident Agent voor de Opperhoofden, in wier Territorium de Misdadigers en het eigendom getraceerd zyn, en zyne klage voor gez. Agent, onder eede brengen; en in geval van verloren eigendom, in het byzonder de omstandigheden beredigen, welke in het voorafgegane Artikel zyn aangehaald, als ook de naauwkeurige waarde van het gestolene en niet gereconvreerd goed. Ten zy deze eed gepresteerd wordt, zal de Agent geene verder notitie van de zaak te nemen; maar zoodra een zoodanige eed is afgelegd, zal de gez. Agent wanneer hy geene gronden heeft om denzelven voor onwaar te houden (zynde hy ten allen tyde gerechtigd om verder bewys te eischen, en zynde het ten allen tyde den stelligen plicht van de klagende party om goede en sufficiente bewyzen te brengen) de

zaak leggen voor de Opperhoofden van het Territorium waarin de Misdadigers en het eigendom getraceerd zyn. En de gezegde Opperhoofden verplichten zich mits dezen, om eenen raad by een te roepen, en de naauwkeurigste investigatie te doen, en het gestolen goed, indien mogelyk, te doen reconvreren, en de Misdadigers te doen straffen. En de gezegde Opperhoofden verplichten zich verder en nemen aan, dat wanneer na verloop van eene maand, na dat de zaak aan hen zal zyn voorgelegd, de gez. Misdadiger of Eigendom niet zal zyn ontdekt, en wanneer het des niet tegenstaande duidelyk zal zyn bewezen voor hen en hunnen Raad, door het getuigenis van gezegden Vervolger, Pakati en Policie dienaar, of ander bewys, dat het eigendom in hun Territorium is getraceerd, zy, de gezegde Opperhoofden, dadelijk den beroofden persoon schadeloos zullen stellen tot het volle bedragen van het verloren goed, en niet meer; en den gezegden Pakati en Policie Dienaar vergoeden zullen voor hunne gedane moeite.

26. Met uitzondering van Indemnificatie, door de gez. Opperhoofden in Rade erlangd, in maniere in het voorafgegane Artikel gespecificeerd, zal het aan geen persoon, gestolen goed achtervolgende, geoorloofd zyn om eenig ander dan zyn eigen goed te nemen, namelyk hetzelfde eigendom dat hy achtervolgt, zelfs niet wanneer hem zulks mogt worden aangeboden, op straf van het goed aldus genomen te moeten restitueren, en van het verlies van eenige verdere aanspraak, op het eigendom actueel verloren.

27. De gezegde Contracterende Opperhoofden nemen by dezen aan, beloven en verplichten zich, door elk middel in hun vermogen, de uitbreiding van de Christelyke Godsdienst door geheel hun Territorium aan te moedigen, en te beschermen, als ook in hunne personen, huisgezinnen en eigendom te beschermen, de Leeraars en Bedienaars van gezegde Godsdienst, en alle Britsche Onderdanen van welken aard ook, die in het gezegde Territorium temporair wonen, of hetzelfde met hun consent, of volgens de termen van deze Overeenkomst zyn binnen gekomen, zoo lang zy zich gedragen met welvoegelykheid en onderwerping aan de Wet, en nimmer onder eenige omstandigheid toestaan zullen dat zy gemolesteerd of onleerhavig gemaakt worden aan eenige prosecution of poenaliteiten, onder voorgeving of voorwendel van de wetten en gebruiken, in verband staande met of geinstitueert tegen Tooverkracht, als ook aan hen vryen teruggaug naar en communicatie met de Kolonie toestaan.

28. De gezegde Contracterende Opperhoofden komen verder overeen, beloven en verplichten zich, om op geenerlyk wijze te molesteren, of zich intelen met, de Fingoes, die ter woon geplaatst zyn of zullen worden in het gezegde "Ceded Territory," maar om hen te beschouwen, als onder Britsche Protectie;—hen in het volle genot te laten van hun eigendom, hunne wetten en gebruiken, en op geenerlyk wijze eenige krenking of twi-ft, die tevooren tusschen de Kaffers en Fingoes mogten bestaan hebben te wreken.

De gez. Contracterende Opperhoofden beloven ook om met de andere Volkstammen der Kaffers in vrede te leven, voorzigtiglyk te vermyden, om eenig punt van geschil of afgunst te doen herleven dat te voeren onder hen mogt bestaan, en vooral zulke punten van verschil als veroorzaakt mogten zyn, door eenig gedrag van eenige party gedurende den laatsten oorlog. En de gezegde Opperhoofden beloven verder, plegtiglyk om met de Tambookies in vrede te leven, en om alles in hun vermogen te doen, om de rust der verscheidene Stammen van hunne eigene Natie en der naburige Volken, zoo wel als der der Kolonisten te bevorderen.

29. De gezegde Contracterende Opperhoofden komen plegtiglyk over een om aan de Fingoes, ter woon geplaatst op den West-lyken of Regten Oever van de Chamie Rivier, overzichs de Grens van de "Ceded Territory," toestaan om in hunne tegenwoordige situaties met hun eigendom te verblyven, in het volle genot hunner eigen wetten en gebruiken, en hun alle bescherming en aanmoediging te verleenen, tot dat de oogst, dien zy thans groeyende hebben, ryp en ingeoogst zal zyn; en om alsdan de zulken van de gezegde Fingoes die zulks verkiezen, met hun eigendom van welken aard ook, te laten vertrekken, waar heen zy zullen goed vinden:—als ook om de occupatie van Fort Thompson, door Zyner Majesteits Troepen, te gedogen ter protectie van de gezegde Fingoes, tot dat zy hunnen gezegden Oogst zullen hebben ingeoogst.

HANDELS LYST.

BERIGT—Het oogmerk van allen die adverteren is dat hunne Notification zoo ver alom mogelijk verspreid mogen worden. Van de "GAZETTE EN HANDELS LYST," worden meer dan *Acht Honderd Copyen* uitgegeven; en het is eene wel bekende daadzaak, dat byna een ieder in de Kolonie, die lezen en toegang tot dezelve verkrygen kan, de "Gouvernements Gazette" leest, daar derzelver inhoud zoo wel Algemeen als Officieel is, en het belang der geheele commune betreft, zoo dat het getal van exemplaren die verkocht worden slechts een flauw denkbeeld oplevert van het getal dergenen die dit Weekblad actueel lezen.

Deze daadzaken zyn algemeen genoeg bekend; nogtans kan het nuttig voor die weinige Kooplieden en anderen zyn, die zich slechts nu en dan van deze Publicatie bedienen hebben, te weten, dat—wanneer zy wenschen verzekerd te zyn, dat hunne Advertentien het oog van het publiek in elk gedeelte der Kolonie zal treffen.—het beste middel tot bereiking van hun oogmerk is de GOVERNEMENTS GAZETTE in verband met de HANDELS LYST.

De Prys van Supscriptie is bykans slechts nominal—zynde niet meer dan 2 Rds. 2 schell. per Kwartaal, het Zegel daarin gesloten.

De Charge voor ADVERTENTIE is insgelyks zeer matig.

Het loopende halve jaar, eindigt met dit nummer. Daar de onkosten der Drukkery, voor Papier en Zegels, allen *Contant* voldaan worden, zoo dient de betaling voor SUBSCRIPTIEN en ADVERTENTIEN vooruit te geschieden.

"Het spyt my te zeggen dat de Grens thans een zeer duister voorkomen heeft, uit hoofde van het getal van Boeren, (meestal van onze beste Vee-boeren) die by voortdurend de Kolonie verlaten. Wy hebben Immigranten noodig,—niet eene vermindering der populatie, vooral niet van het Landbouw dryvend gedwelle. Maar ik heb eene stille hoop, dat het uiteindelijk zich ten beste zal keren; het Graaff Reinet District, een der beste Districten der Kolonie, zal er aanzienlyk door winnen."

Extract of a Letter from the Frontier, dated June 24.

"I am sorry to state that the Frontier presents a very gloomy appearance at present, owing to the number of FARMERS (chiefly our best Graziers) which continue to leave the Colony. We want Immigrants—not a thinning of the population, especially of the Agricultural part. But, eventually, I have a latent hope that it will turn out for the best:—it will be the making of Graaff-Reinet, one of the finest Districts of the Colony."

EXPORT OF CORN FROM ITALY TO NEW YORK.

FRANKFORT, March 29.—Accounts from Genoa say, that three of the principal corn merchants in that city have resolved to send between 155,000 and 170,000 bushels of wheat to New York, where wheat has risen to the price of 39 francs per hectolitre, whereas it cost only 13 1/2 francs at Genoa. This consignment causes a great sensation, as formerly nearly the reverse took place, large quantities of wheat and flour being imported into Genoa from New York.

TRADE OF MANCHESTER.—The feeling in the market on Monday, we regret to say, was very gloomy, and the prices were somewhat lower. Neither in goods nor in yarns were any symptoms of amendment perceptible. Amidst all this flatness and decline, however, it is a great subject of congratulation that hitherto we have had in this town so few failures. Two were spoken of; the one a very old, though not extensive calico-printing house; the other an establishment of somewhat recent formation, as spinners and power-loom manufacturers.—*Manchester Guardian.*

EXPANSIVE FORCE OF STEAM.—A circumstance occurred the other day, rather of a singular nature, which strongly illustrates the powerful effects of steam. A strong stone bottle, half filled with water, and tightly corked, was placed by a servant-girl in an oven, and forgotten. The water, of course, began to be converted into steam by the heat of the oven, which burst the bottle, and was so expansive as to drive the oven door, which was of cast iron, from its hinges, against the kitchen wall, with such violence that it was broken into several pieces. The oven itself, though of considerable weight, was carried from its seat, blew out both of the kitchen windows, and tore down the fire-place. Several children were playing in the kitchen, but they fortunately escaped injury.

The results of a scorching sun in travelling, promenading, &c. are frequently subversive of female comfort and attraction, by generating a tanned skin, parched lips, and unpleasant heat and roughness, and signalling a prominent feature of an otherwise beautiful countenance with unseemly redness. To successfully oppose these innovations, the Ladies have a powerful friend in ROWLAND'S KALYDOR—and where the results mentioned have attained progress or completion, this reliable specific excludes and resists with an effective and infallible energy truly astonishing, rendering the skin delightfully cool and pleasant, and increasing the fairness and transparency to the skin, exceeds all competition.—[See Advertisement.]

GOVERNMENT ADVERTISEMENT.

WHEREAS it has been represented that in the month of October last a Shipwreck happened in False Bay, and in January last a loss of Anchor and Cable was sustained in the same Bay, both of which accidents would probably have been prevented had the additional Regulations for the Harbor Master at Simon's Bay permitted him to render Pilot's assistance sufficiently early to prevent Shipping from running into danger:—His Excellency the Governor is pleased to alter the 1st Article of the said Regulations in so far as to permit the said Harbour Master to render Pilot's assistance to Vessels entering False Bay, in cases where they are evidently running into danger, or where by reason of absence, sickness, or other sufficient cause, no assistance can be rendered by a Licensed Pilot. On such occasions the Harbor Master and his Crew will be held strictly subject to the provisions of the 4th Article of the Pilots Regulations; and as the sole object of this alteration is to enable Vessels to obtain that necessary assistance which they could not obtain otherwise, the Harbor Master will be held strictly responsible for any infringement of the remaining Articles of the said Regulations, either by himself or any of his Boat's Crew, under any pretence whatever.

TRADE LIST.

TO THE PUBLIC.

NOTICE.—The object of all who advertise is, that their Notices should be circulated as extensively as possible. Of the "GAZETTE AND TRADE LIST," there are upwards of *Eight Hundred Copies* issued; and it is a fact well known, that almost everybody in the Colony who can read, and who can get access to it, reads the *Government Gazette*, as its contents are General as well as Official, and concern the interests of the whole community, so that the number of copies sold conveys but an inadequate idea of the number by whom this Paper is actually perused.

These facts are generally known; yet it may be useful to those few Merchants and others who have but occasionally availed themselves of this Publication, to know, that—if they wish to be assured that their Advertisements will meet the public eye in every part of the Settlement,—the best vehicle for their purpose is the *GOVERNMENT GAZETTE* combined with the *TRADE LIST*.

The Terms of Subscription are almost nominal—only 2 Rds. 2 sks. per Quarter, including Stamps.

The charge for ADVERTISEMENTS is also very moderate.

The present half-year commences with this number. As the expenses of the Printing Office, of Paper, and of Stamps, are all paid in Cash, Payment for SUBSCRIPTIONS and ADVERTISEMENTS must be made in advance.

EDUCATION.

JOHN TOWNSEND BLORE, A.M., will, in the early part of next month, open an ACADEMY for YOUNG GENTLEMEN, at No. 18, ROELAND-STREET.

It is his intention not to receive, as Pupils, any under 10 years of age, nor any at that age or above it, who are unable to read and spell English with moderate correctness.

He will administer instruction in the English, Latin, and Greek Languages; in Ancient and Modern Geography; in Ancient and Modern History; in the Science of Mathematics, in Book-keeping, and in Writing. For tuition in any or all of these branches of Education, his charge will be £1 per month for each Pupil.

To those who may be desirous of studying the French Language, a class will be open thrice a week. An extra charge of 1 Guinea per quarter will be made for teaching this language.

A competent person will give Lessons in the art of Drawing.

As the great design of all Education should be to inform the mind, and to produce good intellectual and moral habits, J. B. will sedulously endeavour, by a proper System, to secure this end in respect to those who may be committed to his care.

J. B. will be happy to give information regarding the conduct of the Academy to any who may apply for it, and requests that all applications be made in writing and forwarded to the Office of Mr. JOHN BLORE, Auctioneer, No. 10, Burg-street.

INFLAMMATION AND DEATH.

(FROM THE "TIMES" OF SATURDAY, Nov. 28, 1835.)

"Yesterday evening an inquest was held at the Sovereign, Munster-street, Regent's park, before Mr. Stirling, on view of the body of Mrs. Sarah Porter, aged 35, of Clarence-gardens, Regent's-park. Dr. Johnson, Physician Extraordinary to the King, deposed that he attended the post-mortem examination of the body, and was of opinion that death was occasioned by inflammation of the intestines, brought on by some irritable substance taken internally. Mr. Beale, Surgeon, of Long-acre, deposed, that he had attended the deceased several times. She was a very delicate woman. On the evening of the 23rd inst., witness was requested to attend her. On his arrival he found that she was in a state of delirium, and incapable of articulation. On inquiry, witness ascertained that the deceased had taken several doses of 'Morrison's Pills.' She continued to get worse, being violently affected; on the 22d, she became somewhat sensible, complaining of violent pains in the bowels; on the 23d all symptoms became aggravated, and she died on the evening of the same day. Witness concurs in the opinion of Dr. Johnson, that the death of the deceased was caused by inflammation of the intestines, brought on by the administration of some violent medicine. Sarah Paine, servant to the deceased, proved having purchased three separate boxes of 'Morrison's Pills,' at No. 43, Munster-street, which were taken by her mistress in doses of fourteen and sixteen at a time. Other relatives of the deceased were examined, who stated that the deceased was advised to take the pill by a Mrs. Robinson, a neighbour; but she (deceased) becoming worse, they advised her not to take more. The jury severely admonished on the sale of the pills in question, and after some discussion returned a verdict, 'That the deceased died from inflammation of the intestines, caused by taking Morrison's Pills.'

ALL diseases arise from the one simple cause—an impurity in the blood, which impedes its circulation by settling on some organ or part, and immediately illness ensues. BRANDRETH'S PILLS correct, purify, and invigorate the blood, causing it to circulate freely; giving to every organ, healthy action. They are the Original Vegetable Medicine and have the highest claims on the patronage of a liberal and discerning Public; Dr. Brandreth, the original discoverer, not having decided on their present formula, until after thirty years' experience and laborious research into the medicinal properties of the numerous plants composing the Vegetable Kingdom: his object being to compose a pill that should at once purify and produce, by a specific action, an equalization of the circulating fluid; and whoever may feel disposed to give these Pills a trial, will, at once, find that this object is attained. They give immediate relief in all constipations of the bowels, spasmodic and bilious affections, flatulency, habitual costiveness, nervous and sick headache, arising from an overloaded condition of the digestive organs, viscera, &c., and the destruction of worms is speedily effected by them. Three or four weeks' use will eradicate scurvy, and all scorbutic humours, erysipelas, or St. Anthony's fire, and all cutaneous affections of the skin; and in diseases of the eyes, paralytic affections, asthma, dropsy, stone and gravel, piles, lumbago, affections of the kidneys, irritation of the bladder, urethra, rectum and spasmodic stricture, they are found invaluable. They also remove the innumerable train of evils to which females are subject at certain periods. Influenza is soon cured by these pills, and liability to it prevented. No mother of a family should be without a constant supply of this Domestic Medicine; they are most effective in their administration to children of the earliest age, when labouring under disease of any kind, especially hooping cough, diphtheria, measles, scarlet fever, chicken pox, worms, tinea capitis or scald head, and all other eruptive diseases. As a medicine, to all individuals afflicted with either rheumatism or gout, it is truly invaluable; it not only eradicates, but by regularly taking it once or twice a-week, it will, most assuredly, prevent a return. Captains and all voyagers will find this the medicine, without the aid of any other, to prevent costiveness, scurvy, and the various diseases incident to long voyages or foreign

IMPORTANT TO THE AFFLICTED.

The unprecedented success which has resulted from the adoption of Brandreth's Pills, during a period of upwards of 80 years—the numerous and extraordinary cures which they have performed upon hundreds of individuals whom they have rescued from almost inevitable death, after they had been pronounced incurable by the most eminent of the faculty—justify the proprietors of this "Original Vegetable Universal Medicine" in warmly and conscientiously recommending it to the especial notice of the public. Unlike numerous Medicines, of high pretensions and FATAL EFFECTS—the "kill or cure" nostrums of ignorant empirics—which are daily sent forth to gull and delude the public, these Pills may be taken with perfect safety by even children of the most tender years; the doses being regulated (for which see the Directions accompanying the Medicines) according to the age of the patient. Ignorant pretenders to the science of medicine, in order to increase the consumption of their deadly compounds recommend to their deluded victims doses in a dangerous and almost unlimited quantity! The result of the overweening confidence of their doubly afflicted patients (who are thus induced to shorten their lives by taking their deadly advice, and swallowing their pills in these fatal quantities) may be traced in the verdicts of Coroners' Juries, who have publicly placed on record their opinions of the effects of Pills, composed of those highly dangerous ingredients, Gamboge and Bitter Aloes, by returning a verdict of manslaughter against the Vendors.

climates: it being unalterable by time or any atmospheric change. Brandreth's Pills are also a certain preventive of sea sickness, and are likewise the best medicine preparatory to sea bathing. After free living, three or four of these pills will prevent bilious attacks, and all unpleasant sensations.

THE TESTIMONIAL of H. W. DEWHURST, Esq.

THEATRE OF ZOOLOGY, GOWER STREET, EUSTON SQUARE, DR. BRANDRETH.

London, Jan. 10, 1834.
My Dear Sir,—As you have requested my candid opinion of your pills, I have much pleasure in stating, that when labouring under a serious illness in August 1831, I took them by your advice, and am happy to say, that their action was, in every way, all that I could desire; and, accordingly, from their use, I date my recovery. I consider them an excellent family medicine. I remain, my dear Sir, yours truly,
H. W. DEWHURST, F. L. V. S.

Surgeon-Accoucheur, and Professor of Human and Zoological Anatomy, and Corr. Mem. Worces. Nat. Hist. Society.

From the OXFORD JOURNAL, Aug. 23, 1834.

BRANDRETH'S PILLS.—There are few who do not know that the essence of the food is converted into blood, which so formed, assimilates itself to the various ramifications of the human frame. We take it, therefore, as a clear axiom, that that medicine which makes the blood pure, without weakening the system, must be most excellent; and, as we know Brandreth's Pills to be such a medicine, we recommend them, with confidence, to our friends. Many and high was their testimonial.

From the OXFORD HERALD, August 23, 1834.

On all hands we hear of astonishing cures performed by Brandreth's Pills. Mr. Wilkins, of Magdalen College, was cured by them, of Ulcerated Legs in eleven weeks, which had been bad nine years. They cure by removing all noxious accumulations from the stomach and bowels, and all impurities from the blood, at the same time strengthening the frame—thus restoring the energies both of body and mind. We have ourselves taken them as an antibilious pill, and can, from experience, recommend them as such to our numerous friends.

To be had of every respectable Medicine vendor in the colony in boxes, 2s.—4s. 6d.—6s.—18s. each.

NOTICE TO THE TRADE.

S. MORDAN & Co. beg to call the attention of the TRADE, and of the Public at large, to the following articles of their manufacture, viz:—

THE PATENT EVER-POINTED PENCIL is an instrument universally allowed to be of the greatest utility, and particularly recommended to the public, when made with that mathematical nicety on which its use depends. The Patenters inform the public that all Pencils having steel points are not of their make; and to avoid all inconvenience the following remarks on purchasing will ensure them a genuine article:—see the Pencil has the name, "S. Mordan and Co., Makers and Patentees," on the body of the case.

LEADS.—The spurious leads are a mixture of common lead-dust and antimony, and of all manner of sizes; they choke up the Pencil-case, and create an unjust prejudice against the genuine article. The proper leads for replenishing the case have on each box a yellow belt, with the word "warranted" on it, and a red sealing-wax impression, bearing the initials "S. M. & Co."

Shopkeepers in provincial towns would do well to observe the above remarks, to prevent their being imposed upon, the public being much inconvenienced in not being supplied with the genuine article.

CEDAR PENCILS.—Artists and others are particularly requested to try their Black Lead Pencils in Cedar, made from the pure Cumberland lead, selected with the greatest care: they have been pronounced, by the most competent judges of the day, the best extant. (See J. D. Harding's Work on Pencil Drawings.) This article is patronized by all the Government offices.

THE PATENT OBLIQUE PEN, the only straight Pen. This peculiarity is owing to the slit being paralled to the angular slope of the writing, which gives it that freedom in use which is unequalled by any other pen by the direction in which both nibs are brought into use at the same time, the nib is not operating upon one edge of the nib, and the contrary edge of the other at the same instant, but upon the square surfaces or points of both together. Both nibs are thus brought into constantly equal wear, and a freedom is secured which no other metal Pen ever possessed. The Patent Oblique Pen is the most perfect hitherto offered.

PATENT TRIPLE-POINTED PEN.—The peculiarity of this pen, either in its straight or oblique form, is the addition of a third nib, which secures the following advantages:—

1. A certain supply of ink of any kind, uniform with the most rapid writing.
2. The two nibs of the ordinary pen act only as dividers or tracers, while the third nib, pressing upon the paper, conducts and distributes the ink.
3. The third nib renders the same pen capable of writing the boldest text or finest running hand.
4. The third nib retains a larger supply of ink without risk of blotting. (See Laws of Fluids.)
5. The third nib, acting on the slit of the pen, effectually removes the fibres as they are gathered from the paper, thereby removing the greatest impediment to the use of metallic pens.
6. Firmness in use is obtained by the third nib; and at the same time the flexibility is increased, and durability necessarily follows.

* * * Use the Improved Joint Holder, made expressly for these Pens.

PORTABLE QUILL PENS.—There are many persons who do not like steel pens; to those the Portable Quill Pens, and Silver Penholder, are particularly recommended. In Boxes containing Fifty and One Hundred.

"S. M. & Co., Makers," are marked on each box, and are warranted, with a yellow belt and wax impression.

COOPER'S PATENT SCENT BOTTLES.—These articles are confidently recommended from their superiority.—The advantages derived from this invention are, that the Stopper, from its spherical form, can neither stick, or break in the neck, so constant a complaint against those on the old plan. The Stopper being made of glass never corrodes. They are so perfectly air-tight that they will preserve the most volatile spirits, even ether or ammonia, any length of time. They cause much less trouble in use than any others, the act of removing the cap and stopper being only one operation. They are more durable than any others, from their superiority both in workmanship and material, the silver and gold used in them being very stout, and warranted standard.

Manufactured by S. Mordan & Co.

PATENT TRAVELLING INKS.—S. M. & Co. invite particular attention to their improved Travelling Inks, to which they have adapted the Patent Spherical Stopper, so as to secure all its advantages, while the construction of the case admits of

a glass holding a much larger quantity of ink than those in general use, without increasing its bulk; and at the same time it is protected by a strong case, neatly covered with leather. The improved Stoppers to these Inks remove the objections to the India Rubber Stoppers of the late Mr. Berry, and may be had in all the varieties made by him.

These Inks are also made in wood or ivory, for the pocket. **NEW FOUNTAIN INKSTANDS.**—These Inkstands are of a very superior construction to those formerly in use. They present but a small surface of ink to the atmosphere, and comparatively no evaporation takes place; nor can dust accumulate to spoil the ink. The spout is placed at the most convenient angle for dipping the pen; and the ink being of a uniform depth, prevents the pen being spoiled by striking against the glass.

This Inkstand is peculiarly adapted for the writing guide now in use. They are made of white or coloured glass, either plain or richly cut; and are also mounted with silver caps, which exclude the atmosphere or dust. Each Inkstand has a medalion, with the name S. Mordan & Co. London, on it.

SEVEN GUARDED LOCK.—There are few persons but have property of some kind to secure from prying curiosity or theft. No lock can be secure that has duplicate keys in existence, or that will allow of an impression being taken of the key to produce a facsimile, so easy in all warded and tumbler locks. The most serious robberies have taken place by means of duplicate keys, which allow the dishonest to relock without suspicion; this is fully borne out by the Police Reports. The only lock that gives positive security is the Seven Guarded Lock. The infinite variety of changes of which the key is susceptible, which causes every successive key to differ from all which have preceded it, makes this Lock perfectly secure. An inspection of the machine will justify this assertion.

This Lock is patronized by the Government offices; also at Newgate, Whitecross-street, and Warwck. There is scarcely a banking house in London but have these Locks more or less on their establishment.

Patent Joint Penholders, in Silver and Gold. A new Guide Penholder, in Silver, much approved of. Patent Parisian Spring Penholder, and Short Pens for do. Gold Pens with Perpetual Points. Fire-proof Deed-boxes, &c. Iron Chests and Bookcases. Iron Doors for Strong Rooms. Lump Inks, Cone Inks, and Glass Inkstands of every description. Toilet-bottles, Pastile-burners, Rose-water Bottles, &c. Smelling-bottles, mounted in Silver and Gold, with S. M. and Co.'s Improved Conical Stopper. Soda-water Machines, &c. &c.

S. M. & Co. also inform the Trade that they have now in the course of manufacture several entirely new and useful articles, which will be laid before them with all possible dispatch.

CAUTION.—As imitations have been made of many of their articles, observe, that each bears the name of S. Mordan and Co., Makers, London.

Manufactory, 22, CASTLE STREET, near FINSBURY SQUARE, LONDON.

N.B.—S. MORDAN will be happy to advise persons taking out Patents for new Inventions, as to the best mode of manufacturing and laying the same before the Trade.

Sold by A. S. ROBERTSON, of Cape Town, By whom ORDERS for any articles made by S. MORDAN will be received, and executed promptly.

We publish with much pleasure the subjoined sensible and interesting letter from an intelligent Correspondent, residing in the District of Swellendam, whose zeal for the improvement of his native country is highly commendable. This gentleman's own success as a SHEEP FARMER, clearly shows that his knowledge is not visionary, but thoroughly practical. We shall at all times be happy to give him space in the columns of this widely-circulated Journal, for the communication of his thoughts to his fellow countrymen.

BORDEAUX WINE.

I was at Bordeaux in the autumn of 1829, during the Vintage season, and though I had no intention of becoming a wine grower, the hope of obtaining such information as might be useful to my fellow agriculturists in this colony, induced me to avail myself of every opportunity that offered, for seeing the best vineyards and the different modes of making wine, and to hear (for my time would allow of nothing more) from the brokers and merchants, what their after treatment was. I took copious notes of all I saw and heard on the subject—and I find they bring me to the conclusion that the superiority of one wine over another depends principally, and in many cases altogether, on the soil. There is perhaps no plant which so readily imbibes peculiar qualities from the nature of the soil as the Vine. Chaptal is said to have at one time collected together fourteen hundred different varieties of the species, and although the whole neighbourhood of Bordeaux abounds in vineyards, it is only in the district of Medoc that wine of a superior flavor is made, and in that district there are only some few estates which produce wines of the very first class—while it is a fact, strange though it may appear, that the best vineyards contain a poor sandy soil, mixed with quartz gravel—indeed this must have been long proverbial, for we find the poet remembers it in these lines—

"No soil like poverty for growth divine,
"As leanest lands produce the richest wine."

In the clayey and low lands, on the contrary, which are in many instances situated quite close to the most renowned vineyards, it is so well known that no good wine could be grown, that the proprietors think of nothing but increasing the quantity, in order to make up for unalterable want of quality—they train high—manure richly—and propagate the most prolific varieties—yet it is well known, that the smallest and loosest bunches, containing the least juice, grown on small vines, which are seldom manured, will, if the soil be favorable, produce the best wine. As to the method of making wine, I am afraid too much stress has been laid on this point. I found that, in the main, the system at Bordeaux was the same as every where else; when the fruit is ripe express the juice and allow it to ferment. The treading baths and vats may be more economical or cleanly in one place than another, and a very cold or wet season may require the assistance of art; such as blankets, the addition of sugar, &c. &c. But on a good wine estate, if the season be favorable, they can hardly (unless it is done on purpose) make a bad wine. At some places, as St. Peray, I have seen the screw-press used, at Chateau Margaux, La Rose, Latour Becheville, they trod their grapes, and although the season was wet and the grapes not thoroughly ripe, I saw no artificial means employed to accelerate fermentation. At Lafitte (the property of an English merchant) they bunched all their grapes into a vat, and allowed the mass to remain till it turned into wine—in much the same way the first wine maker must have gone to work—and although the overseer assured us that this plan, which had been adopted for some time, was an improvement, as in such as the unripe grapes remained with their husks unbruised, I could never learn that Lafitte had obtained a better name than

it had before. I do not mean to say, that it is impossible to improve. Much good has been done by the introduction of the *Carmener* grape, in some places, or when the climate or season was unfavorable, by hastening the fermentation, by picking, &c., but no one has succeeded in giving the flavor the "bouquet" to a wine, where the soil was against it; and even at Bordeaux they have hit upon no means of taking away the "gout terroir" from wines grown in the retentive soils. Many, of course, feel confident that they have made great progress in the artificial fabrication of wine; forgetting that

"To observations which ourselves we make,
"We grow more partial for the observer's sake."

In regard to vegetable substances generally, Henry remarks— "We can not always, as in bodies of the mineral kingdom, proceed from a knowledge of the components to the actual formation of the substances themselves; it is not probable indeed that we shall ever have the power of imitating nature in these operations; for, in the functions of the living plant, a directing principle appears to be concerned, peculiar to animated bodies, and superior to, and differing from the cause which has been termed chemical affinity.

The after-management I can only relate from what I have heard:—The Wines for home consumption undergo very little doctoring—there are brokers "cowtlers" for each separate class of wines, and a broker of the first class will never taste an inferior beverage, for fear of spoiling his palate. These wine tasters have a pretty good guess also from the moisture of the weather and want of sun, at the approach of the vintage, what sort of wine they are likely to have that year, and a newly planted vineyard; to replace an old and unfruitful one is looked upon with suspicion. The merchants are particular as to the even temperature of their cellars, and their casks must be all of Baltic oak, each cask being rinsed out with one glass of spirits of wine before filling, and no more is afterwards used. The Clarets intended for the English market are mixed with *Hermilage*, and other strong wines, to give them body, during the second year; but a Bordeaux merchant would shudder at the idea of giving flavor or color to wine, by means of raspberries, &c.

Perhaps the above remarks may in some measure be inapplicable to this colony, but I have seen the soil of the Rhine, Johannisberg, and Rudesheim, and found that these vineyards were situated in porous, not in clayey soils; that a wet season was an abundant but inferior one; that manure was detrimental; and that so much depended upon soil, as to make the Johannisberg *Cabinet Wine* worth fifty and a hundred per cent. more than the other wines grown in the very same vineyard, only situated a little lower down the hill. In fine, any one may farther assure himself of the importance of attending to the selection of soils by going to the Constantias, and comparing the soil and wine of these, with the soil and wine of the neighbouring vineyards.

THE WEATHER.—During the week copious rains have fallen, accompanied by thunder and lightning, and a heavy hail-storm on Wednesday night and Thursday morning. Gustly wind from the Westward. Many houses in town have suffered considerable damage from the continued rain; part of the Roman Catholic Chapel, and one or two houses in the suburbs have fallen in. On Tuesday the whole line of buildings from the Castle to Mr. OLIPHANT'S house was considered in danger, from the banks of the ravine on which they are situated, being partly washed away by the violent rush of water. The mountains in the distance are covered with snow, and the air has been unusually cold. But little business has been carried on, either on shore or afloat, this week. The barometer has not been lower than 29. 69. Very few Farmers have been at market for several days; Wheat and most other Produce is scarce and dear.

The Interior mails had not arrived in town at a late hour last evening.

GIPSIES.—There seems no resisting the conclusion that the Gipsies are either Hindoo fugitives driven originally to emigration, or the remnants of native troops which were brought (probably by Tamerlane) from India, and left behind on his return.

ENGLAND is the richest country in Europe, the most commercial, and the most manufacturing. Russia and Poland are the poorest countries in Europe. They have scarcely any trade, and none but the rudest manufactures. Is wealth more diffused in Russia and Poland than in England? There are individuals in Russia and Poland, whose incomes are probably equal to those of our richest countrymen. It may be doubted whether there are not, in those countries, as many fortunes of eighty thousand a year as here. But are there as many fortunes of fifty thousand a year, or of one thousand a year? There are parishes in England, which contain more people of between five hundred and three thousand pounds a year, than could be found in all the dominions of the Emperor Nicholas. The neat and commodious houses which have been built in London and its vicinity, for people of this class, within the last thirty years, would of themselves form a city larger than the capitals of some European kingdoms.

THE NATIONAL TIGER.—After the French Revolution, Lord Orford was particularly delighted with the story of the national tiger. A man who showed wild beasts at Paris, had a tiger from Bengal, of the largest species, commonly called the Royal Tiger; but when royalty, and every thing royal was abolished, he was afraid of a charge of incivism, and instead of *tigre royal*, put on his signboard *tigre national*.

We beg to direct the attention of our readers to the following: Extract of a Letter addressed to A. ROWLAND & SON, 21, Hatton Garden, London, whose advertisement appears in another column. It is dated Putney, April 2nd, 1835;—

Gentlemen.—It is with feelings of the sincerest gratitude that I take the early opportunity of sending you my thanks for that most valuable production of yours, the *MACASSAR OIL*. I am now in the sixty-seventh year of my age, and for the last ten years I have been getting gradually more bald every year, till at last I was induced to make trial of your far-famed Oil, and I assure you that at the present time my hair is as thick and as good as ever it was. I remain, Gentlemen,
Your obliged and faithful Servant,
J. WIGGENS.

Territorium, ten alle tyde zonder de minste molestatie of hindernis.

8. Alle representatien, klagen, of aansoeken, die van den kant der Kolonisten of hun Gouvernment, aan of tegen de Fingoes gedaan worden, of van den kant der Fingoes aan of tegen de Kolonisten of hun Gouvernment, zullen worden

gedaan door den gezegden Diplomatischen Agent die verpligt zal zyn om de strikste onzijdigheid en regtvaardigheid te beoefenen, en zyne beste pogingen aantewenden, om de rust en het wel zyn der Kolonisten, zoowel als van de Fingoes te bevorderen, om de regten van beide partijen ongekrenkt te handhaven, en om de voorzieningen van deze Overeenkomst naauwgezet te doen observeren.

9. De gezegde contracterende Opperhoofden verbinden zich, om vryen toegang tot gezegden Agent te verleenen, aan alle personen uit de Kolonie, voorzien van zoodanige Passen, als hierin vervolgens zullen worden gespecificeerd. Zy stemmen insgelyks toe, dat zoodanige Kaffers of anderen als door het Koloniaal Gouvernment zullen worden geemployeerd, als Policie Dienaar, vryen toegang te verleenen tot hun Territorium, hetzy met boodschappen of in het traceren met behulp van de Kaffer Amapawati, van dieven of andere zoodanige verbrekers, als misdaden gepleegd hebben in en ontvlugt zyn uit de Kolonie, belovende ook om aan hen te geven en hen te doen gewording in hun gezegd Territorium alle hulp en bescherming.

10. Eenig Britsch Onderdaan of Kaffer begerig zynde om met den Agent in gezegde Territorium residerende te communiceren, zal vryen toegang tot zoodanigen Agent hebben, in zooverre het de gezegde Opperhoofden en Volk betrefte, maar zal niet de vryheid hebben te gaan met schietgeweren, of andere wapenen van aanval of verdediging, dan alleen met toestemming van een der Opperhoofden van den gez. Volkstam der Fingoes.

11. Van de voorzieningen van het vooraftgaande 10de Artikel, zullen zyn uitgezonderd alle de genen die tot een der Militaire Posten behooren, of tot de Escorten die de uitvoeren vergezellen of de communicatie openhouden, als gementioneerd in het 5de Artikel dezer Overeenkomst, a' welcke personen, striktelyk onder Militair gezag staan en onder geen voorwendsel zullen grooiloofd worden om dat te doen, het welk eenig soldaat van zoodanige Escorte niet geoorloofd zou zyn te doen.

12. Eenig Britsch Onderdaan, onder eenige andere, dan de in de twee vooraftgaande Artikelen aangehaalde, omstandigheden, het gez. Territorium binnen tredende, kan zulks alleen doen met toestemming van de Fingoes zelve en op hun eigen gevaar. En de gez. Contracterende Opperhoofden, en die onder hun gezag handelen, zullen volkomen gerechtigd zyn om uit het gez. Territorium weg te zenden, allen die hetzelfde aldus zonder hun consent binnen komen; en het is mits dezer duidelyk verstaan, dat alle personen die het gezegde Territorium binnen treden, (met uitzondering alleen van de zoodanigen als in het vooraftgaande Artikel zyn uitgezonderd) zyn zullen, en beschouwd worden te zyn, subject aan de Wetten der Fingoes zoo lang zy in het Territorium verblyven.

13. Zoodanige Britsche Onderdanen als Licentie-n verkrygen zullen om overzydsch de gezegde Grensscheiding handel te drijven, zullen niet gerechtigd zyn het gezegde Territorium binnen te komen, zonder de toestemming der gezegde Contractende Opperhoofden, die zich nogtans verplichten en beloven om koophandel en handelsverkeering, naar hun best vermoeden te encourageren; en deze handeldryvenden die zy gedoogen zullen hun Territorium binnen te komen, zoolang dezelve zich ordelyk en wettiglyk gedragen, met alle hunne magt en gezag te beschermen en aantemoedigen, hunne personen, huisgezinnen, en eigendom te doen respecteren, en ongeschonden te houden, nimmer toetestaan dat iemand hunner of eenig ander Britsche Onderdaan in het gezegde Territorium vervolgd, met boete bezwaard, of op eenige andere wyze aan schade onderhevig gemakt wordt, door eenige handeling of costume, in verband staande met Tooverkracht; maar in tegendeel aan zoodanige Britsche Onderdanen ten allen tyde vryen toegang te verleenen tot den Britschen Agent, en aan de representatien van zoodanige Agent behoorlyke oplettendheid te schenken, zoo wel als ook satisfactie of redres te geven op hunne gegronde remonstrantien of klagen; maar de gezegde Agent zal niet verpligt, en het zal hem niet geoorloofd zyn om zyne tusschenkomst of bescherming te verleenen in geval van eenige confiscatie, tot welk bedragen ook, van het eigendom van eenig Britsch handelsman of ander persoon onder de Kaffers, die voor hem overtuigd wordt van in het door den gezegden Volkstam geoccupeerd Territorium, zoodanige Artikelen te hebben ingevoerd als by de Wetten der Kolonie verboden zyn over de Grenzen te koop te worden gebragt.

14. Elk Britsch Onderdaan die van eenige misdaad of misdryf binnen gez. Territorium beschuldigd wordt, zal het regt hebben te eischen dat voor zyne tregstelling, kennis van zoodanige teregstelling gegeven zal worden, aan den gez. Agent, die de vryheid hebben zal, zulks gepast oordeelende, om by zoodanige teregstelling tegenwoordig te zyn, en om ten behoeve van den aangeklaagden te spreken of te pleiten, wanneer hy gronden zal vinden voor zulks te doen, en aan de opinie van zoodanig Agent zal behoorlyk gewigt worden gehecht, gelyk beloofd en overeengekomen is in het 13de Artikel dezer Onderhandeling.

15. Wanneer eenig Britsch Onderdaan eene misdaad of misdryf pleegt, in het gez. Territorium van de gez. Contracterende Opperhoofden, en hy ontvlugt uit hetzelfde over de gezegde Grensscheiding, zal de gezegde Agent pogingen aanwenden om voldoende voor de lydende party door middel van de Britsche Geregtschoven te erlangen, en ten allen opzichte, pogingen aanwenden met even zoo veel yver voor den Fingoo, die door een Britsch Onderdaan mogt zyn verongelykt, als hy verpligt is te doen ten behoeve van een Britschen Onderdaan, die door een Fingoo verongelykt mogt zyn.

16. Eenig Fingoo die begerig mogt zyn om de Grensscheiding te passeren naar het Territorium door de Kolonisten bewoond, zal verpligt zyn zulks ongewapend te doen, en zal een Pas moeten erlangen van den Britschen Agent residerende onder den Volkstam, zoodanige Pas zal duidelyk zyn in de Engelsche en Hollandse talen, specificerende den naam van den Applikant, de plaats zynre bestemming, het oogmerk van zyn bezoek, het getal van dagen die hy afwezig mag zyn, en den datum wanneer de Pas verleend is.

Geen Pas zal worden verleend, dan alleen op verzoek van, of op de productie van een vastgesteld teeken van een respectabel Opperhoofd, die aanneemt verantwoordelyk te zyn voor het gedrag van den Applikant, gedurende zyn verblyf in de Kolonie, en het moet aan zoodanig Applikant duidelyk worden geexpliceerd, dat zoodanig Pas hem niet beschermen zal wanneer hy van de plaats die naar de plaats zynre destitatie leidt afwykt, of gewapend gaat, of zich in afgelegene plaatsen verschuilt, of de periode in

den pas gespecificeerd te bovengaat, of met anderen van
zyne Natie reist die van geene Passen voorzien zyn, in
elk van welke gevallen hy behandeld zal worden als of hy
geen zoodanigen Pas had.
De Agent zal geen Pas verlenen wanneer hy de minste
suspectie heeft nopens de beweegredenen van des Applikants
bezoek naar de Kolonie, noch ook, ten zy hy een redelyk
oorzaak heeft voor zoodanig een bezoek.
Bezoeken van den kant van Leedigloppers, moeten zoo
wel om der Kolonie als der Fingoes wille, geenszins aange-
moedigd worden. De Agent zal hen weigeren, en hy zal
insgelyks een naauwkeurig Register houden van zoodanige
Passen als hy verlenen zal, en van de namen der Opper-
hoofden, op wier verzoek zy verleend zyn, welke namen
ook op de Passen vermeld moeten worden.
Alle Fingoes of anderen, werkelijk in dienst zyn van
Agenten, Missionarissen, of Handelslieden, zullen nog-
tans geoorloofd zyn de Kolonie binn te komen, met
Passen van zoodanigen in wier employ zy zyn, mits dat
zoodanige Passen duidelyk opgeven de namen van zooda-
nige Bedienden, hunne destinatie, en den tyd hoelang zy
in de Kolonie verblyven zullen.
17. Alle Fingoes zonder zoodanige Passen ten Weste van
de gez. Grensscheiding gevonden wordende, zullen by de
eerste overtreding onmiddelyk over de Grens gezonden, en
overhandigd worden aan den Kaffer Amapakati, residentie
aan de gez. Grensscheiding die verplicht zal zyn hen aan de
gezegde Contracterende Opperhoofden te doen zenden, wel-
ke zich by dezen verplichten, om alle pogingen te doen,
om zoodanige inbreuken op het Koloniaal Territorium te
beletten:—En eenig Fingoo die aldus gevonden wordt in
eene tweede overtreding, zal worden gestraft volgens de
wet en reeds vastgesteld, of hierna vast te stellen, tot
bestraffing van zoodanige misdryven.
18. Eenig Fingoo, in het plegen van eenige misdaad of
roof binnen de gez. Grensscheiding gevonden wordende, zal
worden behandeld volgens de Wetten dezer Kolonie, en
het is duidelyk te worden verstaan, dat in geval van tegen-
stand of poging te ontvlugten van den kant van zoodanige
Misdadiger en Roofpleger, het volkomen wettig is op
hen te schieten, of hen anderszins te wonden of te doden,
wanneer zy niet op eenige andere wyze in verzekering
gebracht, of verbinder kunnen worden van hunne misdaad te
volveren:—Maar wanneer zoodanige Misdadigers of Roof-
plegers op de spoor achtervolgd wordende, niet worden
ingekeerd voor dat zy de lyn door gez. Kaffer Amapakati ge-
oconpeerd wordende, zullen zyn gepasseerd, alsdan zal de
handelwyze, in het volgen de Artikel overeengekomen, wor-
den opgevolgd, ter apprehensie van zoodanige Misdadigers
of Dieven, of ter wederverkryging van eigendom door hen
weggevoerd;—en in geen geval hoe ook genaamd, zal
eenige Patroole of gewapende Troepen van welken aard
ook, gedoogd worden, om de gez. Lyn aldus geconpeerd
niet het gemeld oegmerk te passeren.
19. Wanneer iemand begrepen zynde in het achtervolgen
van Misdadigers of Dieven, of van goederen door hen
gestolen, hen niet achterhaalt, of de goederen reconveert
voor dat hy de gezegde Lyn bereikt (mits dat hy onder
eede verklaren kan, dat hy de gezegde Misdadigers, Die-
ven, of Eigendom getraceerd heeft, tot overzysch een
byzonder punt op de gezegde Lyn, dat het Eigendom toen
het gestolen werd, behoorlyk bewaakt was; en in gevallen
van Hoornvee, Paarden, of dergelyk, dat zy aldus be-
waakt waren, door eenen gewapenden Herder; dat het
achtervolgen een begin heeft genomen onmiddelyk na dat
zoodanig eigendom gestolen was; dat indien de diefstal
gedurende den nacht gepleegd werd, het eigendom toen
het gestolen werd, behoorlyk in Kraalen, Stallen of iets
dergelyks bewaakt waren; en dat de vervolging in dat
geval, ten minste den volgenden morgen vroeg begonnen
is) zal zoodanig persoon de vryheid hebben regstreeks
te vervoege naar den Pakati, het naast reside-
rende by dat punt alwaar hy zweeren kan dat zoodanige
sporen de gezegde Lyn gepasseerd zyn, welke Pakati
verplicht zal zyn, dadelijk de opgaaf aan te nemen, de
sporen te onderzoeken, en wanneer de opgaaf wel ge-
grond schynt, zyne beste pogingen aantewenden om het
gestolene eigendom te reconverren, als ook de achtervolgd
zynde Misdadigers, en het zal in de keuze zyn van de ver-
volgende party, zyne nazoeeking onmiddelyk onder de leiding
van gezegden Pakati voortzetten, mits dat hy niet gewa-
pend ga, of vergezeld van gewapende Britsche Onderdanen,
en mits dat hy geene hulp verleent, in het plegen van een
geweld van welken aard ook binnen het gezegd Territor-
ium. Wanneer de in vervolging begrepen party, aldus met de
hulp van gezegden Pakati, of met die van de Politie, hierna
nader te noemen, het achtervolgd Eigendom reconveert,
zal hy de vryheid hebben daarmede zich te vervoege,
het zy by een der gezegde Agenten, of by een der Militaire
Posten, naar mate voor hem het geryfelykste is, ten einde
voor zoodanigen Agent, of Officier in bevel van zoodanigen
Post, eene opgaaf te doen van zyne handelingen, en van
de hoeveelheid, en den aard van het g. reconveert Eigend-
om; welke opgaaf hy subject zyn zal, ten allen tyde des
vereischt wordende, met Eede te moeten bekrachtigen;—na
het doen van welke opgaaf hy de vryheid zal hebben om
het gezegd Eigendom weg te voeren, het overlatende aan
den gezegden Pakati of de Politie, om den Misdadiger te
vervolgen, en om Compensatie te erlangen voor hunne
moeite, door middel van de Opperhoofden en hunne Raads-
lieden, die het aangaat, en volgens het gebruik van dien
Volkstam, en de gezegde Contracterende Opperhoofden,
verbinden zich by dezen, om in alle gevallen waarin
hun Volkstam betrokken is, zich ten uiterste te bemeyen,
om de Misdadigers te doen arresteren en straffen, als ook,
om by alle gelegenheden de gezegde Pakaties en
Politie Dienaars, eene redelyke belooning te doen ge-
worden, voor hunne exertien.
20. Nogtans, wanneer iemand die gestolen eigendom en
Dieven vervolgt, op de wyze in het voorafgaande Artikel
gespecificeerd, het veiliger of minder moeyelyk of expediter
oordeelt, om zich naar den naastgelegenen Militairen Post
te begeven, zal het hem vrystaan zoo te doen. De Officier
in bevel van zoodanigen Post, zal zoodanig iemand (na dat
hy zyne gereedheid zal hebben verklaard om den eed in
het voorafgaande Artikel vereischt wordende te doen)
voorzien, van eenen Politie Dienaar, die zoodanige vervol-
gende party vergezellen zal naar den plek alwaar de gez.
sporen de gez. Lyn passeren, en aldaar de sporen exami-
neren met den gez. Pakati, wiens tegenwoordigheid ver-
leggen moet worden. Hy, de gez. vervolger zal alsdan,
wanneer hy het niet geraden of veilig oordeelt, om den
spoor verder op te volgen, of nadat hy denzelven verder
heeft opgevolgd, in zyne pogingen niet slaagt, zich vervoe-

gen by den Resident Agent voor de Opperhoofden, in wier
Territorium de Misdadigers en het eigendom getraceerd
zyn, en zyne klage voor gez. Agent, onder eede brengen;
en in g. val van verloren eigendom, in het byzonder de om-
standigheden beoedigen, welke in het voorafgaande Artikel
zyn aangehaald, als ook de naauwkeurige waarde van het
gestolene en niet gereconveerde goed. Ten zy deze eed
gepresteerd wordt, zal de Agent geene verdere notitie van
de zaak te nemen; maar zodra een zoodanige eed is af-
gelegd, zal de gez. Agent wanneer hy geene gronden heeft
om denzelven voor onwaar te houden (zynde hy ten allen
tyde gerechtigd om verder bewys te eischen, en zynde het
ten allen tyde den stelligen plicht van de klagende
party om goede en sufficiente bewyzen te brengen) de
zaak leggen voor de Opperhoofden van het Territorium
waarin de Misdadigers en het eigendom getraceerd zyn.
En de gezegde Opperhoofden verplichten zich mits dezen,
om eenen raad by een te roepen, en de naauwkeurigste in-
vestigatie te doen, en het gestolene goed, indien mogelijk,
te doen reconverren, en de Misdadigers te doen straffen.
En de gezegde Opperhoofden verplichten zich verder en
nemen aan, dat wanneer na verloop van een maand, na
dat de zaak aan hen zal zyn voorgelegd, de gez. Misdadi-
ger of Eigendom niet zal zyn ontdekt, en wanneer het des
niet tegenstaande duidelyk zal zyn bewezen voor hen en
hunnen gez. Raad, door het getuigenis van gez. Vervolger,
Pakati of Politie dienaar, of eenig ander bewys, dat het
eigendom in hun Territorium is getraceerd, zal hy, de gezegde
Opperhoofd, dadelijk den beroofden persoon schadeloos
stellen tot het volle bedrag van het verloren goed,
en niet meer; en den gezegden Pakati en Politie Dienaar
vergoeden voor hunne gedane moeite.
21. Met uitzondering van Indemnificatie, door de gez.
Opperhoofden in Rade erlangd, in maniere in het vooraf-
gaande Artikel gespecificeerd, zal het aan geen persoon,
gestolen goed achtervolgende, geoorloofd zyn om eenig
ander dan zyn eigh goed te nemen, namelijk datzelfde
eigendom dat hy achtervolgt, zelfs niet wanneer hem zulks
mogt worden aangeboden, op straf van het goed aldus ge-
nomen te moeten restitueren, en van het verlies van eenige
verdere aanspraak, op het eigendom actueel verloren.
22. De gezegde Contracterende Opperhoofden nemen
aan, beloven en verplichten zich, door elk middel in
hun vermogen, de uitbreiding van de Christelyke Godelienat
door geheel hun Territorium aan te moedigen, en te be-
schermen, als ook in hunne personen, huisgezinnen en
eigendom te beschermen de Leeraars en Bedienaars van
gezegde Godelienat, en alle Britsche Onderdanen van
welken aard ook, die in het gezegde Territorium temporair
wonen, of hetzelve met hun consent, of volgens de termen
van deze Overeenkomst zyn binnengekomen, zoo lang zy
zich gedragen met welvoegelykheid en onderwerping aan de
Wet, en nimmer onder eenige omstandigheid toestaan zullen
dat zy gemolesteerd of onderhevig gemaakt worden aan
eenige prosecution of poenaltiteiten, onder voorgeving of
voorwendsel van de wetten en gebruiken, in verband staande
met of geïnstitueerd tegen Tooverkracht, als ook aan hen
vry acces naar, en communicatie met de Kolonie toe-
staan.
23. De gezegde Contracterende Opperhoofden komen
verder overeen, beloven en verplichten zich, om zich te
wachten, en zorg te dragen dat hun Volk zich wacht, om
op eenigerly wyze te molesteren, of zich te bemoeien met
de Kaffers, maar in vrede met hen te verblyven; en op
geenerly wyze eenige krenking of twist, die tevooren tus-
schen de Kaffers en Fingoes mochten bestaan hebben te
wreken; maar met alle partijen in vrede te leven, en om
alles in hun vermogen te doen, om de rust der verscheidene
Volkstammen door welke zy omgeven zyn, zoo wel als der
Kolonisten te bevorderen.

HANDELS LYST.

AAN HET PUBLIEK.

BERIGT—Het oogmerk van allen die adverteren is, dat hunne Notificationen zoo ver alom mogelyk verspreid mogen worden. Van de "GAZETTE EN HANDELS LYST," worden meer dan Acht Honderd Copyen uitgegeven; en het is een wel bekende daadzaak, dat byna een ieder in de Kolonie, die lezen en toegang tot dezelve verkrygen kan, de "Gouvernements Gazette" leest, daar derzelver inhoud zoo wel Algemeen als Officieel is, en het belang der geheele commune betreft, zoo dat het getal van exemplaren die verkocht worden slechts een flauw denkbeeld oplevert van het getal dergenen die dit Weekblad actueel lezen.

Deze daadzaken zyn algemeen genoeg bekend; nogtans kan het nuttig voor die weinige Kooplieden en anderen zyn, die zich slechts nu en dan van deze Publicatie bediend hebben, te weten, dat—wanneer zy wenschen verzekerd te zyn, dat hunne Advertentien het oog van het publiek in elk gedeelte der Kolonie zal treffen,—het beste middel tot bereiking van hun oogmerk is de **GOVERNEMENTS GAZETTE** in verband met de **HANDELS LYST**.

De Prys van Supscriptie is bykans slechts nominel—zynde niet meer dan 2 Rds. 2 schell. per Quartaal het Zegel daarin gesloten.

INFLAMMATION AND DEATH.

(FROM THE "TIMES" OF SATURDAY, Nov. 28, 1835.)

"Yesterday evening an inquest was held at the Sovereign, Munster-street, Regent's park, before Mr. Stirling, on view of the body of Mrs. Sarah Porter, aged 35, of Clarence-gardens, Regent's-park. Dr. Johnson, Physician Extraordinary to the King, deposed that he attended the post-mortem examination of the body, and was of opinion that death was occasioned by inflammation of the intestines, brought on by some irritable substance taken internally. Mr. Beale, Surgeon, of Long-acre, deposed, that he had attended the deceased several times. She was a very delicate woman. On the evening of the 20th inst., witness was requested to attend her. On his arrival he found that she was in a state of delirium, and incapable of articulation. On inquiry, witness ascertained that the deceased had taken several doses of "Morrison's Pills." She continued to get worse, being violently affected; on the 22d, she became somewhat sensible, complaining of violent pains in the bowels; on the 23d all symptoms became aggravated, and she died on the evening of the same day. Witness concurs in the opinion of Dr. Johnson, that the death of the deceased was caused by inflammation of the intestines, brought on by the administration of some violent medicine. Sarah Paine, servant to the deceased, proved having purchased three separate boxes of "Morrison's Pills," at No. 43, Munster-street, which were taken by her mistress in doses of fourteen and sixteen at a time. Other relatives of the deceased were examined, who stated that the deceased was advised to take the pills by a Mrs. Robinson, a neighbour; but she (deceased) becoming worse, they advised her not to take more. The jury severely animadverted on the sale of the pills in question, and after some discussion returned a verdict, "That the deceased died from inflammation of the intestines, caused by taking Morrison's Pills."

ALL diseases arise from the one simple cause—an impurity in the blood, which impedes its circulation by settling on some organ or part, and immediately illness ensues. BRANDRETH'S PILLS correct, purify, and invigorate the blood, causing it to circulate freely; giving to every organ, healthy action. They are the Original Vegetable Medicine and have the highest claims on the patronage of a liberal and discerning Public; Dr. Brandreth, the original discoverer, not having decided on their present formula, until after thirty years' experience and laborious research into the medicinal properties of the numerous plants composing the Vegetable Kingdom: his object being to compose a pill that should at once purify and produce, by a specific action, an equalization of the circulating fluid; and whoever may feel disposed to give these Pills a trial, will, at once, find that this object is attained. They give immediate relief in all constipations of the bowels, spasmodic and bilious affections, flatulency, habitual costiveness, nervous and sick headache, arising from an overloaded condition of the digestive organs, viscera, &c., and the destruction of worms is speedily effected by them. Three or four weeks' use will eradicate scurvy, and all scorbutic humours, erysipelas, or St. Anthony's fire, and all cutaneous affections of the skin; and in diseases of the eyes, paralytic affections, asthma, dropsy, stone and gravel, piles, lumbago, affections of the kidneys, irritation of the bladder, urethra, rectum and spasmodic stricture, they are found invaluable. They also remove the innumerable train of evils to which females are subject at certain periods. Influenza is soon cured by these pills, and liability to it prevented. No mother of a family should be without a constant supply of this Domestic Medicine; they are most effective in their administration to children of the earliest age, when labouring under disease of any kind, especially whooping cough, dentition, measles, scarlet fever, chicken pox, worms, tinea capitis or scald head, and all other eruptive diseases. As a medicine, to all individuals afflicted with either rheumatism or gout, it is truly invaluable; it not only eradicates, but by regularly taking it once or twice a-week, it will, most assuredly, prevent a return. Captains and all voyagers will find this the medicine, without the aid of any other, to prevent costiveness, scurvy, and the various diseases incident to long voyages or foreign

IMPORTANT TO THE AFFLICTED.

The unprecedented success which has resulted from the adoption of Brandreth's Pills, during a period of upwards of 80 years—the numerous and extraordinary cures which they have performed upon hundreds of individuals whom they have rescued from almost inevitable death, after they had been pronounced incurable by the most eminent of the faculty—justify the proprietors of this "Original Vegetable Universal Medicine" in warmly and conscientiously recommending it to the especial notice of the public. Unlike numerous Medicines, of high pretensions and FATAL EFFECTS—the "kill or cure" nostrums of ignorant empirics—which are daily sent forth to gull and delude the public, these Pills may be taken with perfect safety by even children of the most tender years; the doses being regulated (for which see the Directions accompanying the Medicines) according to the age of the patient. Ignorant pretenders to the science of medicine, in order to increase the consumption of their deadly compounds recommend to their deluded victims doses in a dangerous and almost unlimited quantity!! The result of the overweening confidence of their doubly afflicted patients (who are thus induced to shorten their lives by taking their deadly advice, and swallowing their pills in these fatal quantities) may be traced in the verdicts of Coroners' Juries, who have publicly placed on record their opinions of the effects of Pills, composed of those highly dangerous ingredients, Gamboge and Bitter Aloes, by returning a verdict of manslaughter against the Vendors.

climates: it being unalterable by time or any atmospherical change. Brandreth's Pills are also a certain preventive of sea sickness, and are likewise the best medicine preparatory to sea bathing. After free living, three or four of these pills will prevent bilious attacks, and all unpleasant sensations.

THE TESTIMONIAL OF H. W. DEWHURST, Esq.

THEATRE OF ZOOLOGY, GOWER STREET, EUSTON SQUARE, London, Jan. 10, 1834.

My Dear Sir,—As you have requested my candid opinion of your pills, I have much pleasure in stating, that when labouring under a serious illness in August 1831, I took them by your advice, and am happy to say, that their action was, in every way, all that I could desire; and, accordingly, from their use, I date my recovery. I consider them an excellent family medicine.

I remain, my dear Sir, yours truly,

H. W. DEWHURST, F. L. V. S.

Surgeon-Accoucheur, and Professor of Human and Zoological Anatomy, and Corr. Mem. Worces. Nat. Hist. Society.

From the OXFORD JOURNAL, Aug. 23, 1834.

BRANDRETH'S PILLS.—There are few who do not know that the essence of the food is converted into blood, which so formed, assimilates itself to the various ramifications of the human frame. We take it, therefore, as a clear axiom, that that medicine which makes the blood pure, without weakening the system, must be most excellent; and, as we know Brandreth's Pills to be such a medicine, we recommend them, with confidence, to our friends. Many and high was their testimonials.

From the OXFORD HERALD, August 23, 1834.

On all hands we hear of astonishing cures performed by Brandreth's Pills. Mr. Wilkins, of Magdalen College, was cured by them, of Ulcerated Legs in eleven weeks, which had been bad nine years. They cure by removing all noxious accumulations from the stomach and bowels, and all impurities from the blood, at the same time strengthening the frame—thus restoring the energies both of body and mind. We have ourselves taken them as an antibilious pill, and can, from experience, recommend them as such to our numerous friends.

To be had of every respectable Medicine vendor in the colony in boxes, 2s.—4s. 6d.—6s. 6d.—18s. each.

NOTICE TO THE TRADE.

S. MORDAN & Co. beg to call the attention of the TRADE, and of the Public at large, to the following articles of their manufacture, viz:—

THE PATENT EVER-POINTED PENCIL is an instrument universally allowed to be of the greatest utility, and particularly recommended to the public, when made with that mathematical nicety on which its use depends. The Patentees inform the public that all Pencils having steel points are not of their make; and to avoid all inconvenience the following remarks on purchasing will ensure them a genuine article:—see the Pencil has the name, "S. Mordan and Co., Makers and Patentees," on the body of the case.

LEADS.—The spurious leads are a mixture of common lead-dust and antimony, and of all manner of sizes; they choke up the Pencil-case, and create an unjust prejudice against the genuine article. The proper leads for replenishing the case have on each box a yellow belt, with the word "warranted" on it, and a red sealing-wax impression, bearing the initials "S. M. & Co."

Shopkeepers in provincial towns would do well to observe the above remarks, to prevent their being imposed upon, the public being much inconvenienced in not being supplied with the genuine article.

CEDAR PENCILS.—Artists and others are particularly requested to try their Black Lead Pencils in Cedar, made from the pure Cumberland lead, selected with the greatest care: they have been pronounced, by the most competent judges of the day, the best extant. (See J. D. Harding's Work on Pencil Drawings.) This article is patronized by all the Government offices.

THE PATENT OBLIQUE PEN, the only straight Pen. This peculiarity is owing to the slit being parallel to the angular slope of the writing, which gives it that freedom in use which is unequalled by any other pen by the direction in which both nibs are brought into use at the same time, the writer is not operating upon one edge of the nib, and the contrary edge of the other at the same instant, but upon the square surfaces or points of both together. Both nibs are thus brought into constantly equal wear, and a freedom is secured which no other metal Pen ever possessed. The Patent Oblique Pen is the most perfect hitherto offered.

PATENT TRIPLE-POINTED PEN.—The peculiarity of this pen, either in its straight or oblique form, is the addition of a third nib, which secures the following advantages:—

1. A certain supply of ink of any kind, uniform with the most rapid writing.
2. The two nibs of the ordinary pen act only as dividers or tracers, while the third nib, pressing upon the paper, conducts and distributes the ink.
3. The third nib renders the same pen capable of writing the boldest text or finest running hand.
4. The third nib retains a larger supply of ink without risk of blotting. (See Laws of Fluids.)
5. The third nib, acting on the slit of the pen, effectually removes the fibres as they are gathered from the paper, thereby removing the greatest impediment to the use of metallic pens.
6. Firmness in use is obtained by the third nib; and at the same time the flexibility is increased, and durability necessarily follows.

* * * Use the Improved Joint Holder, made expressly for these Pens.

PORTABLE QUILL PENS.—There are many persons who do not like steel pens; to those the Portable Quill Pens, and Silver Penholder, are particularly recommended. In Boxes containing Fifty and One Hundred.

"S. M. & Co., Makers," are marked on each box, and are warranted, with a yellow belt and wax impression.

COOPER'S PATENT SCENT BOTTLES.—These articles are confidently recommended from their superiority. The advantages derived from this invention are, that the Stopper, from its spherical form, can neither stick, or break in the neck, so constant a complaint against those on the old plan. The Stopper being made of glass never corrodes. They are so perfectly air-tight that they will preserve the most volatile spirits, even ether or ammonia, any length of time. They cause much less trouble in use than any others, the act of removing the cap and stopper being only one operation. They are more durable than any others, from their superiority both in workmanship and material, the silver and gold used in them being very stout, and warranted standard.

Manufactured by S. Mordan & Co.

PATENT TRAVELLING INKS.—S. M. & Co. invite particular attention to their improved Travelling Inks, to which they have adapted the Patent Spherical Stopper, so as to secure all its advantages, while the construction of the case admits of

a glass holding a much larger quantity of ink than those in general use, without increasing its bulk; and at the same time it is protected by a strong case, neatly covered with leather. The improved Stoppers to these Inks remove the objections to the India Rubber Stoppers of the late Mr. Berry, and may be had in all the varieties made by him.

These Inks are also made in wood or ivory, for the pocket. **NEW FOUNTAIN INKSTANDS.**—These Inkstands are of a very superior construction to those formerly in use. They present but a small surface of ink to the atmosphere, and comparatively no evaporation takes place; nor can dust accumulate to spoil the ink. The spout is placed at the most convenient angle for dipping the pen; and the ink being of a uniform depth, prevents the pen being spoiled by striking against the glass.

This Inkstand is peculiarly adapted for the writing fluids now in use. They are made of white or coloured glass, either plain or richly cut; and are also mounted with silver caps, which exclude the atmosphere or dust. Each Inkstand has a medalion, with the name S. Mordan & Co. London, on it.

SEVEN GUARDED LOCK.—There are few persons but have property of some kind to secure from prying curiosity or theft. No lock can be secure that has duplicate keys in existence, or that will allow of an impression being taken of the key to produce a facsimile, so easy in all warded and tumbler locks. The most serious robberies have taken place by means of duplicate keys, which allow the dishonest to relock without suspicion; this is fully borne out by the Police Reports. The only lock that gives positive security is the Seven Guarded Lock. The infinite variety of changes of which the key is susceptible, which causes every successive key to differ from all which have preceded it, makes this Lock perfectly secure. An inspection of the machine will justify this assertion.

This Lock is patronized by the Government offices; also at Newgate, Whitecross-street, and Warwick. There is scarcely a banking house in London but have these Locks more or less on their establishment.

Patent Joint Penholders, in Silver and Gold.

A new Guide Penholder, in Silver, much approved of.

Patent Parisian Spring Penholder, and Short Pens for do.

Gold Pens with Perpetual Points.

Fire-proof Deed-boxes, &c.

Iron Chests and Bookcases.

Iron Doors for Strong Rooms.

Lump Inks, Cone Inks, and Glass Inkstands of every description.

Toilet-bottles, Pastille-burners, Rose-water Bottles, &c.

Smelling-bottles, mounted in Silver and Gold, with S. M. and Co.'s Improved Conical Stopper.

Soda-water Machines, &c. &c.

S. M. & Co. also inform the Trade that they have now in the course of manufacture several entirely new and useful articles, which will be laid before them with all possible dispatch.

CAUTION.—As imitations have been made of many of their articles, observe, that each bears the name of S. Mordan and Co., Makers, London.

Manufactory, 22, CASTLE-STREET, near FINSBURY SQUARE, LONDON.

N.B.—S. MORDAN will be happy to advise persons taking out Patents for new Inventions, as to the best mode of manufacturing and laying the same before the Trade.

STATE OF THE MONEY MARKET IN LONDON.

From the Times, April 27.

The new American securities are gradually taking root in the Stock Exchange, and to all appearance are likely to produce important effects, though the operation may be a slow one, upon our whole monetary system. If they obtain full credit here, they will disturb not only the floating debt, Mr. Spring Rice's circulation of Exchequer Bills, but the funded debt itself, by the superior interest they will yield. We have not seen in this market for years past a security bearing interest of 6 or 7 per cent., the capital of which was secured repayment at a fixed and not very distant period. The leading bankers are already beginning to turn their attention to this, for if once a good and regular market is established for them on the Stock Exchange, there is no reason why they may not be held in temporary deposit in the same manner as Exchequer Bills, in which case there would not be much hesitation about giving the preference to them, from the superior return which they give. This, however, is not all. The important feature of the transaction is the power which it must give to the makers of American public securities of all kinds over the money market of this country. Let them once establish credit—for the disposition of the monied interest in this respect is well known—and there is absolutely no limit to the circulation they may obtain here. They will not be at all fastidious about the terms upon which they are to raise money in this country; for such is the tendency of the United States, through the great enterprise of the people, to a high rate of interest, that it will for ages to come probably be above the rate paid in this country. It will be worth their while always to give us an abundant and a constant supply, and, whatever vicissitudes may occur in commerce, they will be furnished always with the means of keeping their gold circulation. Though there may be inconvenience occasionally in shipping goods upon falling markets, there can be none in supplying paper of this kind to settle the trade between the two countries; and should they think it worth while to lay siege to the stock of gold in the Bank of England itself, through this medium, it is difficult to say in what manner it is to be prevented. Most reflecting men are struck with the quiet deep policy of the present scheme, and from the decided success, as indicated by to-day's transactions, which is likely to attend it. The common run of American securities, owing to the inconvenient form of them, had become absolutely unmarketable at the date when these made their appearance, but by merely adopting this new shape, under which the capital is absolutely secured and made payable in London, they instantly acquire a firm footing, which every day will improve. Henceforth the money markets of the two countries will be closely blended together in their operations, and we should not be at all surprised within a very short time to see a branch of the Bank of the United States established in this City.

CITY—THURSDAY EVENING. April 27.

Commercial credit has certainly maintained the improvement which we noted yesterday evening, and the commercial advices from the leading manufacturing districts which were received here this morning, bear evidence, at any rate, of a temporary return of confidence. It is now pretty certain that the Bank of England have determined not to make any advances upon the 12 months' notes of the Bank of the United States; and we find that the public accords with the bank direction in that determination. There is no doubt, however, but that the spirit for speculation in any novel species of security will cause a great amount of floating capital to be invested in them. How far this trading in the duplicate obligations, as it were, of the debts of the American consignees of property due to the British consignors will go, is a problem that not only remains to be solved, but the results of which it is very difficult to define; but there is not much doubt, from the eagerness to enter into this new description of speculation on the part of our Stock Exchange speculators, that a very large amount of these securities will be absorbed by English capital, and these transactions will doubtless have the effect of limiting the business in Exchequer bills and India bonds. Should the new speculation be carried on much longer, it will become very questionable whether the chancellor of the exchequer will be able to carry out his presumed intention of funding a portion of the floating debt.

Money has been more in demand in the commercial circles to-day, and the premium upon Exchequer bills has given way in consequence of the great disposition for speculation in American promissory notes, to which we have already alluded, and the unfunded debt is now quoted at 38, and India bonds the same.

The British Funds are rather heavy. Consols closed 90½; the Three-and-a-Half per Cent. Reduced Annuities have declined to 97½ a £, and the New Three-and-a-Half per Cent. to 98½ a £. Bank Stock is 204½; but the amount of business has been of no importance.

COTTON TRADE, &c.

Manchester, April 23.—The failure of Messrs. Heanword and Co., extensive spinners and power-loom manufacturers, of Stockport, was publicly announced on Thursday. The liabilities are stated not to exceed 50,000l. It was a con-

cern of long standing, and of reputed considerable wealth. As ranging in the category of one of those special classes engaged in the cotton manufacture, whose position is the highest, and whose profits are known to have been the 'largest'—a necessary consequence, in fact, of the vast amount of capital preliminarily required for outlay and operations, the event has made a more profound impression than the mere sum total of loss would warrant.

April 26.—(Extract of a letter.)—"It is a long time since we have heard such general and gratifying admissions of an improvement in the state of trade as we met with yesterday. The greater firmness in the cotton market experienced at Liverpool, with the tranquillising nature of the accounts from America, produced their full effect here; nor did the improvement appear to be confined to one department; it was equally manifest in yarns, in the inquiry for long cloth and for finished goods; country and London buyers of the latter in considerable numbers were in the market, and there was a full conviction that prices would not go lower. We are also glad to hear that the silk trade, which has been more depressed than the cotton manufacture, fully participates in the improvement."

Liverpool, Tuesday.—Confidence continues to increase, and more business is doing than for several weeks past. The accounts from Manchester are encouraging. To-day there was a brisk demand for goods, and extensive sales were made in most articles. The favourable state of the Manchester reacted on the Liverpool market, and caused, late in the afternoon, some large sales of cotton. Under the impression that the worst has taken place, several capitalists are reported to have come forward to the aid of houses which were in distress from the difficulty of obtaining discount, or of a falling produce, except on a ruinous loss. Upon the whole, affairs have taken a turn, which it is hoped will enable commercial men gradually to extricate themselves from the difficulties by which so many of them have been for some time surrounded.—April 27.

COMMERCIAL AFFAIRS OF AMERICA. I

(From Myers' Mercantile Advertiser, April 24.)

Accounts have been received from New York, by the *Shakspeare Packet*, to the 3rd April, inclusive. The intelligence is of the highest interest. On the 28th of March an application to the President of the Bank of the United States was resolved on at a meeting of the principal merchants of New York. The application was to the effect that the Bank "be invited to interpose at this juncture by a shipment of coin, and by the use of their credit so as to meet the exigencies of the occasion, and by the sale of bills of exchange on Europe, by the issue of post notes payable at Philadelphia, and of bonds payable at some distant day in London, Paris, and Amsterdam, to facilitate negotiations at home, and furnish safe remittances abroad, and thus not only be of service to this city (New York,) but to the United States at large." To this application there was a reply by Mr. Biddle (who had been sent from Philadelphia to ascertain the nature of the commercial difficulties in New York) to the following effect:—

"In the mean time, what my own observation suggests as the cause of these troubles, is, that recent events in the south and in Europe have, in concurrence with reasons of an earlier date, produced a paralysis of private credit which deranges the whole system of our foreign and domestic exchanges. For this, the appropriate remedy seems to be, substitute for the private credit of individuals the more known and established credit of the bank, until public confidence in private stability has time to revive. To the foreign exchanges I would apply that restorative by issuing the engagements of the bank, payable in London, Paris, and Amsterdam, to be remitted in lieu of private bills. These will be ready by the next packet, and they will enable the country to make, without injury, an early provision for the adjustment of the foreign exchanges by the natural operation of remitting its produce and its coin. A similar operation I shall recommend to the board, in respect to the domestic exchanges, by an enlarged and immediate purchase of bills of exchange on the distant sections of the Union."

(From the New York Courier and Enquirer, of April 3.)

THE MONEY MARKET.—The English and French packets, whose regular day of sailing was the first inst. will, in all probability, sail this morning. The remittances carried out by these conveyances, consist principally of bonds issued by the United States bank already described—and of which about £500,000 sterling have been sold,—and of bonds of the Morris Canal and Banking Company in favour of and endorsed by the Bank of North America, at twelve months date from the 1st of March, payable in London at the house of Messrs. Morrison, Cryder, and Co., bearing interest at the rate of six per cent per annum. These, in the first instance, were sold at 112½ per cent. for paper, they were afterwards sold for 109 per cent. for cash, as were also the bonds of the United States bank under the original price at which they were purchased, for the purpose of raising money on them. In bills of exchange no great amount was remitted; the exchange varied from 11½ to 12; the latter rate was however only paid for a small amount, the average price being 11½.

The above amount of bonds sold by the United States Bank is about one-half that they propose to issue. The question of a shipment of specie by them will be submitted by the president to the board for its decision at their next meeting. That institution and the Morris Canal Company continue to purchase Southern and South-west drafts.

The purchases made of the bonds above alluded to, having taken a considerable amount of paper out of market, there was no great press for money on Saturday, and the rates of discount were consequently lower. The banks too discounted more liberally than they have done of late. United States Bank shares sold at the board at 119, and we learn were afterwards sold in the street at 120 for cash.

Intelligence reached here on Saturday morning of a very heavy failure in Philadelphia, and by the express mail yesterday, we received accounts from New Orleans of the suspension of another house for a very large amount. We regret to add that the state of things in that city is of the most melancholy description. The fourth day of this month is looked forward to there with the greatest apprehension, as on that day some very heavy payments are to be made. For the last three months few of the transactions which have taken place have been for cash, and in consequence the amount of paper floating there baffles all description. Bills to a large amount drawn by the Atlantic cities,—New York, Philadelphia, Providence, and Boston, in particular,—have been protested. Mississippi bank notes were at discount of six per cent. Ohio bank notes were unsaleable, as also all bills drawn by the most respectable houses on those sections of the country. In Mobile matters wear no better appearance; large failures have also occurred there, and confidence entirely destroyed.

COMMERCIAL RETROSPECT.—APRIL 17.

Those commodities that have suffered the greatest depression since our last, are Indigo and Cassia Lignea, both

of which are extremely heavy of sale, and can scarcely be forced off even at the quoted reduction.

Owing to the Bank of England having assisted some American houses, whose necessities threw a great gloom over monetary affairs a week ago, the money market was relieved at the beginning of the past week, and by degrees English Securities advanced to 90½ for Consols Money and Account; but this advance they were not able to sustain, and on Thursday they went down to 90½ ¼ Money and Account; on Friday they recovered to 90½ ¼, on Saturday they were 90½ ¼, and 90½ ¼ to-day. Exchequer Bills have been steady at 38 40, and were 40 to-day. The transactions in English Securities have been on a limited scale.

Extensive distrust has been made money very scarce, and whilst the Bankers have plenty of money, they hold it fast, not knowing but that the present condition of affairs may bring a run upon them. The Discount Houses have refused to give more than 4 per cent. for Money, which shows that offers of cash to them were not scarce. Discounts on Bills of the first order have been done as low as 4½ per cent. per annum. Bills of other and inferior character have been done on various terms; still there have been but very few bills save those of the first kind in circulation. The Government and the Bank have both refused to grant a loan to the Liverpool merchants on security of Colonial produce. This refusal will tend to increase distrust, and to send prices of merchandise down. In 1812 government granted a loan of £2,000,000 of Exchequer Bills to the London Colonial Merchants on security of produce, and such was the effect of the grant that £500,000 only were ever applied for, confidence was restored and commerce placed again on a substantial footing. There have been different opinions about the conduct of the Government and the Bank in the present refusal. It is said that the deputation will apply to government for a loan of Exchequer Bills.

Two packets from New York arrived, bringing news to the 16th ult. They have brought no specie, but amongst the great number of bills which they bring there are some good remittances. Money appears to be so very valuable in the United States that it is not likely much will reach us for some time from that quarter.

The commercial accounts from Manchester and Liverpool have been very gloomy, and have increased the depression which prevails in London.

SUGAR.—The West India Raw Sugar Market to-day, though firm was very inactive, the supply at market being still very scanty, and consisting principally of brown and low Sugars, that business of any magnitude is prevented.

The sales to-day do not reach 200 hhds. and trs.; the prices obtained for which are if any thing rather higher than on Friday; good colony Dominica for the scale at 68s. 3 and good brown Demerara, also for the scale at 56s. per cwt.

The stock of B. P. Sugar is 5488 hhds. and trs., against 11,020 at the corresponding period of 1836, thus showing a decrease of 5532 hhds. and trs.; the weekly deliveries are 1992 hhds. and trs., against 2050 at the same time last year, thus showing a decrease of 57.

MAURITIUS.—The public sale of 8066 bags went off with rather more spirit than the sales on Friday last, and the whole was disposed of at steady prices; fine yellow at 69s. to 64s., good at 57s. to 59s., and low and middling at 54s. to 56s. 6d. per cwt.

The stock of Mauritius is 60,121 bags against 94,013 at the same time last year, thus showing a decrease of 24,892 bags; the weekly deliveries are 9065 bags, against 6019 last year. These returns include the East India Dock Company.

EAST INDIA.—There continues a steady demand for Bengal, but the public sale of 500 bags went off at a decline of 6d. to 1s. per cwt.—good middling white selling at 31s. 6d. to 32s., good at 33s. 6d. and damp at 31s. 6d. to 32s. 6d. per cwt. 9839 bags Manila also sold at public sale went 2s. to 3s. per cwt. decline, and the larger proportion was withdrawn; middling to good dry brown sold at 16s. 6d. to 19s. 6d. per cwt. There were likewise offered 144 bags Cochín China, which sold at 23s. 6d. to 25s. 6d. for low white, being 6d. to 1s. per cwt. cheaper.

COFFEE.—The market has been rather largely supplied with British Plantation description during the week of inferior and unclean quality, for which there is still no demand; whilst the middling and fine sorts, of which there is a very scanty supply, are much wanted by the grocers, and the small quantity that is offering finds ready buyers at previous prices, and in some instances an advance has been obtained. The public sales have offered 330 casks and 200 bags Berbice and Demerara, and about 40 casks Jamaica, the larger portion of which was unclean and low qualities, and nearly all bought in; a small quantity was forced off at rather lower prices; the good clean sorts sold with spirit at 85s. 6d. to 93s. for low middling and good middling Berbice. Ceylon for home consumption is not much enquired after; the business done privately is very limited at steady prices. Mocha continues very little in demand, the prices are, however, steady: 626 bales were brought to auction, and only a small portion sold at 53s. 6d. to 54s. for good fair cleanly garbled, the remainder was bought in at 49s. 6d. to 53s. for middling and good middling poddy, at 68s. 6d. for good middling clean garbled green, and at 84s. to 85s. for good bold green long berry. There is rather more enquiry for Ceylon for shipping, at rather easier prices; 43s. per cwt. accepted for a parcel of good ordinary. No public sales have been offered of Foreign kinds, and the market remains exceedingly flat; while the accounts from the Continental markets are drooping. There is but a small quantity offering, but it is more than adequate to the demand, which is confined to small parcels of colony Rio, a few hundred bags of which have sold at 40s. for ordinary.

TEA.—The markets exhibit but little variation:—the accounts received from Canton in the course of the week confirm the previous statements of high prices paid there—which rather tend to an advance on the low rates now current here.

WOOL.—The English wool trade continues flat, and sales cannot be effected unless at a reduction in prices. There is still very little business doing in Foreign descriptions.

OILS.—This branch of trade continues to participate in the general dullness and depression which is so prevalent in almost every department, occasioned by the scarcity of cash, arising from a want of confidence. There is but little change to notice in the prices of the common descriptions of Fish Oils; the business however is still only to a very limited extent, and merely to satisfy the immediate wants of the home buyers.

The serious inconvenience experienced by persons of delicate complexion, from the rays of the summer sun producing freckles, eruption, and annoying irritation on the face, neck, and hands, is best obviated by that well established and celebrated invention—Rowland's Kalydor, which, although composed of the most delicate materials, causes the skin of those who use it to resist the influence of the meridian sun, and constantly allays the prickly itching, and smarting pain, consequent upon long exposure to it. In relieving the smarting pain often experienced by the operation of the razor, nothing can equal it, and it is, in fact, an indispensable requisite in the toilette of every lady and gentleman.—[See Advertisement.]

Territorium weg te zenden, allen die hietzelve aldus zonder hun consent binnen komen; en het is hietzelve duidelijk verstaan, dat alle personen die het gezegde Territorium binnen treden, zyn zullen, en beschouwd worden te zyn, subject aan de Wetten der Tambokies, zoo lang zy in het Territorium verblyven.

13. Zoodanige Britsche Onderdanen als Licentien verkrygen zullen om overzich de gezegde Grensscheiding handel te drijven, zullen niet gerechtigd zyn het gezegde Territorium binnen te komen, zonder de toestemming der het gezegde Contracterende Opperhoofd, die zich nogtans verplicht en belooft om koophandel en handelsverkeering, naar zyn best vermoeden te encourageren; en deze handeldryvende die hy gedoogen zal zyn Territorium binnen te komen, zoalng dezelve zich ordelyk en wettiglyk gedragen, met alle zyne magt en gezag te beschermen en aantemoedigen, hunne personen, huisgezinnen, en eigendom te doen respecteren, en ongeschonden te houden, nimmer toetestaan dat iemand hunner of eenig ander Britsche Onderdaan in het gezegde Territorium vervolgd, met boete bezwaard, of op eenige andere wyze aan schade onderhevig gemaakt wordt, door eenig handeling of costume, in verband staande met Tooverkracht; maar in tegendeel aan zoodanige Britsche Onderdanen ten allen tyde vryen toegang te verleenen tot den Britschen Agent, en aan de representation van zoodanigen Agent behoorlyke oplettendheid te schenken, zoo wel als ook satisfactie of redres te geven op zyne gegronde remonstrantien of klagen; maar de gezegde Agent zal niet verplicht, en het is hem niet geoorloofd zyn om zyne tuschenkomst of bescherming te verleenen in geval van eenige confiscatie, tut welk bedragen ook, van het eigendom van eenig Britsch handelsman of ander persoon onder de Tambokies, die voor hem overtuigd wordt van in het gezegden Territorium, zoodanige Artikelen te hebben ingevoerd als by de Wetten der Kolonie verboden zyn over de Grenzen te koop te worden gebragt.

14. Elk Britsch Onderdaan die van eenige misdaad of misdryf binnen gez. Territorium beschuldigd wordt, zal het regt hebben te eischen dat voor zyne teregstelling, kennis van zoodanige teregstelling gegeven zal worden, aan den gez. Agent, die de vrijheid hebben zal, zulks gepast oordeelende, om by zoodanige teregstelling tegenwoordig te zyn, en om ten behoeve van den aangeklaagden te spreken of te pleiten, wanneer hy gronden zal vinden om zulks te doen, en aan de opinie van zoodanig Agent zal behoorlyk gewigt worden gehecht, gelyk beloofd en overeengekomen is in het 13de Artikel dezer Onderhandeling.

15. Wanneer eenig Britsch Onderdaan eene misdaad of misdryf pleegt, in gez. Territorium en hy ontvlugt daaruit over de gezegde Grensscheiding, zal de gezegde Agent pogingen aanwenden om voldoening voor de lydende party door middel van de Britsche Geregtshoven te erlangen, en ten allen opzichte, pogingen aanwenden met even zoo veel yver voor den Tambokie, die door een Britsch Onderdaan mogt zyn verongelykt, als hy verplicht is te doen ten behoeve van een Britschen Onderdaan, die door een Tambokie verongelykt mogt zyn.

16. Eenig Tambokie of ander Inboorling wonende onder de Tambokies, die begerig mogt zyn om de Grensscheiding te passeren naar het Territorium door de Kolonisten bewoond, zal verplicht zyn zulks ongewapend te doen, en zal een Pas moeten erlangen van den Britschen Agent resident onder den Volkstam, zoodanige Pas zal duidelyk zyn in de Engelsche en Hollandsche talen, specificerende den naam van den Applikant, de plaats zyn bestemming, het oogmerk van zyn bezoek, het getal van dagen die hy afwezig mag zyn, en den datum wanneer de Pas verleend is.

Geen Pas zal worden verleend, dan alleen op verzoek van, of op de productie van een vastgesteld teeken van een respectabel Opperhoofd, die aanneemt verantwoordelyk te zyn voor het gedrag van den Applikant, gedurende

zyn verbyf in de Kolonie, en het moet aan zoodanig Applikant duidelyk worden geëxpliceerd, dat zoodanige Pas hem niet beschermen zal wanneer hy van den weg die naar de plaats zyn der misdaad leidt afwykt, of gewapend gaat, of zich in afgelegene plaatsen verschuilt, of de periode in den pas gespecificeerd te bovengaat, of met anderen van zyne Natie reist die van geene Passen voorzien zyn, in elk van welke gevallen hy behandeld zal worden als of hy geen zoodanigen Pas had.

De Agent zal geen Pas verleenen wanneer hy de minste suspicie heeft nopens de beweegredenen van des Applikants bezoek naar de Kolonie, noch ook, ten zy hy eene redelyk oorzaak heeft voor zoodanig een bezoek.

Hezoeken van den kant van Leedigloopers, moeten zoo wel om der Kolonie als der Tambokies wil, geenzins aangemoedigd worden. De Agent zal hen weigeren, en hy zal insgelijks een nauwkeurig Register houden van zoodanige Passen als hy verleenen zal, en van de namen der Opperhoofden, op wier verzoek zy verleend zyn, welke namen ook op de Passen vermeld moeten worden.

Alle Tambokies of anderen, werkelijc in dienst zyn van Agenten, Missionarissen, of Handelslieden, zullen nogtans geoorloofd zyn de Kolonie binnen te komen, met Passen van zoodanigen in wier employ zy zyn, mits dat zoodanige Passen duidelyk opgeven de namen van zoodanige Bedienden, hunne destinatie, en den tyd hoelang zy in de Kolonie verblyven zullen.

17. Alle Tambokies, zonder Passen ten Weste van de gez. Grensscheiding gevonden wordende, zullen by de eerste overtreding onmiddelyk over de Grens gezonden, en overhandigd worden aan den naasten Amapakati, gementioneerd in het 7de Artikel dezer Overeenkomst, die verplicht zal zyn hen aan de gez. Contracterende Opperhoofd te doen zenden, welke zich verplichten, om alle pogingen te doen, om zoodanige inbreuken op het Koloniaal Territorium te beletten: En eenig Tambokie die aldus gevonden wordt in eene tweede overtreding, zal worden gestraft volgens de wetten reeds vastgesteld, of hierna vast te stellen, tot bestraffing van zoodanige misdryven.

18. Eenig Tambokie, in het plegen van eenig misdaad of roof binnen de gez. Grensscheiding gevonden wordende, zal worden behandeld volgens de Wetten dezer Kolonie, en het is duidelyk te worden verstaan, dat in geval van tegenstand of poging te ontvlugten van den kant van zoodanige Misdadiger en Roofplegend, het volkomen wettig is op hen te schieten, of hen anderszins te wonden of te doden, wanneer zy niet op eenige andere wyze in verzekering gebragt, of verhinderd kunnen worden van hunne misdaad te volveren:—Maar wanneer zoodanige Misdadigers of Roofplegenden op de spoor achtervolgd wordende, niet worden ingehaald voor dat zy de lyn door gez. Amapakati geëmployeerd wordende, zullen zyn gepasseerd, alsdan zal de handelwys, in het volgende Artikel overeengekomen, worden opgevolgd, ter apprehensie van zoodanige Misdadigers of Dieven, of ter wederverkryging van eigendom door hen weggevoerd;—en in geen geval hoe ook genaamd, zal eenige Patroole of gewapende Troep van welken aard ook, gedood worden, om de gez. Lyn aldus geëmployeerd met het gemeld oogmerk te passeren.

19. Wanneer iemand begrepen zynde in het achtervolgen van Misdadigers of Dieven, of van goederen door hen gestolen, hen niet achterhaalt, of de goederen recouvreert voor dat hy de gezegde Lyn bereikt (mits dat hy onder eede verklaren kan, dat hy de gezegde Misdadigers, Dieven, of Eigendom getraceerd heeft, tot overzich eene byzonder punt op de gezegde Lyn, dat het Eigendom toen het gestolen werd, behoorlyk bewaakt was; en in gevallen van Hoornvee, Paarden, of dergelyk, dat zy aldus bewaakt waren, door eenen gewapenden Herder; dat het achtervolgen een begin heeft genomen onmiddelyk na dat zoodanig eigendom gestolen was; dat indien de diefstal gedurende den nacht gepleegd werd, het eigendom toen het gestolen werd, behoorlyk in Kraalen, Stallen of iets dergelyks bewaard was; en dat de vervolging in dat geval, ten minste den volgenden morgen vroeg begohuen is) zal zoodanig persoon de vrijheid hebben regtstreeks zich te vervoegen naar den Pakati, het naast residentende by dat punt alwaar hy zweeren kan dat zoodanige sporen de gezegde Lyn gepasseerd zyn, welke Pakati verplicht zal zyn, dadelyk de opgaaf aannemen, de sporen te onderzoeken, en wanneer de opgaaf wel gegrond schynt, zyne beste pogingen aantewenden om het gestolene eigendom te recouvreren, als ook de achtervolgd zynde Misdadigers, en het zal in de keuze zyn van de vervolgende party, zyne nazoeeking onmiddelyk onder de leiding van gezegden Pakati voortzetten, mits dat hy niet gewapend ga, of vergezeld van gewapende Britsche Onderdanen, en mits dat hy geene hulp verleent, in het plegen van eenig geweld van welken aard ook binnen het gezegd Territorium. Wanneer de in vervolging begrepen party, aldus met de hulp van gezegden Pakati, het achtervold Eigendom recouvreert, zal hy de vrijheid hebben daarmede zich te vervoegen, het zy by den gezegden Agent, of by een der Veldkornetten hem het greflykst zynde, ten einde voor zoodanigen Agent, of Veldkornet eene opgaaf te doen van zyne handelingen, en van de hoeveelheid, en den aard van het gerecouvreerd Eigendom; welke opgaaf hy subject zyn zal, ten allen tyde des vereischt wordende, met Eede te moeten bekrachtigen;—na het doen van welke opgaaf hy de vrijheid zal hebben om het gezegd Eigendom weg te voeren, het overlatende aan den gezegden Pakati, om den Misdadiger te vervolgen, en om compensatie te erlangen voor hunne moeite, door middel van de Opperhoofden en hunne Raadslieden, volgens het gebruik van het Volk;—en het gezegde Contracterende Opperhoofd, verbindt zich by dezen, om in alle zoodanige gevallen zich ten uiterste te bemoeien, om de Misdadigers te doen arresteren en straffen, als ook, om by alle gelegenheden de gezegde Pakatie eene redelyke belooning te doen geven, voor hunne exertien.

20. Nogtans, wanneer iemand die gestolen eigendom den Dieven vervolgt, op de wyze in het voorafgaande Artikel gespecificeerd, het veiliger of minder moeyelyk of expediter oordeelt, om zich naar den naastgelegenen Veldkornet te begeven, zal het hem vrystaan zoo te doen. De Veldkornet zal of zoodanige party vergezellen of hem (na dat hy zyne gereedheid zal hebben verklaard om den eed in het voorafgegane Artikel vereischt wordende te doen) voorzien, van eenen competent getuigen die zoodanige vervolgende party vergezellen zal naar den plek alwaar de gezegde sporen de gezegde Lyn passeren, en aldaar de sporen examineren met den gez. Pakati, wiens tegenswoordigheid verkregen moet worden. Hy, de gezegde vervolger, zal alsdan, wanneer by het niet gereden of

veilig oordeelt, om den spoor verder op te volgen, of nadat hy denzelfden verder heeft opgevolgt, in zyne pogingen niet slaagt, zich vervoegen by den Resident Agent, en zyne klagen voor gez. Agent, onder eede brengen; en in geval van verloren eigendom, in het byzonder de omstandigheden beoedigen, welke in het voorafgegane Artikel zyn aangehaald, als ook de nauwkeurige waarde van het gestolene en niet gerecouvreerde goed. Ten zy deze eed gepresteerd wordt, zal de Agent geene verdere notitie van de zaak te nemen; maar zoodra een zoodanige eed is afgelegd, zal de gez. Agent wanneer hy geene gronden heeft om denzelfden voor onwaar te houden (zynde by ten allen tyde gerechtigd om verder bewys te eischen, en zynde het ten allen tyde den stelligen pligt van de klagende party om goede en sufficient bewyzen te brengen) de zaak leggen voor het Opperhoofd die zich verplicht mits dezen, om eenen raad by een te roepen, en de nauwkeurigste investigatie te doen, en het gestolen goed, indien mogelyk te doen recouvreren, en de Misdadigers te doen straffen. En het gezegde Opperhoofd verplicht zich verder en neemt aan, dat wanneer na verloop van eene maand, na dat de zaak aan hem zal zyn voorgelegd, de gez. Misdadiger of Eigendom niet zal zyn ontdekt, en wanneer het des niet tegenstaande duidelyk zal zyn bewezen voor hem en zynen Raad, door het getuigenis van gez. Vervolger en Pakati of ander bewys, dat het eigendom in zyn Territorium is getraceerd, hy, de gezegde Opperhoofd, dadelyk den beroofden persoon schadeloos sal stellen tot het volle bedrag van het verloren goed, en niet meer; en den gezegden Pakati vergoeden voor genome moeite.

21. Met uitzondering van Indemnificatie, door de gez. Opperhoofden in Rade erlangd, in maniere in het voorafgegane Artikel gespecificeerd, zal het aan geen persoon, gestolen goed achtervolgende, geoorloofd zyn om eenig ander dan zyn eigen goed te nemen, namelijk datzelfde eigendom dat hy achtervolgt, zelfs niet wanneer hem zulks mogt worden aangeboden, op straf van het goed aldus genomen te moeten restitueren, en van het verlies van eenige verdere aanspraak, op het eigendom actueel verloren.

22. Het gezegde Contracterende Opperhoofd neemt aan, belooft en verplicht zich, door elk middel in zyn vermogen, de nitbreiding van de Christelyke Godsdienst door geheel zyn Territorium aan te moedigen, en te beschermen, als ook in hunne personen, huisgezinnen en eigendom te beschermen de Leeraars en Bedienaars van gezegde Godsdienst, en alle Britsche Onderdanen van welken aard ook, die in het gezegde Territorium temporair wonen, of hetzelfde met zyn consent, of volgens de termen van deze Overeenkomst zyn binnen gekomen, zoo lang zy zich gedragen met welvoegelykheid en onderwerping aan de Wet, en nimmer onder eenige omstandigheid toestaan zullen dat zy gemolesteerd of onderhevig gemaakt worden aan eenige prosecution of poenaliteiten, onder voorgegief of voorwendel van de wetten en gebruiken, in verband staande met of geïnstitueerd tegen Tooverkracht, als ook aan hen vry acces naar, en communicatie met de Kolonie toestaan.

23. Het gezegde Contracterende Opperhoofd komt verder overeen, belooft en verplicht zich, om alles in zyn vermogen te doen, om de rust der verscheidene Volkstammen door welke hy omringt is, zoo wel als die der Kolonisten te bevorderen.

PUBLIC NOTICE.

IF any thing, more than another, be needed as an indubita-
ble proof of the celebrity of **ROWLAND'S MACAS-
SAR OIL,** it is the fact, that no known production in the
world has so many spurious and base imitations, which a set
of unprincipled vendors, endeavour to put on the Public
under the lure of being **CHEAP.**

To PREVENT such Imposition, ATTENTION to
the following is solicited.

THE LOWEST PRICE of the original is 3s. 6d. per
bottle. The label has the words "Rowland's Macassar Oil,"
and between those words are the words "minutely and
curiously engraved 21 times, also the Name and Address in
Red on Lace-work,"

A. ROWLAND & SON, 20, HATTON GARDEN,
Counter-signed **ALEX. ROWLAND.**
All others are Frauds.

PARTICULAR ATTENTION, on purchasing, is respect-
fully solicited, as the Proprietors cannot be responsible for
the serious injury resulting from the use of base and cheap
imitations of injurious quality, now offered to the Public as
the "GENUINE."

The following testimonials (selected from an immense
number) of the extraordinary good effects of **ROWLAND'S
MACASSAR OIL,** with many from the Nobility, may be seen
at the Proprietors, **A. ROWLAND and SON, 20, Hatton
Garden, London.**

Broad Street, Brighton, April 19, 1833.

GENTLEMEN.—Having derived essential benefit from the
use of your Oil, I am induced to send you the particulars;
which you are at liberty to make known, as you think proper.
Rather more than twelve months since I made trial of the
Oil, tho' I confess without much faith, as I had been very bald
18 years; it was near three months before any effect was
perceptible, when a slight down appeared at the expiration of
five months, hair had grown on the bald part, full half an inch
long; I then had the whole of my head regularly shaved once
a week for a considerable period, constantly using the Oil,
night and morning; the result is, that I have this day discarded
my wig, my hair being quite restored, and as strong and great
in quantity as when I was 20 years of age.

I am, Gentlemen, your obedient Servant, **C. P. D.**

Messrs. Rowlands.

Piccadilly, November.

SIRS.—Mrs. O. has found great benefit from your Macassar
Oil in remedying the children's hair from thinness and weak-
ness, and actually realizing fine curly heads of hair! Too great
eucumium cannot be passed upon it—it is highly worthy of
public patronage.

To Messrs. Rowland and Son.

Newington Green, Middlesex, Nov. 17.

GENTLEMEN.—I take the earliest opportunity of relating
the surprising virtues of your Oil on two of my children, one
seven, and the other nine years of age:—their Hair came off
on several parts of their heads, in patches the size of half-a-
crown, and continued so. Alarmed at this circumstance, as
there was no appearance of its coming again, I tried several
compositions, &c. without effect; when a lady, who had wit-
nessed the extraordinary qualities of your Oil, entreated me to
try it, which I did; and after using four bottles their hair was
completely recovered. You have liberty to refer any one to
Your obedient Servant, **L. JOHNSON.**

To Messrs. Rowland and Son.

Farringdon Street, April 23rd

GENTLEMEN.—I have to acknowledge myself one of the
many thousands who have experienced the wonderful effects
of your invaluable Oil. A few months ago the hair came off
at the back of my head, so as to leave a space the size of the
palm of my hand entirely bald. Fearful of losing the whole
of my hair, I was induced (by the persuasions of a friend) to
try your Macassar Oil; and after using three bottles, I have
the satisfaction to inform you, that my hair is entirely restored,
and that I now have a finer head of hair than formerly.

I am, Gentlemen, your humble servant,
To Messrs. Rowland & Son, Hatton Garden. **J. ROSE**

The original OIL is sold by the Proprietor's appointment
by **A. S. ROBERTSON,** Cape Town, Cape of Good Hope;
and Messrs **LEVICK, SON, & SHERMAN.**

NOTICE TO THE TRADE.

S. MORDAN & Co. beg to call the attention of
the TRADE, and of the Public at large, to the
following articles of their manufacture, viz:—

THE PATENT EVER-POINTED PENCIL is an in-
strument universally allowed to be of the greatest utility, and
particularly recommended to the public, when made with that
mathematical nicety on which its use depends. The Patentees
inform the public that all Pencils having steel points are not of
their make; and to avoid all inconvenience the following
remarks on purchasing will ensure them a genuine article:—
See the Pencil has the name, "S. Mordan and Co., Makers and
Patentees," on the body of the case.

LEADS.—The spurious leads are a mixture of common
lead-dust and antimony, and of all manner of sizes; they choke
up the Pencil-case, and create an unjust prejudice against the
genuine article. The proper leads for replenishing the case
have on each box a yellow belt, with the word "warranted"
on it, and a red sealing wax impression, bearing the initials
"S. M. & Co."

Shopkeepers in provincial towns would do well to observe
the above remarks, to prevent their being imposed upon, the
public being much inconvenienced in not being supplied with
the genuine article.

CEDAR PENCILS.—Artists and others are particularly
requested to try their Black Lead Pencils in Cedar, made from
the pure Cumberland lead, selected with the greatest care:
they have been pronounced, by the most competent judges of
the day, the best extant. (See J. D. Harding's Work on
Pencil Drawings.) This article is patronized by all the
Government offices.

THE PATENT OBLIQUE PEN, the only straight
Pen. This peculiarity is owing to the slit being parallel to
the angular slope of the writing, which gives it that freedom
in use which is unequalled by any other pen by the direction in
which both nibs are brought into use at the same time, the
writer is not operating upon one edge of the nib, and the
contrary edge of the other at the same instant, but upon the
square surfaces, or points of both together. Both nibs are thus
brought into constantly equal wear, and a freedom is secured
which no other metal Pen ever possessed. The Patent Oblique
Pen is the most perfect Libretto offered.

PATENT TRIPLE-POINTED PEN.—The peculiarity
of this Pen, either in its straight or oblique form, is the ad-
dition of a third nib, which secures the following advantages:—

1. A certain supply of ink of any kind, uniform with the most rapid writing.
 2. The two nibs of the ordinary pen act only as dividers or tracers, while the third nib, pressing upon the paper, conducts and distributes the ink.
 3. The third nib renders the same pen capable of writing the boldest text or finest running hand.
 4. The third nib retains a larger supply of ink without risk of blotting. (See Laws of Fluids.)
 5. The third nib, acting on the slit of the pen, effectually removes the fibres as they are gathered from the paper, thereby removing the greatest impediment to the use of metallic pens.
 6. Firmness in use is obtained by the third nib; and at the same time the flexibility is increased, and durability necessarily follows.
- * Use the Improved Joint Holder, made expressly for these Pens.

PORTABLE QUILL PENS.—There are many persons who do not like steel pens; to those the Portable Quill Pens, and Silver Penholder, are particularly recommended. In Boxes containing Fifty and One Hundred.

"S. M. & Co., Makers," are marked on each box, and are warranted, with a yellow belt and wax impression.

COOPER'S PATENT SCENT BOTTLES.—These articles are confidently recommended from their superiority. The advantages derived from this invention are, that the Stopper, from its spherical form, can neither stick, or break in the neck, so constant a complaint against those on the old plan. The Stopper being made of glass never corrodes. They are so perfectly air-tight that they will preserve the most volatile spirits, even ether or ammonia, any length of time. They cause much less trouble in use than any others, the act of removing the cap and stopper being only one operation. They are more durable than any others, from their superiority both in workmanship and material, the silver and gold used in them being very stout, and warranted standard.

Manufactured by S. Mordan & Co.

PATENT TRAVELLING INKS.—S. M. & Co. invite particular attention to their improved Travelling Inks, to which they have adapted the Patent Spherical Stopper, so as to secure all its advantages, while the construction of the case admits of a glass holding a much larger quantity of ink than those in general use, without increasing its bulk; and at the same time it is protected by a strong case, neatly covered with leather. The improved Stoppers to these Inks remove the objections to the India Rubber Stoppers of the late Mr. Berry, and may be had in all the varieties made by him.

These Inks are also made in wood or ivory, for the pocket.

NEW FOUNTAIN INKSTANDS.—These Inkstands are of a very superior construction to those formerly in use. They present but a small surface of ink to the atmosphere, and comparatively no evaporation takes place; nor can dust accumulate to spoil the ink. The spout is placed at the most convenient angle for dipping the pen; and the ink being of a uniform depth, prevents the pen being spoiled by striking against the glass.

This Inkstand is peculiarly adapted for the writing fluids now in use. They are made of white or coloured glass, either plain or richly cut; and are also mounted with silver caps, which exclude the atmosphere or dust. Each Inkstand has a medalion, with the name S. Mordan & Co. London, on it.

SEVEN GUARDED LOCK.—There are few persons but have property of some kind to secure from prying curiosity or theft. No lock can be secure that has duplicate keys in existence, or that will allow of an impression being taken of the key to produce a facsimile, so easy in all warded and tumbler locks. The most serious robberies have taken place by means of duplicate keys, which allow the dishonest to relock without suspicion; this is fully borne out by the Police Reports. The only lock that gives positive security is the Seven Guarded Lock. The infinite variety of changes of which the key is susceptible, which causes every successive key to differ from all which have preceded it, makes this Lock perfectly secure. An inspection of the machine will justify this assertion.

This Lock is patronized by the Government offices; also at Newgate, Whitecross-street, and Warw ck. There is scarcely a banking house in London but have these Locks more or less on their establishment.

Patent Joint Penholders, in Silver and Gold.

A new Guide Penholder, in Silver, much approved of.

Patent Parisian Spring Penholder, and Short Pens for do.

Gold Pens with Perpetual Points.

Fire-proof Deed-boxes, &c.

Iron Chests and Bookcases.

Iron Doors for Strong Rooms.

Lump Inks, Cone Inks, and Glass Inkstands of every description.

Toilet-bottles, Pastile-burners, Rose-water Bottles, &c.

Smelling-bottles, mounted in Silver and Gold, with S. M. and Co.'s Improved Conical Stopper.

Soda-water Machines, &c. &c.

S. M. & Co. also inform the Trade that they have now in the course of manufacture several entirely new and useful articles, which will be laid before them with all possible dispatch.

CAUTION.—As imitations have been made of many of their articles, observe, that each bears the name of S. Mordan and Co., Makers, London.

Manufactory, 22, CASTLE-STREET, near FINSBURY SQUARE, LONDON.

N.B.—S. MORDAN will be happy to advise persons taking out Patents for new Inventions, as to the best mode of manufacturing and laying the same before the Trade.

Sold by A. S. ROBERTSON, of Cape Town,
By whom ORDERS for any articles made by S. MORDAN will be received, and executed promptly.

IN the Pound are confined, two white spotted Cows, if not released, they will be Sold at Mr. JONES' Commission Sale, on the 29th instant, also a brown Horse, a grey ditto, and two Goats, on the 5th August next.

D. J. ASPELING, Jr. Pound Master of Cape Town.
July 20, 1837.

BANKING, PAPER MONEY, & CURRENCY.

(From the Bankers' Circular.)

The Bankers' Circular of this week enters at large into that most important matter at this moment in the money market, that indeed which absorbs every other, viz:—the situation in which the American Houses here are placed, and the assistance which they have received from the Bank of England and the terms on which that assistance has been granted. This matter is now of so much interest and importance, that we give it entire.

It is perfectly obvious that a great portion of the banking accommodation of the populous American cities, as well as the credit granted to them by the merchant-bankers in this country, must now be withdrawn and extinguished. And as these have for some years been the principal means of carrying on the vast commerce between England and the United States—the old system of long credits given by British manufacturers to American merchants having been altogether superseded by this new power—it is manifest that the interruption and disturbance in our intercourse and dealings with the United States must be great and of long duration. We anticipate that the character of the commerce carried on between the two countries for two years commencing with the first of September 1836, will be a perfect contrast to that of the two prior to the same date; declining prices, settling down at a lower level, instead of advancing prices, gradually mounting up to comparatively a high level; restricted credit, instead of unlimited confidence; stagnant markets, instead of brisk; a desire to sell and lessen the stocks of goods, land allotments, shares, &c. instead of borrowing every dollar that could be found to grasp at the possession of these. This must of course be accompanied more or less with paralyzed enterprise and blighted industry, until everything which caused the excitement, and the excess of credit and circulation, has been eradicated. This is in fact merely a description of what has been taking place in this country since September last, and similar descriptions of the commercial and industrious affairs of the United States be recorded next year, with this difference however, that the distress in America will be less, and the resumption of confidence and activity more easy than in this country.

Passing from this more general bearing of the matter to the particular incidents and circumstances of the week, it will be found that the latter illustrate and strengthen the general view we had taken. The strange detention of the American packets, there being six due at once—must have put all weak houses to a severe trial. Those six packets ought to contain remittances for British merchants, amounting to a sum not much short of five millions sterling. To be kept out of three-fifths of this amount at a juncture like the present would be exceedingly embarrassing to that section of the mercantile body engaged in trade with the United States. We find, consequently, that one of the houses which sought relief from the Bank of England—we believe the only one that had actually received a sum of money, by way of loan on collateral security, and payable at a distant or undefined period—has been compelled to apply to the Bank for a further sum. The engagements of the house, payable within a few days, are understood to amount to nearly £300,000, including a large sum due this week. The guarantees given for the

former loan were partly in London and partly in Lancashire, &c. and it is understood that fresh securities could not be obtained on the present occasion—at all events in sufficient time for the exigency.

In these circumstances the Bank has, we understand, resolved on making the advances required, on condition, however, of taking the affairs of the house into their own hands, and winding them up. The surplus exhibited above paying all the engagements of the firm is apparently large; and, notwithstanding the heavy liabilities, it is believed to be, at all events, amply sufficient to secure the Bank against loss. But for this judicious interposition of the Bank Directors, the alarm caused by suspension of payments by such a house must, in the manufacturing districts, have been indescribably mischievous. We observe it stated in the Papers, that the house now wholly consigned to the protection and management of the Bank of England has a surplus of £400,000; the actual sum exhibited by themselves was little under £280,000; and their engagements were at the same time £1,600,000 and had been shortly previous £1,800,000.

The amount of guarantees of the other firm requiring assistance from the Bank now exceeds £500,000, and as we correctly stated last week that this house had not received any part of the advance stipulated to be made pursuant to the receipt of the guarantees, there cannot be much apprehension of all its engagements being punctually met.

We believe the amount of bills accepted by American merchants, which have been paid this week, exceeds £500,000, without any fresh creations. How much of this sum has been shifted from the shoulders of the Bill-brokers to those of the Old Lady, it is not for us to tell.

Money continues in pretty nearly the same state as last week. The Bill-brokers have as much as they can employ, according to the severe and restrictive tests which they now invariably apply to bills offered to them for discount.

We have not room to insert the Revenue Statement this week; we are glad to perceive the deficiency is less than was anticipated; but apprehend the next quarter must exhibit a greater defalcation.

There have been no failures of moment in London or in Manchester this week; those in Glasgow and Liverpool last week were important.—April 10.

BANKING, MONEY, AND PAPER CURRENCY.

(FROM THE BANKERS' CIRCULAR,—April 27.)

The affair of the deputation from Liverpool, aided and assisted by a deputation from Manchester, to seek pecuniary aid from Government or the Bank of England, has been the chief matter of interest in the money and mercantile circles during the past week. The following was the Memorial which the deputation presented:—

"To the Right Hon. the Chancellor of His Majesty's Exchequer.

"The Memorial of the undersigned Merchants, Bankers, and other Inhabitants connected with the trade of Liverpool,

"Respectfully sheweth,

"That the distress of the mercantile interest is intense beyond example, and that it is rapidly extending to all ranks and conditions of the community, so as to threaten irretrievable ruin in all directions, involving the prudent with the imprudent, the manufacturer with the merchant, and the weavers, spinners, and labourers generally, with the manufacturers themselves.

"Your Memorialists will not now enter on an examination of all the causes which have led to the existing convulsion. They are aware that the late high prices of commodities mainly contributed to produce unfavourable exchanges. These high prices have passed, and are succeeded by such a fall as cannot fail in time to attract the capital of the whole mercantile world to the relief of the present increasing pressure now felt in this country.

"Your Memorialists know better than to ask for any assistance which could restore high prices. The losses must be borne. All they humbly ask is, that measure of relief which will save immense numbers of all classes from total ruin—ruin not proceeding from insolvency, but from the total impossibility of disposing of their property in time to correct their present and approaching engagements.

"Your Memorialists further submit that the present condition of affairs, unless mitigated, may involve the public peace, and deeply affect His Majesty's revenue.

"Your Petitioners, therefore, pray that these premises may be taken into immediate consideration, and that such relief may be granted as to your judgment may be deemed safe and expedient; and your petitioners will ever pray."

This deputation then had an interview with the Chancellor of the Exchequer, who was of opinion that no case had been made out to call for the interference of Government. The deputation then saw the Directors of the Bank, who expressed themselves unfavourable to the matter, but promised to lay it before the whole board. The Bankers' Circular then goes on to say.

In these circumstances the Deputies could have no expectation that their first application would be successful; in truth, the main ground for refusal, namely, the tendency of the thing proposed to counteract the object of the Bank of England effecting a further reduction of prices, and thereby to bring back gold to our ports, was spoken of by all the friends of the Bank as an insuperable objection to the application; and in this light it was represented by persons enjoying the entire confidence of the Directors in all the Government circles, and in private conversation in both Houses of Parliament immediately after the interview: and that without apparently such representation encountering much difference of opinion, if any dissent whatever in those quarters, except from one or two public men well known for their intelligence concerning the operations and effects of derangement in currency and credit. Consequently the Lancashire Deputies were compelled to change their ground, and they then determined, in the event of final refusal, either to issue Exchequer bills by the Government, or to advance a loan of Money by the Bank, to apply to the Directors to rescind a regulation which had greatly em-

barassed the heretofore customary operations of credit in Liverpool.

It has been a practice from time immemorial, for merchants in London, Liverpool, and other ports, having capital and credit extensively engaged in their affairs, to deposit their merchandize with produce brokers, and obtain in exchange for it the acceptances of such brokers due at distant dates, and these acceptances were as readily discounted as any Bankers' bills in circulation. We believe we could mention the names of four or five brokers in London and Liverpool who had, about thirty years ago, acceptances in circulation for transactions of this nature, the amount of which in the aggregate would be found to exceed that of all the acceptances of the whole body of brokers for similar transactions now in the money-market. The Bank Directors are of opinion—and certainly with valid reason—that these transactions have a tendency to raise and keep up prices; and on that ground they determined to interdict their manager at the Liverpool Branch from advancing money on bills of this character. The Lancashire Deputies desire, provided nothing better can be had, that this rule be rescinded, or at least that its operation be suspended during the present crisis, and that bills at three or four months' date, drawn on brokers of responsibility, may be freely taken at the Branch Bank of Liverpool. This appears to us, under existing circumstances, a most reasonable application.

The Bankers' Circular then goes into the state of the Money Market, and its statements on this subject we give entire.

"Money continues far more abundant in the city than confidence in securities sought to be exchanged for it. The leading bill brokers can have as much money placed in their hands as they desire, at an interest of four per cent.; but as they are shy in taking any bills accepted by the first rate American merchants, and would, probably, reject all except those of one eminent firm, unless they were quite satisfied of the endorser's capacity to make them good in emergency, the amount of current bills in the discount market is inadequate to absorb all the money usually employed in discount-transactions. In these circumstances, bills of long dates, if of the right quality, are freely taken by some of the brokers at the rate of five per cent. for interest. Disappointment, annoyance, and extravagant charges may have thrown some of the Lancashire Joint-Stock Banks out of the practice of raising money on bills in the London money-market; we believe, however, if they were now to resume it, they would find the bill-brokers thankful for their custom. Looking at the state of Lancashire, as evidenced by the deputations from Liverpool and Manchester, if we were managers of a Joint-Stock Bank in that county, which was permitted by the Directors to re-discount bills, this is the particular time, above all others, when we should be most inclined to get possession of money by sending bills to London to purchase it.

"So long as remittances from the United States are withheld by the detention of the Packets, all houses subject to heavy liabilities, dependent in some degree on such remittance, must seek for assistance somewhere, and by some method. It is true that it makes a great difference, as to their independent footing and future efficiency, if this assistance can be obtained by depositing the title-deeds of opulent partners or connexions, or by transferring stock, rather than by collateral guarantees; but, in one way or another, all the American Exchange merchants must receive aid. The rumours which are just now very rife on this subject, regarding firms of the highest eminence, do not appear to us to be worthy of much attention. We have it however not in our power either to affirm or contradict them as far as particular names of public celebrity, and specific sums brought forward in aid, are concerned. We have a perfect confidence in declaring our belief that no creditor of any one of the eight firms whose names were formerly introduced into the Circular, will sustain one farthing of loss, or the slightest inconvenience, by holding their bills, except that of being compelled to hold such bills till they become due."

The King of Holland has presented to Mr. OLIVER LONG-MASTER, Shipbuilder, of Woolwich Dockyard, a superb gold Snuff-box, set with diamonds, for the great improvements made in Shipbuilding by that gentleman.

THE LATE RAINS.

It being the opinion of some old inhabitants of the Cape that the late Rains were unusually heavy, and constant during the period they lasted, it may be interesting to place on record the quantity which fell at the Royal Observatory, as determined by a common rain gauge, together with the indications of the Barometer and Thermometer, preceding and during the time. Similar facts collected from several parts of the Colony, and published from time to time, would be serviceable to the Agriculturist, and prove valuable appendages to the Meteorologic Observations which are now in progress under the superintendence of a Committee of the S. A. Literary and Scientific Institution.

There is no difficulty and very little trouble in making the Observations. Any common vessel, with upright sides and a flat bottom, will serve the purpose of a rain gauge. It is of no consequence whether it be round or square, provided the bottom be perfectly flat, and the sides vertical, such as a tub or earthenware jar; but it is desirable that it should not be less than a foot in diameter, otherwise the loss from splashing at the edges will bear a considerable proportion to the whole.

It ought to be placed in an open position, free from the shelter of trees or buildings;—and immediately after a fall of rain a carpenter's rule, placed perpendicularly in the vessel, with its end resting on the bottom, will serve to measure the depth of water in inches and parts of an inch, with the requisite accuracy. It is very important that the measure be taken before any evaporation shall have sensibly diminished the quantity collected.

NOTICE TO THE TRADE.

S. MORDAN & Co. beg to call the attention of the TRADE, and of the Public at large, to the following articles of their manufacture, viz:—

THE PATENT EVER-POINTED PENCIL is an instrument universally allowed to be of the greatest utility, and particularly recommended to the public, when made with that mathematical nicety on which its use depends. The Patentees inform the public that all Pencils having steel points are not of their make; and to avoid all inconvenience the following remarks on purchasing will ensure them a genuine article:—see the Pencil has the name, "S. Mordan and Co., Makers and Patentees," on the body of the case.

LEADS.—The spurious leads are a mixture of common lead-dust and antimony, and of all manner of sizes; they choke up the Pencil-case, and create an unjust prejudice against the genuine article. The proper leads for replenishing the case have on each box a yellow belt, with the word "warranted" on it, and a red sealing-wax impression, bearing the initials "S. M. & Co."

Shopkeepers in provincial towns would do well to observe the above remarks, to prevent their being imposed upon, the public being much inconvenienced in not being supplied with the genuine article.

CEDAR PENCILS.—Artists and others are particularly requested to try their Black Lead Pencils in Cedar, made from the pure Cumberland lead, selected with the greatest care: they have been pronounced, by the most competent judges of the day, the best extant. (See J. D. Harding's Work on Pencil Drawings.) This article is patronized by all the Government offices.

THE PATENT OBLIQUE PEN, the only straight Pen. This peculiarity is owing to the slit being parallel to the angular slope of the writing, which gives it that freedom in use which is unequalled by any other pen by the direction in which both nibs are brought into use at the same time, the writer is not operating upon one edge of the nib, and the contrary edge of the other at the same instant, but upon the square surfaces or points of both together. Both nibs are thus brought into constantly equal wear, and a freedom is secured which no other metal Pen ever possessed. The Patent Oblique Pen is the most perfect hitherto offered.

PATENT TRIPLE-POINTED PEN.—The peculiarity of this Pen, either in its straight or oblique form, is the addition of a third nib, which secures the following advantages:—

1. A certain supply of ink of any kind, uniform with the most rapid writing.

2. The two nibs of the ordinary pen act only as dividers or tracers, while the third nib, pressing upon the paper, conducts and distributes the ink.

3. The third nib renders the same pen capable of writing the boldest text or finest running hand.

4. The third nib retains a larger supply of ink without risk of blotting. (See Laws of Fluids.)

5. The third nib, acting on the slit of the pen, effectually removes the fibres as they are gathered from the paper, thereby removing the greatest impediment to the use of metallic pens.

6. Firmness in use is obtained by the third nib; and at the same time the flexibility is increased, and durability necessarily follows.

* * * Use the Improved Joint Holder, made expressly for these Pens.

PORTABLE QUILL PENS.—There are many persons who do not like steel pens; to those the Portable Quill Pens, and Silver Penholder, are particularly recommended. In Boxes containing Fifty and One Hundred.

"S. M. & Co., Makers," are marked on each box, and are warranted, with a yellow belt and wax impression.

COOPER'S PATENT SCENT BOTTLES.—These articles are confidently recommended from their superiority. The advantages derived from this invention are, that the Stopper, from its spherical form, can neither stick, or break in the neck, so constant a complaint against those on the old plan. The Stopper being made of glass never corrodes. They are so perfectly air-tight that they will preserve the most volatile spirits, even ether or ammonia, any length of time. They cause much less trouble in use than any others, the act of removing the cap and stopper being only one operation. They are more durable than any others, from their superiority both in workmanship and material, the silver and gold used in them being very stout, and warranted standard.
Manufactured by S. Mordan & Co.

PATENT TRAVELLING INKS.—S. M. & Co. invite particular attention to their improved Travelling Inks, to which they have adapted the Patent Spherical Stopper, so as to secure all its advantages, while the construction of the case admits of a glass holding a much larger quantity of ink than those in general use, without increasing its bulk; and at the same time it is protected by a strong case, neatly covered with leather. The improved Stopper to these Inks remove the objections to the India Rubber Stoppers of the late Mr. Berry, and may be had in all the varieties made by him.
These Inks are also made in wood or ivory, for the pocket.

NEW FOUNTAIN INKSTANDS.—These Inkstands are of a very superior construction to those formerly in use. They present but a small surface of ink to the atmosphere, and comparatively no evaporation takes place; nor can dust accumulate to spoil the ink. The spout is placed at the most convenient angle for dipping the pen; and the ink being of a uniform depth, prevents the pen being spoiled by striking against the glass.

This Inkstand is peculiarly adapted for the writing fluids now in use. They are made of white or coloured glass, either plain or richly cut; and are also mounted with silver caps, which exclude the atmosphere or dust. Each Inkstand has a medalion, with the name S. Mordan & Co. London, on it.

SEVEN GUARDED LOCK.—There are few persons but have property of some kind to secure from prying curiosity or theft. No lock can be secure that has duplicate keys in existence, or that will allow of an impression being taken of the key to produce a facsimile, so easy in all warded and tumbler locks. The most serious robberies have taken place by means of duplicate keys, which allow the dishonest to relock without suspicion; this is fully borne out by the Police Reports. The only lock that gives positive security is the Seven Guarded Lock. The infinite variety of changes of which the key is susceptible, which causes every successive key to differ from all which have preceded it, makes this Lock perfectly secure. An inspection of the machine will justify this assertion.

This Lock is patronized by the Government offices; also at Newgate, Whitecross-street, and Warwick. There is scarcely a banking house in London but have these Locks more or less on their establishment.

Patent Joint Penholders, in Silver and Gold.
A new Guide Penholder, in Silver, much approved of.
Patent Parisian Spring Penholder, and Short Pens for do.
Gold Pens with Perpetual Points.
Fire-proof Deed-boxes, &c.
Iron Chests and Bookcases.
Iron Doors for Strong Rooms.

Toilet-bottles, Pastile-burners, Rose-water Bottles, &c.

Soda-water Machines, &c. &c.

S. M. & Co. also inform the Trade that they have now in the course of manufacture several entirely new and useful articles, which will be laid before them with all possible dispatch.

CAUTION.—As imitations have been made of many of their articles, observe, that each bears the name of S. Mordan and Co., Makers, London.

Manufactory, 22, CASTLE-STREET, near FINSBURY SQUARE, LONDON.

N.B.—S. MORDAN will be happy to advise persons taking out Patents for new Inventions, as to the best mode of manufacturing and laying the same before the Trade.

Sold by A. S. ROBERTSON, of Cape Town,
By whom ORDERS for any articles made by S. MORDAN will be received, and executed promptly.

The "Mary," Turcan, we understand, was lost on her passage from Mauritius to Calcutta. She sailed from the Cape on the 13th of April.

About 100 Indian laborers had struck for an increase of provisions, in the teeth of their contracts of servitude; but, after some show of force by the Police, the ring leaders were secured, and the rest returned to their work.

The *Belle Alliance*, Capt. Arkoll, arrived on Wednesday from Calcutta the 18th May.—Madras, 2d June. Advices by her state that Freights to England were on the decline: from £5 to £5. 10., we are informed, are the latest quotations. The knowledge of the greatly depressed prices of all E. I. Produce had reached India, and would of course cause a considerable re-action on prices there.

The *Belle Alliance* will sail on Monday.

THE AMERICAN MONEY MARKET.

(From the "Liverpool Mercantile Advertiser," April 24.)

[The following extracts from a late Paper, showing the state of commerce in America up to the latest dates, will be perused with interest by our Mercantile Readers.]

We are informed that the Manhattan bank of this city will shortly issue bonds redeemable in 20 or 25 years, bearing an interest of five per cent. per annum, capital and interest payable quarterly at the Bank of England, with which institution the Manhattan bank has established a correspondence.

New Orleans advices to March 21, state as follows:—

The morning papers announce the formation of the firms of Reynolds, Bryne and Co. at New Orleans, and of Reynolds, Marshall and Co. at Natchez. The drafts drawn through the banks on the Josephs will be withdrawn, and payment assumed by the firms, which will be a great relief for the Josephs, and others.

The New York *Journal of Commerce* remarks on this:—This new concern takes the place of Hermann, Briggs and Co. Thos. Barrett and Co. show a surplus of a million of dollars, and will be furnished with the necessary means to resume their payments.

A letter from New Orleans, dated March 23, thus announces another failure:—

I regret to inform you that the firm of Brander, M'Kenne, and Wright, whose character and credit stood so high at New Orleans, have suspended payment. It is confidently reported that though their liabilities are very considerable—five millions—their assets to meet them are much more so: Hence it is inferred that their creditors will not suffer by this momentary suspension.

Many stoppages of small houses are spoken of, and many more must go overboard should this state of things continue much longer. Indeed, things look bad! bad! bad!

(From the *New Orleans Gazette* of March 22.)

The temporary calm for the last twelve or fifteen days has proved deceitful. Another house has gone by the board for five millions. There is some deep-seated disease in the body commercial. A long and continued prosperity engenders maladies that cannot be cured without violent revulsions. The tampering of the government with the currency has brought on the crisis sooner than it could have been realized in an undisturbed state of things. We stand on

hidden fires, and the commerce of the country must yet receive a shock from which it will take years to recover, unless the currency be restored to a healthy condition, and placed beyond the reach of interested demagogues. But apart from the disorder of the circulating medium, New Orleans stands at present in a peculiar situation.

Cotton, our great staple, is declining; and other articles of produce are tending downward. An immense amount of capital is now locked up or totally lost to the general trade, by the late heavy suspensions, and the banks are consequently compelled to curtail and cease discounting. Thus are transactions in real estate impeded, while a damper is put upon the operations of commerce. The scarcity of money in New York and Philadelphia, joined to the difficulties here, present any thing but agreeable prospects. Reference to the past tells us that we are on the eve of a revolution in the commercial world. The government can, if it pleases, avert the storm. That it will not, we have the experience of the past and present to assure us.

Transactions in produce are light, and no material change observed.

THE MARKETS.

NEW YORK, 1st APRIL.—EXCHANGES.—A large amount of the bonds issued by the Bank of the United States, in lieu of bills payable on the 1st April, 1838, without interest, was taken yesterday, nearly all for paper. The cash rate fixed by the bank was 7 per cent on London, frs. 5 35 on Paris, and 2½ cts. on Amsterdam; for paper ½ per cent month additional. The transactions in private bills were not extensive and chiefly at 11 to 11½ cts per cent on England, frs 5 17½ to 5 15 on France, 8½ cts on Holland, and 36½ cts on Hamburg, all for cash. Little or nothing was done on time. The money market has already obtained a great relief from the recent arrangements made by the Bank of the United States and the local banks.

COTTON.—The holders having conceded to a further decline of ¼ to 1 per cent, purchasers came forward and bought freely for shipment. Sales 3600 bales, of which 1800 were Upland, at 11 to 14½, chiefly fair, at 12½ to 13½; 100 Florida at 12 to 15, and 990 Mobile and New Orleans at 12 to 15½, including a few at 16½; Upland 11½ to 15: Alabama, 11½ to 16½; Florida, 11½ to 15; New Orleans, 11½ to 16.

TIME!—How continuous are the inroads of Time;—how destructive its ravages. We see its effects in the crumbling ruin, the broken pillar, and the falling tower. We trace, partially, the details of the process producing these effects; we observe the gradual outward decay of all things;—but, how are we to account for the mysterious internal operation of some subtle power, which, by degrees, separates atom from atom, and effects slowly, but surely, the decomposition of solid matter, until it returns to the chaotic dust of minute particles "infinitely small," out of which it was first called into form? We see many piles of architecture reared, which seem calculated to endure for ever,—yet, in a few centuries, they will cease to exist and scattered remnants scarce serve to point out to the future antiquary the site of once majestic buildings. Nor is man less susceptible during his sojourn on earth of the attacks of the grand destroyer—TIME; the effects of which are more or less visible, according to constitution and habits; but are generally first discovered in the hair and complexion, which, by neglect, are too often suffered to fade long before the period to which (with common attention) they might be preserved. If, then, science and art can furnish any specific, which (by frequent use) is *conservative of beauty to its very latest span*, it behoves all who value personal appearance to avail themselves of it. This specific is supplied by Messrs. ROWLAND and SON, in the shape of their justly-celebrated *Macassar Oil and Kalydor*; the first of these articles trains the hair into luxuriant and glossy curls, *strengthens its growth when weak*; whilst the latter *beautifies and preserves the complexion*, through all the vicissitudes of climate, travel, fatigue, age, and even illness, and *prevents all cutaneous eruptions*.

The greatest cold was in the night of the 18th. Thermometer 40°. Dense Fogs on the 18th and 19th. Calm on the 18th and 19th, and part of the 22d. Gentle breezes on the remaining days, from the S. and S. E. quarters.

NOTE.—As it is intended to continue the publication weekly in the "GAZETTE & TRADE LIST" of the indications of the Barometer and Thermometer in the above condensed form, it is proper to state that the Instruments employed are of the best description. The Barometer does not require any correction. The Bulb of the Attached Thermometer is plunged in the Cistern of the Barometer, and indicates the Temperature of the Mercury in the Cistern.

The Outside Thermometer hangs on the South-east side of the Observatory, in the shade, and is screened from solar radiation.

The Wet Bulb Thermometer hangs close to the Outside Thermometer; and the Minimum Thermometer rests close to both.

All the Thermometers are Mercurial, except the Minimum, which is of Spirit.

The Barometer, Attached and Minimum Thermometers are by THOS. JONES; the Outside Thermometer by DOLLOND.

The number opposite to each hour is the mean of the seven observations made at that hour throughout the week.

These hours were chosen after discussing a number of observations made expressly to determine the moments of greatest and least pressure, or diurnal variation.

The advantage of this arrangement is, to those who file this publication, that, by taking the mean of all the numbers for each hour throughout the year, they will have the diurnal variation accurately.

To Captains of Vessels.

The Commanders of Ships and others connected with the Shipping Interest are informed, that a Ball has been erected before the South front of the Observatory, for the purpose of daily communicating to the Ships in the Harbour, the instant of one o'clock Cape mean time, which corresponds to eleven hours, forty-six minutes five seconds, Greenwich mean time. The present contrivance furnishes a convenient method for obtaining this important object, without any calculation or difficulty. All that the Observer has to do is, to point the common ship Spy-glass to the Signal Ball a minute or two before 1 o'clock, and to note the instant of the fall of the Ball from the top of the staff, by Chronometer. Then 11h. 46m. 5s. subtracted from the time by Chronometer, gives the error of the Chronometer, or Greenwich mean time, which, compared with the error obtained at departure, will give the rate during the interval.

Draft of an Ordinance,

Proposed by the Governor of the Colony of the Cape of Good Hope, to the Legislative Council thereof,

For declaring at what stage of the procedure Criminal Actions and Suits shall be deemed to be pending in the Supreme Court and Circuit Courts of the Colony.

WHEREAS doubts may be entertained at what stage of the procedure Criminal Actions or Suits brought in the Supreme Court or Circuit Courts of this Colony, shall in Law be deemed and taken to be pending therein; and it is expedient to remove such doubts: Be it therefore enacted and declared, by the Governor of the Cape of Good Hope, with the Advice and Consent of the Legislative Council thereof, that wherever, and as soon as the Indictment or Information in any Criminal Action or Suit which may, and shall be brought in the Supreme Court or any Circuit Court of the Colony, shall have been duly filed with the Registrar of such Court, such Action or Suit shall become and be deemed and taken to be pending in such Court.

K. B. HAMILTON,
Clerk of the Legislative Council.

Draft of an Ordinance,

Proposed by the Honble. J. B. Ebdon, Esq., to the Legislative Council of the Cape of Good Hope.

For increasing the number of Elders and Deacons, for the Vestry of the Cape Town Dutch Reformed Church, and for their Yearly Election, by the Members of the Community of said Church;—and also for empowering the employment of legal or professional persons before Ecclesiastical Courts of that Church.

WHEREAS the Members of the Dutch Reformed Community in Cape Town, have of late greatly increased in number, and a second Church is being erected by the said Community; and whereas the affairs of that Community have heretofore been administered by a Vestry, consisting of the Clergymen, two Elders, and four Deacons thereof; and whereas it is expedient and necessary, that the number of the Members of the said Vestry in as far as regards the Elders and Deacons be increased, to be duly elected by and from among the Members of the Community of said Church, under proper Regulations for that purpose; and whereas it is also expedient, to empower the Members of the Community of the Dutch Reformed Church within this Colony, to avail themselves of legal and professional assistance, before any of the Ecclesiastical Courts of said Church Community: Be it therefore enacted, by His Excellency the Governor of this Colony, by and with the advice of the Legislative Council thereof, that the affairs of the said Church Community in Cape Town, and of the Funds thereof, shall henceforth be administered by the Vestry, under style of "the Officiating Vestry of the Dutch Reformed Church in Cape Town."

And be it further enacted: That the said Vestry shall consist of the Clergyman or Clergymen, duly elected and appointed for the Pastoral Charge of that Community, together with four Elders and eight Deacons, and that the said Elders and Deacons shall be duly elected by the Members of the said Community, and appointed thereto, in the manner hereinafter mentioned.

And be it further enacted: That on the first Monday of the month of November next, and on the

same day in every year, the said Officiating Vestry shall hold a Meeting in one of the said Churches, at ten o'clock in the forenoon, for the purpose of making a list of Members who shall be proposed to be elected as Elders or Deacons;—and the said Vestry shall, for that purpose, notify the same to the Community of the said Church in Cape Town, by public Advertisement, signed by their Secretary or Acting Secretary, to be and remain affixed during fourteen days before the said Meeting shall be holden, to the doors of each of the said Dutch Reformed Churches of Cape Town, or, during the time of its being erected, to such building or buildings where the usual Divine Service for the said Community shall for the time being be performed.

And be it further enacted: That, at the Meeting aforesaid, a List shall be made containing the name of every person who shall be proposed to be either an Elder or a Deacon, by any Member of the Officiating Vestry, or by any Member of the Community entitled to vote at the election thereof;—Provided however, that if any person be proposed to be an Elder or a Deacon, who shall by the Provisions of this Ordinance not be eligible to be elected as such Elder or Deacon, the name of such person shall be placed on the said List, not amongst the Members eligible, but at the foot thereof, *pro memoria*, stating his ineligibility and the grounds thereof.

And be it further enacted: That the said Lists so made out, and containing the names of the persons proposed for the said different Offices, with a notice at the foot, or on the back thereof, stating the day, hour, and place, where the Meeting for the election of such Elders and Deacons is to take place, shall be signed by the Secretary or Acting Secretary of the said Vestry, by order of the same, and shall be printed, and distributed amongst the Members of the said Community, and every Member of the said Community shall be entitled to a copy thereof;—and the said Vestry shall also cause a Public Notice, signed by the Secretary or Acting Secretary aforesaid, and affixed to the doors of each of the said Dutch Reformed Churches in Cape Town, to be given to the Community of the place where, and the person from whom such lists or copies thereof may be obtained, stating also the time, place, and hour, of the holding of the said Meeting for election as aforesaid;—Provided however, and the said Vestry are hereby ordered, that such Notice be so given, as aforesaid, not less than fourteen days before the holding of such Meeting of Election as aforesaid:—And provided also, that during the time of the erection of the said Churches, such notices, as hereinbefore required, shall be affixed in manner aforesaid, to such building or buildings where the usual Divine Service for the said Community shall for the time being be performed.

And be it further enacted: That on or before the first Monday in the month of December next, and on the same day and month of every succeeding year, the said Officiating Vestry shall, at 9 o'clock in the forenoon, hold an open Meeting, in one of their Churches in Cape Town, convened by due Notice as aforesaid; and there shall be placed two boxes, bearing in eligible characters, the one the word *Elders* and the other the word *Deacons*, and every Member of the Community, entitled to vote at such election, shall be entitled to put, or send to be put, in the box containing the word *Elders*, a paper signed by himself, containing the names of such a number of Elders as are required to be elected, and for whom he votes; and in the same way he shall be entitled to put, or send to be put, a similar paper

in the box upon which the word *Deacons* shall have been written, containing the names of such a number of Deacons as are required to be elected, and for whom he votes;—and the said boxes shall be and remain locked, and the key thereof kept by the person presiding at such Meeting of the Vestry, until at four o'clock, when the said Chairman shall declare the Vestry to have ceased, and proceed to read over, *viva voce*, the names of the Members elected for the Office of Elders, and after that the names of the Members elected for the Office of Deacons; and publicly pronounce the names of those, to the number required to be elected, having the majority of Votes, as duly elected for the said offices, and the names of the Elders and Deacons so elected, shall forthwith be forwarded to the Governor for the time being, for his approval, by the said Officiating Vestry.

And be it further enacted: That in case the Governor for the time being shall approve of those elected as aforesaid, such approval shall be notified to the community; and in case of disapproval of all or any of them, a new election, in manner as hereinbefore directed, shall take place, to fill up the place of those so disapproved.

And be it further enacted: That any Male Member of the Community, registered as such in the Registry of the said Church, being in full Communion with the same, and who at the time of such election shall reside within the Jurisdiction of said Church, and having attained the full age, the Elders of forty and the Deacons of thirty years, shall be, and is hereby declared eligible to be, elected an Elder or Deacon of the said Community: Provided however, that no Person as aforesaid shall be eligible to be elected, or if elected, such election shall be null and void, whose name shall not have been placed and proposed to the Community, on the Lists of the Members proposed as aforesaid.

And be it further enacted: That of the said Elders and Deacons so elected, two Elders and four Deacons who shall have been the longest in office, and whose names shall be published in the Notice hereinbefore directed to be affixed by Sec. 2d and 3d of this Ordinance, shall annually go out of, and vacate their said office, and in their place there shall be elected in manner aforesaid, two Elders and four Deacons: Provided however, that they shall each be re eligible, in manner aforesaid, and not vacate their said office, until a new election shall have taken place, and other Members shall have been duly elected for the said office so by them to be vacated, and approved of by the Governor for the time being: And provided also, that at the Election to be held in December 1838, it shall be decided by Lots, which of the two Elders, and which of the four Deacons, shall go out and vacate their office; and that the same principle of deciding by Lots shall be had recourse to in any case of difference or dispute: And further provided, that at the Election to be held in the month of December next, the Elders and the Deacons, now in office, shall not go out of, or vacate their said office, but shall remain therein until the next ensuing Election to be held, in 1839; and that at the first Election by the provisions of this Ordinance, to be held in December next, two new Elders and four new Deacons shall be elected, in addition to those now in office.

And be it further enacted: That in case of any vacancy occurring in the course of the year, in the said Vestry, of any Elder or Deacon, either by death, resignation, removal from the jurisdiction of the said Vestry, or by excommunication, the places so vacated shall be filled up by election,

in the manner hereinbefore directed; and the Notices for that purpose, as in this Ordinance provided, shall be given within one month from the date of such vacancy being made known to the said Officiating Vestry.

And be it further enacted: That every Male Member of the Community, registered as such in the Registry of the said Church, being in full Communion with the same, having attained the full age of twenty-one years, and who, at the time of election or of voting, shall reside within the Jurisdiction of the said Church or Vestry, shall be entitled to vote at the election aforesaid.

And be it further enacted: That any Member of the Dutch Reformed Community, throughout this Colony, shall be entitled to avail themselves, if they shall so think fit, of any legal or professional assistance before any of the Ecclesiastical Courts of the said Community, whenever they shall appear, or act before the same, either as Plaintiff, Defendant, or Complainant.

And be it further enacted: That the provisions in the 22d and 23d Act of the Provisional Church Order, made, enacted, and published by the Commissary General J. A. de Mist, LL.D. dated 25th of July 1804, in as far as regards the Cape Town Reformed Church, and its Jurisdiction, be repealed, as they are hereby repealed accordingly.

born HENDRIKSE.

Cape Town, 26th July 1837.

For Beautifying the Skin and Complexion.

ROWLAND'S KALYDOR

PREPARED from the most beautiful Exotics, and WARRANTED PERFECTLY INNOCENT, yet possessing properties of surprising energy: it eradicates all CUTANEOUS ERUPTIONS, PIMPLES, SPOTS, REDNESS, &c., transforms even the most SALLOW COMPLEXION into RADIANT WHITENESS, realizing delicate WHITE FACE, NECK, HANDS, and ARMS, and imparting a BEAUTIFUL JUVENILE BLOOM to the COMPLEXION;

successfully render HARSH and ROUGH SKIN, beautifully soft, smooth, and even.

The KALYDOR is equally indispensable in the Nursery as at the Toilet. Perfectly innocuous, it may be used by the most delicate Lady, with the assurance of safety and efficacy.

To MOTHERS NURSING their OFFSPRING, it gives, in all cases of incidental Inflammation, immediate relief; cools the mouth of the Infant, and enhances internal pleasure in the act of administering alimentary nourishment.

To GENTLEMEN, whose faces are tender after Shaving. A great infelicity which attends the operation of shaving, is the irritation of the skin;—many Gentlemen suffer greatly from this cause. Rowland's Kalydor will be found excellent (beyond precedent) in ameliorating and allaying that most unpleasant sensation.

It protects the Skin from the baneful effects occasioned either by intense solar heat or cold winds, and thus to the Traveller, whose avocations expose him to various changes of weather, proves an infallible Specific—a prompt resource; and, as conducing to comfort, a pleasing appendage and invaluable acquisition.

Price 4s. 6d. and 8s. 6d. per Bottle, duty included.

* * To prevent Imposition, the Name and Address of the Proprietors, as under, is ENGRAVED ON THE GOVERNMENT STAMP affixed over the cork of each Bottle. All others are spurious.

TESTIMONIALS.

TO MESSRS. ROWLAND AND SON.

Gentlemen,—I with pleasure acknowledge the singular benefit I have derived from your excellent Kalydor. My face, which has been subject to Inflammation and Eruption for years, is now restored; and my friends (to whom I recommended it) gave it their decided approbation. Please to send six bottles per bearer of this note.

I remain, Gentlemen, your obedient Servant,

Bangor, Sept. 17, 1827.

TO MESSRS. ROWLAND AND SON.

Hambro', March 23, 1833.

Gentlemen,—I am happy to inform you, that the virtue of your Kalydor, has obtained great fame, and that there is scarcely a Lady at Hambro', but which has it at her toilet; it is not only a favourite with the ladies, but is equally beneficial to Gentlemen; and one of our first physicians, sixty years of age, whose face was in a state of continual inflammation so as to render shaving impossible, has been entirely cured. He is much gratified, and recommends it to all families.

I am, Gentlemen, yours, &c.

G. VOSS.

TO MESSRS. ROWLAND AND SON.

Theatre of Zoology, 8, Gower Place,

London University.

Gentlemen,—Having recently recovered from an almost fatal illness, arising from the effects of morbid poison being imbibed by a wound I received in dissection last November, I have, in consequence of the extreme tenderness of my skin, used your Kalydor, and consequently can bear testimony of its good effects; also in several cases of cutaneous defect.

June 7, 1832.

I remain, your's obediently,

H. W. Dewhurst, Surgeon.

Sold by the Proprietors' appointment by A. S. ROBERTSON, Cape of Good Hope, and Messrs. LEVICK, SON, and SHERMAN.

WHEAT AND FLOUR IN PARIS AND LONDON, COMPARED.

WHEAT.—The highest price of the best Wheat in Paris is 24f. per 14 hectolitre, which is equal to 36s. 9d. per English quarter. The highest price of the best Essex and Kent Wheat in London being 67s. per quarter, the difference is 30s. 3d. per quarter dearer in London than in Paris, or 82½ per cent and the same money which in London buys but eight bushels of Wheat, is in Paris the value of upwards of fourteen and a half bushels of the finest quality.

FLOUR.—The highest price of flour of the "first mark" in Paris is 48 francs per 159 kilo-rammes, corresponding with 3s. 3d. per English sack of 280 lbs. The highest price of the best "town made" flour in London is 55s. per sack, showing fine Flour to be 24s. 9d. per sack dearer in London than in Paris, or 81½ per cent; and that the 55s. which in London can procure but 280 lbs., will in Paris purchase 509 9-10ths lbs. of the finest Flour.—*London Paper.*

OBSERVATIONS ON THE CLIMATE OF THE CAPE.

The mean temperature of Cape Town, inferred from a meteorological journal kept here for several years, is 63½ Fahrenheit. The mean temperature of the coldest month is, perhaps, 57°; hottest 79°; mean of three recent winters, 58°; of three summer months, 77°; least heat during summer, 63°.

The temperature of the district of Stellenbosch, deduced from the observations of a single twelvemonth, is 66½°; extremes, 87° and 50°. The temperature of Zwartland, appears to be 66½°; extremes 80° and 51°. The exposure of the thermometers is at neither place external; they are suspended in spacious well-aired halls.

At Tulbagh, situated in a valley of the great chain of mountains which divides the western from the eastern provinces of the colony, the mean temperature of the year is 65½°, that of the coldest month 55½°, of the hottest 80½°; extremes 95° and 32°; mean of the three winter months, 56½°; of three summer months, 79°; least heat in summer, 61°.

In this colony, as in the south of Europe, and most of the warm climates of a temperate zone, the wind commonly blows cold in summer, while the sun shines powerfully. It is this circumstance which distinguishes a warm from a hot climate. Parched wind and frequent summer calms equally make a hot climate.

At the foot of our mountains, and within the verge of their influence, the heat of the atmosphere over the valleys and the plain is mitigated by a cool wind descending from the mountain's side, and the coldness of the blast is tempered by the reflected heat of the earth's surface. Hence a moderate temperature where the wind has free passage, is the result in summer, at the Cape.

Respecting the hygrometric condition of the atmosphere the following are desultory observations on the summer months. Dryness, in the morning before sunrise, is ordinarily from 6 to 7 deg., the utmost 12 deg., the least 3 deg., which for a mean temperature of 77 deg., answer to about 17 to 23 centesimals, 30, and 39, respectively. The atmospheric dryness usually augments as the day advances: for, while the temperature rises towards noon, the point at which the hygrometric thermometer becomes stationary, remains more nearly uniform. Mean dryness in the morning, 7 deg.; at noon, 14 deg. These observations were made at inland situations, and the minimum of humidity actually noticed has probably not amounted to a fourth of the atmosphere's real capacity for moisture.

During the warm season, although the south-east monsoon predominates, westerly winds are not infrequent: they are always moist. When south-easterly winds blow, they bring from the shallow sea, over La Guila's bank, humidity, which is condensed upon the summits of the mountains. It is seen rolling down the western cliffs in volumes of thick vapor; and the elevation at which this is dissipated, as it descends, answers precisely to the hygrometric state of the air.

Were marks noted upon the precipitous sides of Table Mountain, at intervals of 60 yards in perpendicular height from the base, the number of such divisions below the cloud, familiarly termed the *Table-cloth*, would correspond [with the

degrees of dryness exhibited by the hygrometer; for temperature decreases with ascent of heights, about 1 deg. of Fahrenheit's scale, for every 90 yards of elevation. This will be made plain by citing an instance:—Thus, on the 11th January at Cape Town; temperature, 70° hyg. therm. 53°; a cloud hanging over Table Mountain, not touching it, but just elevated about the summit; the height of Table Mountain trigonometrically measured, is 1,194 yards; difference of temperature according to theory 13½°; degrees of dryness observed, 13.

So on 15th January, at the foot of Table Mountain, temperature in the shade during the whole (6 a.m. to 4½ p.m.) 70 to 71 deg. hyg. therm. 58 deg.; and south-east, strong breeze, cloud on Table Mountain.

Noon, at an elevated station, upon the acclivity, above the highest inhabited spot, temperature in wind and sunshine 68 deg.; hyg. therm. 53 deg. At a station still more elevated above the highest plantations of the silver-tree (*protea argentea*) temperature, in ventilated sunshine, 68 deg.; hyg. therm. 58½ degrees.

The wind blowing in puffs and gusts, the temperature is depressed 2° to 1°, when strong gusts blow.

A dense white cloud on the back of the mountain, receiving evidently continued accession. The vapour passing over the summit, and scarcely descending, a little down the cliff, seeming to curl laterally and vertically, and pause while vanishing as it quits the mountain. Sometimes a very small fleece; often more considerable and dense.

A small detached cloud shows itself here and there, remains awhile, and then gradually vanishes; one over the signal-post on the Lion, another in front of Camp's Bay, another again in the distance over Tygerberg, all apparently on the same level with the cloud hanging on Table Mountain.

A mountain being colder than the plain below, condenses and renders visible the passing vapor, when ever the dryness of the wind is less than the difference of temperature between its summit and base. Owing to radiation, the influence of the mountain's summit extends to a column of air over it, and a cloud at rest is accordingly often seen suspended high above.

The heat of the plain has a like influence on the atmosphere over it, and effects the temperature immediately above. The vapor then, as it quits the mountain, passes into a warmer region, where it is dissolved, and which thus it traverses, transparent and invisible, to be again condensed, and made apparent on approaching another mountain.

This is the simple explanation of the appearances which are so conspicuous during the continuance of a south-east wind at the Cape. Volumes of vapor are seen rolling over the summits and down the sides of Hanglip, Hottentot's Holland, and the rest of the chain of high mountains. Above the valleys, and over the isthmus, scarcely a passing cloud is seen. But the vapor is thickly condensed on the peninsular group of mountains, rolls over their summits, descends to a certain distance down the cliffs, and is dissipated and becomes transparent as it passes onwards.

The wind fed by cold and damp, descending from the mountains, blows with tempestuous violence. But it is partial, and extends to no great distance from the shore. It is the boisterous rush of colder air, to replace warmer in a fervent atmosphere, over an intensely heated land. On the windward brow of a mountain the breeze is moderate; on the lee side the blast is strong; at sea, a mile from the shore, there is calm.

In fact, both the south-east and westerly winds, are, to the promontory terminating South Africa, sea breezes, and the south-east wind has not parted with that character in a short and rapid passage across that promontory. The parched earth cannot but be refreshed by the passage of such humid air over it. Its heat is mitigated, or that of the atmosphere above it is so, by cool breezes, which descend from high mountains, bringing moisture recently drawn off the sea.

Dr. Arnott, in his "Elements of Physics, or Natural Philosophy," thus accounts for the singular beauty and density of the clouds which frequently envelope Table Mountain. "The reason of the phenomenon is, that the air constituting the wind from the south-east having passed over the vast southern ocean, comes charged with as much invisible moisture as the temperature can sustain. In rising up the side of the mountain it is rising in the atmosphere, and is therefore gradually escaping from a part of the former pressure; and on attaining the summit, it has dilated so much and has consequently become so much colder, that it lets go part of its moisture. And it no sooner falls over the edge of the mountain, and again descends in the atmosphere to where it is pressed, and condensed and heated as before than it is re-dissolved and disappears, the magnificent apparition dwelling only on the mountain top."

"I use by way of hygrometer, a common thermometer, of which the scale is detached from the bulb, upon wetting the bulb with water, and exposing it wet to the air, the consequent evaporation of moisture from its surface lowers the temperature more or less, according to the dryness of the air."—(H. T. Colebrooke, Esq.)

Sky overcast and gloomy on Sunday and part of Monday. Heavy showers in the night of Monday. The rest of the week serene and pleasant. Wind from N. W. quarter on Sunday and Monday. Gentle air from the South on the remaining days. Mean quantity of clear blue sky throughout the week = six-tenths. A great number of Meteors or Shooting Stars in the night of Wednesday.

NOTE.—As it is intended to continue the publication weekly in the "GAZETTE & TRADE LIST" of the indications of the Barometer and Thermometer in the above condensed form, it is proper to state that the Instruments employed are of the best description. The Barometer does not require any correction. The Bulb of the Attached Thermometer is plunged in the Cistern of the Barometer, and indicates the Temperature of the Mercury in the Cistern.

The Outside Thermometer hangs on the South-east side of the Observatory, in the shade, and is screened from solar radiation.

The Wet Bulb Thermometer hangs close to the Outside Thermometer; and the Minimum Thermometer rests close to both.

All the Thermometers are Mercurial, except the Minimum, which is of Spirit.

The Barometer, Attached and Minimum Thermometers are by THOS. JONES; the Outside Thermometer by DOLLOND.

The number opposite to each hour is the mean of the seven observations made at that hour throughout the week.

These hours were chosen after discussing a number of observations made expressly to determine the moments of greatest and least pressure, or diurnal variation.

The advantage of this arrangement is, to those who file this publication, that, by taking the mean of all the numbers for each hour throughout the year, they will have the diurnal variation accurately.

To Captains of Vessels.

The Commanders of Ships and others connected with the Shipping Interest are informed, that a Ball has been erected before the South front of the Observatory, for the purpose of daily communicating to the Ships in the Harbour, the instant of one o'clock Cape mean time, which corresponds to eleven hours, forty-six minutes, five seconds, Greenwich mean time.

The present contrivance furnishes a convenient method for obtaining this important object, without any calculation or difficulty. All that the Observer has to do is, to point the common ship Spy-glass to the Signal Ball a minute or two before 1 o'clock, and to note the instant of the fall of the Ball from the top of the staff, by the Chronometer. Then 11h. 46m. 5s. subtracted from the time of the Chronometer, gives the error of the Chronometer, or Greenwich mean time, which, compared with the error obtained at departure, will give the rate during the interval.

FRIDAY, AUGUST 11, 1837.

AT THE COURT AT BRIGHTON,
The 30th of November 1836.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY,
LORD CHANCELLOR, LORD DENMAN,
LORD PRESIDENT, LORD GLENELG,
LORD CHAMBERLAIN, SIR JOHN HOBHOUSE, Bt.
EARL OF MINTO, MR. CHANCELLOR OF
LORD JOHN RUSSELL, THE EXCHEQUER.
VISCOUNT PALMERSTON,

WHEREAS by Letters Patent under the Great Seal of Great Britain, bearing date at Westminster the 22nd day of September 1832, His Majesty was graciously pleased to grant unto JOHN HOWARD KYAN therein described, his Executors, Administrators, and Assigns, for a term of fourteen years, the sole benefit and advantage of his invention of "an improved mode of preserving paper, canvass, cloth, and cordage for ships and other uses, and the raw materials of hemp, flax, or cotton, from which the same may wholly or in part be made," as well within that part of His Majesty's United Kingdom of Great Britain and Ireland, called England, as also in all His Majesty's Colonies and Plantations abroad. And whereas by Letters Patent under the Great Seal of Great Britain, bearing date at Westminster the 11th day of February 1836, His Majesty was also graciously pleased to grant unto the said JOHN HOWARD KYAN his executors, administrators, and assigns, for a term of fourteen years, the sole benefit and advantage of his invention of "a new mode of preserving certain Vegetable substances from decay, within all His Majesty's Colonies and Plantations abroad." And whereas Specifications of the aforesaid Inventions and of the manner in which the same are to be performed were duly enrolled pursuant to the provisos for that purpose in the said Letters Patent severally contained; And whereas under and by virtue of an Act of Parliament, made and passed in the last Session of Parliament intituled, "An Act to enable JOHN HOWARD KYAN to assign to a Company certain Letters Patent," and of an Indenture of Assignment made pursuant thereto, the aforesaid Letters Patent and all rights, privileges, and advantages thereby granted have been assigned to the Anti Dry Rot Company; And whereas the said Anti Dry Rot Company liath, by a Memorial addressed to His Majesty in Council, humbly represented that the said Anti Dry Rot Company are now at very considerable expense, proceeding to bring into use the said invention greatly to the benefit of the public, and that although the aforesaid Letters Patent of themselves severally extend to all his Majesty's Colonies and Plantations abroad, it is convenient, and as regards some Colonies, conformable to usage, for the more effectual maintenance of the right thereby granted, that the said Letters Patent or certified Copies thereof should be respectively enrolled in the proper Offices of Registry in His Majesty's several Colonies and Plantations abroad. And therefore praying that his Majesty would be pleased to make an Order in Council for the enrolment of the said Letters Patent and of the Specification thereof respectively or of certified Copies thereof within His Majesty's Colonies and Plantations abroad respectively. His Majesty is therefore pleased by and with the advice of His Privy Council to order and it is hereby Ordered That if the said Anti Dry Rot Company, shall deposit or cause to be deposited in the Office of the Colonial Secretary, or in the Office for the registration of Deeds within each of the several Colonies to which the Legislative authority of His Majesty in Council extends; true and perfect Copies of the said Letters Patent, and Specification, and if to such Copies so

deposited, there shall be annexed the Affidavit or Affidavits of one or more credible Witness or Witnesses to be sworn before the Colonial Secretary or Registrar of Deeds with whom the same may be deposited to the effect of such Witness or Witnesses having diligently compared such Copies with the Original Letters Patent and Specification, and found the same to be true perfect and exact Copies thereof in every respect (which Oath such Colonial Secretary or Registrar of Deeds is hereby authorized to administer) then and in that case each and every Copy of the said Letters Patent, and Specification respectively, with the said Affidavit, or Affidavits annexed shall within the Colony in which the same shall be so deposited be, and be deemed, taken, and reputed to be to all intents and purposes as valid and effectual as the original of the said Letters Patent or Specification, if there exhibited and produced could or might be. And it is hereby further Ordered that in all Courts and before all Judges, Justices, and others whom it may concern in all those Colonies to which the Legislative Authority of His Majesty in Council extends, whenever and so often as it may be necessary to make proof of the said Letters Patent or Specification, it shall be competent for the Anti Dry Rot Company and their assigns, to produce and give in Evidence such Copies thereof, as shall be deposited as aforesaid in the Office of the Colonial Secretary or Registrar of Deeds of the respective Colonies.

And the Right Honorable Lord GLENELG one of His Majesty's Principal Secretaries of State is to give the necessary directions herein accordingly.

C. C. GREVILLE.

I hereby Certify that the above is a true Copy of the Original Order.

J. B. LENNARD.

GOVERNMENT MINUTE.

WHEREAS it has been reported to Government, that certain rumors are current in the Districts of Worcester, Clanwilliam, and Beaufort, that it is intended, at the ensuing Opguaf, to charge the Inhabitants with a Tax of one-tenth of the estimated value of all their Property—that their Quitrent Grants are to be cancelled, and that the services of the Apprenticed Laborers will be enforced for ten years after the termination of their Indentures; together with other rumors equally absurd and unfounded; His Excellency the Governor desires to caution the Inhabitants, to beware how they put trust in reports of this nature, which are merely the inventions of Persons either inconceivably ignorant, or grossly mischievous, and desirous of reaping, in some way or other, an advantage from the credulity of their fellow Colonists.

His Excellency further calls, not only on every Public Officer or other Person connected with Government, but on every unprejudiced and rational Inhabitant of this Colony, to contradict in the most explicit manner, every syllable of the reports in question, which, if allowed to pass current, cannot fail to be attended with the most disastrous results to those who are weak enough to believe in them.

2. And be it further enacted, That the said Municipality shall be divided into Fifty Wards, and hereinafter provided, shall be appointed to represent and superintend the affairs of each of the said Wards respectively, and that the whole of the said Wardmasters shall form a Board according to the Provisions of this Ordinance, and the Regulations to be made in virtue thereof.

3. And be it further enacted, That within eight days after the passing of this Ordinance, the Resident Magistrate of Cape Town, or Officer at the time acting as such, shall call a Meeting of Householders residing within the said Municipality, to be holden within seven days thereafter, at the Town House, in order to elect and appoint a Committee of so many of such Resident Householders, qualified in manner hereinafter in the 61st Sec. of this Ordinance provided, as the said Meeting shall deem expedient to draw up Regulations to be adopted for the said Municipality.

6. And be it further enacted, That it shall be the duty of such Committee to draw out a list of all such Persons, who, according to the qualification hereinafter provided in the 11th Sec. of this Ordinance, shall be eligible to be elected as Commis-

such money to be levied by distress and sale of the goods and chattels of such officer, and if no goods and chattels of such officer shall be found sufficient to answer and satisfy the said money, and the charges of distraining and selling the said goods and chattels, or if it shall appear to such Court or Judge that such officer had refused or wilfully neglected to render and give such account, or to produce the vouchers relating thereto, or that any books, papers, or writings, relating to the execution of this Ordinance, remained in the hands or in the custody or power of such officer, and he refused or wilfully neglected to deliver or give satisfaction respecting the same as aforesaid, then and in every such case such Court or Judge shall, and they or he are or is hereby required to commit such offender to the common gaol or house of correction within the Municipality, there to remain without bail until he shall have given a true and perfect account as aforesaid, or until he shall have paid such monies as aforesaid, and until he shall have delivered up such books, papers, and writings, or give satisfaction in respect thereof, to the said Commissioners, or to such other person or persons as aforesaid, or until such other or further time as the said Court or Judge shall direct, provided that nothing herein contained shall prevent such Treasurer, officer, or other person, from being tried, and if found guilty, convicted and sentenced according to Law, for any crime or offence which he may have committed relative to any matter or thing intrusted to him under the provisions of this Ordinance; and provided further, that nothing herein contained shall prevent the Commissioners for the said Municipality, from bringing their action for the recovery of any sum or sums due by such Treasurer, officer, or other person, to the said Municipality.

33. And be it further enacted, That no prosecution or commitment under the provisions of this Ordinance, of any Treasurer or other officer, or person, to be appointed under the powers of this Ordinance, shall acquit and discharge any surety or security that shall or may have been taken by, or given to, the Commissioners for the due and faithful execution of his or their office, or the payment of the monies received or to be received by him or them respectively.

34. 36. And be it further enacted, That in the month of September, in every year, a true account shall be made in writing, of all monies received and paid by virtue of this Ordinance, during the preceding year, ending on the thirty-first day of August in every year; and a copy or duplicate of such account, verified on oath before any Justice of the Peace, by the said Treasurer, and certified by the Chairman and two of the said Commissioners, shall be deposited with the said Commissioners, and shall be open to the inspection of any resident householders, or any party interested, and an abstract thereof published in the *Government Gazette* for general information, before the fifteenth day of the said month of September.

39. And be it further enacted, That it shall and may be lawful for the Commissioners appointed under and by virtue of this Ordinance, to assess a rate upon the inhabitants residing within the said Municipality, whenever the same shall be necessary, to carry into effect the objects by the provisions of this Ordinance entrusted to them, and which rate shall be assessed either upon the persons or property of the persons residing within the said Municipality, and that when the same shall be assessed upon the property of such persons, such rate shall be assessed proportionally upon each of the said inhabitants respectively, according to the value of the real property possessed by each respectively, as the same shall have been fixed and ascertained by two competent and impartial persons, as appraisers, to be nominated and appointed by the said Commissioners, and who shall, previous to such appraisal, take the oath set forth in the schedule hereunto annexed, before the Resident Magistrate for Cape Town, and which shall be filed with the Records of the said Commissioners; and after such rate or assessment shall have been approved of by a meeting of wardmasters, and have been published, and not disapproved of by any general meeting of householders, in the same manner as severally in the 37th and 38th sections of this Ordinance, with regard to the confirmation of the Yearly Accounts and Estimate directed, such rate or assessment shall stand confirmed, and be binding upon all and every person residing within the Municipality, to all intents and purposes, and the Commissioners may proceed to levy the same.

Since our last, there have been several arrivals from England, up to the 18th of May (see the "Shipping-List.") There are no political news of moment.

The Commercial and Monetary affairs of the country were in a pitiable state of depression. Confidence had received a shock, owing to the many heavy failures of old and respectable firms. The prices of Manufactured Goods had not however, fallen nearly so low as many anticipated. On Cotton; Silk, Indigo, and foreign raw Produce of almost every kind, the losses were very great, and further reductions were expected.

The following reasons are advanced, in a very intelligent publication, "The Bankers' Circular," for the belief that a re-action had taken place, or would soon do so, in respect to buying and selling goods for exportation. The reader will also find some extracts from recent Papers, on commercial matters, worthy of attentive perusal:—

"We decidedly think that the extreme point of pressure, as far as stagnation in buying and selling is concerned, has been endured in the last three weeks; and our reasons for this opinion are partly founded on some facts, with an advertence to which we shall conclude.

"1st, Gold is certainly flowing in, not rapidly, but with such force as to leave the Bank at liberty to grant relief, if it should be required. 2nd, Money is far from being scarce in London; and it will probably every succeeding week for some time become more plentiful. 3rd, A large sum of Government money would be distributed by one or more of the American banks on the 1st of April; a smaller amount became payable in January last, and it probably then operated as a stimulation to prices, and gave confidence to merchants; the larger sum will now effect signal relief from pressure and distress.

"To these causes, and as a symptom of their salutary operation we may add a fact or two which appear to us of pregnant import. One of the oldest and most extensive warehousemen in the City of London has this week sold more goods to staple circumspect customers than they have sold in any week since the 1st of September last: another, whose business is of the same character as those of Leaf and Co. and James Morrison and Co., sold more goods on one day in the present week than they ever sold in a single day in their lives. We cannot desire to raise unreasonable expectations, but circumstances of this nature—looking at the parties—appear to us to justify the resumption of confidence in better times."

COMMERCIAL RETROSPECT, MAY 1.

The Money Market has been considerably tranquillized by the arrival of £500,000 of United States Bank and other American Bonds. This paper as a novelty in our market has excited much attention, and has been the subject of much conversation. The Bonds are drawn at twelve months date, and are payable at London, Amsterdam and Paris. The United States' Bank Bonds bear no interest—those of other American banks bear interest at 6 per cent. These bonds have secured considerable investment of capital in them; those of the United States' Bank, which it must be remembered bear no interest, have been done at 94 to 94½ for the £100 bond—those of the banks, bearing interest at 6 per cent. have been done at 98. There have been conflict opinions in circulation as to the ultimate effect of the introduction of such paper here; but whatever difference of sentiment may obtain on this point, there can be but one as to the effect already produced by that introduction. These bonds have tranquillized the minds of numbers, and have banished a considerable portion of that increased distrust, perplexity and alarm, which previously filled the Money Market. Nor is this surprising, when it is considered that they will be issued if necessary to the extent of 10,000,000 of dollars.

Nobody appears to have the slightest doubt of the solidity of the United States' Bank; indeed, the commercial and

monetary character of the United States is one of solidity; as such it is generally esteemed; and in fact this is the principal feature of the United States in every thing. That country is one of vast capabilities and great promise, and every year it is rapidly progressing in every thing that must ultimately make it a great nation. It is the most formidable rival with which this country has to contend, and it will require a constant and vigorous exercise of all the immense resources and experience which this country possesses, to prevent the United States from occupying our position in the scale of nations.

Since the arrival of these bonds at Liverpool a marked improvement has taken place in matters there—the accounts are better from the north, although there have been some heavy failures—and Cotton has advanced in the Liverpool market in the face of very large imports. The advances also from the Manufacturing Districts come better, and the face of things has evinced a change for the better. There has been no perceptible difference in the amount of money in circulation here, and the discount houses have done nothing under 4½ to 5 per cent.

According to official returns, the number of notes issued between the 31st December, 1836, and the 1st of April, 1837, was, by Private Banks £7,275,784 and by Joint Stock Banks £3,755,279.

The accounts from Bombay and Calcutta shew that there is considerable desire manifested for the establishment of steam communication with this country. With us it is deeply to be regretted, that the greatest apparent indifference prevails in government and the legislature towards this nationally important matter.

The United States Bank paper has been 94 to-day. The quotations of English Securities have varied little from previous quotations—Consols 90½, and but little doing in them. Spanish Bonds are rather better, being 22½, and Portuguese five per cents 46½.

There is a great scarcity of money for discounts on all Bills except those of the very first description; for these there is plenty, and the Bill Brokers by circulars have invited such business—no discounts under 4½ per cent.

Canton papers to the 8th of January, have arrived. Trade in manufactured goods was very dull, and the markets were overstocked. Fine Silks and Teas were in demand. The East India Company's agents made advances on the hypothecation of goods, and this was to continue until 31st of January.

MANCHESTER.—It is a very long time since we have heard such general and gratifying admissions of an improvement in the state of trade as we had the satisfaction of meeting with last week. The greater firmness in the cotton market experienced at Liverpool with the tranquillizing nature of the accounts from America, produced their full effect here. Nor did the improvement appear to be confined to one department; it was equally manifest in yarns, in the enquiry for grey cloth, and for finished goods. Country and London buyers of the latter in considerable numbers were in the market, and there appeared a full conviction on all hands that prices are certain not to go lower, and that therefore nothing was to be gained by deferring the purchase of goods which are really wanted. We were glad to hear that the silk trade also, which has perhaps been more depressed than the cotton manufacture, fully participates in the improvement.—May 2.

SUGAR.—MAURITIUS.—This description participates in the dullness of the British Plantation market, and at the public sales, which have comprised 13945 bags, a further reduction of 1s to 1s 6d per cwt took place on the good and fine sorts, and full 2s per cwt on the low yellow and soft brown qualities; fine grey sold at 62s to 63s, good grocery at 59s 6d to 61s, low and middling ditto 54s to 56s, good strong brown for the pan at 51s to 53s 6d, and low brown for refining at 47s to 50s per cwt.

COFFEE.—The British Plantation market remains in a very inactive state; scarcely any good clean qualities are to be met with owing to their comparative scarcity with other kinds, such sorts command former rates; whilst the inferior and ocean descriptions are still almost neglected by the trade, they refusing to purchase them except at lower rates. The public sales have offered about 408 casks, and 411 bags of Demerara and Berbice, nearly the whole of which was unclean, and bought in at 80s to 84s for middling Berbice, at 67s for fine ordinary fovy, and at 83s for middling Demerara: the few lots of clean Coffee sold at 87s 6d to 94s 6d for fine fine ordinary to middling Berbice, and middling colony Demerara at 94s per cwt. There has been very little business done privately in East India descriptions for home consumption in consequence of the large public sales of Ceylon, comprising 3805 bags admissible at the 6d duty, almost all of which were disposed of at a decline of 4s to 5s per cwt, fine ordinary greenish at 68s to 69s 6d, and good ordinary at 64s 6d to 66s 6d per cwt. Mocha has not been in much request, and the few transactions are at previous prices. All shipping qualities of East India continue almost without enquiry, and in the value no alteration can be quoted.—The Foreign market has been exceedingly flat; and at the public sales on Friday there was little spirit; that which sold, however, brought former prices. 222 bags Havannah all sold at 40s to 41s, for ordinary and good ordinary palish; 401 bags Brazil were almost all bought in at 42s to 44s for ordinary and good ordinary, a few lots colony sold at the latter price—the private business is quite insignificant at former prices.

RICE.—There has been but little business done in East India. Bengal is very heavy of sale in consequence of a large quantity being announced for public auction next week, and prices if anything are a trifle lower; whilst for Java full prices are demanded, and rather more enquiry exists. Carolina continues to find buyers for consumption at late prices; and for export some small parcels have again been sold at 21s 6d per cwt.

TEA.—Considering the gloomy appearances at the commencement of the Free Trade sales prices have been better supported, and a larger quantity of Tea has found buyers than was generally expected—in low Congous and common Twankays there is a slight depreciation—but, so slight, as scarcely to cause an alteration in the quotations;—nearly one half the Tea that has yet passed auction has been sold: the sales are expected to close on Thursday next.

SILK.—There is rather more demand for China and low Bengals as well as Italian Thrown Silk, and although no improvement can be quoted in the value, the late prices are more easily obtained.

WOOL.—In the English Wool trade there continues an evident desire on the part of buyers to make purchases, but it is at a reduction. Some few sales have been made at the reduced quotations. The farmers are yet too high in their prices for staplers to increase their stocks, which operates considerably, as they cannot replace to any extent. The business done in Foreign kinds has been very limited at about previous prices. There have been some arrivals from New South Wales and Van Diemen's Land.

Strongest wind throughout the week on the 30th = ½ of a gale. Gentle breezes from the N. W. quarter, every day, excepting the evening of the 3d and the morning of the 6th, when it blew from the South.

NOTE.—As it is intended to continue the publication weekly in the "GAZETTE & TRADE LIST" of the indications of the Barometer and Thermometer in the above condensed form, it is proper to state that the Instruments employed are of the best description. The Barometer does not require any correction. The Bulb of the Attached Thermometer is plunged in the Cistern of the Barometer, and indicates the Temperature of the Mercury in the Cistern.

The Outside Thermometer hangs on the South-east side of the Observatory, in the shade, and is screened from solar radiation.

The Wet Bulb Thermometer hangs close to the Outside Thermometer; and the Minimum Thermometer rests close to both.

All the Thermometers are Mercurial, except the Minimum, which is of Spirit.

The Barometer, Attached and Minimum Thermometers are by THOS. JONES; the Outside Thermometer by DOLLOND.

The number opposite to each hour is the mean of the seven observations made at that hour throughout the week.

These hours were chosen after discussing a number of observations made expressly to determine the moments of greatest and least pressure, or diurnal variation.

The advantage of this arrangement is, to those who file this publication, that, by taking the mean of all the numbers for each hour throughout the year, they will have the diurnal variation accurately.

To Captains of Vessels.

The Commanders of Ships and others connected with the Shipping Interest are informed, that a Ball has been erected before the South front of the Observatory, for the purpose of daily communicating to the Ships in the Harbour, the instant of one o'clock Cape mean time, which corresponds to eleven hours, forty-six minutes, five seconds, Greenwich mean time.

The present contrivance furnishes a convenient method for obtaining this important object, without any calculation or difficulty. All that the Observer has to do is, to point the common ship Spy-glass to the Signal Ball a minute or two before 1 o'clock, and to note the instant of the fall of the Ball from the top of the staff, by Chronometer. Then 11h 46m. 5s. subtracted from the time by Chronometer, gives the error of the Chronometer, or Greenwich mean time, which, compared with the error obtained at departure, will give the rate during the interval.

ANTI DRY-ROT COMPANY, (KYAN'S PATENT.)

Constituted and Empowered by Act of Parliament.

The COMPANY prepare TIMBER, CANVASS, and CORDAGE, at the following STATIONS in LONDON:

Principal Station,—South Dock, West India Docks.

Branch Stations,—Grosvenor Basin, Pimlico.

City-Road Basin.

Surry Canal Dock, Rotherhithe.

The Company, for the convenience of the SHIPPING INTEREST, have FLOATING TANKS, which can be sent to any Ship-Builder's Yard in the River Thames.

THE indisputable Testimonials given by men of the first talent and experience in the kingdom, as to the perfect reliance that may be placed upon KYAN'S PROCESS of PREPARING TIMBER to resist the effect of DRY ROT, and other decay, are so entirely satisfactory as to require no further remark.

The efficacy of the Process is sufficiently established by the Evidence contained in the Report to the Lords of the Admiralty, and subsequently presented to, and printed by, the House of Commons; and likewise by the adoption of it by His Majesty's Government in Portsmouth Dock Yard.

The Process is of the utmost importance to a Maritime and Commercial Country like Great Britain, for it is a certain Preventive of those destructive Ravages from Dry Rot—and consequent enormous Loss of Capital to the Ship-owner—which have hitherto prevailed in Vessels of every description; and to the Shipping Interest the Process is doubly valuable, for, as is clearly proved, it prevents Mildew and Decay in Canvass as well as in Timber.

By the use of this Process, British American Timber will be rendered equally as valuable as Timber from the Baltic; and thus the produce of British Colonies will be encouraged in preference to Timber of Foreign growth.

It is found that Timber cut down while in a state of active vegetation, with the leaf growing, becomes, by the application of this Process, immediately fit for use;—thus rendering every species of Domestic Timber of the same value and as available as the best Foreign, for all purposes incidental to Farming and Husbandry;—and, by the use of the most common Woods, economy will be combined with durability, and the Agricultural and Mining Interest will derive most incalculable advantages.

Purposes for which the prepared Timber, &c. is available:—

BUILDINGS IN GENERAL.

Posts, Rails, Gates, Fences, Park Palings, Hop-Poles, &c.

For these purposes any kind of timber may now be used instead of the more expensive kinds. It will also supersede, in many cases, the employment of iron, from its acquired durability and greater economy.

PREPARED CANVASS, CALICO, ROPES,

Sails, Hammocks, &c. Rick Cloths, Tarpaulings, Tents, Sacks, Bags, Awnings and Cloth Blinds, Fishing-Nets, &c.

Application to be made to the Secretary, Mr. W. TOMPSON, Agent to the Company, 14, Burg-street, Cape Town.
